

The Federal-Provincial Relations Office

The Federal-Provincial Relations Office was established in 1975 by "An Act Respecting the Office of the Secretary to the Cabinet for Federal-Provincial Relations and Respecting the Clerk of the Privy Council". The unit had previously functioned as the Federal-Provincial Relations Secretariat in the Privy Council Office. It is headed by the Secretary to the Cabinet for Federal-Provincial Relations who, supported by two Deputy Secretaries, reports directly to the Prime Minister.

The FPRO has five principal components: a secretariat responsible for liaison with the provinces, a secretariat responsible for policy development, two additional secretariats dealing with economic and social policy and programs, and an Office of Aboriginal Constitutional Affairs.

The functions of the FPRO are to advise and assist the Prime Minister in his overall responsibility for federal-provincial relations, to provide the Cabinet with assistance in examining federal-provincial issues of current and long-term concern and to promote and facilitate federal-provincial cooperation and consultation. The FPRO also provides assistance to federal Ministers, departments and agencies in the conduct of their relations with provincial governments.

Foreword

The 1984-85 edition of the descriptive inventory of federal-provincial programs and activities is now available to those involved or interested in federal-provincial relations.

This inventory, first published in 1974, provides the most current information and statistics on shared-cost programs and projects involving joint federal and provincial administration.

You will notice that an estimated amount of \$25.8 billion in federal transfers in the form of cash and tax points will be made to the provinces and municipalities during fiscal year 1984-85 as compared to \$23.3 billion for 1983-84.

I should like to acknowledge the continued support and assistance of Deputy Ministers, Heads of Crown corporations and agencies and their staff in the compilation of the information contained in this publication.

I believe this publication will continue to be of assistance to legislators, employees from all levels and sectors of government, researchers, journalists and the general public.

Gérard Veilleux
Secretary to the Cabinet
for Federal-Provincial Relations
and Deputy Clerk of the
Privy Council

ANNEX — LIST OF THE VARIOUS FEDERAL-PROVINCIAL AGREEMENTS CATEGORIZED ACCORDING TO TYPE OF PROGRAM OR ACTIVITY	299

Introduction

This volume is intended to provide a descriptive inventory of federal-provincial programs and activities which were in effect during the fiscal year 1984-1985. Basic information is given on each program and activity, along with the source within the federal government from which more detailed information can be obtained.

The programs and activities in this inventory are arranged according to the responsibilities of the federal ministers concerned, therefore a general knowledge of federal, provincial and municipal responsibilities would be an asset when looking for a particular program or area of interest. Appearing in the Annex on page 299 is a list of the entries in this inventory classified according to the type of program or activity.

For the purpose of this inventory the term "programs and activities" comprises the major shared-cost programs, along with other significant undertakings involving joint federal-provincial administration and/or carried out under the aegis of a more or less formal intergovernmental agreement. Most of the programs and activities listed entail a transfer of funds between the federal government and another government: some involve other kinds of financial compensation such as loan guarantees, preferential prices, transfer of property, etc.; under others, each government pays its share direct to contractors. Entries of the last type are limited, since industrial development incentives given by governments individually to private firms directly have been excluded. Such incentives and assistance are already described in other publications of the Government of Canada.

The information contained in this inventory is, of course, for ready reference only. Further information on the various programs and activities, and on possible commitments that the federal departments and agencies may be in a position to enter into thereunder, should be obtained directly from the departments and agencies concerned.

Suggestions and comments from users of this volume which would assist the Federal-Provincial Relations Office to improve future editions would be gratefully received.

Suggestions and comments should be forwarded to:

** Distribution not available.

Note: The figures presented above are the basis of the Main Estimates for 1984-85. They may differ from figures presented elsewhere in this document which are based, in many cases, on revisions arising out of changed economic conditions since the time the Main Estimates were prepared.

**INDIVIDUAL DESCRIPTIONS
OF THE VARIOUS
FEDERAL-PROVINCIAL PROGRAMS AND ACTIVITIES**

Department of Agriculture

The Department of Agriculture was established by the Department of Agriculture Act, passed by Parliament and assented to on May 22, 1868. Prior to 1867, there was a Bureau of Agriculture of the Province of Canada and thus the Department, in effect, predates Confederation. The responsibilities of the Minister today encompass all aspects of the production, processing and marketing of crops and livestock.

The Deputy Minister is the administrative head of the Department. Reporting directly to him are the Senior Assistant Deputy Minister (Policy Adviser) who is also responsible for the Farm Income Services Branch, the International Affairs Directorate, the Strategic Planning Division and the Policy Coordination Unit, and the Assistant Deputy Ministers responsible for Research, Food Production and Inspection, Marketing and Economics, Regional Development, Finance and Administration, and Forestry Services. Three other branches, each headed by a Director General, also report directly to the Deputy Minister — Audit and Evaluation, Communications, and Personnel Administration. Also reporting to the Deputy Minister is the Coordinator of the Grains Group. The work of the Deputy Minister's office is supported through a departmental secretariat.

Most agricultural research undertaken by the federal government is done by the Department's Research Branch. The extensive investigations of soils, plants, animals, food, and insect pests and diseases of crops are problem-oriented. The Branch's research program is carried out at more than 50 establishments across Canada. The research units cooperate with provincial departments of agriculture, particularly extension agencies, and, in some provinces, share office and laboratory space in federal buildings with the provincial agriculture department. The Branch also administers a program of contract research under which research projects are carried out by agencies other than the Department of Agriculture. In 1984-85 the value of contracts to industry and universities amounted to \$13.5 million. Research on animal diseases is carried out by the Animal Pathology Division of the Food Production and Inspection Branch, and the Canadian Grain Commission maintains a program of research on the quality of cereal grains and oilseeds.

The Food Production and Inspection Branch is responsible for measures to protect Canada's livestock from disease, for the provision of a meat inspection service and for ensuring supplies of high-quality agricultural products for consumers. The programs deal with inspection, grading, licensing and registration.

The Branch has six directorates and two divisions. Three of the directorates — Health of Animals, Food Inspection and Plant Health and Plant Products — are concerned with policies and programs. Two others — Veterinary Inspection and Agricultural Inspection — carry out field activities associated with the policies and programs of the other directorates. The sixth — Management Services — provides coordination and services as an aid to branch management. The Race Track Division supervises pari-mutuel betting at tracks that race harness and running horses. The mandate of the Compliance Division is to investigate violations of the Acts and Regulations administered by the Food Production and Inspection Branch.

The Marketing and Economics Branch administers programs to improve the efficiency of the Canadian agricultural marketing system; to increase agricultural exports; to promote greater domestic use of Canadian-produced supplies, and to ensure the continuity of the supply of agricultural products. Its programs involve market research, and identification of domestic and export marketing opportunities for primary agricultural products and processed foods. It is also responsible for the provision of marketing information and advice for producers, and food information for consumers. Two directorates — Market Development, and Market Analysis and Trade Policy — make up the Branch structure.

The various programs concerned with providing income stability for farmers are consolidated in the Farm Income Services Branch. Its primary objective is to develop and deliver effective and efficient agricultural stabilization and crop insurance programs to provide adequate returns to producers, and thereby ensure supplies of agricultural commodities at fair prices to consumers. The basic components of the Branch are the Agricultural Stabilization Board, Agricultural Products Board, Crop Insurance Division and the Western Grain Stabilization Division.

The International Affairs Directorate is responsible for liaison with world agricultural organizations, the collection and dissemination of international agricultural intelligence, and the development of technical assistance in foreign aid programs.

The Regional Development Branch's objective is to facilitate the development of the agrifood sector in each region so that the sector can make its maximum long-term real contribution to the national economy. It is responsible for programs relating to regional development and agricultural production development.

The Regional Development Branch, primarily through its

10 regional offices, is responsible for developing, coordinating, implementing and appraising strategies and programs for the development of the agriculture and food sector in each province. The Branch is also responsible for providing economic analysis and advice in support of departmental policies and programs affecting agricultural development at both the provincial and national level. The Branch's Regional Development Office in each province serves as the Department's main contact with the provincial government and non-governmental organizations in their respective areas.

Programs concerned with animal and crop production are the responsibility of the Branch's Production Development Directorate, the operations of which are aimed at promoting a thriving agriculture and food industry in Canada.

Forest sector of federal-provincial programs were coordinated by the Department of Regional Economic Expansion (DREE) from 1969 to 1982. Cabinet decision of January 1982 transferred this responsibility from DREE to the Canadian Forestry Service and agreements initiated under DREE are still in effect with five provinces. This transfer of responsibilities also gives the Canadian Forestry Service the means to initiate similar, new, forestry agreements with the provinces; by the fall of 1984 seven such agreements have been signed (Nova Scotia, Prince Edward

Island, New Brunswick, Ontario, Manitoba, Saskatchewan and Alberta) and the remaining three (Québec, Newfoundland and British Columbia are being negotiated.

Most of the Department's programs have provincial implications and many are carried out with the cooperation and/or involvement of the provinces. Programs such as crop insurance; record of performance for livestock, and forage seed improvement entail actual provincial participation and involvement. There are provincial regulations for grading of many agricultural products, but in most cases, by agreement, federal regulations and procedures are followed because of interprovincial and export trade implications. Other programs, such as grants to agricultural exhibitions and fairs and financial assistance for 4-H Clubs, are of distinct provincial interest.

The extent and nature of provincial involvement with programs of the Department of Agriculture vary considerably. Some programs are, in effect, administered primarily federally; others involve participation at both levels.

Several agencies report to Parliament through the Minister of Agriculture. Some have agreements with the provinces concerning their activities. The agencies include the Canadian Dairy Commission, Livestock Feed Board of Canada, National Farm Products Marketing Council and the Farm Credit Corporation.

CAPITAL ASSISTANCE TO VETERINARY COLLEGES

Administered By:

Food Production and Inspection Branch

Purpose:

In view of the fact that the number of veterinarians in the country is insufficient to meet the requirements of the livestock products industry and that the existing veterinary teaching facilities cannot accommodate all student applicants, the expansion of existing veterinary teaching facilities is to be undertaken in order to increase the number of graduating veterinarians.

Authority:

The Department of Agriculture was given authority by Order in Council in April 1974 to enter into agreements with the provinces of Quebec, Ontario and Saskatchewan. These were signed in mid-1974.

Financing and Operation:

The agreements with the provinces of Ontario, Quebec and Saskatchewan provide for a federal contribution of up to 50 per cent of the capital cost up to prescribed limits of enlarging the veterinary colleges in the respective provinces. This agreement has been extended to the Atlantic Veterinary College.

In the context of these agreements, construction meant the erection of new building(s), extension(s) or alterations to existing building(s), together with necessary and related site development work, architectural consulting fees, utilities systems and installed equipment and furnishings, all for the sole and exclusive purpose of expanding or enlarging existing veterinary teaching facilities; but, for greater certainty, was not to mean commodities, goods, materials and supplies except those required for construction purposes.

In the case of the Quebec Veterinary College, the number of graduates per year is to be increased from 35 to 70 with the federal contribution of up to \$2,520,000. Phase I has been completed with Phase II just being initiated.

In the case of the Ontario Veterinary College, the number of graduates per year is to be increased from 80 to 120 with the initial federal contribution of up to \$2,880,000. The Treasury Board approved in March 1978 an increase of \$215,000 as consideration for cost escalation during the construction program. The revised federal contribution is therefore, \$3,095,000. The construction program under the agreement is now complete and all federal commitments have been satisfied.

In 1983, the Department agreed to a further contribution of up to \$250,000 representing 50% of the costs of planning

to upgrade the existing facilities of the Ontario Veterinary College to meet North American standards.

The Western College of Veterinary Medicine is to be increased from 50 to 90 graduates with a federal contribution of up to \$2,880,000. Federal payment is now complete.

In June 1983, the Department agreed to contribute up to \$18.25 million to cover 50% of the capital costs of the new Atlantic Region Veterinary College to be located on the campus of the University of Prince Edward Island in Charlottetown. The planning phase of the project is underway and the first graduating class of 50 students is anticipated for 1990.

The agreement is with the four Eastern provinces to match the federal contribution according to a separate agreement among themselves. Expenditures in the current year will cover architectural and engineering fees and site development.

As part of the agreement, each university agrees to accept in its faculty of veterinary medicine, as a minimum, the increased number of students indicated above at the entrance level, for at least ten years following the date of completion of the construction, unless fewer than that number of students apply for admission to the said faculty in any given year.

The amounts indicated above shall be payable in instalments or otherwise in such times and at such amounts as the Government of Canada in its sole discretion shall determine. The universities are to supply, whenever and in the manner requested, satisfactory evidence of the progress of construction and the financial disbursements relative thereto.

Payments:

See table 1.

TABLE 1

Payments to the Provinces for Capital Assistance to Veterinary Colleges

Participating provinces	Contract amount (\$)	Amount of payments over 8-year period 1975-76 to 1983-84 (\$)
Quebec	2,520,000	1,274,370
Ontario	3,095,000	3,095,000
Ontario	250,000	100,000
Saskatchewan	2,880,000	2,880,000
Atlantic	18,500,000	197,100
Total	27,245,000	7,546,470

Tel.: (613) 992-2114

CROP INSURANCE**Administered By:**

Crop Insurance Division
Farm Income Services Branch

Purpose:

To provide stability of farmer income by minimizing the fluctuations resulting from crop production losses due to unavoidable natural hazards. The federal government assists the provinces in making all-risk crop insurance available to farmers by contributing a portion of premium costs and/or administrative cost; and the sharing of risk by way of loans or reinsurance, whenever indemnities greatly exceed premiums and reserves.

Authority:

Crop Insurance Act
Crop Insurance Regulations
Federal-Provincial Agreements

Time Frame:

This is a continuous program. Agreements are terminable

on the expiration of five years from the day on which notice of intention to terminate is given, or by the mutual consent of the parties thereto. But notice of intention to terminate an Agreement shall not be given until after the expiration of five years from the day the agreement came into force.

Financing and Operation:

The costs of this program are shared on a federal-provincial-farmer basis. The provinces operate the programs; and the federal contributions are paid to the participating provincial governments. The individual farmers pay no more than 50% of the total premiums. For the provinces of Quebec and Newfoundland, the federal and provincial governments each pay 25% of the premium costs and they share the total administrative costs on a 50/50 basis. For the other provinces the federal government contributes 50% of the total premium and the provinces pay the total administrative costs.

The contributions payable to a province are paid in respect of each year and shall be the amount specified in the Crop Insurance Act and Regulations and the Federal-Provincial agreements in force.

Contributions may be made quarterly by the federal government to the province upon delivery to the Minister of a statement of expenses incurred. Final payment for any year may be made only upon receipt of a final statement certified by the provincial auditor.

Payments:

See table 2.

4-H CLUBS ASSISTANCE**Administered By:**

Animal Production Division

Regional Development Branch

Purpose:

This program provides for the reimbursement, to any province, of 50 per cent of its expenditures on specified items of assistance to 4-H Clubs.

Authority:

The funds for this program are provided annually under the main Appropriation Act.

At present there are agreements with each province except Quebec.

Time Frame:

This is a continuing program, subject to annual revision.

Financing and Operation:

4-H Clubs have been organized in each of the provinces to provide leadership and citizenship training for young people. The Clubs and their work projects are especially oriented toward young people living on farms. 4-H Club activities include the following subjects: the raising of live-stock, the cultivation of field crops, the operation of farm machinery, gardening, garment making, home economics, and home decorating.

The federal government pays to the provinces 50 per cent of certified expenditures up to a pre-set yearly allotment. As provincial claims must be submitted during the fiscal year, the total allotments have not always been completely utilized. Federal assistance is provided for the following items:

- prize ribbons and the cost of prizes awarded at local achievement days,
- the cost of providing club and project record books,
- travel by club members to, and prizes for provincial competitions,
- voluntary local leadership training.

In addition, an annual federal grant is made towards the costs of maintaining the offices of the Canadian 4-H Council, and for providing the salaries and travel expenses of council staff.

Payments:

See table 3.

**FREIGHT ASSISTANCE TO THE ROYAL WINTER FAIR
AND THE CANADIAN WESTERN AGRIBITION****Administered By:**

Animal Production Division
Regional Development Branch

Purpose:

This program was amended and expanded in 1981 to provide financial assistance for shipping livestock to the Canadian Western Agribition at Regina as well as to the Royal Agricultural Winter Fair at Toronto.

The revised program gives the provinces the option of signing a new agreement, or continuing under the original agreement which provides for reimbursement by the federal government to the provinces of 75% of the freight charges on exhibition livestock shipped to and from the Royal Agricultural Winter Fair.

Under the new agreement, Canada and the provinces share equally (50:50) the cost of transportation assistance on livestock conforming to classes established at the Canadian Western Agribition as well as the Royal Agricultural Winter Fair in Toronto where the livestock is to be exhibited and also conforming to the Federal Livestock Classifications. The species of livestock eligible under the program

may vary according to respective Agreement with each province and may include beef and dairy cattle, sheep, swine, dairy goats and draft horses. Also, livestock exhibitors are eligible for transportation assistance to either or both livestock shows, with the exception of those residing in the province in which the show is held.

Authority:

This program rests on a federal-provincial agreement which originated in 1946-47 when the annual operating subsidy of \$35,000, guaranteed to the Royal Winter Fair in 1927 for 20 years, terminated.

Funding is approved annually under the Appropriation Acts.

Time Frame:

This is a continuing program with no set termination date.

Financing and Operation:

The freight charges on carlots of livestock shipped to the Royal Agricultural Winter Fair and returning to the point of origin, are originally paid by the provincial agriculture department concerned. Reimbursement of 75% of freight charges is made upon submission by the province of a claim for the federal government's share. The claim must be accompanied by the original receipted freight bills, such bills being subject to audit for proper weights and rates.

For provinces that have signed the new Agreement, the freight charges on truckloads of livestock shipped to the Royal Agricultural Winter Fair and the Canadian Western Agribition are paid directly to the exhibitors by both governments (Federal and Provincial) on a 50-50 basis. The claims are submitted to the provincial Agriculture Department who is responsible to certify the claims and forward them to the federal Department of Agriculture for payment of its share.

Freight costs are shared by the federal government only on truckload or carload lots from a central collecting point in each province to Toronto or Regina, or both, and return. Federal assistance is not available to the province where the fair is held.

Freight costs for carlot movement of poultry, the transportation of wagons and the costs of feed, handlers, etc., are not eligible for sharing by the federal government under the program.

Payments:

See table 4.

TABLE 4

INTRAPROVINCIAL MEAT INSPECTION (Domestic Meat Inspection)

Domestic meat inspection should be distinguished from federal meat inspection carried out in plants which engage in interprovincial trade or in export of meat products.

Administered By:

Meat Hygiene Division, Food Production and Inspection Branch

Purpose:

This service allows participating provinces to obtain a meat inspection service in plants which are not under full federal

inspection. The provision of this meat inspection service to the provinces makes duplication of inspection services by the provinces unnecessary. It also encourages uniformity of standards across Canada.

Authority:

The Department of Agriculture has been given authority by Order in Council to enter into agreements with the provinces to provide this domestic meat inspection service. At present, agreements are in effect with the Provinces of Manitoba, Saskatchewan, Nova Scotia, New Brunswick, British Columbia, Prince Edward Island and Newfoundland.

Time Frame:

The terms of the agreements are indefinite but they are subject to termination by either party on twelve months notice.

Financing and Operation:

Provinces may provide a provincial meat inspection service for plants which engage only in the marketing of meats within the provincial boundary. Some provinces which did not provide such a service and others that did provide a provincial meat inspection service signed an agreement with the Department of Agriculture to provide this service.

The authority for the individual programs rests with the governing legislation of each province. The administration and implementation of the programs are the responsibilities of the Meat Hygiene Division, Food Production and Inspection Branch.

The agreements provide that each participating province will pay to the Department of Agriculture for inspection services on a cost-recovery basis. The agreements further

provide for an annual review of costs so that charges are amended to reflect the actual costs of inspection services.

Payments:

See table 5.

PRAIRIE FARM REHABILITATION ACT

Administered By:

This Act is administered by the Prairie Farm Rehabilitation Administration (PFRA), with headquarters in Regina, Saskatchewan.

Purpose:

The Prairie Farm Rehabilitation Act was passed by Parliament in 1935 to assist in the reclamation of agricultural lands seriously affected by drought and soil drifting in Manitoba, Saskatchewan and Alberta. Subsequent amendments to the Act widened the scope of the Administration's activities.

The basic objectives of PFRA are to provide for the rehabilitation of drought and soil drifted areas in the provinces of Manitoba, Saskatchewan and Alberta and to develop and promote systems of farm practice, tree culture, water supply, land utilization and land settlement that will afford greater economic security.

Authority:

The Prairie Farm Rehabilitation Act. The Act (with amendments consolidated) is now R.S. 1970, P.C. 17.

Time Frame:

Continuing

Financing and Operation:

Under the Prairie Farm Rehabilitation Act, the Department may enter into agreements with each of the three provinces, municipalities or individuals with respect to carrying out the general purpose of the Act.

The areas addressed by PFRA programs of soil and water conservation and development, and drought proofing are prime elements in the building blocks of long-term economic and social development on the prairies.

The main PFRA program activities include:

- (1) Tree Production and Distribution Program which provides tree material for shelterbelt, conservation and reclamation planting, to eligible recipients;
- (2) Community Pasture Program — provides summer grazing for cattle on Crown land unsuitable for other agricultural uses;
- (3) Soil Conservation Program — to encourage effective farming practices;
- (4) Irrigation Demonstration Farm;
- (5) Southwest Saskatchewan Irrigation Program;
- (6) Rural Water Development for Stockwatering, Irrigation and Domestic Use;

- (7) Water Development — provides promotion, investigation, design and implementation of medium-scale to large-scale water resource projects;
- (8) South Saskatchewan River Program — provides for the operation and maintenance of the project.

Agreements with the provinces of Manitoba, Saskatchewan and Alberta:

- (1) Canada — Manitoba Interim Subsidiary Agreement on Water Development for Regional Economic Expansion and Drought Proofing. Expires March 31, 1985.
- (2) Canada — Saskatchewan Interim Subsidiary Agreement on Water Development for Regional Economic Expansion and Drought Proofing. Expires March 31, 1985.
- (3) Canada — Alberta Irrigation Rehabilitation Agreement provides for rehabilitation of the Bassano Dam to complete the terms of the Agreement.
- (4) Canada — Saskatchewan Agreement on Agricultural Community Water Infrastructure. A five-year program, expiring in 1989, provides expanded water or sewerage facilities to 42 designated Agricultural Trading Centres. Total expenditures are \$32 million, half of which is federal.
- (5) Canada — Saskatchewan Agricultural Development Subsidiary Agreement. A five-year Agreement, expires 1989. Two components to be delivered by PFRA are:
 - for soil conservation, expenditures of \$9.5 million in federal funds;
 - for irrigation development, expenditures of \$7 million in federal funds.
- (6) Canada — Manitoba Subsidiary Agreement on Agri-Food Development (\$4.5 million for soil conservation initiatives to be administered by PFRA).

PULLORUM DISEASE AND FOWL TYPHOID ERADICATION PROGRAM

Administered By:

Health of Animals Directorate
Food Production and Inspection Branch

Purpose:

The purpose of this program is to eradicate pullorum disease and fowl typhoid from the national flock. This eradication will result in a substantial decrease in financial losses to the poultry industry and increased freedom of movement of poultry, chicks and hatching eggs within Canada. International recognition of Canada's pullorum-typhoid free status should lead to increased export sales of Canadian poultry to foreign markets.

Authority:

- This program is under the general departmental mandate.
- Animal Disease and Protection Act and Animal Disease and Protection Regulations.
- Federal-Provincial agreements are currently in effect with each of the ten Canadian provinces in the form of Memoranda of Understanding executed on the 15th day of November, 1982.

Time Frame:

This is a continuing program until the 1st day of July 1987 and is renewable beyond this date as agreed to by each province and the federal government.

Financing and Operation:

The Memoranda of Understanding between each provincial government and the federal government vary. Sections 79 to 79.2 inclusive and Schedule VI of the Animal Disease and Protection Regulations describe controls over the poultry industry. Section XXV of the Manual of Procedures relating to Animal Disease and Protection Act and Regulations governs the diagnosis of pullorum-typhoid, management of infected flocks and compensation. Compensation awarded is to be the market value in accordance with Section 12 of the Animal Disease and Protection Act and is fully paid by the federal government. Appendix 7.2 of Section XXV of the Manual of Procedures is a Memoranda of Understanding between the Agriculture Inspection Directorate, Food Inspection Directorate, Veterinary Inspection Directorate and the Health of Animals Directorate that defines the responsibilities of each directorate. Appendix 7.3 of Section XXV of the Manual of Procedures is a schedule of responsibility relating to the Memoranda of Understanding between the provincial and federal governments. Section XIX Manual of Procedures relates to tests and procedures for pullorum/typhoid program.

See table 6.

RABIES INDEMNIFICATION PROGRAM**Administered By:**

Health of Animals Directorate
Food Production and Inspection Branch

Purpose:

The purpose of these payments is to cooperate with the provinces in the management of rabies indemnification programs. These programs assist in the control of rabies in farm animals by encouraging farmers to report cases where animals have died as a result of rabies.

Authority:

This program is under the general departmental mandate.
Rabies Indemnification Regulations

Federal-provincial agreements are currently in effect with the provinces of New Brunswick, Quebec, Ontario and Manitoba.

Time Frame:

This is a continuing program.

Financing and Operation:

Under Sections 3 and 12 of the Animal Disease and Protection Act, Statutes of Canada, 1974-5-6, Chapter 86, the Minister of Agriculture may order living animals to be destroyed and provide compensation to owners in respect of these animals. However, as there is no satisfactory laboratory diagnosis to confirm rabies infection in a living animal, federal payments to herd owners cannot be made under the Animal Disease and Protection Act in regard to rabies.

Consequently, some provinces have assumed responsibility for the operation of rabies indemnification programs. The provincial governments make payments to herd owners, and the federal government reimburses the provinces for two-fifths of the amounts paid by them. The federal government will reimburse the provinces up to a maximum per head of \$400 for cattle, \$200 for horses, and \$80 for sheep, swine and goats.

In order to receive the federal reimbursement, provinces submit claims to the federal government. All claims are examined for conformity with the Rabies Indemnification Regulations, and have to be supported by the following documents:

1. evidence that payment to the owner has been made;
2. a certificate signed by a veterinary inspector that the animal died as a result of rabies; and
3. the inspector's valuation of the animal.

Payments:

See table 7.

TABLE 7

Payments to Provinces for Rabies Indemnification

RESEARCH STATION BUILDINGS
(Part of the Research Program)

Administered By:

Administration Division of the Research Branch

Purpose:

Departmental policy encourages the sharing of accommodation to promote cooperation between departmental personnel responsible for agricultural research and provincial personnel responsible for extension work, so that solutions to farm problems may be made available rapidly to farmers. Under this program, space is made available in some federal research station buildings for offices and laboratories of provincial departments of agriculture.

Specifically, the Prince Edward Island Department of Agriculture and Forestry uses space at the Federal Department of Agriculture's Research Station at Charlottetown; a joint federal-provincial building was recently constructed at Kentville, Nova Scotia; a New Brunswick Department of Agriculture and Rural Development office occupies a wing at the federal Research Station at Fredericton; and the regional staff of the Alberta Department of Agriculture is housed in the federal Research Station complex at Lethbridge. These facilities were built under capital cost-sharing arrangements.

Provincial personnel also occupy surplus federal space on a rental basis at: St. John's West, Nfld.; Nappan, N.S.; l'Assomption and St. Jean, Que.; Delhi, Harrow, Kapuskasing and Vineland, Ont.; Indian Head and Saskatoon, Sask.; Fort Vermilion, Alta.; and Prince George, Sidney and Summerland, B.C.

Authority:

Two kinds of agreements are involved: (a) a federal-provincial agreement applies where the facility is provided under a joint cost-sharing arrangement, and (b) where provincial personnel use surplus federal space, the authority is a rental agreement on a favored-tenant basis.

Time Frame:

The term of these arrangements is set out in each agreement. Essentially, they are long-term contracts which may be terminated by either party under certain circumstances.

Financing and Operation:

The financing and operation of these facilities are subject to the terms of the particular agreements. In general, the province pays Canada for the space and services provided.

Initially, the provinces share with Canada the costs of construction of new buildings or additions to existing buildings and physical plant, either by undertaking actual construction or by paying a portion of the costs to Canada.

Subsequently, the provinces pay the annual costs of operating and maintaining the space they occupy as provided in the individual agreements. Certain administrative services are also shared. Ongoing capital expenditures related to the structures are cost-shared on agreed bases.

CANADA — NOVA SCOTIA AGRI-FOOD DEVELOPMENT AGREEMENT

Administered By:

Agriculture Canada

Purpose:

There are three objectives to this Agreement: to encourage the growth of agricultural production and food processing to the extent of identified and mutually agreed domestic and export market opportunities in horticulture, livestock foods and livestock; to increase the efficiency of firms in the production, processing and marketing sectors of the province's agri-food industry; and to expand income and employment opportunities, particularly in the rural areas of the province.

Authority:

Canada — Nova Scotia General Development Agreement.

Time Frame:

The Agreement will be in effect from October 5, 1982 until October 4, 1987 but payouts on commitments approved before October 4, 1987 may continue until March 31, 1989.

Financing and Operation:

Agriculture Canada funds and directly delivers five programs and the Nova Scotia Department of Agriculture and Marketing funds and directly delivers the sixth program.

Project approvals are granted by the delivery agency, but advice is obtained from the other agencies. Private sector contributions are required for most projects. A Liaison Committee, formed of both federal and provincial representatives, plans and coordinates the delivery of the Agreement.

See table 8.

CANADA — MANITOBA SUBSIDIARY AGREEMENT ON AGRI-FOOD DEVELOPMENT

Administered By:

Agriculture Canada

Purpose:

The overall objectives of this Agreement are to facilitate an improved economic performance within the Agri-Food sector through efficiency gains, to contribute to the long-run sustainability of the sector through improved resource management practices, and to coordinate the various relevant government programs and activities of the various departments and agencies. Realization of sectoral potential is predicated upon the effective servicing of these macro objectives.

Authority:

Canada — Manitoba Economic and Regional Development Agreement

Time Frame:

The Agreement, signed on May 30, 1984, has a five-year time frame which expires on March 31, 1989.

Financing and Operation:

All federally funded projects under this Agreement are directly delivered by Agriculture Canada. There are no jointly funded or delivered projects.

Projects are approved by the Federal-Provincial Agreement Management Committee based on the recommendation of Program Advisory Committees.

See table 8.

**CANADA — SASKATCHEWAN AGRICULTURE
DEVELOPMENT AGREEMENT**

Administered By:
Agriculture Canada

Purpose:
The objectives are to assist in:

- a) the conservation and development of the agricultural resources in Saskatchewan with particular attention to the soil degradation problem, further development of irrigation and the enhancement of human resource capabilities; and
- b) the development of the important commodity sectors and specifically to encourage crop intensification and the enhancement of livestock productivity through development of marketable products, and the development and transfer of technology to the sectors.

Authority:
Canada — Saskatchewan Economic and Regional Development Agreement.

Time Frame:
The Agreement will be in effect from August 7, 1984 to March 31, 1989. Projects approved to March 31, 1989 must be completed by March 31, 1990. Claims may be paid up to March 31, 1991.

Financing and Operation:
Agriculture Canada and Saskatchewan Agriculture each deliver projects under Sub-Programs in five Program areas. A sixth Program covering Implementation, Public Information and Evaluation is delivered by Agriculture Canada. There is provision in the Agreement for cost-shared projects, with delivery by either party.

Federal approval is required for federal directly delivered projects. Provincial approval is required for provincial directly delivered projects. The federal-provincial Management Committee must approve all federal-provincial projects. This Committee also approves the annual Work Plans prepared by each party.

**CANADA — NEW BRUNSWICK AGRI-FOOD
DEVELOPMENT AGREEMENT**

Administered By:
Agriculture Canada

Purpose:
There are five objectives to this Agreement:

- (a) To identify, develop and realize domestic and export market opportunities for New Brunswick potatoes, livestock, livestock feeds, horticulture and specialty crops;
- (b) To encourage growth and development of the agri-food sector through the expansion of primary production and value-added activities for agricultural products with identified markets;
- (c) To enhance the competitive position of the agri-food industry through improvement in productivity, product quality, human resource development, physical resource utilization and marketing;
- (d) To increase employment in the agri-food sector and related services; and
- (e) To increase the level and stability of net returns of the participants in the agri-food sector.

Authority:
Canada — New Brunswick Economic and Regional Development Agreement.

Time Frame:
The Agreement will be in effect from June 25, 1984 until March 31, 1989. Funds committed to Projects approved prior to the termination date must be fully disbursed by March 31, 1990.

Financing and Operation:
Agriculture Canada funds and directly delivers some part of each of the five programs, and, at the same time, the New Brunswick Department of Agricultural and Rural Development also funds and directly delivers other parts of the five programs.

Each of the five programs have portions that are cost-shared between the two agricultural departments.

Project approvals are granted by the Federal-Provincial Management Committee. Private sector contributions are required for most projects. A Management Committee, formed of federal and provincial representatives, plans and coordinates the delivery of the Agreement.

CANADA — PRINCE EDWARD ISLAND AGRI-FOOD DEVELOPMENT SUB-AGREEMENT**Administered By:**

Agriculture Canada and Prince Edward Island Department of Agriculture.

Purpose:

The programs are intended to increase net farm income by improving crop and livestock health, improving and conserving soil resources, developing, demonstrating and encouraging the adoption of new technology and improving the marketing of agricultural products.

Authority:

Prince Edward Island Economic and Regional Development Agreement.

Time Frame:

The agreement will be in effect from June, 1984 to 1989. All projects must be approved by March 31, 1989, but related costs can be incurred up to September 30, 1989, and payments may be made up to March 31, 1990.

Financing and Operation:

Agriculture Canada funds and directly delivers five programs worth \$18 million. The Prince Edward Island Department of Agriculture funds and delivers a \$13 million extension program. Agriculture Canada and Prince Edward Island Department of Agriculture cost-share (Canada 80%, Prince Edward Island 20%) a \$10 million extension support program.

Project approvals are granted by the Director. Each federal program has a Technical Advisory Committee which makes recommendations to the Director on project approvals. Private sector contributions are required for most projects. An Agriculture Management Committee composed of provincial and federal representatives coordinates the delivery of the Agreement. Cost-shared proposals are approved only by the Agriculture Management Committee.

See table 8.

FEDERAL-PROVINCIAL GENERAL DEVELOPMENT AGREEMENTS, FORESTRY SUBSIDIARY AGREEMENTS**Administered By:**

Canadian Forestry Service and the appropriate provincial governments, (Newfoundland, Quebec, British Columbia).

Purpose:

To improve the supply of wood and to increase the contribution of the forestry sector to the provincial economies.

Authority:

These agreements were initiated under the auspices of the Department of Regional Economic Expansion (DREE). Cabinet decision of January 1982 transferred responsibility from DREE to the Canadian Forestry Service and subsequent authority is under the Forestry Development and Research Act, 1966-67.

Time Frame:

Newfoundland:	January 9, 1981 to March 31, 1985
Quebec:	March 26, 1975 to March 31, 1984
British Columbia:	May 17, 1979 to March 31, 1985

Financing and Operation:

All federal funding is provided by the Canadian Forestry Service and the balance by the respective provincial governments.

A Management Committee is set up to administer each agreement. The appropriate Canadian Forestry Service regional director, or his/her delegate and two provincial representatives are normally members of these committees.

CANADA — NOVA SCOTIA FOREST RESOURCE DEVELOPMENT AGREEMENT

Administered By:

Canadian Forestry Service and the Province of Nova Scotia.

Purpose:

To encourage and support forest management for the purposes of improving the forest resource; increasing the sustainable supply of wood; and to heighten forest industry opportunities in Nova Scotia.

Authority:

The Forestry Development and Research Act, 1966-67.

Time Frame:

The agreement was signed on August 31, 1982. The five-year term of the agreement is from April 1, 1982 to March 31, 1987.

Financing and Operation:

Of the five main components in the agreement, Canada (CFS) will implement Forest Resource Enhancements on Private Lands; \$40.3 million over five years.

Nova Scotia will spend \$30.5 million in the implementation of Forest Resource Enhancement on Crown Lands, Forest Industry Development and Human Resource Development. Canada and Nova Scotia will jointly implement the information and evaluation component of the agreement, at a cost of \$1.1 million.

CANADA — PRINCE EDWARD ISLAND FOREST RESOURCE DEVELOPMENT AGREEMENT

Administered By:

Canadian Forestry Service and the Province of Prince Edward Island

Purpose:

To encourage and support forest management for the purposes of improving the forest resource, increasing the sustainable supply of wood; and to ameliorate the wood-based industry on Prince Edward Island.

Authority:

The Forestry Development and Research Act, 1966-67.

CANADA—NEW BRUNSWICK FOREST RENEWAL AGREEMENT

Administered By:

Canadian Forestry Service and the Province of New Brunswick.

Purpose:

To encourage and support forest management for the purposes of improving the forest resource; increasing the sustainable supply of wood; carry out forest management on federal lands; and to provide a public information program in order to ensure the health of the forest industry in New Brunswick.

Authority:

The Forestry Development and Research Act, 1966-67.

Time Frame:

The Agreement was signed June 25, 1984. The five-year term of the Agreement is from April 1, 1984 to March 31, 1989.

Financing and Operation:

Of the six main components, Canada (CFS) will implement Forest Management on Private Lands and on Federal Lands, and the Province will implement the remaining cost-shared portion of the Agreement. Canada and New Brunswick will jointly contribute \$77.4 million on 55:45 basis.

CANADA—ONTARIO FOREST RESOURCE DEVELOPMENT AGREEMENT**Administered By:**

The Canadian Forestry Service and the Province of Ontario.

Purpose:

To encourage and support forest management for the purpose of improving the forest resource; increasing access to mature wood; increasing sustainable supply of wood; and conducting Research and Development programs targeted at forest renewal.

Authority:

The Forestry Development and Research Act, 1966-67.

Time Frame:

The Agreement was signed on November 14, 1984. The five-year term of the Agreement is from April 1, 1984 to March 31, 1989.

Financing and Operation:

Canada and Ontario will spend \$150 million on a 50:50 cost-shared basis on four basic programs: forest management and renewal; technical support for forest management and renewal; applied research and development, administration, communications and evaluation. On these programs forest management and renewal will receive the major portion, \$128.6 million.

CANADA—MANITOBA FOREST RENEWAL AGREEMENT**Purpose:**

To encourage and support forest renewal for the purpose of improving the forest resource; increasing the sustainable supply of wood; to increase public awareness; and to carry on forest research and development.

Authority:

The Forestry Development and Research Act, 1966-67.

Time Frame:

The Agreement was signed on March 15, 1984. The five-year term of Agreement is from April 1, 1984 to March 31, 1989.

Financing and Operation:

Canada and Manitoba will spend \$27.16 million on a 50:50 cost-shared basis on four basic programs: forest renewal; intensive forest management; applied research and development; and public information, evaluation and administration. The federal government will implement programs on Private Land and on Federal Crown Land. The provincial government will implement programs on Provincial Crown Land.

CANADA—SASKATCHEWAN FOREST RESOURCE DEVELOPMENT AGREEMENT**Purpose:**

To encourage and support forest renewal and management in order to improve the forest resource base; to increase the sustainability of the long term wood supply; and to make available research results through a technology transfer program.

Authority:

The Forest Research and Development Act, 1966-67.

Time Frame:

The Agreement was signed on June 25, 1984. The five-year term of the Agreement is from June 25, 1984 to March 31, 1989.

Financing and Operation:

Canada and Saskatchewan will spend \$28 million on a 50:50 cost-shared basis on four basic programs: forest renewal; growth enhancement and stand tending; technology advancement and transfer; public information, administration and evaluation.

CANADA—ALBERTA FOREST RESOURCE DEVELOPMENT AGREEMENT**Administered By:**

The Canadian Forestry Service and the Province of Alberta.

Purpose:

To encourage and support forest management for the purpose of improving the forest resource; to increase the sustainability of the wood supply; to conduct applied research on forest management and in place technology transfer mechanisms; and to heighten forestry opportunities in Alberta.

Authority:

The Forestry Development and Research Act, 1966-67.

Time Frame:

The Agreement was signed on October 29, 1984. The five-year term of the Agreement is from October 29, 1984 to March 31, 1989.

Financing and Operation:

Canada and Alberta will spend \$23 million on a 50:50 cost-shared basis on three basic programs: reforestation; applied research; technology transfer and opportunity identification; public information, evaluation and administration.

MEMORANDA OF UNDERSTANDING CONCERNING THE COORDINATION OF FOREST RESEARCH

Administered By:

Canadian Forestry Service — Provincial joint forest research committees

Purpose:

To formalize the coordination of forest research between the federal and the provincial governments.

Authority:

Decision of the Canadian Council of Resource and Environment Ministers at the meeting, January 29, 1980.

Time Frame:

The agreements were signed and they expire on the dates shown. All are renewable for five-year periods beyond the expiry date subject to Ministerial exchange of letters.

British Columbia:	November 24, 1981 to June 30, 1985
Alberta:	May 4, 1982 to June 30, 1985
Saskatchewan:	August 10, 1983 to June 30, 1986
Manitoba:	October 18, 1982 to June 30, 1985
Nova Scotia:	August 31, 1982 to June 30, 1986
Prince Edward Island:	November 7, 1983 to June 30, 1988
Newfoundland:	September 1, 1982 to March 31, 1987

Financing and Operation:

There is no cost-sharing associated with these Memoranda. The Memoranda were signed by the respective federal and provincial Resource/Environment Ministers. The Memoranda are used to ensure the most efficient use of the forest research resources available to the respective agencies, to minimize duplication and to enhance forest research through cooperation in planning and implementation.

NATIONAL AIR TANKER FLEET COOPERATIVE SUPPLY AGREEMENT

Administered By:

Canadian Forestry Service and Department of Transport

Purpose:

To assist the provinces in the acquisition of Canadair CL-215 aircraft and the formation of a National Air Tanker Fleet.

Authority:

Order in Council and Treasury Board approval granted in January, 1984.
P.C. 1984 - 10/308 (84-01-26)
Treasury Board 789659

Time Frame:

This agreement was finalized in January 1984. Acquisition of the aircraft is expected to be completed within three years.

Financing and Operation:

Canada and participating provinces will purchase, on an approximately one to one matching basis, twenty-nine CL-215 forest fire fighting aircraft. Canada will lease (nominal rate) its aircraft to the provinces who will operate them in accordance with the Canadian Interagency Mutual Aid Resources Sharing Agreement, and the DOT Canadair Dry Lease. The cost to Canada is approximately \$150 million.

CANADIAN INTERAGENCY MUTUAL AID RESOURCES SHARING AGREEMENT

Administered By:

Canadian Forestry Service

Purpose:

To facilitate the sharing of equipment, manpower and other forest fire fighting resources among the provinces and the federal government.

Authority:

Decision of the Canadian Council of Resource and Environment Ministers at its September 1981 meeting.
Order in Council and Treasury Board approval granted in January, 1984.
P.C. 1984 - 10/308 (84-01-26)
Treasury Board 789659

Time Frame:

Commencing in the fall of 1983 and is on-going. Implementation guidelines are approved by all parties annually.

Financing and Operation:

There is no cost sharing associated with this agreement. The equipment will be operated and maintained by the provinces and maintenance expenses will be borne by the user agency according to guidelines agreed upon each year.

**CANADIAN INTERAGENCY FOREST FIRE CENTRE
OPERATING AGREEMENT****Administered By:**

The Canadian Forestry Service

Purpose:

The operation of the Canadian Interagency Forest Fire Centre (CIFFC).

This agreement enables provincial and federal forest fire control agencies to share information on fire conditions and forest fire fighting resources.

Authority:

Decision of the Canadian Council of Resource and Environment Ministers at its September 1981 meeting.

Order in Council and Treasury Board approval granted in January, 1984.

P.C. 1984 - 2/308 (84-01-26)

Treasury Board 791472 (84-01-19)

Time Frame:

The program became operational on June 1, 1982 and is on-going.

Financing and Operation:

The CIFFC is incorporated as an independent, non-profit agency. Canada will pay one-third of the CIFFC operating costs; the remaining two-thirds is contributed by the provinces on the basis of inventoried productive forest land within their jurisdictions.

Canada's contribution will be apportioned 50% Canadian Forestry Service, 25% Parks Canada, 25% Department of Indian Affairs and Northern Development, Northern Affairs Program. The Canadian Forestry Service is the lead agency responsible for making the annual contribution and will then be reimbursed by the other two federal agencies for their respective share.

Department of Communications

The duties, powers and functions of the Minister of Communications extend to and include all matters over which Parliament has jurisdiction, not by law assigned to any other department, branch or agency of the Government of Canada, relating to:

- a) national cultural policy and programs;
- b) telecommunications; and
- c) the development and utilization, generally of communication undertakings, facilities, systems and services for Canada.

The Minister of Communications, in exercising his powers and carrying out his duties and functions shall:

- a) formulate and implement Canada's cultural policy and programs;
- b) co-ordinate, promote, and recommend national policies and programs with respect to communication services for Canada;
- c) promote the establishment, development and efficiency of communication systems and facilities for Canada;
- d) assist Canadian communication systems and facilities to adjust to changing domestic and international conditions;
- e) plan and co-ordinate telecommunication services for departments, branches and agencies of the Government of Canada;
- f) compile and keep up-to-date detailed information in respect of communication systems and facilities, of trends and developments in Canada and abroad, relating to communication matters; and
- g) take such action as may be necessary to secure, by international regulation or otherwise, the rights of Canada in communication matters.

ORGANIZATION AND PROGRAMS

The department comprises five sectors: Policy, Technology and Industry, Research, Spectrum Management and Cultural Affairs.

Policy Sector

Responsibility for the overall formulation and implementation of departmental policy resides primarily with this sector. Subdivisions include: National Telecommunica-

tions (studies and planning for domestic systems development); International Relations (studies, planning and negotiations in the international communications sphere, including arrangements for, and participation in conferences); Strategy and Plans; Broadcasting and Content Services Policy; Legal Services; Information Services; and Federal-Provincial Relations.

Technology and Industry Sector

Responsible for all aspects of the communication technology applications and industry development. This mission includes the assessment of introduction and applications of new information and communications technologies, the investigation of new market opportunities for communications goods and services at home and abroad; the development of policy, programs and facilities to assist the domestic industries involved with the communications technologies and management of the major applications programs of the Department.

This Sector is also responsible for planning, establishing and managing telecommunications facilities and services that will meet the needs of federal government departments and agencies on an economic basis.

Research Sector

The department conducts an extensive and continuing research program for three main reasons. First, advances in technology are the primary means of improving and expanding the telecommunications network and its services. Second, research serves as a base for the policy planning and program functions of the department. Third, through transfer of knowledge acquired in the laboratories and the support of research in Canadian industry and universities, the knowledge level of Canada is increased and the innovations developed through government research benefit Canadian industry and create Canadian jobs in high-technology fields.

Most of the department's in-house research is carried out at the Communications Research Centre (CRC), located near Ottawa. Because the department encourages the fullest possible participation of Canadian industry in research projects dealing with the field of high technology and telecommunications, more and more research contracts are allocated to companies located throughout Canada. In addition, a certain proportion of the Department's research is undertaken for the Department of National Defence.

The department also fosters advanced communications research capabilities at Canadian universities through contracts totalling about \$1,162,000 in 1984-1985. Universities conduct research related to the federal government's responsibilities and priorities for regulation as well as the social, economic and technological aspects of communications and culture.

Spectrum Management

This sector's principal function is to manage the radio frequency spectrum.

Managing the spectrum includes ensuring its orderly development, protecting it by international agreements and promoting efficient and effective accessibility to it for all Canadians.

In order to serve its clientele, the sector has headquarters in Ottawa, 5 regional offices and 47 district and sub-district offices.

Cultural Affairs Sector

The Cultural Affairs Sector of the Department of Communications formulates Canada's national cultural policy in support of cultural activities. Supports or manages artistic and cultural programs other than of federal cultural agencies as determined by the government; advises the Minister on the implementation by cultural agencies of programs consistent with national cultural policy and analyses social policy issues arising from the application of technologies in culture, communications, space and information.

UNIVERSITY RESEARCH PROGRAM

Administered By:
Research Sector

Purpose:

The program supports the Department of Communications' in-house research programs, promotes competence in various areas of communications and culture in Canadian universities, and helps develop individuals who can later make substantial contributions to the field of communications in industry, government or the universities.

Authority:

The Department of Communications supports a University Research Program. Based upon the recommendation of the University Research Advisory Committee, Canadian universities are asked to submit research contract proposals on specific subjects determined in advance by the department.

Time Frame:

Each November, the department reviews its university research requirements. Canadian universities are then asked to submit research proposals on subjects determined by DOC.

Financing and Operation:

This is a research contract program and not a research grant program. Therefore, work statements are negotiated and payments are made on the basis of the progress. The resulting contracts are subject to government procurement regulations.

In the allocation of contracts, the department takes into consideration the regional demographic factor and takes the necessary action to ensure that there be an equitable proportion of contracts allocated to anglophone and francophone universities throughout Canada.

Payments:

The program started modestly in fiscal year 1971-72 with a budget of \$375,000. The budget was increased to \$1,162,000 for the 1984-85 fiscal year.

PROPAGATION RESEARCH PROGRAM

Administered By:
Research Sector

Purpose:

To develop a comprehensive understanding of the behavior of electromagnetic waves particularly in the Canadian environment. Such information is essential to the planning and design of reliable and efficient communications systems and networks, and to the management of the radio-frequency spectrum.

Authority:

The program is a part of the department's on-going research activities at the Communications Research Centre. Specific projects are approved jointly by the department and the telephone company and/or university involved in the work.

Time Frame:

Projects normally involve a joint agreement covering a one or two-year period.

Financing and Operation:

In most projects, the work and costs are divided among the participants so that no exchange of funds is required. If a university is involved in the project, the cost of their participation is covered by the Department of Communications and/or the other participating agencies.

CANADA — MANITOBA TECHNOLOGY APPLICATIONS PROJECTS

Administered By:
Technology and Industry Sector

Purpose:

This is a component of the Canada—Manitoba Economic and Regional Development Agreement (ERDA), Subsidiary Agreement on Communications and Cultural Enterprises, signed on June 6, 1984. The Technology Applications Projects component has as its objectives to further the economic development of the province of Manitoba through the development and implementation of specific

applications projects in communications and information technologies. The projects planned include Local Area Network Development, Electronic Publishing, Courseware Development and Teleradiology.

Time Frame:

Five (5) years from June 1984 to June 1989.

Financing and Operation:

The projects are to be funded and managed by the federal government. Investments by the private sector are expected for most funded projects. Also, there is close cooperation with the provincial government to ensure complementarity with provincial programs. Total federal funding for the projects will be \$5.95 million.

PALAIS DES CONGRÈS DE MONTRÉAL (PHASES A AND B)

Administered By:

Technology and Industry Sector

Purpose:

Phase A: Installation of an integrated communications system utilizing Telidon technology (operational since June, 1983).

Phase B: Computerizing administrative functions pertaining to the organization and management of events held at the Palais and to the operation of the Palais.

Authority:

Two Memoranda of Understanding were signed between la Société du Palais des Congrès and the Department of Communications.

The management of this project falls under the responsibility of an Advisory Committee made up of representatives from the federal Department of Communications, la Société du Palais des Congrès and the provincial government.

Time Frame:

From May 1982 to October 1986.

Financing and Operation:

Responsibility for the management of the system resides with the Palais des Congrès. It is estimated that the total cost of the project will be \$7.2 million. The federal government and la Société du Palais des Congrès will each contribute \$3.6 million.

Payments:

Phase A has been completed (\$4.5 million); for Phase B methods of payment are being finalized.

MOBILE SATELLITE (MSAT) PROGRAM

Administered By:

Technology and Industry Sector

Purpose:

To define, develop and demonstrate a satellite system to meet identified needs for voice and data mobile communications services to vehicles, ships, aircraft and compact portable stations for a wide variety of public and civil government applications in Canada.

Authority:

As approved by Cabinet in December 1981, (463-81RD), the Department of Communications (DOC) will carry out Phase B (Project Definition) of the MSAT program through a series of contracts with Canadian industry supplemented with DOC in-house work.

Time Frame:

Phase B is scheduled for completion in July 1984. Cabinet will then decide whether or not to proceed with the design and manufacturing phases and a 1988 launch. The system would be used by the federal and provincial governments, industry and others for communications experiments and interim commercial service.

Financing and Operation:

Treasury Board has approved the expenditure of \$17 million by DOC for Phase B studies over the fiscal years 1982-83 and 1983-84.

A SPECIAL PROGRAM OF CULTURAL INITIATIVES

Administered By:
Cultural Affairs Sector

Purpose:

The Special Program of Cultural Initiatives provides financial assistance to Canadian artistic and non-profit cultural organizations from funds accrued from the federal portion of the Loto Canada revenues under the federal-provincial agreement on the dissolution of Loto Canada.

Payments:

For the 1983-84 program, the provincial breakdown of expenditures is indicated in table 1.

TABLE 1

The 1983-84 Special Program of Cultural Initiatives

Saskatchewan	175,000
Alberta	474,395
British Columbia	255,043
Yukon	40,500
Northwest Territories	—
Total	5,907,288

Department of Employment and Immigration

In addition to his administrative responsibility for the Canada Employment and Immigration Commission and the Department of Employment and Immigration, the Minister of Employment and Immigration reports to Parliament for the Immigration Appeal Board. Within the CEIC only the Employment and Immigration components have programs which involve payments to provinces or municipalities, although the administration of the Benefit Program does require liaison and consultation with provincial departments.

CANADA EMPLOYMENT AND IMMIGRATION COMMISSION

The Canada Employment and Immigration Commission was created under the Employment and Immigration Reorganization Act of 1977 and was given responsibility for the development and utilization of labour market resources in Canada, for employment services, for unemployment services and immigration. In general, the programs of the Commission are directed towards individual members of the labour force or towards individual immigrants. In addition, programs are also directed to provide employers with various services, particularly recruitment and selection of workers to fill available jobs. A Department of Employment and Immigration was also established by the same legislation.

Employment

Federal-provincial consultations on labour market policies and programs are primarily conducted through the Joint Federal-Provincial Committees or similar mechanisms which are now established in the provinces under the authority of Section 12 of the National Training Act. The Committees are composed of senior officials of the Canada Employment and Immigration Commission and the provincial departments concerned. In some provinces the

Committee includes representatives from the private sector and other federal departments concerned with the labour market and the economy.

The National Training Act came into effect on August 2, 1982. It replaced the Adult Occupational Training Act of 1967. Federal-provincial training agreements which will be in effect until the end of March 1985 govern the implementation of the program in the provinces and territories. The federal-provincial co-operation regarding training activities is realized through the joint federal-provincial committees. The training is given in community colleges or other training centres and is paid for by the federal government which also provides income support to full-time trainees during their training. The provinces and territories are responsible for course content, training methods and delivery of the training.

Immigration

Federal-Provincial consultations on regional demographic needs and labour market considerations are required by Section 7 of the Immigration Act prior to the Minister's deciding upon and announcing projected immigration levels for the future years. These consultations have been formalized in Agreements with six provinces but are carried out at a senior official level with all ten provinces as well as with the territories.

While the federal government does not provide payments to the provinces, it does provide assistance to immigrants in general and to refugees in particular to aid in their settlement. It also contributes to voluntary organizations active in immigrant settlement. On the other hand, the Province of Quebec does reimburse the federal government for additional costs related to the presence of Quebec immigration representatives in certain federal immigration sections of embassies and consulates abroad.

INDUSTRIAL TRAINING PROGRAM (GENERAL)

(An element of the National Industrial Training Program)

Administered By:

Industrial Training Directorate, Training Branch

Purpose:

To meet the skill needs of employers and to improve the employability and earning capacity of workers through the expansion and improvement of employer-provided training.

Authority:

National Training Act, Section 8
National Training Regulations
Training Agreements signed with each province and territory

Time Frame:

This is a continuing program under which individual projects may be supported for a maximum of 52 weeks.

Financing and Operation:

This program is funded and administered by the federal government. There is no municipal involvement; the provinces, however, are responsible for the provision of pedagogical services and course monitoring. Provinces are reimbursed for these services on a fee for service basis.

Direct training costs may be reimbursed to the employer for the off-the-job elements of training. These may include all or part of:

1. instructor's wages;
2. instructor's travelling and living expenses;
3. training aids such as textbooks and expendable tools;
4. rental of premises and training equipment from third parties;
5. course fees where part of the training takes place in an institution.

For each approved training proposal, the Commission also reimburses wages at 50% for unemployed workers to be trained in middle and higher level skills and for existing employees. The training of existing employees is limited to those whose jobs are threatened, except for training in designated demand occupations, the training of women in non-traditional occupations and the training of Special Needs Clients. When employers are training clients with special needs they receive a wage reimbursement rate of 85%; for training women in non-traditional occupations, the rate paid is 75%.

Because the provinces are responsible for the pedagogical side of all training plans submitted by the employers, their approval of the training plan is a requisite to CEIC authorization of the training contract.

Payments:

Payments to the provinces under the National Industrial Training Program are included in the payments under the National Training Act.

CRITICAL TRADE SKILLS TRAINING (CTST)
(An element of the National Industrial Training Program)

Administered By:
Industrial Training Directorate, Training Branch

Purpose:
To provide incentives to employers to initiate and/or expand training activities in selected highly skilled trades/occupations which experience chronic shortages in supply, in which Canadian training capacity is substantially underdeveloped.

Authority:
National Training Act, Section 8
National Training Regulations
Training Agreements signed with each province and territory.

Time Frame:
This is an initiative under which individual projects may be supported for a maximum of 104 weeks.

Financing and Operation:
CTST is funded and administered by the federal government.

CTST is funded and operated under the same provisions as the National Industrial Training Program. The provinces are responsible and reimbursed for the provisions of pedagogical services.

Direct training costs and trainee wage cost reimbursements are subject to negotiations between Commission officials and training employers and/or employer associations.

All training plans submitted by employers are subject to approval by the provinces before CEIC can authorize training contracts.

NATIONAL INSTITUTIONAL TRAINING PROGRAM
(A component of the National Training Program)

Administered By:

Institutional Training Directorate, Training Branch, Labour Market Development

Purpose:

The main objectives of the program are to meet the skill needs of the economy and to increase the earning and employment potential of adults. The National Institutional Training Program is composed of the following elements:

Occupational Skill Training;
Apprentice Training;
Language Training;
Basic Training for Skill Development;
Work Adjustment Training;
Job Readiness Training;
Occupational Orientation.

The federal government provides income support to full-time trainees during their training. This support takes the form of unemployment insurance benefits for those who are eligible or of training allowances for the others. Supplementary allowances may also be paid to trainees who are receiving unemployment insurance benefits or training allowances.

Authority:

National Training Act
National Training Regulations
Federal-Provincial Training Agreements, signed with each province and territory.

Time Frame:

Ongoing

Financing and Operation:

Canada pays for the provincial facilities and staff used in order to provide job-related in-school training. The federal payments also cover administrative overhead costs incurred by the province in providing this training.

General policy for the program is developed by the Training Branch at National Headquarters. The program is administered by the regions in cooperation with the provincial governments. The provinces provide Canada with curriculum outlines, courses of study, training schedules, information on proposed changes and other materials relevant to evaluating training courses. Trainees are selected and referred by local Canada Employment Centres and attend courses given in provincial training institutions and private institutions.

Each month, instalment payments are made by the federal government on the basis of the volume of training purchased for that month. The Agreements provide for regular consultation and revision of the program to suit it to current conditions.

Payments:

See table 1.

TABLE 1

Payments to Provinces under the National Institutional Training Program
(\$ millions)

Province	1980-81 Expenditures	1981-82 Expenditures	1982-83 Expenditures	1983-84 Expenditures	1984-85 Initial Allocations
Newfoundland	15.1	16.3	18.6	18.6	17.9
Prince Edward Island	3.8	4.1	4.4	4.5	4.4
Nova Scotia	15.1	16.7	18.1	18.2	19.8
New Brunswick	13.5	14.9	16.0	16.3	18.1
Quebec	122.2	132.4	141.3	145.0	140.4
Ontario	117.8	122.0	140.3	147.0	158.5
Manitoba	15.5	16.5	21.6	23.0	23.1
Saskatchewan	13.9	14.5	16.3	18.5	22.6
Alberta	34.0	35.5	44.3	47.0	47.8
British Columbia	40.7	43.4	56.4	57.5	58.0
Northwest Territories	2.0	2.1	3.2	3.0	3.6
Yukon	1.4	1.5	1.9	2.4	2.3
Unallocated	—	—	—	—	3.1
Total	395.0	419.9	482.4	501.0	519.6

Payments of Training Allowances or U.I. Benefits are, of course, additional to the above figures. These amounted to \$261.4 million for 1980-81, \$272.2 million for 1981-82; the expenditures for 1982-83 were \$315.1 million, and \$337.3 million for 1983-84; the estimated expenditures for 1984-85 are \$375.0 million. Expenditures include provincial administration costs.

INTERPROVINCIAL STANDARDS PROGRAM

(A special program under the National Training Program).

Administered By:

The Course Assessment and Improvement Directorate, Training Branch, provides a secretariat to administer the affairs of the Interprovincial Standards Program Coordinating Committee.

Purpose:

To increase the interprovincial mobility of journey-men/women in certain trades, to improve and upgrade training programs for tradesmen/women, and to develop instructional courses within the provinces and territories.

Authority:

CEIC Employment Manual, Chapter 22.

Time Frame:

This program is continuing indefinitely.

Financing and Operation:

The role of the Commission is to co-ordinate the activities of the provinces and territories toward reaching mutually acceptable levels of competency among journey-men/women in a number of trades by maintaining a secretariat.

The Commission provides a full-time co-ordinator and secretariat as part of the federal contribution to the program.

SKILLS GROWTH FUNDS (SGF)

(A component of the National Training Program)

Administered By:

Program Development and Implementation Directorate,
 Training Branch

Purpose:

To contribute to certain costs required to establish and/or modernize facilities for the training of technologists, technicians and tradesmen in occupations of national importance or any occupation in demand suitable for persons with special training needs.

Authority:

National Training Act, Section 9.

Training Agreements signed with each province and territory.

Time Frame:

This is a multi-year program under which projects can be supported up to four years.

Financing and Operation:

This program is funded and administered under the grants and contributions arrangement by the federal government.

Funding assistance for capital costs, initial operating costs and course development costs relative to the establishment, expansion or modernization of training facilities, can be made available to provinces and non-profit organizations set up to give training.

Capital costs will be reimbursed up to \$40,000 per established training place. Initial operating costs will be paid for the first course only at a rate of 75% of projected net costs. Course development costs will be contributed to on the basis of 50% of the amount by which the total projected cost exceeds \$50,000, or 80% of the total projected costs for target groups projects.

Payments:

Payments to project sponsors are made in accordance with contractual agreements signed by the parties involved.

FEDERAL-PROVINCIAL AGRICULTURAL EMPLOYMENT DEVELOPMENT AGREEMENTS

(Part of the Canada Agricultural Employment Program)

Administered By:

Labour Market Planning and Adjustment Branch
Labour Market Development Group

Purpose:

The purpose of this program is to enable Canada and the provinces to carry out a joint agricultural employment program in respect of the recruitment and movement of agricultural workers, research and promotion of improvement in working and living conditions and other measures related to the development and utilization of agricultural workers. All provinces, except Alberta and Newfoundland, participate in this program.

Authority:

With the approval of the Governor General in Council, Agreements are signed by the Minister of Employment and Immigration for periods up to five years.

Time Frame:

This is a continuing program, negotiated between the Minister of Employment and Immigration for the Government of Canada and the Provincial Ministers of Agriculture and, in some cases, of Labour or Intergovernmental Affairs. Terms and conditions are discussed at Federal-Provincial Agricultural Employment Development Conferences. Present agreements extending to March 1986 are in effect with most of the provinces.

Financing and Operation:

Provinces are required to submit annually detailed budget forecasts and program plans for approval by the Minister of Employment and Immigration. Costs incurred by the provinces for activities carried out under the Agreements in line with approved budgets are shared equally between Canada and the provinces.

The provinces submit statements of claim upon completion of program activities, usually on a quarterly basis. Upon receipt and verification of an expenditure claim, a cheque

payable to the province is requisitioned from the Department of Supply and Services to cover the federal share of costs incurred by the province under the terms of the Agreement.

The cost-sharing provisions of the Agreements address the particular needs of the respective provinces, including the following cost categories:

1. Expenditures for construction of new housing and renovation of existing buildings built to house seasonal agricultural workers. Canada and the province together share up to fifty per cent (50%) of the total cost of such housing or a lesser amount as may be determined by the eligibility criteria established in each province. All other remaining costs are the responsibility of the farmer-employer.
2. Advertising, publicity and related promotional expenditures undertaken by the province for the recruitment of agricultural workers.
3. Expenditures for research and development involved in surveys of recruitment, training needs, and promotion of improvements in working and living conditions and other matters relating to agricultural employment.
4. Administrative services provided by the provinces in support of programs operated or administered under the Agreements, including expenses related to the operation of the Provincial Agricultural Employment Development Committees established under the Agreements.
5. Mobility assistance for workers who in the absence of public transportation facilities must be transported by special arrangements daily to the work site.

Payments:

See table 2.

TABLE 2

Federal Payments to Provinces under Agricultural Agreements

Participating Provinces	1979-80 (\$000)	1980-81 (\$000)	1981-82 (\$000)	1982-83 (\$000)	1983-84 (\$000)
Prince Edward Island	4.3	4.4	5.0	4.0	4.9
Nova Scotia	14.4	22.0	20.0	38.0	—
New Brunswick	1.0	0.1	1.0	1.0	0.5

CAREER-ACCESS**Administered By:**

Employment Development Branch
Labour Market Development Group
Canada Employment and Immigration Commission

Authority:

Cabinet Decision Number 181-83CR dated April 18, 1983.

Treasury Board Minute 789136 dated July 14, 1983,
amended by Treasury Board Minute 793230 dated April 12,
1984.

Purpose:

The primary purpose of the Career-Access program is to stimulate the provision of employment opportunities for persons whose participation in the labour market may be facilitated or enhanced by such measures. It is designed to provide an opportunity for individuals facing severe employment barriers to overcome these barriers and to provide an opportunity for individuals lacking work experience to obtain work experience.

Sponsorship:

Businesses, organizations or individuals in business for six months or more are eligible to act as employers under Career-Access. Municipalities are eligible to become employers if the provincial government raises no barrier. Federal departments and agencies are eligible to become employers for returning students in Career-Access internships.

Financing and Operation:

Career-Access operates through a system of wage subsidies to employers. In essence, to be subsidized, the job must offer the participating worker on-the-job learning and experience. To emphasize this, employers are required to provide a brief work plan for each subsidized employee and to provide the name of a person who will be supervising that employee. The program can be used to assist the disabled and the disadvantaged to find employment. Career-Access employment must generally be full-time

and offer a reasonable assurance of continuation beyond the subsidy period. Referrals must be made through Canada Employment Centres and the workers hired, of course, must not displace existing employees or volunteers.

With respect to employers, the maximum number of subsidized employees that is allowed at any one time in any one establishment is the greater of two or 20% of the number of regular employees at the place of employment. The maximum subsidy periods for employers are:

- a) for hiring students, 18 weeks in each year over a maximum of three consecutive years for any one student;
- b) for hiring other employees, 52 weeks from the start date of the subsidized employment in respect of each employee.

With respect to community groups providing assistance in the delivery of the program, the maximum contribution is \$100,000 for 12 consecutive months when an association comprised of more than one community group is working on behalf of program clientele at the metropolitan, provincial or territorial levels or \$50,000 for 12 consecutive months in respect of a single community group.

The maximum levels and duration of the wage subsidy vary commensurate with the variation in the characteristics and needs of participants in the program. In no case does the subsidy exceed 85% of the gross wages paid to a maximum subsidy of \$500 in any one week and \$15,000 for any one subsidized employee.

In addition to the contribution for wages, a contribution of up to \$10,000 per place of employment may be made under certain circumstances, to an employer hiring a disabled person in employment expected to continue after the end of the subsidy period to assist in the costs incurred in the provision of facilities or equipment.

An additional contribution of up to \$100 for each subsidized worker may be made in certain cases, to an employer for the provision of protective clothing or equipment.

In addition to other payments, a contribution of up to \$80 per week per subsidized employee may be made to a non-profit or charitable organization for other costs actually incurred as a result of the employment of the employee.

A contribution may be made to a community group assisting in the delivery of the program toward the wages of persons engaged in the activities specified in the contribution agreement and to other related costs. The contribution toward wages will not exceed the prevailing rate for the activity undertaken and the contribution for other related costs will not exceed 50% of the total contribution.

Participants who are eligible to receive a wage subsidy under Career-Access include the following: youth who have been unemployed for a significant period, particularly

those who lack work-experience; recent post-secondary graduates who have been unable to find work in an area appropriate to their qualifications; disabled or disadvantaged people; men and women returning to the work force after a prolonged absence; older workers who have been permanently laid-off, under certain specified circumstances; and, in the summer months, students intending to return to school. Provision is also made for school/work arrangements.

Payments:

For the fiscal year 1983-84, the total program contribution was \$82.8 million and Career-Access has involved 39,654 participants.

For fiscal year 1984-85, the total program contribution is \$159.3 million and Career-Access will involve up to 72,600 participants.

VOLUNTARY INITIATIVES PROGRAM
(Component of Career-Access Program)

Administered By:

Employment Development Branch
Labour Market Development Group
Canada Employment and Immigration Commission

Authority:

Section 38 of the Unemployment Insurance Act.
Treasury Board Minute 793230, dated April 12, 1984.

Purpose:

The Voluntary Initiatives Program was introduced in the Summer of 1984 on a limited pilot basis. The objective is to provide an opportunity to persons in receipt of Unemployment Insurance benefits, who have little likelihood of gaining employment quickly, to retain or develop skills while contributing to the enhancement or expansion of voluntary action.

Sponsorship:

Any organization established for at least six months and which is a registered charity or in the opinion of the Commission is a charitable organization or foundation is eligible to act as a sponsor under the program.

Financing and Operation:

Delivered through the Career-Access Program, the Voluntary Initiatives Program generates placements of unemployed persons in receipt of Unemployment Insurance benefits with charitable organizations to do useful productive activities. The activity may last from 6 to 52 weeks. Participants continue to receive their regular U.I. benefits plus an enhancement of \$30 weekly for part-time or \$60 weekly for full-time participation to defray expenses. Organizations receive a contribution of up to \$50 weekly per participant to contribute to actual costs incurred.

Although there is no limit, the number of placements in an organization will be based on its ability to provide adequate supervision, the types of activities involved and the availability of program funds.

Proposals must satisfy the following criteria:

- activities must provide services to Canadians and have broad community application and acceptance;
- activities must provide experience which will help retain and/or develop the skills of the participants; and
- activities must not displace existing volunteers or regularly paid workers in the voluntary organization, nor can they merely substitute activities previously carried out by a public organization.

Canada Employment Centres will identify candidates from among U.I. recipients who wish to undertake these activities on a voluntary basis. Final selection will be made by the voluntary organization.

Payments:

For fiscal year 1984-85 the total program contribution is \$22.9 million and \$60 million in U.I. funds and the program will involve up to 12,000 participants.

LOCAL EMPLOYMENT ASSISTANCE AND DEVELOPMENT (LEAD)

Administered By:

Employment Development Branch
Labour Market Development Group
Canada Employment and Immigration Commission

Authority:

Cabinet Decision Number 181-83 CR dated April 18, 1983.
Treasury Board Minute 794486 dated July 5, 1984.

Purpose:

The primary purpose of the LEAD program is to increase the number of permanent jobs in localities of chronically high unemployment. It is designed to support a community-based process of employment creation through investment in and support of local businesses and will enable community representative organizations to plan and carry out employment development activities relating directly to the communities' own objectives and designed to result in an increase in the number of permanent jobs.

LEAD will also create businesses through community-planned development carried out in harmony with regional development strategies and will foster and develop local management capability through developmental community activities. In addition, it will enable communities to analyse their present position and plan a future course of action to reduce the level of unemployment.

Sponsorship:

Any organization which represents community development interests and is situated in a community, normally with a population of less than 50,000, and which in the opinion of the Minister meets the following criteria:

- (a) has an unemployment problem which is persistent and more serious than in the general area;
- (b) has potential for increased employment;
- (c) has demonstrated a capacity for planning and economic development;

is eligible to receive funding for projects. Such organizations may include Boards of Trade, Chambers of Commerce, economic development associations, co-operatives and band councils. Municipalities are eligible to become employers if the provincial government raises no barrier.

Organizations that have been incorporated on a non-profit basis under provincial or federal law, located in communities which have submitted applications which have been approved and which are set up as LEAD corporations are eligible to receive contributions for operational purposes and to receive grants for purposes of investment in local businesses that will result in new, continuing jobs.

Financing and Operation:

LEAD achieves its purposes by creating local development "corporations" and funding "projects" that will generate new continuing jobs for community residents.

There are three kinds of LEAD projects:

- planning projects
- enterprise projects
- infrastructure projects

A LEAD project aims to foster and develop local management skills and community planning capability whilst providing support for the establishment of community-sponsored business and infrastructure, which will lead to ongoing employment of local residents. Assistance is also offered to help communities analyse their requirements and plan job creation strategies.

A LEAD corporation is a community-based, non-profit organization. It provides counselling services and technical assistance to local residents to help them establish new businesses or expand existing ones, advising them of financial support which may be available. It can also loan money or make grants to local business projects that will produce new employment opportunities.

The maximum annual program contribution per LEAD project is \$350,000 for enterprise and infrastructure projects and \$100,000 for planning projects. LEAD enterprise projects will be subject to annual review and will be approved initially for a period of up to five years. The maximum overall contribution to a LEAD enterprise project is \$1,500,000. LEAD infrastructure projects will be funded for a maximum of two years and LEAD planning projects will be funded for a maximum of one year.

Up to \$100,000 is available to enable a community to initiate a LEAD corporation under a LEAD planning project. The maximum annual program contribution to a LEAD corporation is \$130,000 to cover administrative costs and technical expertise to local businesses. The maximum annual grant payable to a LEAD corporation is \$220,000 for employment development purposes with respect to investments in and loans to local businesses. LEAD corporations will be reviewed annually and initially be approved for operational funding for a maximum of five years operation. After three years of operation, and based on an assessment of performance, the maximum annual grant per corporation could be increased to \$350,000 and the maximum contribution increased to \$180,000.

Participants in the program are usually drawn from unemployed local residents and receive their wages from the LEAD contribution to approved projects, but not more than the prevailing local rates for similar work. They are referred to project employment by their nearest Canada Employment Centres.

Payments:

For the fiscal year 1984-85, the total program contribution

is \$90.8 million and LEAD will involve 9,440 participants.

CANADA WORKS

Administered By:

Employment Development Branch
Labour Market Development Group
Canada Employment and Immigration Commission

Authority:

Cabinet Decision Number 181-83CR dated April 18, 1983.
Treasury Board Minute 789136 dated July 14, 1983.

Purpose:

The primary purpose of the Canada Works program is to create incremental, productive term employment for unemployed persons. It is designed to create immediate term employment for unemployed persons during periods of economic downturn and to create interim, alternate employment in response to labour market dislocations such as unexpected plant/industrial shut-downs or a natural disaster. The program will utilize income maintenance provisions under Section 38 of the Unemployment Insurance Act to provide employment for the maintenance and continued utilization of skills of workers during periods when laid off and without alternative productive activity. Canada Works will also provide term employment for designated groups of workers during a period of adjustment in a particular community, area or sector identified for assistance under a broader assistance program. In addition, it will provide summer employment to returning students and will support locally prioritized activities which are relevant to broader federal and regional objectives for economic recovery and employment growth.

Sponsorship:

Organizations, businesses, and individuals are eligible to

submit proposals and to act as employers under Canada Works. Federal and provincial-territorial government departments and agencies are eligible to submit proposals but must designate a non-government organization, business or individual to act as employer through the normal program contribution agreement with the CEIC. Municipalities are eligible to become employers if the provincial government raises no barrier.

Financing and Operation:

Canada Works offers funds for a wide range of projects from six to 52 weeks in duration. Students employed in summer projects may be supported up to a maximum of 18 weeks. The program is carried out in collaboration with private industry, as well as public or community employers. To qualify for support, projects must create three or more full-time jobs. No worker can be displaced or replaced as a result of a Canada Works project. The activities supported will reflect community priorities in the broad context of regional and national economic development.

Participants will be paid at least the minimum wage rate but not more than the prevailing local rates for similar work, including any "top-up" wages paid by the employer. Total program contribution toward project costs including wages will not exceed an average, per project, of \$325 per work-week with a normal ceiling of \$125 per work-week for costs other than wages.

When Canada Works projects are mounted under Section 38 of the U.I. Act, the maximum benefit received will be up to \$315 per work-week for project participants receiving benefits under this section of the U.I. Act. The maximum program contribution payable to the project in respect of such participants will normally not exceed an average of \$125 per work-week for costs other than participant benefits. U.I. benefits will be paid directly to these participants at a special project rate, and any additional remuneration will be paid through the employer.

In the case of summer student employment projects, the total program contribution will not exceed an average of \$220 per work-week with a normal ceiling of \$35 per work-week for costs other than wages.

Additionally, in projects of special merit, up to \$100,000 may be available for non-wage costs, provided that the contribution is matched by funds from another source.

Participants must be unemployed and must be referred to a Canada Works project by their local Canada Employment Centre (CEC). Special consideration is given to hiring of youth, women, Native people and disabled persons.

Payments:

For the fiscal year 1984-85, the total program contribution is \$721.4 million and Canada Works will involve 209,400 participants.

For Further Information:

Director
Canada Works
Employment Development Branch
Canada Employment and Immigration Commission
Place du Portage, Phase IV
Hull, Quebec

Further information on this program may be obtained from the regional offices of the Employment Development Branch at the end of the individual program description.

JOB CORPS**Administered By:**

Employment Development Branch
Labour Market Development Group
Canada Employment and Immigration Commission

Authority:

Cabinet Decision Number 181-83CR dated April 18, 1983.
Treasury Board Minute 789136 dated July 14, 1983.

Purpose:

The primary purpose of the Job Corps program is to provide severely employment disadvantaged individuals with the necessary preparation and employment-related skills leading to labour market readiness. It is designed to create opportunities for existing community resources, local businesses, etc. to support the integration of severely disadvantaged persons into the labour force.

Sponsorship:

Organizations, businesses, and individuals are eligible to submit proposals and to become employers under Job Corps. Municipalities and school boards are eligible to become employers if the appropriate provincial government raises no barrier. Federal and provincial government departments and agencies are not eligible to become employers. Groups, agencies, or associations are eligible to provide assistance in the delivery of the program at a national level.

Financing and Operation:

Job Corps addresses its efforts and resources to those who are less fortunate and it is aimed at giving support to human resource development. In addition to the job opportunities created by Job Corps, those involved will also receive counselling service, life-skills training and other help. Project funding includes wages for participants and administrative staff, as well as contributions toward operating costs. Wages paid to participants must not be less than the

minimum wage or exceed 80% of the prevailing wage rate for the work being undertaken in the Job Corps as determined by the Canada Employment Centre. Proposed projects cannot duplicate or compete with services or businesses already established in the community, and no workers can be displaced or replaced. Normally, jobs created will be on a full-time basis and support for projects from other services is encouraged.

Project activities may be permitted a Developmental Phase normally to a maximum \$50,000 funding level within a period up to 6 months, but in exceptional circumstances may be up to a \$100,000 funding level within a period of up to one year.

Project activities may be permitted an Operational Phase of up to 36 months duration. During the Operational Phase, the funding level will not exceed \$350,000 for 12 operational months.

An additional contribution of up to \$50,000 per Job Corps over the life of the project may be provided to purchase capital cost items essential to the operation of Job Corps.

In cases where projects demonstrate exceptional effectiveness, consideration may be given to extending the Operational Phase for further periods of 12 operational months following review by a National or Regional Assessment Board. In such cases, latitude will be available for the National or Regional Assessment Board to recommend an increase to the project of up to \$100,000 to a maximum funding level of \$450,000 for a 12 month period.

With respect to groups, agencies and associations, the maximum contribution is \$100,000 for a 12 month period when an association is working in support of Job Corps projects at the national level. An additional contribution of up to \$30,000 per Job Corps over the life of the project may be provided to purchase capital items essential to the operation of the Job Corps.

Prospective Job Corps participants include those who are experiencing severe difficulty in finding and keeping regular employment for reasons such as:

- a lack of education, training, or work habits;
- mental or physical disabilities;
- social handicaps experienced by drug or alcohol abusers, law-offenders, those with serious family problems;
- or any other disadvantage which creates a barrier to labour market participation.

Referrals to Job Corps projects are normally made through local Canada Employment Centres or other agencies designated by the CEIC.

Payments:

For the fiscal year 1983-84, the total program contribution

is \$30.1 million and Job Corps will involve 4,000 participants.

YOUTH TRAINING OPTION

Administered By:

Youth Training Option Directorate

Purpose:

To provide unemployed Canadian youth between the ages of 17 and 21 with the foundation training and direct work experience necessary to assist them to successfully enter the labour market.

Authority:

Cabinet Decision Number 183-84RD dated May 8, 1984.

Financing and Operation:

This program is funded and administered by the federal government who enters into contracts with managing coordinators to design and implement training programs for a minimum of 10 trainees per year. CEIC monitors the effectiveness of the training provided, the progress of trainees and the financial aspects of the contract. The managing coordinator is responsible for entering into agreements with training place hosts to provide direct work experience, with trainers or training institutions to provide foundation training, and with trainees.

Managing coordinators are paid on the following scale: \$300 for the development of the training plan and the identification and filling of each training position, and \$100 per quarter per filled training position. They are also reimbursed for the actual cost of the off-the-job training.

Trainees receive the higher of an allowance similar to that provided under the Institutional Training Program or, if eligible, their U.I. benefits for their normal period of entitlement. They also may be eligible to receive travel and dependant care support.

Payments may also be made directly to training institutions for the provision of training, to provinces for the review of training plans, and to sectorially representative organizations for the development of generic training plans related to their industry.

Payments:

Payments to managing coordinators, training institutions and sectorially representative organizations are made in accordance with contractual agreements signed between these parties and the Government of Canada. Trainees are paid either from the U.I. fund, if they are eligible to receive benefits, or from program funds based on a predetermined allowance scale, the level of which is determined at the time the trainee enters the program.

OUTREACH PROGRAM*Administered By:*

Employment Operational Services Branch, Employment Services Group.

Purpose:

The objective of the Outreach Program is to complement regular Canada Employment Centre services by extending them, through contracts for service with community-based organizations, to those members of designated target groups who have severe difficulty competing in the labour market and are unable to be served adequately by their Canada Employment Centre.

The target population is divided into the following groups:

- i) women;
- ii) chronically unemployed, usually welfare recipients;
- iii) Native people;
- iv) mentally and physically handicapped;
- v) youth;
- vi) inmates and ex-inmates;
- vii) isolated or remote communities; and
- viii) others experiencing severe employment difficulty.

Authority:

The Outreach Program was created in 1972 by Cabinet decision under the Canada Manpower Opportunity Program.

Time Frame:

Contracts for service between Supply and Services Canada (on behalf of Employment and Immigration Canada) and various community-based agencies may be signed for any period up to three years. Subsequent contracts for service may also be signed.

Financing and Operation:

Outreach is a program funded wholly by the federal government: community organizations, groups and agencies, as well as municipal governments, may participate. Where it is determined that the employment needs of a particular group within the population are not being met, the Commission may initiate the development of a project proposal with community organizations, groups or agencies. A formal contract for service may then be entered into between

Supply and Services Canada (acting for the Commission) and the project sponsor and calls for periodic payments upon satisfactory compliance with the terms of the contract. Contracts may be renegotiated at any time and are generally of a two or three year duration, and renewable thereafter. Projects are managed by the sponsoring group, with the Commission monitoring the operational and financial performance.

Payments:

Payments are made to project sponsors only, based on actual past and estimated future expenditures necessary to successful project operation. For the fiscal year 1980-81 total payments to all projects were \$10.2 million. The 1981-82 total expenditures were \$12.9 million, the expenditures for 1982-83 were \$14.9 million, and the expenditures for 1983-84 were \$18.6 million. The 1984-85 budget is \$21.2 million.

PROGRAMS FOR SPECIAL NEEDS REFUGEES

(Part of the Settlement Activity of the Immigration Program)

Administered By:

Settlement Branch, Immigration

Purpose:

The programs for Special Needs Refugees include the Handicapped and Tubercular Refugee programs, the Joint Assistance Program, and The Unaccompanied Minors Program. The objective of these programs is the admission and settlement of special needs refugees who, under normal circumstances, would not qualify for admission to

Canada but who, with some additional settlement assistance, are deemed capable of achieving self-sufficiency within a reasonable period of time. These programs permit a humanitarian response to the international requirement for the settlement of disadvantaged refugees.

Authority:

All four programs function in co-operation with the provinces and with private groups.

The four programs are carried out in Quebec under the terms of the Cullen-Couture Agreement and in Manitoba and Newfoundland under the terms of the Special Needs Refugees Agreements signed with those two provinces. In the case of the Unaccompanied Minors Program, there have been arrangements agreed to with the following provinces as well:

Alberta
 British Columbia
 New Brunswick
 Ontario

Time Frame:

These are continuing programs that were developed in the late 1970s at the time of the influx of Southeast Asian refugees.

Financing and Operation:

The federal government pays all transportation costs to the province of destination for certain special needs immigrants, as well as usual living expenses, until the individual or family unit is self-sustaining. The participating provinces provide any necessary treatment, including hospitalization, for refugees whom they agree to accept under the program. Private groups also undertake to provide special assistance as mutually agreed.

Payments:

Financial assistance is provided by the CEIC under its Adjustment Assistance Program (AAP) and the Transportation Loan Program.

QUEBEC IMMIGRATION OFFICERS ABROAD (CULLEN-COUTURE AGREEMENT)
(Part of the Recruitment and Selection Activity of the Immigration Program)

Administered By:
Immigration Group and Department of External Affairs.

Purpose:
The accord, which replaced the 1975 Andras-Bienvenue

Agreement, outlines the framework for overall co-ordination of the immigration program and allows the two governments to establish parallel sets of selection criteria. The Agreement delegates to Quebec the authority to select certain foreign nationals who wish to settle permanently or temporarily in Quebec, while respecting federal responsibilities for the admission of foreign nationals to Canada. In addition the Agreement establishes the consultative mechanisms necessary for the implementation and for other areas of common interest related to immigration and demography.

Authority:
General agreement signed by federal and Quebec Ministers, February 20, 1978.

Time Frame:
The Agreement was concluded for a period of three years, renewable on expiry by tacit understanding. In February 1981, the initial expiry date, it was felt by both parties that the Agreement was a satisfactory document and its continuation was thus agreed to. The Agreement may be terminated by either party at any time by giving six month's written notice.

Financing and Operation:
The Agreement provides for the presence of Quebec Immigration officers in Canadian diplomatic missions when accommodation within the mission is possible and is requested by Quebec. Quebec officers may also be established in separate premises or in a "Maison du Quebec" with the permission of the Department of External Affairs.

The cost of rental, local taxes, heating, lighting, maintenance and security of the space occupied by Quebec is recovered on a pro-rated basis by the federal government. The use of the services of office staff is charged for in a similar way. The Quebec Government is also responsible for the cost of its officers' telegraph and telephone communications.

Payments:
The federal government makes recoveries from Quebec for the costs noted above. The exact rates of payment are the subject of the individual "leases of tenancy" and depend on the location and extent of facilities provided to Quebec.

SPECIAL NEEDS REFUGEES AGREEMENT

(Part of the Recruitment and Selection and of the Settlement Activity of the Immigration Program)

Administered By:

Policy and Program Development and Settlement Branches of the Immigration Group and the responsible regional Immigration Directors of CEIC, together with provincial government representatives.

Purpose:

The letters of understanding signed with Manitoba and Newfoundland aim to facilitate the admission of handicapped, tubercular or unaccompanied minor refugees by consolidating all the activities that had been conducted separately or jointly by the federal and provincial governments on their behalf.

Authority:

Letters of understanding signed by federal Ministers with Manitoba Ministers, September, 1981 and Newfoundland Ministers, August, 1982.

Time Frame:

The agreements are effective for five years from date of signature, but may be terminated by either party at any time by giving one year's written notice.

Financing and Operation:

Both provinces will make a formal commitment for the admission of a specific number of special needs refugees each year, and the provincial and the federal governments, as well as any private groups who may be acting as sponsors

in any individual case, will contribute the necessary resources and services.

ANNUAL CONSULTATIONS ON IMMIGRATION LEVELS
(Part of the Recruitment and Selection Activity of the Immigration Program)

Administered By:

Policy and Program Development Branch, Immigration Group

Purpose:

To allow the federal government to solicit and obtain the advice of the provincial and territorial governments concerning the nature and size of the immigrant movement to Canada as well as measures to be undertaken to facilitate the adaptation of permanent residents to Canadian society.

Authority:

Sections 7 and 109 of the Immigration Act as well as Agreements signed at the ministerial level with the following provinces:

New Brunswick
Newfoundland
Nova Scotia
Prince Edward Island
Quebec
Saskatchewan

Time Frame:

This is a continuing program authorized under the Immigration Act 1976.

Financing and Operation:

The federal government provides the provinces with quarterly reviews and analyses of immigration statistics and annual background information upon which they can base their own input to the consultative process.

Department of Energy, Mines and Resources

The Department of Energy, Mines and Resources operates on the basis of three major programs: one covers the field of energy; another deals with matters relating to minerals and earth sciences, and the third, administration, provides common services to the department. To achieve these objectives the department's activities range through surveying, mapping, geology, geophysics, remote sensing, research and development of mining and metallurgical technology, economic analyses and policy analysis and development.

The objective of the energy program is to establish and maintain effective policies, strategies and programs for the supply and efficient use of energy resources, with due respect for other social and economic goals.

The objective of the minerals and earth sciences program is to ensure the timely availability of mineral policies, strategies and programs designed to maximize the contribution of minerals and metals sector to the Canadian economy, and to provide timely scientific knowledge, data, technologies and expertise in the earth — and mineral — related sciences, with emphasis on the mineral and energy resources of the Canadian landmass and offshore areas.

The Energy Program organization consists of: three sectors and two administrations: the Energy Policy Analysis Sector, the Conservation and Non-Petroleum Sector, the Petroleum Sector, the Canada Oil and Gas Lands Administration, and the Petroleum Incentives Administration.

The Energy Policy Analysis Sector is responsible for establishing federal energy policies, strategies and activities, with due regard to their economic, social, regional and environmental impacts, and to Canada's international energy relations.

The Petroleum Sector is responsible for ensuring the development, in an orderly fashion, of adequate and secure sources of petroleum to meet Canada's energy requirements.

The Conservation and Non-Petroleum Sector is responsible for encouraging energy conservation, oil substitution and the development of adequate and secure sources of non-petroleum energy and alternative fuels to meet Canada's energy requirements and export opportunities.

The Conservation and Non-Petroleum Sector participates with provincial governments in a number of programs that further the policy responsibilities of the Sector.

These include individual agreements with provinces directed to the development and demonstration of renewable

energy and energy conservation technologies. In the nuclear field, there is a Canada — Ontario program in spent fuel waste management. As far as electricity is concerned programs with the provinces of Manitoba, New Brunswick and Prince Edward Island provide for financial support, on the development of regional transmission systems, and the encouragement of electricity generation from non-oil sources. An agreement with Nova Scotia provides for the financial support of a number of oil substitution and conservation initiatives including several components relating to expansion of coal-fired generation in that province.

The Petroleum Incentives Administration actively contributes to increased Canadian ownership and control of the petroleum industry and the overall energy security of Canada by administration of the Canadian Ownership and Control Determination Act and the Petroleum Incentives Program Act.

The Canada Oil and Gas Lands Administration ensures the vigorous and responsible development of oil and gas resources on Canada Lands.

The Minerals and Earth Sciences Program organization consists of: the Mineral Policy Sector, the Earth Sciences Sector and the Research and Technology Sector.

The Mineral Policy Sector is responsible for establishing policies and strategies to ensure that the minerals and metals sector makes a maximum contribution to the economic well-being in Canada, and that the effective use of the resources is encouraged. The Sector advises on the implications of international mineral development, and assesses the economic, social, fiscal, corporate, regional and environmental impacts of alternative policies and strategies.

The Research and Technology Sector includes the Canada Centre for Mineral and Energy Technology, the Canada Centre for Remote Sensing, the Office of Energy Research and Development and the Explosives Branch.

The Canada Centre for Mineral and Energy Technology (CANMET) is responsible for ensuring the availability to Canada of optimum technology for the extraction, processing and utilization of mineral and energy resources.

The Canada Centre for Remote Sensing is responsible for improving remote sensing technology, facilitating the acquisition and dissemination of remotely sensed data and derived information needed for the management of Canadian natural resources and for the monitoring of human activity; and for assisting the development of the Canadian remote sensing industry.

The Office of Energy Research and Development ensures that Canada has the research and development policies, research and development programs and research capabilities to support national energy strategies.

The Earth Sciences Sector consists of the Geological Survey of Canada, Earth Physics Branch, Polar Continental Shelf Project and the Surveys and Mapping Branch.

The Geological Survey is responsible for ensuring the availability of comprehensive knowledge, technology and expertise pertaining to the geology of the Canadian landmass and offshore areas, including mineral and energy resources and conditions affecting land and sea-bed use, as required for effective exploitation of mineral and energy resources, effective use of land, estimation of the resource base of Canada, and formulation of policies.

The Geological Survey of Canada conducts a variety of projects to map, describe, and explain the geology of the whole of Canada including offshore areas. Provincial governments are consulted regarding those activities that are of interest to them. In the case of projects that bear upon or contribute to local or regional matters such as mineral or energy resource development or transportation, engineering construction projects, or environmental concerns, the provincial governments commonly cooperate or work jointly with the Geological Survey. Provincial participation may include cost-sharing of projects, exchange of information, or conducting certain aspects of the work directly.

The Geological Survey of Canada participates with all the provincial governments in the National Geological Surveys Committee. This Committee was established in 1979 for coordination of the work of geological surveys across Canada. Sub-committees, involving the GSC, are investigating opportunities for federal-provincial cooperative activities directed to:

- research in economic geology
- mineral exploration technology
- national geoscience standards.

The Earth Physics Branch ensures the availability of geophysical information and expertise concerning the solid earth, its physical processes and geophysical hazards, as required for public safety and security, and for the manage-

ment of the Canadian landmass and offshore areas.

The Earth Physics Branch at times cooperates with provincial governments or their agencies to accelerate the work within a certain region. Cooperative assistance is provided in the form of technical support or the provision of data, or other assistance. Six such projects are active at present relating to improved seismic coverage near the La Grande reservoir in James Bay (James Bay Energy Corporation), improved seismic coverage for the Manicouagan hydro-electric development and the Gentilly nuclear power plant complex (Hydro-Quebec), improved seismic coverage in the vicinity of the Darlington nuclear power plant (Ontario Hydro), and improved seismic coverage in Northern British Columbia and near McNaughton Lake behind the Mica Dam in Southeast British Columbia (B.C. Hydro and Power Authority). The Branch also cooperates with the Ontario Geological Survey and the Nova Scotia Department of Mines and Energy in the provision and reduction of gravity data, and with B.C. Hydro in the interpretation of seismograms of three regional stations in northern B.C.

The Polar Continental Shelf Project contributes to the orderly scientific investigation of Canada's polar continental shelf, the contiguous Arctic Ocean and mainland regions, and maintains and improves the logistics required for scientific investigations in an Arctic environment.

The Surveys and Mapping Branch ensures the acquisition, maintenance and availability of geodetic, topographical, and geographical information throughout Canada, and the development and maintenance of cadastral frameworks for Canada Lands, as required for effective resource management, engineering works, urban development, transportation, defence, public safety, land use and demarcation, and the allocation of legal interests in land.

The Surveys and Mapping Branch works closely with provincial governments and agencies to coordinate federal and provincial programs and to ensure an information exchange on activities of mutual interest. The Canadian Council on Surveying and Mapping a federal-provincial body, provides a forum for the exchange of ideas on surveying and mapping program direction and priorities. As well, its meetings allow for discussion on the advances of technology and the airing of concerns.

Energy Sector**CANADA — NOVA SCOTIA AGREEMENT ON OIL
SUBSTITUTION AND CONSERVATION****Administered By:**

Conservation and Non-Petroleum Sector.

Purpose:

To diminish Nova Scotia's dependency on imported oil for electrical energy generation by:

- (1) the increased use of coal as a fuel for the generation of electrical energy,
- (2) the increased use of renewable resources,
- (3) improving efficiency in existing energy generation and distribution systems to conserve energy usage and reduce energy losses,
- (4) upgrading transmission systems to facilitate availability of electrical energy generated outside the province, and
- (5) undertaking other research and demonstration projects designed to reduce consumption of oil or conserve energy usage.

Authority:

Order in Council 1977-7/913 and a federal-provincial agreement signed March 31, 1977.

Time Frame:

The agreement is in effect from March 31, 1977 to March 31, 1987.

Financing and Operation:

Canada established a fund of \$9.2 million which may be used by the province of Nova Scotia for the purpose of this program.

Payments:

The program is being managed by a management committee comprised of representatives of the two governments.

For Further Information:

Officer Responsible:

Mrs. Nancy Mitchell
Director, Coal Division
Conservation and Non-Petroleum Sector
Department of Energy, Mines and Resources
460 O'Connor Street
Ottawa, Ontario
K1S 5H3

**CANADA — MANITOBA — NELSON RIVER
TRANSMISSION AGREEMENT (1966)****Administered By:**

Conservation and Non-Petroleum Sector.

Purpose:

To provide funds for construction of a transmission line to assist Manitoba in developing the hydroelectric power resources in the northern part of the province.

Authority:

Agreement entered into February, 1966 and amended March, 1978.

Time Frame:

The project in-operation date was December 31, 1973. Repayment by Manitoba of the line cost began in April, 1974, and will terminate in April, 2019.

Financing and Operation:

The transmission line was constructed for, and is owned by Canada. Manitoba is purchasing it over a 45 year period from the in-operation date. Administration of the Agreement was transferred from Atomic Energy of Canada Limited to EMR in 1978. The Nelson River Review Board, consisting of three federal and three provincial members, meets as necessary to review operation of the Agreement. The Board issues an annual report.

Payments:

The capital cost of the line was \$245 million. Payments are made annually on a fixed schedule.

For Further Information:

Officer Responsible:

Mr. P.C. Lee
Conservation and Non-Petroleum Sector
Department of Energy, Mines and Resources
460 O'Connor Street
Ottawa, Ontario
K1S 5H3

**CANADA — MANITOBA — NELSON RIVER
TRANSMISSION AGREEMENT (1977)****Administered By:**

Conservation and Non-Petroleum Sector.

Purpose:

Loans to assist in the installation of additional high voltage AC-DC converter equipment to increase to its design limit the capacity of the Nelson River DC transmission system that extends from hydro generating sites on the Nelson

River in northern Manitoba to a terminal station near Winnipeg.

Authority:

Cabinet decision on loans for regional electrical grid interconnections, subject to approval of estimates. Agreement entered into March, 1977 and amended February 1978.

Time Frame:

The work has started and is scheduled for completion in 1992.

Financing and Operation:

The total cost of the project is estimated to be \$611 million. Cabinet has approved loans to a maximum of \$193.2 million representing 50% of the total cost of the new installations excluding the installed cost of equipment being supplied under a contract relating to the supply and installation of certain specialized converters and related auxiliary equipment. Total federal loans are currently estimated at \$193.2 million.

Payments:

The first instalment of \$59.6 million was paid to Manitoba in March, 1977. Further instalments totalling \$73.4 million have been paid to March 31, 1984. A payment of \$3.4 million has been made in October 1984.

CANADA — NOVA SCOTIA LOW-HEAD HYDRO DEMONSTRATION

Administered By:

Conservation and Non-Petroleum Sector.

Purpose:

To improve prospects for reducing dependence on oil for electricity generation and for harnessing undeveloped hydraulic and tidal power, and to demonstrate an improved design of water turbine and generator in low-head applications in Canada and abroad, through provision of grants toward the costs of a demonstration project.

Authority:

Order in Council of July 25, 1980 (P.C. 1980-314). Agreement signed with Tidal Power Corporation on January 28, 1980.

Time Frame:

The project was placed in-service on August 11, 1984. Grants paid in fiscal years 1980-81 and 1981-82.

Financing and Operation:

The total cost of the project is estimated at \$59 million of which \$25 million has been provided in the form of contributions by the federal government. Part of the balance represented the estimated energy benefits to Nova Scotia. A Technical Advisory Committee with membership from four provincial electric utilities and three federal departments with E.M. Warnes of EMR as chairman is to provide advice to Tidal Power Corporation and to disseminate information gained from the demonstrations.

Payments:

A contribution of \$12.5 million was paid in fiscal years 1980-81 and \$12.5 million in 1981-82.

CANADA — PRINCE EDWARD ISLAND UNDERWATER CABLE AGREEMENT

Administered By:

Conservation and Non-Petroleum Sector.

Purpose:

To reduce oil consumption and costs for electric generation in Prince Edward Island by providing a grant and loans for constructing transmission cables from mainland to enable delivery of lower cost non oil-fired electrical energy.

Authority:

Cabinet decision on loans for regional interconnections. Order in Council dated October 6, 1977. Agreement with Prince Edward Island dated October 6, 1977.

Time Frame:

Project in-operation date and loan consolidation date was December 31, 1978. Loans at Crown corporation rates were advanced in fiscal years 1977-78 and 1978-79 and are due to be repaid in equal annual instalments over a 30-year period ending 2008.

Financing and Operation:

Normal provisions of the regional interconnection policy would be to provide loans at 50% of estimated capital cost. However, in view of Prince Edward Island's limited financial capability, a DREE grant of 50% of the project cost of \$36 million was made available in addition to an EMR loan of 50% of the remaining cost. Beginning April, 1977, the province is to provide audited statements of capital costs and of grants every six months. Each year it will also provide relevant financial and operational information and

statistics regarding the interconnection and describing actions taken to comply with Section 10 of the Agreement on regional co-operation.

Payments:

DREE grant of \$18 million was paid to Prince Edward Island. EMR loans of \$8 million and \$1 million were advanced in fiscal years 1977-78 and 1978-79.

COLESON COVE COMPENSATION AGREEMENT

Administered By:

Conservation and Non-Petroleum Sector.

Purpose:

To provide contributions to compensate the New Brunswick Electric Power Commission for losses which it incurs under a contract to supply electricity to Maine electric utilities, as a result of changes made by Canada for compensation paid on imported oil used for electricity generation.

Authority:

Order in Council P.C. 1980-3499 of December 18, 1980.

Time Frame:

Payments will be made to the New Brunswick Electric Power Commission (NBEPCC) as necessary, up to a maximum of \$25 million in any one year, from January, 1981 to December, 1985.

Financing and Operation:

Payments are made monthly based on NBEPCC estimate of the losses which they incur at the Coleson Cove Generation Station as a result of action by Canada in changing eligibility of compensation payments on imported oil used for electricity generation.

Payments:

The maximum amount of contributions made under this arrangement in any one year is \$25 million. Amounts paid have been \$2.9 million in 1980-81, \$13.7 million in 1981-82, \$21.3 million in 1982-83, and an estimated \$19.3 million in 1983-84, with the total to date at \$57.2 million.

COLESON COVE STUDY AGREEMENT

Administered By:

Conservation and Non-Petroleum Sector.

Purpose:

Under the National Energy Program a "Utility Off-Oil Fund" was established to provide grants to meet a proportion of the cost of environmentally acceptable conversions of oil-fired electricity plants to coal. The purpose of the current Agreement is to assist New Brunswick to meet the cost of a study to assess the economic, financial and environmental possibilities of converting the 1,000 MW Coleson Cove plant, by providing a grant to meet part of the study costs.

Authority:

Treasury Board approval (T.B. 777059) in principle of \$2 million for the Fund and immediate release of \$910,000 for the study in fiscal year 1981-82 was received on June 4, 1981. Order in Council dated May 28, 1981. Agreement with New Brunswick Electric Power Commission dated July 31, 1981.

Time Frame:

The Study has been on-going since January 1981. Completion of the final phase was held up until justification could be confirmed. It is now expected that a final report on feasibility of the conversion will be made available in the spring of 1985.

Financing and Operation:

Federal payments of 75% of eligible study costs estimated at \$1.2 million as defined in the agreement are to be made available after receipt of invoices submitted by the Commission. Apart from the final report on the study, a report is to be made to the Treasury Board on the economic implication of the Fund and its relationship to overall energy strategy for Atlantic Canada, prior to consideration of funding specific projects to be undertaken from the Fund, including the Coleson Cove Project.

Payments:

Federal funds of about \$240,000 were disbursed during fiscal year 1981-82. \$87,000 were spent in 1983-84 and it is expected that the balance of \$580,000 will be disbursed in 1984-85.

**CANADA — ONTARIO IRRADIATED FUEL WASTE
 MANAGEMENT AGREEMENTS**

Administered By:

AECL Whiteshell Nuclear Research Establishment

Purpose:

To provide an agreed basis for the development of storage, transportation, immobilization and disposal technology for irradiated nuclear fuel wastes.

Authority:

- Atomic Energy Control Act, 1946
- Cabinet Decision No. 571-77RD of December 1, 1977
- Cabinet Decision No. 141-81RD of April 2, 1981
- Cabinet Decision No. 564-83RD of December 12, 1983
- June 5, 1978, Joint Press Release, Mr. Gillespie (EMR), Mr. Baetz (Ontario Ministry of Energy)
- August 4, 1981, Joint Press Release, Mr. Lalonde (EMR), Mr. Welch (Ontario Ministry of Energy)

Time Frame:

A ten-year generic R&D program to demonstrate the safety of a disposal concept by March, 1991, has been agreed. Under this R&D program, Ontario Hydro will develop storage and transportation methods and AECL will develop immobilization and disposal methods. The agreed process for acceptance of the final concept assessment reports due in 1988 will involve regulatory comment, public hearings and a statement from the Atomic Energy Control Board. The process will be completed when the federal and Ontario governments accept the feasibility of the disposal concept. Selection of a site for a commercial disposal facility cannot be started until after government acceptance of feasibility.

Financing and Operation:

Ontario Hydro fund their work on storage and transportation and contribute voluntarily \$1 to 2 million a year to the AECL program. AECL's budget (averaging \$37 million a year) has been approved in principle for completion, with a further review required in 1986. 40% of the funding for the first six years was provided from the Energy Envelope, the remainder from AECL's research budget.

AECL issue annual reports and their program is subjected to annual review by an independent Technical Advisory Committee of distinguished scientists. AECL has produced their first interim Concept Assessment Report and the AECB has produced its first draft regulatory guidelines.

Two federal-provincial committees monitor this work:

- 1) a Co-ordinating Committee with two provincial and three federal members;
- 2) a Policy Committee with the Ontario Deputy Minister of Energy and the Associate Deputy Minister of EMR as members.

Payments:

Federal funds expended on this program should be recoverable in spin-off benefits and in fees for commercial disposal.

**CANADA — ONTARIO MEMORANDUM OF
 UNDERSTANDING ON MALVERN RADIOACTIVELY
 CONTAMINATED SOIL**

Administered By:

AECL Low Level Radioactive Waste Management Office

Purpose:

To formalize the co-operative arrangements for removal and storage of the Malvern waste.

Authority:

Atomic Energy Control Act, 1946.
 Cabinet Decision No. 370-82 RD of August 10, 1982.
 Memorandum of Understanding signed by Mr. Chrétien for Canada and Mr. Wells for Ontario issued November 7, 1983.

Time Frame:

- Phase 1 — Removal of waste to Ontario storage site to commence as soon as possible.
- Phase 2 — Removal from storage to federal disposal site to be completed before ten-year lease of site expires.

Financing and Operation:

Costs for removal and disposal are a federal responsibility; costs for storage and extra transportation are a provincial

responsibility. Initial Estimate for Phase 1 — approximately \$400,000 federal cost. The AECL Office will supervise the work. A co-ordinating committee with two federal and two provincial representatives is set up to administer the task.

CANADA — BRITISH COLUMBIA MEMORANDUM OF UNDERSTANDING ON SURREY, B.C. RADIOACTIVELY CONTAMINATED SOIL

Administered By:

AECL Low Level Radioactive Waste Management Office

Purpose:

To formalize the cooperative arrangement for removal and disposal of the Surrey waste.

Authority:

Atomic Energy Control Act 1946.
Cabinet Decision No. 370-82 RD of August 10, 1982.
Memorandum of Understanding signed by Mr. Chrétien for Canada and Mr. Brummet for British Columbia in June 1984.

Time Frame:

Agreement to dispose of the material by 1989.

Financing and Operation:

The costs for removal, storage and disposal are a federal responsibility. British Columbia agrees to support the actions of the AECL Office, participate in site selection and evaluation, provide approvals necessary for storage or disposal siting and cooperate in any related court proceedings. Initial estimate is approximately \$1 million. The AECL Office will supervise the work. A coordinating committee with two federal and two provincial representatives is set up to administer the task.

CANADA — NOVA SCOTIA ENERGY CONSERVATION SUBSIDIARY AGREEMENT

Administered By:

Conservation and Non-Petroleum Sector

Purpose:

To act jointly with the province to implement projects for energy conservation opportunities.

Authority:

Canada — Nova Scotia Subsidiary Agreement on Energy Conservation, July 4, 1978, and Treasury Board Submission 785245, approved November 25, 1982.

Time Frame:

The Subsidiary Agreement terminates March 31, 1984, with a clean-up year ending March 31, 1985.

Financing and Operation:

The Subsidiary Agreement consists of two (2) programs, Energy System Planning and Energy Opportunities. The programs provide, through contributions to the province, grants for: consulting studies, demonstration and pilot projects, energy bus audits and industrial retrofits.

Payments:

The federal government contributes 50% of the eligible costs of any project approved under the Energy System Planning Program and 80% of similar costs of any project approved under the Energy Opportunities Program.

HYDRO-QUEBEC RESEARCH INSTITUTE

Administered By:

Conservation and Non-Petroleum Sector.

Purpose:

To assist the Institute through the provision of capital loans and operating grants to meet as effectively as possible the needs of the Canadian electrical industry, including electrical utilities, electrical and government bodies, by providing access to the research and testing equipment and skilled

personnel capable of conducting investigations into equipment performance, materials and techniques required for the most effective, economic and reliable methods of generating, distributing and utilizing electrical energy, and to ensure effective dissemination of research results.

Authority:

Order in Council of July 3, 1970.

Agreement signed with Quebec and Hydro-Quebec on July 6, 1970.

Time Frame:

Loans at Crown corporation rates were provided in fiscal years 1970-71 through 1973-74, were consolidated in 1974 and are being repaid in 25 equal annual instalments in years 1975 through 1999. Ten annual grants were made in years 1972 through 1981. The Agreement provides for review in 1985.

Financing and Operation:

The program is administered by a Review Board consisting of 3 members appointed by the federal government and 3 members appointed by Quebec on the recommendation of Hydro-Quebec. In addition, there is a Technical Advisory Committee composed of 19 members.

- 4 appointed by Canada
- 4 appointed by Quebec
- 4 appointed by Hydro-Quebec
- 4 nominated by the Canadian Electrical Association
- 3 nominated by the Canadian Electrical Manufacturers Association

Mr. C. Marriott is EMR's representative on the Review Board and Mr. E.M. Warnes is EMR's representative on the Technical Advisory Committee. The Review Board is to report annually.

Payments:

Loans totalling \$17.5 million were advanced over a four-year period. Annual grants of \$325,000 were paid over a ten-year period.

LOWER CHURCHILL DEVELOPMENT CORPORATION (LCDC)

Administered By:

Conservation and Non-Petroleum Sector.

Purpose:

To establish a basis for the development of all or part of the hydroelectric potential of the Lower Churchill River Basin in Labrador.

Authority:

Cabinet decision No. 543-78RD of November 24, 1978 gave approval for Canada to enter into an agreement with Newfoundland to establish the corporation. An agreement to establish the corporation was signed with Newfoundland on the same day.

Time Frame:

During the period 1979 to June 1980, LCDC performed a project feasibility study. In July 1980 the Board recommended to its shareholders proceeding with the Muskrat Falls project. The shareholders have not yet decided on whether to proceed with a project, pending the outcome of court cases by which Newfoundland is attempting to obtain access to all or part of the Churchill Falls plant.

Financing and Operation:

LCDC is a Provincial-Federal Crown corporation, owned 51% by Newfoundland and 49% by Canada. To August, 1981, Canada has provided equity of \$14.75 million, while Newfoundland has provided equity of \$15.4 million. LCDC prepares forecasts of the monthly cash flow requirements, and publishes an annual report.

Payments:

It is expected that Canada will receive no payments on the funds which it has provided for LCDC until a project has been in operation for some time, or until Canada sells its shares in the corporation.

NOVA SCOTIA — NEW BRUNSWICK INTERCONNECTION

Administered By:

Conservation and Non-Petroleum Sector.

Purpose:

To provide loans to assist in capital costs for the reinforcement of an electrical transmission interconnection between Nova Scotia and New Brunswick.

Authority:

Cabinet decision on loans for regional interconnections. Agreements were signed with New Brunswick on February 10, 1978 and Nova Scotia on March 31, 1978.

Time Frame:

The project was placed in service in June 1980.

Expiry dates are:

New Brunswick — annual loan repayments until 2011

Nova Scotia — annual loan repayments until 2009

Financing and Operation:

Normal provisions of the regional interconnection policy would be to provide loans at Crown corporation rates of 50% of estimated capital costs. Since New Brunswick expected no benefit from the interconnection until 1981 special provision was made to lend 100% of the cost, 50% of which was repaid with interest late in 1980. The Nova Scotia loans are on a normal 50% basis.

Payments:

Total loans to New Brunswick were \$10 million of which \$7.2 million was advanced in 1977-78; the balance in 1978-79. As indicated above, New Brunswick repaid \$5 million plus interest on April 1, 1981. Total loans to Nova Scotia were \$2.6 million of which \$0.6 million was advanced in 1977-78, \$1.3 million in 1978-79, \$0.9 million in 1979-80 and 0.2 million in 1980-81.

POINT LEPREAU ADDITIONAL FINANCIAL SUPPORT**Administered By:**

Conservation and Non-Petroleum Sector.

Purpose:

Under the terms of the 1975 Agreement between AECL, New Brunswick and New Brunswick Power, loans of \$350 million at Crown corporation rates were advanced to N.B. Power to cover 50% of the then estimated cost of \$684 million of the 630 MW Lepreau No. 1 nuclear generating unit. Since the original cost estimates were made, the expected completion date of the project has been delayed from 1980 to 1982 and the project cost has escalated to \$1.25 billion. In keeping with the goal of reducing oil dependence in the Maritimes and in view of the limited financial base of New Brunswick Power it was decided to provide additional federal financial assistance for the construction and operation of the unit.

Authority:

Cabinet decision on assistance to first nuclear unit in each province and on additional assistance for Point Lepreau.
Treasury Board decision of May 23, 1981.

Orders in Council of May 28, 1981.

Agreement Canada/New Brunswick/New Brunswick Power dated May 28, 1981.

Time Frame:

The project in-service date of January 31, 1983 triggered repayment of the \$350 million loan in 25 annual instalments, each of some \$38 million and will also trigger the commencement of N.B. Power's eligibility for loans at Crown corporation rates based on the unit's performance during the first 10 years of operation, with loans to be repaid with accrued interest during the subsequent 10 years.

Financing and Operation:

Under the terms of the arrangements concluded with New Brunswick and N.B. Power on May 28, 1981, interest already paid on the \$350 million AECL loan by N.B. Power in 1980 was forgiven and the terms and conditions of the original loan were amended to provide that interest on the loan would not accrue or be payable until the earlier of the in-service date or October 8, 1982, subject to adjustment for any net output produced by the unit during this period. In addition, the 1981 Agreement provided for loans of up to \$48.75 million per year with a maximum draw down of \$130 million to be made available to N.B. Power depending upon the availability of the unit, during its first ten years of operation. Then loans would be based on increments of \$650,000 for each percent that unit availability falls below 75%. Repayment would be on the same terms in years when availability exceeded 75%. The balance of loans and accumulated interest would be repayable in the 11th through 20th year of operation. Loan amounts would be adjusted proportionally for exports from the units exceeding 200 MW.

Payments:

The original AECL loans were advanced during the period February 9, 1976 to August 9, 1979. The loan plus accrued interest was deemed to reach its maximum of \$350 million on October 9, 1979. An amount of some \$33 million, representing forgiveness of interest already paid by N.B. Power in 1980 was paid to N.B. Power on May 28, 1981. Unit in-service was January 31, 1983.

CANADA ENERGY AUDIT PROGRAM**Administered By:**

Conservation and Non-Petroleum Sector.

Purpose:

In cooperation with the provinces, to assist companies to identify areas of energy waste and implement projects to improve energy efficiency.

Authority:

Treasury Board Submission No. 775215. Approved February 5, 1981.

Treasury Board Submission Nos. 7930 46/47/48/49/50/51/52 approved March 29, 1984.

Time Frame:

Of the eight initial agreements, four (those with the provinces of British Columbia, Prince Edward Island, Manitoba and Saskatchewan) terminated on March 31, 1984 with a clean-up period ending September 30, 1984. The agreement with the province of Nova Scotia also terminated on March 31, 1984 but it contained a clean-up year ending March 31, 1985. Our agreements with three provinces, Newfoundland, New Brunswick and Quebec were amended and extended to September 30, 1984 with a clean-up period ending March 31, 1985.

Financing and Operation:

To qualify, a firm must have an annual energy bill above a specified amount. The Federal-Provincial Management Committee for each province must decide on the lower limits depending on industrial structure in the province.

The program provides, through contributions to the provinces, energy bus audits, grants for consultant advice and technical seminars. It extends the support provided under the National Energy Bus Program under which all provinces had signed agreements.

Payments:

The federal government will provide funds on the basis of an 80/20 sharing ratio with the provinces.

DEVELOPMENT AND DEMONSTRATION OF RENEWABLE ENERGY AND ENERGY CONSERVATION TECHNOLOGIES

Administered By:

Conservation and Non-Petroleum Sector

Purpose:

In cooperation with the provincial governments of British Columbia, Saskatchewan, Manitoba, Ontario, Newfoundland, New Brunswick, Northwest Territories and Yukon, to demonstrate new conservation and renewable energy technologies and to accelerate their widespread development.

Authority:

Treasury Board Submission No. 764747 Approved May 2, 1979 B.C.

Treasury Board Submission No. 767417 Approved Nov. 8, 1979 Sask.

Treasury Board Submission No. 770203 Approved Apr. 11, 1980 Man.

Treasury Board Submission No. 764320 Approved Apr. 11, 1979 Ont.

Treasury Board Submission No. 767910 Approved Nov. 29, 1979 N.B.

Treasury Board Submission No. 763931 Approved Mar. 29, 1979 Nfld.

Treasury Board Submission No. 769358 Approved Feb. 7, 1980 Yukon

Treasury Board Submission No. 769357 Approved Feb. 7, 1980 N.W.T.

Treasury Board Submission No. 793346 Approved May 31, 1984.

Time Frame:

All Agreements are closed as of March 31, 1984. Except for British Columbia and Saskatchewan, these agreements were amended to permit a one year down period.

Financing and Operation:

Treasury Board approved expenditures of \$113 million over 5 years, to be supplemented by provincial contributions. The federal share will be matched on a 50-50 basis in Ontario (for a total of \$58 million) British Columbia (\$27 million), Saskatchewan and Manitoba (each total \$18 million). In Newfoundland and New Brunswick the federal share of \$9 million will be 80% (\$11.25 million in total for each). The Northwest Territories will have a federal contribution of \$2.5 million which is 75% of each Agreement.

The Agreements provide for the review of plans and budgets and the selection of projects, by a Management Committee consisting of two representatives from Department of Energy, Mines and Resources and two from the province.

Payments:

Quarterly itemized accounts of all expenditures incurred are submitted by the provinces to Canada for reimbursement.

**ALTERNATIVE ENERGY DEVELOPMENT PROGRAM
CANADA — PRINCE EDWARD ISLAND ERDA SUB-
AGREEMENT****Administered By:**

Conservation and Non-Petroleum Sector

Purpose:

In cooperation with the government of Prince Edward Island, the purpose of this initiative is to promote the increased use of indigenous biomass energy sources and thereby stimulate local economic development and help alleviate the high cost of energy.

Authority:

Treasury Board Submission No. 794072, Approved May 31, 1984.

Time Frame:

The Agreement is in effect until March 31, 1989. A one year wind-down is also part of this initiative.

Financing and Operation:

Canada and Prince Edward Island have agreed each to undertake separate yet complementary bioenergy initiatives which include support for: the conversion of existing or establishment of new industrial, commercial and institutional energy systems to wood, or other biomass waste, the development of a fuel supply infrastructure, the development of residential wood chip burner technology and studies evaluating energy alternatives for Prince Edward Island as well as the feasibility of establishing a district heating plant for Charlottetown. Canada has agreed to spend \$8 million over 5 years and Prince Edward Island, \$2 million. A four-member management committee is responsible for the general administration and management of the program.

Payments:

Each party will make payments for which it is responsible as outlined in the Agreement.

Energy Policy Analysis Sector

Purpose:

To amend the Agreement on matters relating to the pricing and taxation of crude oil, natural gas and synthetic crude oil and natural gas liquids produced in Alberta.

Authority:

Agreement signed by the Minister of Energy, Mines and Resources, Government of Canada, and the Minister of Energy and Natural Resources, Government of Alberta, June 30, 1983.

Time Frame:

The term of the Agreement commences July 1, 1983 and expires on December 31, 1984, except as otherwise provided in the Agreement.

Financing and Operation:

The revenue-sharing estimates for the Government of Canada, the Government of Alberta and the petroleum industry are set out in the Agreement.

For Further Information:

Officer Responsible:

Mr. Len Good
Assistant Deputy Minister
Energy Policy Analysis Sector
Department of Energy, Mines and Resources

MEMORANDUM OF AGREEMENT BETWEEN THE GOVERNMENT OF CANADA AND THE GOVERNMENT OF ALBERTA RESPECTING GAS PRICING AND MARKET DEVELOPMENT INCENTIVE PAYMENTS

Administered By:

Energy Policy Analysis Sector

Purpose:

To set out greater detail on the pricing of Alberta produced gas and the making of market development incentive payments, in keeping with the Agreement of September 1, 1981.

Authority:

Canada — Alberta Memorandum of Agreement November 25, 1981.

Time Frame:

November 1, 1981 to January 31, 1987 unless otherwise provided in the Agreement.

Financing and Operation:

The revenue sharing estimates for the Government of Canada, the Government of Alberta, and the petroleum industry are set out in the Agreement.

For Further Information:

Mr. Len Good
Assistant Deputy Minister
Energy Policy Analysis Sector
Department of Energy, Mines and Resources
580 Booth Street
Ottawa, Ontario

AGREEMENT BETWEEN THE GOVERNMENT OF CANADA, THE GOVERNMENT OF SASKATCHEWAN, THE GOVERNMENT OF ALBERTA AND HUSKY OIL ON BI-PROVINCIAL UPGRADER AND FIELD DEVELOPMENT

Administered By:

Energy Policy Analysis Sector, EMR Alberta Energy and Natural Resources Department of Energy and Mines, Saskatchewan

Purpose:

To proceed with Husky Oil Ltd.'s bi-provincial heavy oil upgrader and field development project, near Lloydminster, on the Alberta — Saskatchewan border.

Authority:

Canada — Saskatchewan — Alberta Husky Oil Ltd. Agreement signed on June 3, 1984.

Time Frame:

The development of adequate sources of feedstocks and the construction of the upgrader will involve capital expenditures of \$23 billion over the next five years, and \$5.1 billion over the life of the project.

Financing and Operation:

Details of the loan guarantees, grants, pricing and fiscal assistance provided by the Governments of Canada, Saskatchewan and Alberta are contained in the Agreement.

For Further Information:

Mr. Len Good
Assistant Deputy Minister
Energy Policy Analysis Sector
Department of Energy, Mines and Resources
580 Booth Street

**AGREEMENT BETWEEN CANADA AND ALBERTA AND
AMOCO CANADA PETROLEUM COMPANY LIMITED ON
ELK POINT OIL SANDS PROJECT**

Administered By:
Energy Policy Analysis Sector, EMR Alberta Energy and
Natural Resources

Purpose:
To establish fiscal and royalty terms for a thermal oil sands
recovery project to be undertaken by Amoco Canada Pe-
troleum near Elk Point, about 165 km. east of Edmonton.

Authority:
Canada — Alberta — Amoco Agreement signed February
24, 1984.

Time Frame:
During 1984, Amoco will drill 60 wells, construct a steam
injection facility, and a crude oil cleaning facility. Esti-
mated expenditures by Amoco for this first phase are ex-
pected to be \$50 million. From there, the scope of the
project is dependent on the operator's periodic assess-
ments of technical and economic feasibility.

Financing and Operation:
Details of the financing and operation are contained in the
Agreement.

For Further Information:

Mr. Len Good
Assistant Deputy Minister
Energy Policy Analysis Sector
Department of Energy, Mines and Resources

**AGREEMENT BETWEEN THE GOVERNMENT OF
CANADA AND THE GOVERNMENT OF ALBERTA AND
SHELL CANADA PEACE RIVER OIL SANDS PROJECT**

Administered By:
Energy Policy Analysis Sector, EMR Alberta Energy and
Natural Resources

Purpose:
To specify royalty and fiscal terms for the company's pro-
posed 1600 cubic metre per day (10,000 barrel per day)
Peace River Oil Sands project.

Authority:
Canada — Alberta — Shell Agreement signed on July 9,
1984.

Time Frame:
The term of the Agreement commences on November 1,
1981 and ends on January 31, 1987.

Financing and Operation:
The estimated initial cost is \$200 million, which will involve
drilling and completion of approximately 200 wells and
expansion of steam generation and production facilities.
Replacement wells and field facilities over the 30-year life
of the project would involve an additional investment.

CANADA — SASKATCHEWAN HEAVY OIL FOSSIL FUEL RESEARCH, DEVELOPMENT AND DEMONSTRATION (R. D&D) PROGRAM (1981)

Administered By:
Petroleum Sector

Purpose:

To encourage the research, development and demonstration of new technologies that facilitate the expanded production and use of Saskatchewan's fossil fuel resources, with particular emphasis on heavy oil and lignite coal.

Authority:

Canada — Saskatchewan Memorandum of Understanding October 26, 1981 and Order in Council P.C. 1983-5-2948 (T.B. Rec. 789905).

Time Frame:

The program starts in fiscal year 1983-84 and terminates in fiscal year 1987-88.

Financing and Operation:

A four-member management committee reviews and selects for total or partial funding, fossil fuel research projects and industrial proposals for enhanced oil recovery pilot projects. Saskatchewan and Canada agreed to share equally the costs of this program, each to contribute \$15 million over five years.

Payments:

Saskatchewan submits, quarterly, an itemized account of all expenditures on behalf of Canada.

Status:

Total funds remaining under the Agreement are \$30 million. EMR has budgeted \$1.75 million as Canada's share in fiscal year 1983-84 for the support of industrial proposals and research activities conducted by the R&D Lab. The R&D Lab. has been separated from Saskoil as of April 1, 1983 and is currently conducting R&D activity related to fossil fuels under this Agreement.

For Further Information:

Officer Responsible:

CANADA — SASKATCHEWAN HEAVY OIL PROGRAM

Administered By:
Petroleum Sector

Purpose:

To augment the recoverable oil resources of Saskatchewan.

Authority:

Order in Council and a Canada — Saskatchewan Agreement October 4, 1976, P.C. 1976-1-2291.

Time Frame:

The program started in 1976, contains no termination date.

Financing and Operation:

A four-member management committee reviews and selects for partial funding, industrial proposals for enhanced oil recovery pilot projects. The cost of the program is shared 50/50 between Canada and Saskatchewan, with the federal commitment not to exceed \$8.111 million. Total funding under the Agreement until July 1983 was \$11,029,065.2 of which the federal share was \$5,514,532.6.

Payments:

Saskatchewan submits, quarterly, an itemized account of all expenditures on behalf of Canada.

Status:

Total remaining funds under the Agreement are \$5,192,426 out of which \$1,088,898 are committed for the support of the R&D Lab for calendar year 1983. The R&D Lab. has been separated from Saskoil as of April 1, 1983 and is currently conducting R&D activity in the area of heavy oil under this Agreement.

CANADA — NOVA SCOTIA AGREEMENT ON OFFSHORE OIL AND GAS RESOURCE MANAGEMENT AND REVENUE SHARING

Administered By:

Canada Oil and Gas Lands Administration (COGLA) under the direction of the Canada — Nova Scotia Offshore Oil and Gas Board.

Purpose:

To set out agreed matters relating to the resource management and revenue sharing of oil and gas offshore Nova Scotia.

Authority:

Canada — Nova Scotia Agreement signed by the Prime Minister of Canada and the Premier of Nova Scotia, March 2, 1982 and the Canada — Nova Scotia Oil and Gas Agreement Act which was proclaimed on July 28, 1984.

Time Frame:

The term of the Agreement commences on March 1, 1982

and is intended to last for at least forty-two years, except as otherwise provided in the Act.

Financing and Operation:

The mechanism for sharing the revenue flowing to governments from offshore resources is set out in the Act.

For Further Information:

Officer Responsible:

Mr. Maurice Taschereau
Administrator
Canada Oil and Gas Lands Administration
Department of Energy, Mines and Resources
355 River Road
Ottawa, Ontario

REMOTE SENSING ENHANCEMENT PROGRAM IN MANITOBA

Administered By:

Research and Technology Sector

Purpose:

To demonstrate the value of Remote Sensing Techniques for the Management of Manitoba's natural resources.

Authority:

Memorandum of Understanding signed in November 1982.

Time Frame:

The program was of twenty (20) months duration and terminated on June 19, 1984.

Financing and Operation:

There was no transfer of funds; each party financed their components of the program for which they were responsible. Expenditures for the fiscal year 1982-83 were about \$38,000 by EMR and \$80,000 by Manitoba. Expenditures for 1984-85 were approximately \$16,000 by EMR and \$30,000 by Manitoba.

For Further Information:

Officer Responsible:

Mr. J.D. Heyland
Applications Technology Division
Canada Centre for Remote Sensing
Department of Energy, Mines and Resources
717 Belfast Road
Ottawa, Ontario

REMOTE SENSING ENHANCEMENT PROGRAM IN THE MARITIMES

Administered By:

Research and Technology Sector

Purpose:

To demonstrate the value of Remote Sensing Techniques for managing natural resources in the Maritime Provinces.

Authority:

Memorandum of Understanding signed in April 1983.

Time Frame:

The program was of ten (10) months duration and terminated on March 31, 1984. An extension of the program to March 31, 1985 is being negotiated.

Financing and Operation:

There is no transfer of funds; each party finances their components of the program for which they are responsible. Expenditures for 1983-84 were approximately \$150,000 by EMR and \$279,800 by the Maritime Provinces. Forecast expenditures for 1984-85 are approximately \$125,000 by EMR and \$239,200 by the Maritime Provinces.

ALBERTA — CANADA ENERGY RESOURCES RESEARCH FUND

Administered By:

Research and Technology Sector

Purpose:

To provide funds to support research on energy-related projects proposed by or acceptable to Alberta. The objective is the development or improvement of recovery, production, utilization and conservation technologies with respect to Alberta's fossil fuels excluding oil sands and heavy oil; the development and utilization of renewable energy resources; and the strengthening of scientific and engineering expertise in Alberta's institutional, university and private sector energy related research and development.

Authority:

Exchange of letters between Prime Minister Trudeau and Premier Lougheed in October and November 1976.

Time Frame:

Funding supplied by the Government of Canada was spread over a six year period — fiscal year 1976-77 to fiscal year 1981-82.

Financing and Operation:

The total funding will be \$96 million. Current plans call for expenditure of transferred funds to continue until approximately 1986-87.

The projects to be funded and their levels of funding are approved by a committee consisting of three senior officials from each of the Alberta and federal governments. The projects are reviewed by the committee each year.

For Further Information:

Officer Responsible:

Mr. K. Whitham
Research and Technology Sector
Department of Energy, Mines and Resources

Earth Sciences Sector**FEDERAL-PROVINCIAL BOUNDARY COMMISSIONS****Administered By:**

Earth Sciences Sector

Purpose:

To survey and maintain provincial and territorial boundaries for which there are joint federal-provincial boundary commissions.

Authority:

The Constitution Act, 1871 and Alberta — British Columbia Boundary Act, 1974.

Federal and provincial Orders in Council creating the respective commissions.

Time Frame:

This is a continuing program. Demarcation surveys terminate on ratification of reports by Parliament and the respective provincial legislature, but maintenance of boundaries continues. There is an annual review of funding requirements by each active commission.

Financing and Operation:

The boundary commissions are made up of a federal government representative and of a representative of each province involved. The sharing of costs varies. The federal government pays 50% of the costs of provincial/territorial boundary commissions and the relevant province pays the other half. In the case of interprovincial boundary commissions the relevant provinces usually share the costs equally. The following boundary commissions exist at the present time:

Alberta

— Northwest Territories

Saskatchewan

— Northwest Territories

British Columbia

— Northwest Territories

— Yukon Territory

Manitoba

— Saskatchewan

Alberta

— British Columbia

FEDERAL-PROVINCIAL AEROMAGNETIC SURVEY PROGRAM**Administered By:**

Earth Sciences Sector

Purpose:

To provide aeromagnetic map coverage of Canada as an aid to geological mapping, and to stimulate mineral exploration by the private sector.

Authority:

Section 7 of the Resources and Technical Surveys Act.

Time Frame:

The program was started in 1960. Since that time 8.0 million kilometres of surveying have been completed, amounting to approximately 60% of the country. Systematic surveys needed to complete coverage of British Columbia will not be completed until 1989-90 and of the Arctic Islands and Hudson Bay by 2000. In addition to the standard surveys, more detailed magnetic gradiometer surveys are being flown in selected areas, in conjunction with work being conducted under Mineral Development Agreements and the Radioactive Waste Disposal Program.

Financing and Operation:

The program is managed and administered by the Geological Survey of Canada in cooperation with provincial agencies, with the survey work being done under contract with private companies.

For Further Information:

Director General
Geological Survey of Canada
Department of Energy, Mines and Resources
601 Booth Street
Ottawa, Ontario
K1A 0E8

MINERAL STATISTICS SURVEY PROGRAMS*Administered By:*

Mineral Policy Sector through the Federal-Provincial Committee on Mineral Statistics.

Purpose:

To develop and implement statistical standards in the areas of mineral statistics with a view to producing national mineral statistics that are consistent and meaningful. These mineral statistics form the basis for policy and program development at the provincial and national levels. A further aim of the program is to reduce duplication and respondent burden.

Authority:

Resources and Technical Surveys Act, CR7, R.S.C. 1970.
Provincial Mining Acts.

Time Frame:

The survey programs are annual, monthly and occasional.

Financing and Operation:

In 1979, the Mineral Policy Sector assumed national responsibility for non fuel mineral statistics in Canada. At this time, memoranda of understanding were signed with most major mineral producing provinces whereby the collection of mineral statistics would be a joint effort.

The mineral statistics program is coordinated through the Federal-Provincial Committee on Mineral Statistics. This Committee meets annually to review the program and to establish Task Forces to investigate and resolve issues relating to mineral statistics. A notable example is the Task Force on Exploration Statistics which designed and implemented a national survey of exploration activity.

There are no special funding arrangements in place as each province assumes the cost of its part of the program in which it chooses to participate.

For Further Information:

Officer Responsible:

Mr. J.T. Brennan
Mineral Policy Sector
Department of Energy, Mines and Resources
580 Booth Street
Ottawa, Ontario
K1A 0E4

FEDERAL-PROVINCIAL MINERAL DEVELOPMENT AGREEMENTS*Administered By:*

Mineral Policy Sector, in conjunction with the Geological Survey of Canada (GSC) and the Canada Centre for Mineral and Energy Technology (CANMET).

Purpose:

To provide the means for the federal government, in collaboration and cooperation with the provinces, to carry out geoscientific surveys and studies designed to stimulate mineral exploration by industry, investigations in mining and processing technology in order to improve productivity, and various technological and economic activities designed to encourage exploitation of identified mineral development opportunities. The ultimate goal is the strengthening and diversification of the mineral sector with maximum benefit to the regional and national economies.

Authority:

Section 7, Sub-section 2 of the Resources and Technical Surveys Act provides the authority for the Minister to cooperate with the provinces in carrying out minerals programs.

Time Frame:

Fiscal years 1984-85 to 1988-89.

Financing and Operation:

Since 1970, such regional programs were carried out under agreements between Canada and the provinces, with the close involvement of the Department of Regional Economic Expansion and the relevant provincial departments (from 1974 on, the agreements were subsidiary to the General Development Agreements). They were mainly sectorial agreements but, in some cases, most notably Ontario, they were components of regional agreements. The provincial departments responsible for minerals implemented the programs. In 1981, a new generation of federal-provincial minerals programs began, still in cooperation with the particular province but excluding DREE, and with EMR as the implementer of the federally funded components.

By the beginning of fiscal year 1983-1984 all previous federal-provincial agreements, except a special two-year Interim Agreement with Manitoba, had terminated, and a new generation of agreements had begun to emerge. These are subsidiary to new federal-provincial Economic and Regional Development Agreements (ERDA's), which serve to identify priorities and strategies for regional development. The new generation of Mineral Development Agreements are predicated on a higher federal visibility made possible by federal delivery of the work done with federal funding. By the end of June 1984, Mineral Development Agreements had been signed with Newfoundland, Nova Scotia, New Brunswick, Manitoba and Saskatchewan.

For Further Information:

Officer Responsible:

Mr. J.E. Reeves
Mineral Policy Sector
Department of Energy, Mines and Resources
580 Booth Street
Ottawa, Ontario
K1A 0E4

Department of the Environment

The Government Organization Act, 1979, divided the Department of Fisheries and the Environment into a Department of Fisheries and Oceans and a Department of the Environment. The Minister of the Environment was given responsibility for all matters over which the Parliament of Canada has jurisdiction, not by law assigned to any other department, board or agency of the Government of Canada, relating to:

- (i) the preservation and enhancement of the quality of the natural environment, including water, air and soil quality;
- (ii) renewable resources, including the forest resources of Canada, migratory birds and other non-domestic flora and fauna;
- (iii) water;
- (iv) meteorology;
- (v) the enforcement of rules or regulations made by the International Joint Commission relating to boundary waters and questions arising between the United States and Canada, so far as they relate to the preservation and enhancement of the quality of the natural environment; and
- (vi) the co-ordination of the policies and programs of the Government of Canada respecting the preservation and enhancement of the quality of the natural environment.

In addition, on June 5, 1979, responsibility for Parks Canada was transferred from the Minister of Indian and Northern Affairs to the Minister of the Environment. Parks Canada is an agency of the Canadian government entrusted with the responsibility of protecting nationally significant heritage places on behalf of Canadians. It identifies places which are representative of Canada's natural and cultural heritage, protects these areas for future generations and encourages an awareness of their values through use and enjoyment. These places may take the form of National Parks, National Landmarks, National Historic Parks and Sites, Heritage Canals or Cooperative Heritage Areas and Heritage Rivers.

The Department has undertaken to develop an effective federal/provincial partnership, involving cooperation and collaboration, in which the Department of the Environment promotes joint activities with the provinces where there is concurrent jurisdiction, using cost or work-shared agreements wherever practicable. A further step in promoting effective federal/provincial cooperation was taken

on April 1, 1979 with the appointment of Regional Directors General in each region of the Department. There are five designated regions comprised as follows: Atlantic (New Brunswick, Newfoundland, Nova Scotia and Prince Edward Island); Ontario; Pacific and Yukon; Quebec; and the Western and Northern Region (Alberta, Manitoba, Northwest Territories and Saskatchewan). The Regional Director General serves as the principal representative and spokesman of the Department in the region, with the exception of Parks Canada activities. He is responsible for the general conduct of relations with the provinces.

The Department of the Environment enters into a variety of agreements, arrangements and contracts with the provinces under two of its major programs: the Environmental Services Program (carried out by the Atmospheric Environment Service, Environmental Conservation Service and Environmental Protection Service) and the Parks Canada Program (carried out by Parks Canada).

The Atmospheric Environment Service is Canada's national weather service, responding to the needs of Canadians through its knowledge and study of meteorology, that branch of science that deals with atmospheric phenomena. It is also concerned with many of the direct effects of the atmosphere upon the earth's surface, the oceans, the formation and movement of ice and life in general. Its aims are to reduce the adverse effects of weather and to increase the benefits to be derived therefrom, while seeking to minimize the harmful effects of man's activities on the atmosphere.

The Environmental Conservation Service contributes to the preservation and enhancement of environmental quality and the management of renewable resources through programs for inland waters, wildlife and lands.

The Environmental Protection Service was formed to ensure that the federal government's responsibilities respecting the protection of the environment are carried out in a manner consistent with national policy and where necessary enforced under appropriate legislation and circumstances. It is the focal point for contact and liaison on environmental protection matters with corresponding agencies of the provincial governments.

The Parks Canada Program has three major aspects: the development, protection and operation of national parks; the restoration or reconstruction, operation and maintenance of historic sites and parks; and the development of cooperative heritage areas which includes the maintenance and operation of canals of recreational and historic significance.

The Minister of the Environment is also responsible for the Canadian Environmental Advisory Council, the Historic Sites and Monuments Board of Canada, and the National Battlefields Commission.

The Canadian Environmental Advisory Council provides the Minister with independent, informed advice on policies and programs respecting the Canadian environment. Members of the Council are normally from outside the federal public service and represent a broad range of individual viewpoints from academic, industrial, and private sectors of Canadian life. One of the objectives of the Council is to advise the Minister on priorities for action by the federal government or the federal government jointly with

the provinces. Liaison is maintained with provincial environmental advisory councils.

The Historic Sites and Monuments Board of Canada is comprised of representatives from all the provinces and territories nominated by the Minister and as a Board acts in an advisory capacity to the Minister on commemoration of persons, places and events of national historic significance.

The National Battlefields Commission, established by an Act of Parliament in 1908, is responsible for the preservation, management and operation of the National Battlefields at Quebec City and is funded by annual appropriations provided by the Department. Of the nine commissioners, the Act provides for one to be appointed by each of the provincial governments of Quebec and Ontario.

ATMOSPHERIC ENVIRONMENT SERVICE

The AES is party to four formal agreements with provinces, one on climatological networks in Quebec, another on meteorological programs and stations in Alberta and two on Weatheradio Repeater Networks with New Brunswick and Newfoundland. The AES often participates in ad hoc cooperative projects with provincial authorities and also plays a support role in Hydrometric Agreements and Flood Damage Reduction Agreements.

Name of Agreement:

Canada—Quebec Agreement regarding climatological networks in Quebec.

Administered By:

A joint committee (Canada—Quebec) meeting at least once each fiscal year.

Time Frame:

This is a continuing program. This agreement, signed in 1979, provides for termination by either party on March 31 of any year provided that eighteen months notice in writing is given. Such notice of termination was given by Environment Canada to the Quebec Government on September 30, 1983. A new agreement which should take effect on April 1, 1985 is presently being negotiated.

Purpose:

To formalize cooperative climatological programs that have been in operation for many years under various informal federal-provincial arrangements for the purpose of obtaining coordinated and quality-controlled basic data to facilitate resource planning and management in general, and to provide environmental information needed for the design, implementation, and operation of projects related to navigation, aviation, transportation, urban services, hydrology, hydro-electric development, agriculture, forestry, non-renewable resource management, recreation, tourism, air quality and other purposes.

Financing and Operation:

Canada (the AES) will establish its needs for climatological observations and will pay for same.

The province will finance all other climatological programs.

Services (e.g. instruments, data processing, etc.) can be provided by one party to the other under cost recovery arrangements.

The cost to the federal government (the AES) of the climatological services in Quebec for 1984-85 will be near \$570,000.

For Further Information:

Officer Responsible:

Mr. R.J. Fichaud
Regional Director
Atmospheric Environment Service
100 Alexis Nihon Boulevard, 3rd Floor
Ville St-Laurent, Quebec
H4M 2N6

Name of Agreement:

Canada—Alberta Agreement regarding meteorological programs and stations in Alberta.

Administered By:

A joint committee (Canada—Alberta) meeting at least once each fiscal year.

Time Frame:

This is a continuing program. This agreement, signed in 1980, provides for termination by either party on March 31 of any year provided that twelve months notice in writing is given.

Purpose:

To formalize cooperative meteorological programs that have been in operation for many years under various informal federal-provincial arrangements for the purpose of obtaining coordinated and quality-controlled basic data to facilitate resource planning and management in general, and to provide environmental information needed for the design, implementation and operation of projects related to navigation, aviation, transportation, urban services, flood control, water supply, hydro-electric development, agriculture, forestry, recreation, tourism and other purposes.

Financing and Operation:

Canada will pay the costs of the programs and stations that are part of the National Meteorological Programs in Alberta.

Alberta will pay for any other meteorological station or program it requires.

Services (e.g. instruments, data processing, etc.) can be provided by one party to the other under cost recovery arrangements.

The net cost of services for fiscal year 1984-85 will be \$15,000 paid by Alberta to the Government of Canada.

Regional Director
Atmospheric Environment Service
6325 — 103 Street
Edmonton, Alberta
T6H 5H6

Name of Agreement:

Weatheradio Repeater Network for New Brunswick

Administered By:

Atmospheric Environment Service (AES), Atlantic Region

Time Frame:

This is a continuing program.

Purpose:

To operate a network of repeaters extending the radiotransmission of meteorological information throughout New Brunswick and over the adjacent marine areas from a main transmitter located in Moncton.

Financing and Operation:

Canada (the AES) will operate the network and pay the on-going costs. New Brunswick will reimburse 67% of the operating cost of the repeaters (Departments of Fisheries (40%), Agriculture and Rural Development (40%), and Municipal Affairs (20%). These costs will be around \$15,000 per year until 1985-86. Canada (the AES) will invoice the New Brunswick departments once or twice yearly.

Name of Agreement:

Weatheradio Repeater Network for Newfoundland

Administered By:

Atmospheric Environment Service (AES), Atlantic Region

Time Frame:

This is a continuing program.

Purpose:

To operate a network of repeaters extending the radiotransmission of meteorological information throughout Newfoundland and coastal Labrador from a main transmitter located in Gander.

Financing and Operation:

Canada (the AES) will operate the network and pay the on-going costs. Newfoundland will reimburse 50% of the operating cost of the repeaters with a maximum of about \$36,000 annually. Canada (the AES) will invoice the Province once or twice yearly.

ENVIRONMENTAL CONSERVATION SERVICE

INLAND WATERS DIRECTORATE

AGREEMENTS FOR WATER PLANNING AND MANAGEMENT

(Part of the Environmental Conservation Activity of the Environmental Services Program)

Administered By:

Water Planning and Management Branch, Inland Waters Directorate, Environmental Conservation Service.

Purpose:

Federal-provincial agreements have been signed or are under negotiation on several aspects of inland waters study and management. These include agreements for the provision of federal contributions to works and structures to assist in the conservation and control of water resources; agreements for joint study of various aspects of the quality and quantity of water in river basins and lake systems; agreements for joint studies for the planning and development of water resources in various drainage basins; agreements for implementing joint water resource development; and agreements for undertaking various measures for flood damage reduction.

Authority:

Canada Water Act

The following federal-provincial agreements for water planning and management were in operation as of April 1, 1984.

River Basin Programs:

Canada—Ontario: Agreement on Great Lakes Water Quality
 Canada—British Columbia: Lower Fraser Valley Flood Control Implementation
 Canada—British Columbia—Yukon Territory: Yukon River Basin Study
 Mackenzie River Basin Committee: Canada—Alberta—Saskatchewan—Northwest Territories—Yukon Territory—British Columbia
 Canada—Manitoba: Mercury Study in the Churchill River Diversion System

Flood Damage Reduction Programs:

Canada—Newfoundland
 Canada—Nova Scotia
 Canada—New Brunswick
 Canada—Quebec
 Canada—Ontario
 Canada—Manitoba
 Canada—Saskatchewan
 Canada—Northwest Territories

Regulation, Apportionment, Monitoring and Survey Programs:

Canada—Alberta—Manitoba—Saskatchewan: Prairie Provinces Water Board
 Canada—Ontario—Quebec: Ottawa River Regulation Planning Board
 Canada—Ontario—Quebec: Ottawa River Water Quality Coordinating Committee
 Federal-Provincial Water Quantity Survey Agreements:
 Canada—all provinces and territories

Canada—Ontario—Manitoba: Tripartite Agreement (1922), Lake of the Woods Control Board
 Canada—Quebec: Agreement Regarding Water Quality Monitoring

Financing and Operation:

In terms of the financing of these agreements, two types of agreements can be distinguished. The first type includes agreements under which the federal government makes contributions to a province in respect of works or structures, i.e. such things as dams, reservoirs or channel improvements, constructed by the provincial government for the conservation and control of water resources. Under the Fraser River Flood Control Agreement the federal government makes payments to the province of British Columbia. Under such agreements the federal government makes payments to the respective provinces after receiving audited claims from the provinces involved. Usually, these agreements provide for the establishment of federal-provincial boards for their administration.

The second type, study agreements are concerned with investigations of water quality, water quantity or environmental impact issues within a river basin. Joint boards or committees are invariably used to administer this type of agreement as well as implementation agreements. These boards or committees are charged with the responsibility of conducting the particular study or implementation program involved. Using the information collected, the boards draw up development and management plans for water resources. New administrative bodies, usually including federal members drawn from outside DOE, are created and charged with the implementation of these plans when Canada and the province involved reach agreement on implementation measures. The financing of all of these activities is almost always on a shared-cost basis, with money provided by both the federal and provincial governments. Limits are necessarily placed on these contributions and administrative arrangements and expiry dates are also specified in these agreements. Financial information on current agreements is contained on the following pages.

In flood damage reduction agreements, the two levels of government define general flood damage reduction policies which will aim to reduce development in hazardous areas. With general agreement on such policies, Canada will then consider further subsidiary agreements on specific flood damage reduction measures. These are also shared-cost on an equal basis between Canada and the respective province. Joint steering and technical committees are established to define and carry out the appropriate measures and maintain co-ordination between the agencies involved. The mapping programs provide the basis for the designation of flood risk areas. Following designation, neither the federal or provincial governments will support or give flood disaster assistance to any new flood vulnerable developments in the designated areas. Where existing developments warrant it, and where there is a positive bene-

fit/cost ratio, specific programs can be developed, such as flood warning systems, flood forecasting, studies of flood problem areas, land acquisition and flood control works.

RIVER BASIN PROGRAMS

Name of Agreement:

Canada—Ontario: Agreement on Great Lakes Water Quality

Time Frame:

August 1971 to March 31, 1985; agreement renewed in 1976 and 1982.

Purpose:

To renew and strengthen cooperation between Canada and Ontario in meeting the obligations under the revised 1978 Canada—U.S. Agreement and to provide for cost-sharing of specific programs which the province will undertake with the federal government in meeting these obligations.

Financing and Operation:

Under the original agreement, Canada and Ontario provided some \$3 million for feasibility studies and joint sewage treatment technology research, and CMHC provided loans for sewage treatment facilities. During 1976, additional funding and a time extension were formalized in a new agreement between Canada and Ontario. Following several extensions to the 1976 Agreement, a new Agreement was signed in July 1982, renewing existing obligations outlined in the 1976 Agreement. The new Agreement is also directed at the control of toxic substances and pollution from sources such as urban and agricultural runoff. As well, the new Agreement formalizes a federal government grant of \$65 million over a three-year period to assist in the construction of municipal sewer facilities to meet the requirements of the 1978 Canada-U.S. Agreement.

Name of Agreement:

Canada—British Columbia: Lower Fraser Valley Flood Control Implementation

Time Frame:

May 1968 — March 1986

Purpose:

To provide protection from flooding of land in the lower reaches of the Fraser River Valley and other areas upstream by rehabilitating existing dykes, constructing new dykes, increasing river bank protection, and improving internal drainage facilities.

Financing and Operation:

In 1976, the federal and British Columbia governments each increased their total commitments to the Flood Control Program and related studies to \$60,000,000. The expiry date of the agreement was extended from 1978 to March 31, 1984. A further extension to December 31, 1986, with no additional funding, occurred in 1983-84. Dyking and related projects are under construction or completed in all priority areas.

Name of Agreement:

Canada—British Columbia—Yukon Territory: Yukon River Basin Study

Time Frame:

November 1980 — September 1984 (final report pending).

Purpose:

To undertake joint studies leading to the formulation of a planning framework under which potential development alternatives of the Yukon River Basin may be evaluated.

Financing and Operation:

The Department of the Environment and the Department of Indian Affairs and Northern Development are funding the program subject to partial reimbursement from British Columbia and the Yukon Territory. Total funding is \$2.2 million of which the federal share is \$1.98 million.

Name of Agreement:

Mackenzie River Basin Committee: Canada—Alberta—Saskatchewan—Northwest Territories—Yukon Territory—British Columbia.

Time Frame:

Continuous since 1973.

Purpose:

- 1) To exchange information on potential water-related development in the basin;
- 2) to formulate a program of studies to gather data on the basin's water and related resources;
- 3) to consider study designs, budgets and agreements associated with implementation of certain study recommendations for the basin.

Financing and Operation:

With a program of studies completed in 1982, funding is now being met from regular programs. Formal funding will not be re-established until negotiations for implementation, currently underway, are effected and an implementation agreement is signed.

Name of Agreement:

Canada—Manitoba: Mercury Study in the Churchill River Diversion System.

Time Frame:

March 1983 — December 1986

Purpose:

To determine the degree to which mercury is present in the Churchill River Diversion system and to identify sources; to study pathways and mechanisms by which mercury moves from water to fish and wildlife through the food chain; to monitor the concentration of mercury in aquatic plants and fish and compare it with available data on the presence of mercury in people living in this area and; where possible, suggest remedies to local mercury problems and means of predicting future occurrences of mercury contamination.

Financing and Operation:

Total cost of \$760,000 is to be shared equally by Canada and Manitoba.

FLOOD DAMAGE REDUCTION PROGRAMS

Name of Agreement:

See table 1 for a complete list of federal-provincial agreements under the Flood Damage Reduction (FDR) Program. In some provinces, various aspects of the program are combined into one or two agreements rather than having separate agreements for each aspect.

Time Frame:

From its beginning, the overall program was expected to be active for ten years, i.e. the General Agreements outlining policy were to extend for ten years, while those signed subsequently (mapping, studies, flood forecasting, implementation of works) were to have a five-year duration. However, since the signing of the first agreement in 1976, the ten-year duration has been found to be too short. Several General Agreements have had to be extended beyond the ten-year period while others are in the process of being extended. Similarly, mapping agreements have had to be extended beyond the five-year period. For details see table 1.

TABLE I
Federal-Provincial Flood Damage Reduction Agreements
(to March 31, 1984)

<i>Provinces and Agreements</i>	<i>Duration (years)</i>	<i>Total Cost* (\$)</i>	<i>Expiry Date</i>

NORTHWEST TERRITORIES			
Memorandum of Understanding	10	400,000(b)	1989
	(mapping		
	5)	—	1984**
General Agreement	10	—	1989

* These costs are to be shared equally by the federal and provincial governments except for:

(a) 45% federal, 55% provincial/local;

(b) Costs shared equally by the departments of the Environment and Indian Affairs and Northern Development.

** Being renegotiated.

Purpose:

The aim of the FDR Program is to identify flood risk areas on maps and discourage future flood vulnerable developments in those areas. This is accomplished by formally designating the mapped areas bringing into effect policies aimed at discouraging inappropriate development. These policies include commitments by both senior levels of government not to build or to support any future flood vulnerable developments in designated areas, nor to give disaster assistance to structures erected in such areas after designation.

The policies are outlined in the General Agreements. The Mapping Agreements provide for the mapping and designating of areas to which those policies will apply. Studies Agreements provide for studying existing flood problems and result in recommendations that can be carried out under subsequent implementation agreements.

Financing and Operation:

Costs of carrying out this program are shared equally by Canada and the provinces except for Implementation Agreements under which the province pays a larger share

but recovers some of that from the benefiting municipality. Programs in some provinces have already had increases in funding and others are expected to need more funds because flood-prevention needs have exceeded initial expectations. See table 1 for details.

Steering Committees (2 federal and 2 provincial members) are established to administer the FDR Agreements in each province. In many cases, federal-provincial Technical Committees are set up to carry out the mapping or other technical aspects of the program.

Progress:

All provinces and territories except Prince Edward Island (where the program is not applicable), British Columbia, Alberta and Yukon have signed agreements. Negotiations are continuing with these last three jurisdictions. To March 31, 1984, 36 formal designations had taken place, and 281 communities had been mapped and designated, including major centres like Toronto, Montreal, Winnipeg, Fredericton and Moose Jaw, in five provinces (Ontario, Quebec, Manitoba, New Brunswick and Saskatchewan). A flood forecasting centre has been established for the Saint John River in New Brunswick, while a similar centre in Manitoba covers the Boyne, Red, Assiniboine and Souris River Systems.

REGULATION, APPORTIONMENT, MONITORING AND SURVEY PROGRAMS

Name of Agreement:

Canada—Alberta—Manitoba—Saskatchewan: Prairie Provinces Water Board

Time Frame:

1969 — continuous

Purpose:

The equitable apportionment of interprovincial Prairie waters flowing eastward. The agreement and subsidiary agreements ensure one half the natural eastward flow of waters arising in or flowing through Alberta for Saskatchewan, and one-half the eastward flow arising in or flowing through Saskatchewan for Manitoba.

Financing and Operation:

The Prairie Provinces Water Board has the following responsibilities: To oversee and report on apportionment of waters flowing from one province into another province; to take under consideration comprehensive planning, water quality management and other management problems referred to it by the parties concerned; to recommend appropriate action to investigate such matters; and to submit recommendations for resolution of the problems.

Funding is borne one-half by Canada and one-sixth by each of the provinces. In 1977 the annual cost ceiling of \$200,000 was raised to \$500,000 and subsequently to \$625,000 to cover costs of operation, monitoring and a Prairie

Provinces Water Demand Study. The report on the water demand study was released in February, 1983.

Name of Agreement:

Canada—Ontario—Quebec: An Agreement Respecting Ottawa River Regulation with Ontario and Quebec.

Time Frame:

1983—continuous

Purpose:

To plan and recommend criteria for regulating the Ottawa River, taking into account hydro-power production, flood protection, navigation, low water problems, water quality needs and recreation.

Financing and Operation:

The Board will establish and implement general principles, priorities and overall regulation policies for major regulation facilities in the Ottawa River Basin.

Funding is borne one-half by Canada and one-quarter by each of the provinces. The annual ceiling to cover costs of the Board's operations has been set at \$450,000.

Name of Agreement:

Canada—Ontario—Quebec: Ottawa River Water Quality Coordinating Committee.

Time Frame:

1983—continuous

Purpose:

To review and modify the proposed monitoring plan and oversee its implementation; to undertake or recommend special studies as need be; and to recommend water quality objectives for the river.

Financing and Operation:

Under this agreement water quality monitoring and associated studies will be carried out by participating agencies in accordance with their available resources.

FEDERAL-PROVINCIAL WATER QUANTITY SURVEY AGREEMENTS PROGRAM

(Part of the Environmental Conservation Activity of the Environmental Services Program)

Administered By:

Water Survey of Canada, Water Resources Branch, Inland Waters Directorate, Environmental Conservation Service.

Purpose:

To gather, compile and analyse water quantity survey data and to make the data and analyses available to the public.

Authority:

Canada Water Act

Formal agreements, effective 1975, have been signed with each province. Letter exchanges between the Ministers of

the Department of Indian and Northern Affairs and the Department of the Environment provide for the same services in the Yukon and Northwest Territories.

Time Frame:

This is a continuing program of surveys started by the federal government in 1908. The present agreements provide for termination on 18 months' written notice by either party.

Financing and Operation:

This is a cost-shared program, with the federal government carrying out the operation of the total network and invoicing the provincial governments and the Department of Indian and Northern Affairs for their share. Quebec operates its provincial network in that province including federal stations except for that part of the program involving international and navigable waters and waters crossing federal land. Quebec invoices the federal government for its share.

Program and financial arrangements are planned by Federal-Provincial Coordinating Committees.

The Federal-Provincial Water Quantity Survey Agreements Program includes surveys of stream flow, water level, and sediment. Snow, tidal and some water quality surveys are made in conjunction with the water quantity surveys, but are wholly financed by the federal government. The data from these other federal activities are also provided to the provinces as required for their programs.

Payments:

See table 2.

TABLE 2

Provincial Contributions to the Federal-Provincial
Water Quantity Survey Agreements
(\$000)

Province/Territory	Fiscal Year 1983-84	Fiscal Year 1984-85
Newfoundland/Labrador	184	228
Prince Edward Island	6	7

Federal Payment to Quebec (which operates its own network to national standards)	620	643

LAKE OF THE WOODS CONTROL BOARD

(Part of the Environmental Conservation Activity of the Environmental Services Program)

Administered By:

Water Resources Branch, Inland Waters Directorate, Environmental Conservation Service.

Purpose:

The regulation and control activities apply to Lake of the Woods, Lac Seul, the Winnipeg and English Rivers, and the Lake St. Joseph Diversion. This regulation and control is necessary to fulfill Canada's obligations under the Lake of the Woods Convention and Protocol with respect to International commitments on Lake of the Woods as a boundary water and domestic obligations under concurrent federal, Ontario, Manitoba legislative enactments with respect to the regulation and control of the Winnipeg River watershed.

Authority:

Lake of the Woods Convention and Protocol, signed by Canada and the United States at Washington, February 24, 1925.

The Lake of the Woods Control Board Act, 1921 and the Lake of the Woods Control Board Amendment Act, 1958.

The Tripartite Agreement signed by Canada, Ontario and Manitoba, November 15, 1922.

The Lac Seul Conservation Act, 1928.

Time Frame:

Canada's obligations under the above authorities are of a continuing nature.

Financing and Operation:

The Canadian Lake of the Woods Control Board is responsible for the regulation and control of water levels of both the Lake of the Woods and Lac Seul storage reservoirs, in addition to the English and Winnipeg Rivers levels and flows to the Ontario/Manitoba boundary. In the case of regulation of Lake of the Woods, the federal government pays one-third of the operating costs, with the provinces of Ontario (one-ninth) and Manitoba (five-ninths) sharing the remaining two-thirds based proportionately on the developable powerhead on the Winnipeg and English River systems. This sharing of costs and the provision of a Secretariat in Ottawa, reflect the federal government's interest in navigation and the potential for hydroelectric power generation, wild rice production, fishing, and recreational uses in the two provinces. The federal government bills each of the two provinces on an annual basis for its share of the costs.

With respect to the regulation of Lac Seul, the agreement by which costs are shared is currently being re-negotiated. In the interim, Manitoba, Ontario and Canada pay 60%, 32% and 8% respectively. Ontario operates and administers the Lac Seul facilities.

Payments:

See table 3.

TABLE 3

Operating Costs for Lake of the Woods and Lac Seul in 1983
(Administered by Lake of the Woods Control Board
(\$000)

	Canada	Ontario	Manitoba	Total
Lake of the Woods	62	21	103	186
Lac Seul	15	45	85	145
Total	77	66	188	331

K1A 0E7

Tel.: (819) 997-2529

WATER QUALITY MONITORING PROGRAMS**Administered By:**

Water Quality Branch, Inland Waters Directorate, Environmental Conservation Service.

Purpose:

To assess the ambient quality of inland waters for municipal, industrial, commercial, agricultural, and fishery uses and to determine pollution levels, including contaminants and toxic substances, for federal and provincial governments and the private sector by providing water quality data and interpretive information in summary, detailed and special reports.

Authority:

Canada Water Act. Arrangements for water quality monitoring programs are made with the provinces as required. Monitoring also supports programs under the Environmental Contaminants Act, Fisheries Act, Boundary Waters Treaty Act, the Northern Inland Waters Act, the Arctic Waters Pollution Prevention Act, the Canada Shipping Act, the Navigable Waters Protection Act, and others.

Time Frame:

This is a continuing program which began in 1966. It is continually modified to take account of new pollution problems and users' needs.

Financing and Operation:

Under the Canada—Ontario Agreement Respecting Great Lakes Water Quality the federal government finances 50% of the Province's activities associated with the Great Lakes International Surveillance Plan (GLISP) in addition to its own activities in this area. In addition, a special arrangement with the Prairie Provinces Water Board provides for coordination of federal and provincial water quality monitoring in Manitoba, Saskatchewan and Alberta.

Initiatives are presently underway with the provinces to enter into cost and work-shared agreements for all water quality monitoring in Canada. The first agreement was signed with Quebec in 1984.

Payments:

Under the terms of the Canada—Ontario Agreement, approximately \$1.21 million were paid to Ontario for GLISP.

When the agreements with the provinces on water quality monitoring are signed and fully implemented by 1986-87 it is anticipated that they will represent intergovernmental payments of approximately \$2.0 million, of which about \$0.3 million will represent payments to provinces for work done for the federal government.

With respect to the Canada—Quebec agreement, the federal share is 40% of the approximate \$1.4 million annual cost under the agreement.

Water Management Research Programs

Research is undertaken by the National Water Research Institute and the National Hydrology Research Institute in support of the water management activities of the Inland Waters Directorate. This research includes necessary initiatives for activities under the Canada—Ontario Great Lakes Water Quality Agreement.

CANADIAN WILDLIFE SERVICE

CRESTON VALLEY WILDLIFE MANAGEMENT AUTHORITY

(Part of the Environmental Conservation Activity of the Environmental Services Program)

Administered By:

Canadian Wildlife Service, Environmental Conservation Service

Purpose:

To provide habitat for wildlife and to ensure their survival.

Authority:

Canada Wildlife Act

Time Frame:

This is a continuing program which began in 1968.

Financing and Operation:

The Creston Valley Wildlife Management Authority has three managing directors: the Director of the British Columbia Wildlife Management Branch; the Regional Director, Canadian Wildlife Service, Pacific and Yukon Region;

and a member of the public appointed by the B.C. Minister of Environment. All directors have equal status in the management of the Authority. In addition to an annual grant to the Authority, the Canadian Wildlife Service provides scientific and technical expertise to the Authority through a Technical Advisory Committee and assists in all management plans.

Payments:

An annual grant of \$85,000 is paid directly to the Authority.

CANADA/NORTHWEST TERRITORIES WILDLIFE RESEARCH

Administered By:

Canadian Wildlife Service, Environmental Conservation Service

Purpose:

To undertake a wildlife research program.

Authority:

Canada Wildlife Act

Time Frame:

The agreement commenced July 26, 1979 and will continue until March 31, 1988.

Financing and Operation:

Under the agreement, a committee consisting of not more than three members on behalf of each of Canada and the Northwest Territories is to recommend projects for each fiscal year. Projects must be approved by the Director, Western and Northern Region, Canadian Wildlife Service; the Director, Northwest Territories Region, Department of Indian and Northern Affairs; and the Director, Wildlife Management Division, Northwest Territories.

Payments:

Canada's contribution will not exceed \$800,000 in each year, and the Territories' will not exceed \$400,000.

CANADA/NEWFOUNDLAND WILDLIFE CONSERVATION

Administered By:

Canadian Wildlife Service
Environmental Conservation Service

Purpose:

To undertake wildlife conservation programs in areas of national interest in Newfoundland.

Authority:

Canada Wildlife Act

Time Frame:

The agreement commenced July 31, 1981 and will continue until March 31, 1991.

Financing and Operation:

Under the agreement, a committee consisting of not more than two members on behalf of each of Canada and Newfoundland to review and approve cooperative projects in wildlife conservation. One member for Canada shall be Regional Director, Canadian Wildlife Service, Atlantic Region, and one member from Newfoundland shall be the Director of the Wildlife Division, Department of Culture, Recreation and Youth.

Payments:

Canada's and Newfoundland's contributions shall not exceed \$200,000 each in each year.

**BEVERLEY — KAMINURIAK BARREN - GROUND
CARIBOU MANAGEMENT AGREEMENT**

Administered By:

Canadian Wildlife Service, Environmental Conservation Service

Purpose:

To coordinate management of the Beverley and Kaminuriak herds of barren-ground caribou and their habitat

amongst the four governments involved and the traditional users of the resource.

Authority:

Canadian Wildlife Act

Time Frame:

The agreement was signed on June 3, 1982, and expires on June 3, 1992.

Financing and Operation:

The agreement was signed by the Government of Canada (as represented by the Minister of Indian Affairs and Northern Development and the Minister of the Environment); the Governments of Manitoba and Saskatchewan; and the Commissioner of the Northwest Territories. It provides for the appointment of a joint management board comprised of representatives of the four governments and of the traditional users of the resource.

Payments:

Up to \$75,000 per annum to be paid $\frac{2}{3}$ by Canada and $\frac{1}{3}$ by each of the remaining parties.

**CANADA/ALBERTA SWIFT FOX REINTRODUCTION
PROGRAM**

Administered By:

Canadian Wildlife Service, Environmental Conservation
Service.

Purpose:

To reintroduce swift fox into Canada (within specified
areas of the Province of Alberta) and provide for subse-
quent management.

Authority:

Canada Wildlife Act

Time Frame:

The agreement commenced August 17, 1983 and will con-
tinue until March 31, 1988.

Financing and Operation:

Under this agreement, a Management Authority consist-
ing of two members each from Canada and the Province of
Alberta, will ensure both the coordination of the efforts of
both parties as set out in the agreement or as otherwise
agreed to by the Regional Director, Canadian Wildlife
Service, Western and Northern Region and the Director of
Wildlife for the Fish and Wildlife Division of the Depart-
ment of Energy and Natural Resources of Alberta.

Payments:

The provision of financing by Canada and the Province for
the implementation of this Agreement is subject to the
Parliament of Canada and the Provincial Legislature hav-
ing provided funds for the fiscal year in which such financ-
ing is required.

**CANADA — PRAIRIE PROVINCES CROP DAMAGE
PREVENTION AGREEMENTS**

Administered By:

Canadian Wildlife Service, Environmental Conservation
Service

Purpose:

To mitigate the losses of cereal grains to migratory birds on
the Prairies.

Authority:

Migratory Birds Convention Act

Time Frame:

The agreement commenced April 1, 1983 and will continue
until March 31, 1988.

Financing and Operation:

The Regional Director, Canadian Wildlife Service, West-
ern and Northern Region (Canada) and the directors of
Provincial Wildlife Management Branches will coordinate
activities of the two governments related to crop damage
prevention. They will establish program committees to
plan and oversee the program during the term of the
agreements.

Payments:

Financing by either party is to be shared equally. Canada's
contribution is not to exceed \$1.0 million (Manitoba \$.225
million; Saskatchewan \$.350 million; Alberta \$.425
million).

CANADA — YUKON WOOD BISON REINTRODUCTION AGREEMENT**Administered By:**

Canadian Wildlife Service, Environmental Conservation Service

Purpose:

To reintroduce wood bison into Yukon and to provide for subsequent management.

Authority:

Canada Wildlife Act

Time Frame:

The agreement commenced April 1, 1984 and will continue until March 31, 1988.

Financing and Operation:

A Management Authority, consisting of the Regional Director, Canadian Wildlife Service, Western and Northern Region (Canada), and the Director, Wildlife Management Branch, Department of Renewable Resources (Yukon), will coordinate activities of the two governments related to the reintroduction and subsequent management of the wood bison.

Payments:

Financing by either party is not to exceed \$50,000 per year and is subject to approval by the Parliament of Canada and the Legislative Assembly of Yukon.

**CANADA — SASKATCHEWAN SWIFT FOX
REINTRODUCTION PROGRAM**

Administered By:

Canadian Wildlife Service, Environmental Conservation Service

Purpose:

To reintroduce swift fox into specified areas of Saskatchewan and provide for subsequent management.

Authority:

Canada Wildlife Act

Time Frame:

The agreement began March 9, 1984 and expires March 31, 1987.

Financing and Operation:

A Management Authority, consisting of the Regional Director, Western and Northern Region, Canadian Wildlife Service (Canada), and the Director of Wildlife, Department of Tourism and Renewable Resources (Saskatche-

wan), will coordinate activities of the two governments related to the reintroduction and subsequent management of swift fox.

Payments:

Financing for Canada shall not exceed \$25,000 in any year and that of Saskatchewan shall not exceed one-tenth of the federal contribution. Financing is subject to approval by the Parliament of Canada and the provincial Legislature of Saskatchewan.

**CANADA — ONTARIO WILDLIFE CONSERVATION
AGREEMENT**

Administered By:

Canadian Wildlife Service, Environmental Conservation Service

Purpose:

To coordinate the implementation of joint programs and policies for the conservation of wildlife and the provision of wildlife-related benefits to Canadians.

Authority:

Canada Wildlife Act

Time Frame:

The agreement began February 3, 1984 and will continue until March 31, 1993.

Financing and Operation:

The agreement will be administered by a committee consisting of three representatives of each party. One member shall be the Regional Director, Canadian Wildlife Service, Ontario Region (Canada) and another shall be the Director of the Wildlife Branch, Ontario Ministry of Natural Resources (Ontario).

Payments:

The contributions of either party shall not exceed \$1,000,000 in any year, and in any event, neither party shall contribute more than nine-tenths of the costs in any given year. Contributions by Canada are subject to approval by Treasury Board and those of Ontario are subject to allocation of funds by the Provincial Management Board of Canada.

**CANADA — PRINCE EDWARD ISLAND WILDLIFE
CONSERVATION AGREEMENT**

Administered By:

Canadian Wildlife Service, Environmental Conservation Service

Purpose:

To undertake joint wildlife conservation programs of national interest in Prince Edward Island and provide for the conservation of migratory birds.

Authority:

Canada Wildlife Act

Time Frame:

The agreement began August 2, 1984 and expires March 31, 1993.

Financing and Operation:

A committee was established comprising two representatives of each party to administer the agreement. One member is the Regional Director, Canadian Wildlife Service, Atlantic Region (Canada); another is the Director of the Wildlife Division, Ministry of Community and Cultural Affairs (Prince Edward Island).

Payments:

The contribution of either party shall not exceed \$200,000 in any year and neither party shall be liable to pay for more than 90% of program costs in any year. Payments are subject to approval by the Parliament of Canada and the Legislative Assembly of Prince Edward Island.

ENVIRONMENTAL PROTECTION SERVICE

**CANADA — ALBERTA ACCORD FOR THE PROTECTION
AND ENHANCEMENT OF ENVIRONMENTAL QUALITY**

Administered By:

Environmental Protection Service (EPS)

Purpose:

To provide a framework for development of co-ordinating mechanisms and complementary programs for the protection and enhancement of environmental quality.

Authority:

Decision of the Cabinet Committee on Science, Culture and Information, February 12, 1974.

Time Frame:

October 1982 to October 1987

General consideration of possible revisions to the agreement is currently taking place.

Financing and Operation:

There is no cost-sharing associated with the Accord. The Accord was signed by respective federal and provincial Ministers of the Environment. The Accord is used as a basis for federal-provincial working agreements relating to division of responsibilities for environmental protection, to exchange of information, to establishment of contact points for public, industry and other government departments and to acceptance of standards for environmental control. An EPS—Alberta Environment Committee exists to review items of mutual interest under the Accord.

CANADA — MANITOBA ACCORD FOR THE PROTECTION AND ENHANCEMENT OF ENVIRONMENTAL QUALITY

Administered By:

Environmental Protection Service (EPS)

Purpose:

To provide a more effective overall effort on the solution of pollution problems through better co-ordination of the activities of Canada and the province of Manitoba; and to provide a broad framework within which specific agreements can be designed to cope with particular problems.

Authority:

Decision of the Cabinet Committee on Science, Culture and Information, February 12, 1974.

Time Frame:

October 1975 to October 1980

Extended October 1980 to October 1981

Extended October 1981 to October 1982

Extended October 1982 until a new Accord is signed.

General consideration of possible revisions to the agreement is currently taking place.

Financing and Operation:

There is no cost sharing associated with the Accord. The Accord was signed by the respective federal and provincial Ministers of the Environment and is administered by a two-person Federal-Provincial Liaison Committee (FPLC) as provided for under Section 27 of the Accord. The Accord is used as a basis for federal-provincial working agreements relating to the division of responsibilities for environmental protection, to the exchange of information, to establishment of contact points for the public, industry and other government departments and to acceptance of standards for environmental control.

CANADA — NOVA SCOTIA, CANADA — NEW BRUNSWICK AND CANADA — PRINCE EDWARD ISLAND ACCORDS FOR THE PROTECTION AND ENHANCEMENT OF ENVIRONMENTAL QUALITY

Administered By:

Environmental Protection Service (EPS)

Purpose:

To provide a more effective overall effort in the protection and enhancement of environmental quality through better co-ordination of the activities of Canada and each of the three provinces listed above, and to provide a broad framework within which specific agreements can be designed to cope with particular problems.

Authority:

Decision of the Cabinet Committee on Science, Culture and Information, February 12, 1974.

Time Frame:

October 1975 to October 1980

Extended October 1980 to October 1981

Extended October 1981 to October 1982

Extended October 1982 until a new Accord is signed.

General consideration of possible revisions is currently taking place.

Financing and Operation:

There is no cost-sharing associated with the Accords which were signed by the respective federal and provincial Ministers of the Environment. The Accords are used as a basis for federal-provincial working agreements relating to division of responsibilities for environmental protection, to exchange of information, to establishment of contact points for the public, industry and other government departments and to acceptance of standards for environmental control.

CANADA — NEW BRUNSWICK, CANADA — NOVA SCOTIA, CANADA — PRINCE EDWARD ISLAND, AND CANADA — NEWFOUNDLAND ABANDONED DUMP SITE STUDY

Administered By:

Environmental Protection Service (EPS)

Purpose:

To conduct joint studies into the potential problems with abandoned dump sites in the provinces.

Authority:

Agreement reached at the June 1981 meeting of the Federal/Provincial/Territorial Committee on Hazardous Waste Management in Canada.

Time Frame:

New Brunswick and Prince Edward Island:

1981-82 Phase I (completed)

1982-83 Phase II (completed)

1983-84-85 Phase III: Pilot study ongoing at two sites in New Brunswick. No Phase III studies underway in any other province.

Nova Scotia:

1983-84 Phase I (ongoing)

Newfoundland:

1983-84 Phase I (ongoing)

Financing and Operation:

The cost of the study is based on a 50-50 sharing arrangement between the federal government and each of the provinces. The study is being conducted in three phases:

Phase I: Identification and verification of abandoned and/or active waste disposal site locations, together

with available data on the nature and quantity of materials deposited therein;

Phase II: Preliminary assessment of the manifested or potential impact of each site on the environment;

Phase III: Examination of candidate's sites to verify the preliminary assessment. Recommendations are to be made regarding mitigation of real or potential problems and the undertaking of corrective work if necessary.

Environmental Protection Service (EPS) contributions to date amount to \$105,000 for New Brunswick, \$20,000 for Nova Scotia, \$53,400 for Prince Edward Island, and \$15,000 for Newfoundland.

CANADA — NEW BRUNSWICK — PRINCE EDWARD ISLAND CALIBRATION FLY-IN

Administered By:

Environmental Protection Service, Environment New Brunswick, Prince Edward Island Department of Agriculture and Forestry, and Nova Scotia Department of Environment.

Purpose:

To calibrate equipment used in aerial applications of agricultural pesticides in order to ensure minimal off-target deposition.

Authority:

Agreement reached in May 1984 by representatives of the four participating agencies.

Time Frame:

July 10 to 14, 1984 (completed)

Financing and Operation:

Environmental Protection Service contribution: \$7,800

Total provincial contribution: \$7,400

Contract for calibration awarded to WRK of Oklahoma. Fly-ins conducted at two regional sites. Program has been completed and all moneys have been paid.

CANADA — ONTARIO AGREEMENT RESPECTING GREAT LAKES WATER QUALITY**Administered By:**

Office of the Regional Director General, Ontario Region

Purpose:

To renew and strengthen co-operation between the Government of Canada and the province of Ontario in meeting the obligations assumed by Canada under the 1978 Revised Canada — U.S.A. Great Lakes Water Quality Agreement and to provide for the cost-sharing of specific programs undertaken by the province to assist Canada in meeting these obligations. The commitment is to restore and maintain the chemical, physical and biological integrity of the Great Lakes Basin ecosystem by eliminating or reducing, to the maximum practical extent, the discharge of pollutants into the Great Lakes.

The key pollution control aspects of the Agreement are: municipal sewage treatment; industrial waste control; control of persistent toxic substances; pollution from land use activities, shipping, dredging, offshore and onshore facilities; surveillance and monitoring activities; and research.

Authority:

Canada Water Act

Time Frame:

This co-operative program is a continuing activity which began in 1971 and was revised in 1982 to reflect changes in the 1978 Revised Canada — U.S.A. Agreement.

Financing and Operation:

Through special appropriation, a one-time payment of \$65 million over a three-year term is transferred to the province as a contribution towards approved municipal sewage treatment facilities as described in Schedule G under the Canada — Ontario Agreement, entitled "Sewerage Facilities Construction Program". This is directed towards fulfilment of Canada's obligation under the international Canada — U.S.A. Agreement to reduce pollution from municipal sources in the Great Lakes. In accordance with Article VI, Section 2, of the Canada — Ontario Agreement, shared-cost surveillance of municipal and industrial discharges and a shared-cost information program have been established to which both parties will contribute

equally. The total contribution for the fiscal year 1982-83 is \$2.4 million of which the federal government and the province of Ontario will each contribute 50%.

Administration of the Canada — Ontario Agreement resides with the Ontario Regional Director General. Operational activities, as required, are provided by the various regional components of the department.

In addition to the aforementioned activities, the Ontario Regional Director General manages the interdepartmental and intradepartmental Great Lakes Water Quality Program, which has been established to fulfill directly responsibilities assumed under the 1978 Revised Canada — U.S.A. Great Lakes Water Quality Agreement. Led by the federal Department of the Environment, this program has the active participation of the federal Departments of National Health and Welfare, Fisheries and Oceans, Agriculture, Transport and Public Works. The base contribution of these departments totals \$8 million with an additional annual allocation of \$2 million via an interdepartmental working group chaired by the federal Department of the Environment which is represented by the Ontario Regional Director General.

Payments:

With reference to the \$65 million payment over the three-year term specified in the Canada — Ontario Agreement, the Department is obliged to remit funds to the province for transfer or credit to municipalities for which a claim has been received. This occurs on a quarterly basis and is not to exceed the following amounts per payment in any one fiscal year:

\$35 million in fiscal year 1982-83
\$20 million in fiscal year 1983-84
\$10 million in fiscal year 1984-85

With reference to the shared-cost surveillance and information programs, the federal contribution of \$1,200,000 for the fiscal year 1982-83 is made on a quarterly basis on receipt of claims from Ontario.

For Further Information:

Mr. J.D. Kingham

CANADA — PRINCE EDWARD ISLAND STUDY ON ALDICARB**Administered By:**

Environmental Protection Service and Prince Edward Island Department of Community and Cultural Affairs.

Purpose:

To evaluate the nature and extent of contamination of Prince Edward Island ground waters by the pesticide aldicarb.

Authority:

Agreement reached in May 1984 between the Environmental Protection Service and the Prince Edward Island Department of Community and Cultural Affairs for continuation and completion of the project. (The project was initiated in 1983 under a separate agreement for 1983-84).

Time Frame:

May 1983 — March 1985.

May 1983 — October 1984: sampling;

November 1984 — March 1985: report preparation.

Financing and Operation:

The cost of the survey is based on a 50-50 sharing arrangement between the federal and provincial governments. Environmental Protection Service contributions in 1984-85 amounted to \$2,000 to the Prince Edward Island Department of Community and Cultural Affairs to defray sampling costs, and \$5,000 to cover analytical requirements.

CANADA — SASKATCHEWAN ACCORD FOR THE PROTECTION AND ENHANCEMENT OF ENVIRONMENTAL QUALITY**Administered By:**

Environmental Protection Service (EPS)

Purpose:

To provide a more effective overall effort on the solution of environmental quality problems, through better co-ordination of the activities of Canada and the Province of Saskatchewan; and to provide a broad framework within which specific agreements can be designed to cope with particular problems.

Authority:

Decision of the Cabinet Committee on Science, Culture and Information, February 12, 1974.

Time Frame:

October 1975 to October 1980.

Lapsed after October 1980.

Negotiations have been initiated for renewal of the Accord.

Financing and Operation:

The Accord is to be used as a basis for federal-provincial working agreements relating to the division of responsibilities for environmental protection; to the exchange of information; to establishment of contact points for the public, industry and other government departments; and to acceptance of requirements, objectives and priorities relating to environmental quality. It is expected that the renewed Accord will provide for implementation through some form of federal-provincial consultative committee.

DETERMINATION OF SENSITIVE HABITAT IN THE ATLANTIC PROVINCES**Administered By:**

Environmental Protection Service (EPS)

Purpose:

To locate areas vulnerable to development in terms of potential impacts on ecologically valuable assemblages of plants and animals.

Time Frame:

Project started in 1982-83 and should be complete by March 1985.

Financing and Operation:

Unique and vulnerable assemblages of plants and animals in all four Atlantic provinces have been identified. Reports have been published by the provincial museums in Nova Scotia and New Brunswick, and arrangements have been made to finalize the report for Newfoundland. These reports fill the need for area-wide assessments. Funding is 100% federal, with provincial museums providing facilities and expertise.

FACT SHEETS ON HAZARDOUS WASTES**Administered By:**

Environmental Protection Service, Nova Scotia Department of Environment, and Newfoundland Department of Environment.

Purpose:

To produce fact sheets on hazardous wastes, for public dissemination in Nova Scotia and Newfoundland.

Authority:

Agreement reached between Nova Scotia Department of Environment, Newfoundland Department of Environment, Regional Director General's Office of the federal Department of the Environment and the Environmental Protection Service in May 1984.

Time Frame:

Newfoundland: Final draft of fact sheet completed, awaiting printing. Completion is expected by December 1984.

Nova Scotia: Two fact sheets (one on household hazardous wastes and one technical) are still in draft stage. Completion is expected by March 1985.

Financing and Operation:

Newfoundland: The fact sheet has been developed jointly by the Newfoundland Department of Environment, the Regional Director General's Office and the Environmental Protection Service. Costs will be split: \$600, Newfoundland Department of Environment; \$300, Regional Director General's Office; \$300, Environmental Protection Service.

Nova Scotia: The costs for the two fact sheets will be split: \$2,000, Nova Scotia Department of Environment; \$1,000, Regional Director General's Office; \$1,000, Environmental Protection Service.

HIGH POINT BOG FUEL PILOT PROJECT**Administered By:**

Environmental Protection Service (EPS)

Purpose:

A multidisciplinary study to evaluate the effect of acid

drainage from the development of peatlands for fuel peat on the receiving water.

Authority:

Section 33 of the Fisheries Act

Time Frame:

Commenced in 1980 with completion expected in 1985.

Financing and Operation:

The Department of Mines of Newfoundland supplied the initial funding for equipment and manpower to conduct sampling. The Environmental Protection Service (EPS) managed the program to determine the magnitude of the pollution caused by drainage from peatlands, including training site personnel and performing chemical analyses. Other sectors were managed by various federal and provincial agencies, such as the Canadian Wildlife Service of the federal Department of the Environment, which is studying the environmental implications of the acid drainage for wildlife, and the Newfoundland Department of the Environment, which is examining the hydrology, that is, the origin, distribution and properties of the waters of the area. The study was completed in late 1982, and preliminary analysis of the data indicates only localized impacts on receiving water from peatland drainage. Final analysis and publication of the data, including hydrological profiles, are anticipated in early 1985.

INVENTORY OF FEDERAL BELOW-GROUND DISPOSAL SITES FOR HAZARDOUS WASTES IN QUEBEC**Administered By:**

Quebec Regional Headquarters of the Environmental Protection Service (EPS)

Purpose:

To carry out an inventory of federal below-ground disposal sites for potentially hazardous wastes in Quebec, to assess these sites and, where required, to develop methods of evaluation to determine the impact of the sites on the environment and the corrective measures to take where the impact is adverse.

Authority:

Decision of the Canadian Council of Resource and Environment Ministers (CCREM) at its 1981 meeting. This project is part of the National Waste Management Program.

Time Frame:

The project began in 1981.

Financing and Operation:

This project is financed from the operating budgets of EPS and the Quebec Department of the Environment. EPS is carrying out, at a cost of \$45,000, the inventory of below-ground disposal sites located on property belonging to the federal government. Thirteen sites have been identified as needing corrective measures in the near future. These sites are currently undergoing a preliminary impact study at a cost of \$100,000. In addition, the Service is developing an ecotoxicological methodology to determine the danger that such sites present. Application of the methodology at four sites was carried out under contract at a cost of \$70,000. During 1984-85, a methodology of evaluation by remote sensing is to be developed for EPS; the Service is now evaluating six of the federal sites. The cost of these two activities is \$129,000. The Quebec Department of the Environment is carrying out the inventory of the rest of the below-ground sites in the province.

For Further Information:

**JOINT PROGRAM FOR THE CONTROL OF
CONTAMINATION IN SHELLFISH BEDS IN QUEBEC
(ENVIRONMENTAL PORTION)****Administered By:**

Quebec Regional Headquarters of the Environmental Protection Service (EPS) (Environmental portion).

Purpose:

The principal objective of the program is to ensure that the public health is protected from disease transmitted via shellfish and that available stocks of shellfish can be safely consumed. The purposes of the environmental portion of the program are the following: development of a plan for the surveillance of environmental quality in the shellfish growing areas; identification of sources of pollution in these areas; and recommendation for the control of the pollution sources by appropriate municipal, provincial or federal authorities.

Authority:

The program is carried out under the 1948 Bilateral Agreement on Shellfish between the United States and Canada. The Agreement requires that both countries ensure the

wholesomeness of shellfish and crustaceans destined for export to the other country. The joint program in Quebec is implemented through the Regional Committee on Shellfish, composed of representatives from the federal Departments of the Environment and Fisheries and Oceans and from the Quebec Departments of the Environment and of Agriculture, Food and Fisheries. EPS is a member of the committee, representing the federal Department of the Environment.

Time Frame:

Continuing activity since the formation of the Regional Committee on Shellfish in 1974.

Financing and Operation:

This program is financed from the operating budgets of the participating government departments. EPS provides a mobile laboratory and supervises field work in the area of water quality. In addition, EPS allocates 0.5 person-years and \$40,000 per year to the program.

**JOINT PROGRAM FOR THE INVENTORY OF SOURCES OF
POLLUTION AND FOR THE APPLICATION OF
CORRECTIVE MEASURES****Administered By:**

Quebec Regional Headquarters of the Environmental Protection Service (EPS)

Purpose:

Ensure that the national standards and directives for air and water pollution control are observed.

Authority:

Clear Air Act
Fisheries Act, Section 33

Time Frame:

Continuing activity which is subject to possible modification in the future.

Financing and Operation:

All expenses related to the program are assumed by the respective participating organization which incurs them. The two participants are EPS and the Quebec Department of the Environment.

In the case of air pollution control, administrative arrangements have been concluded for each regulation under the

Clear Air Act. To date, the sectors covered by these arrangements are asbestos, chlorine and caustic soda plants, lead melting and reforming plants, and vinyl chloride production. The role and responsibilities of EPS and the Quebec Department of the Environment in this program have been identified. The two bodies carry out their responsibilities using existing resources; no additional resources are allocated.

In the area of water pollution, similar programs have been established for the reduction of pollution at oil refineries, base metal mines, gold mines, the pulp and paper industries as well as chlorine and caustic soda plants.

In addition, sampling programs have been set up to check standards and to develop pollution control techniques and analytical methods. EPS provides technical assistance to the Quebec Department of the Environment in the areas of waste water treatment and the use of bio-tests to determine toxicity.

Joint inventories are undertaken in order to set up a data base prior to possible regulation and to gather information in the areas of acid rain and trends in pollution levels.

**LONG RANGE TRANSPORT OF AIR POLLUTANTS
PROGRAM: AGREEMENTS WITH THE PROVINCES FOR
SULPHUR DIOXIDE EMISSION REDUCTIONS**

Administered By:

Department of the Environment

Purpose:

To obtain reductions in emission levels in order to reduce pollutant loadings into the environment to levels which ecosystems can tolerate.

Authority:

Government Organization Act, 1979 and Clean Air Act.

Time Frame:

Continuing

Financing and Operation:

A formal agreement to limit sulphur dioxide emissions in central and eastern North America is being negotiated with the United States' Administration under a Memorandum of Intent. The federal government together with the gov-

ernments of Manitoba, Ontario, Quebec, New Brunswick, Nova Scotia and Newfoundland have agreed to conduct research and exchange findings, to carry out joint public information programs, and to the establishment of co-ordinating mechanisms to consult and provide advice in support of negotiations. Federal and provincial governments are discussing apportionment of emission reductions in Canada in support of an eventual agreement with the United States' Administration.

**MODERNIZATION OF THE SYDNEY STEEL
CORPORATION PLANT AT SYDNEY, NOVA SCOTIA
(ENVIRONMENTAL PORTION)**

Administered By:

Environmental Protection Service (EPS) (Environmental portion)

Purpose:

The object of the environmental portion of the project is to improve pollution control at the Sydney Steel Corporation (SYSCO) plant at Sydney, Nova Scotia. By December 1984, approximately \$14 million of both air and water pollution controls will be in place.

Authority:

In 1981, the federal Department of Regional Economic Expansion (DREE) and the province of Nova Scotia signed, under the General Development Agreement provided for by the Department of Regional Economic Expansion Act, a Subsidiary Agreement for the modernization of the SYSCO plant at Sydney. The total appropriation under the Subsidiary Agreement, including both federal and provincial contributions, amounted to \$96.2 million. Approximately \$14 million of this appropriation were set aside for pollution controls. The federal government contributed 80% of the \$14 million and Nova Scotia, 20%. EPS and the Nova Scotia Department of the Environment are currently working, on a co-operative basis, toward pollution controls at SYSCO leading to eventual environmental improvements. EPS involvement in the program flows from the mandate of the federal Department of the Environment under the federal Clean Air Act and Section 33 of the Fisheries Act.

Time Frame:

Initiated in 1981 with completion likely in 1984-1985.

Financing and Operation:

Capital improvements at the plant are being made with the

federal contribution to the required appropriation being 80% and that the province being 20%. Both EPS and the Nova Scotia Department of the Environment are allocating resources as part of on-going programs for project review and through negotiations with the Department of Regional Industrial Expansion.

NATIONAL AIR POLLUTION SURVEILLANCE NETWORK (NAPS)

Administered By:

Environmental Protection Service

Purpose:

To monitor ambient air quality on a continuing basis, particularly National Air Quality Objective pollutants, in the major centres of population. The Network provides urban air pollution data and is a ready means of auditing progress in air pollution control across the country.

Authority:

Clean Air Act

Time Frame:

Continuing

Financing and Operation:

The development and operation of the Network is a joint project based on the cooperative efforts of both the federal and provincial governments. Network costs are shared approximately equally by both. Provincial costs are primarily operational. The federal government bears most of the cost of equipment acquisition and processes, publishes and disseminates the data. The equipment in the two territorial capitals is operated by regional personnel of the Environmental Protection Service. Personnel of the Montreal Urban Community and of the Greater Vancouver Regional District operate the equipment in their respective regions. The Federal-Provincial Committee on Air Pollution was responsible for creating the program. Presently, consultation on operational aspects and revision are conducted on a bilateral basis between the federal government and individual provinces. As of September 30, 1984, the network comprised 484 monitoring instruments located at 143 stations in 51 cities across Canada.

NATIONAL ALERTING AND REPORTING NETWORK*Administered By:*

Environmental Protection Service

Purpose:

To monitor all significant spills of oils and other hazardous materials to ensure that appropriate authorities are alerted and, where necessary, take action to mitigate the effects of spills on the environment.

The Network relies on existing federal and provincial facilities that provide a 24 hour per day manned service and is supplemented by telephone intercept and tone-and-voice pager systems for a 24 hour on-call service at key locations across Canada. Lists of contacts in the several federal and provincial response agencies are maintained to ensure that authorities at the local, provincial and federal levels are alerted promptly and kept up-to-date on significant spills.

Authority:

Government Organization Act, 1979

Record of Cabinet Decision, November 29, 1973

Environmental Emergency Activities

Time Frame:

Continuing

Financing and Operation:

The Network uses the Trans-Canada Telephone System and the CN/CP Telex System. Generally speaking, participating agencies pay for their own operating costs. Federal agencies accept reverse-charges for telephone calls made to report accidents. In the Maritime provinces, the Canadian Coast Guard pays the total costs for a common Zenith telephone reporting system. Accident reports are then relayed to appropriate provincial and federal agencies. In Newfoundland and British Columbia, the Canadian Coast Guard accepts collect calls on spill reports and then advises appropriate response agencies.

NATIONAL ANALYSES OF TRENDS IN EMERGENCIES SYSTEMS (NATES)*Administered By:*

Environmental Protection Service (EPS)

Purpose:

To accumulate computerized data on spills of oils and other hazardous materials into the environment anywhere in Canada so as to determine pollution sources and problem areas and take action to prevent or at least reduce the number of accidents. In addition, the system facilitates the analysis of trends in accidental spills and allows contingency planners to prepare or modify their response plans accordingly. Trend analysis also assists research and development personnel in assessing priorities for equipment development and deployment.

Authority:

Record of Cabinet Decision, November 29, 1973;
 Government Organization Act, 1979.

Time Frame:

Continuing

Financing and Operation:

Participating federal and provincial agencies incur some

incremental expenses in collecting and providing spill information to Environmental Protection Service (EPS) offices in each province. EPS bears the entire cost of system maintenance and data input. The data-base is available only to federal or provincial government agencies, and they pay their own computer usage costs.

NATES is the only national inventory of spill events affecting the environment and the data-base now contains over 23,000 entries. EPS publishes annual analyses in its "Spill Technology Newsletter" and upon request, analyzes a variety of problems in provinces, regions, water basins and specific locations.

For Further Information:

Regional: See above under "National Alerting and Reporting Network"

Headquarters—National Coordination: See under "National Alerting and Reporting Network"

NATIONAL INVENTORY OF MUNICIPAL WATERWORKS AND WASTEWATER SYSTEMS IN CANADA (MUNDAT)*Administered By:*

Environmental Protection Service (EPS)

Purpose:

To maintain up-to-date records of the number and capacity of water supplies and wastewater treatment systems for all municipalities in Canada.

Authority:

Government Organization Act, 1979

Time Frame:

Continuing

Financing and Operation:

Municipal and provincial agencies are responsible for providing the input data for this system. All expenses associated with this activity are provided by the respective agency. EPS bears the entire cost of system maintenance and data input. In addition, the Federation of Associations on the Canadian Environment (FACE) provides advice on private sector interests and the information needs of the Federation's member associations which represent all sectors of the municipal water and wastewater field. The data base is for the most part available to anyone seeking such information. Efforts are made to recover costs for large-scale use of the system. This data base is the only complete validated inventory of water and wastewater systems in Canada. At present, MUNDAT contains general municipal water distribution and wastewater collection system information on more than 3,300 municipalities, detailed water supply and treatment data for 3,051 plants and wastewater treatment and disposal data on 1,688 plants.

NATIONAL SURVEY OF WASTE DISPOSAL SITES**Administered By:**

Environmental Protection Service (EPS)

Purpose:

To identify location and number of existing and abandoned waste disposal sites with potential environmental or public health problems in Canada.

Authority:

This project is based on a plan of action for the National Waste Management Program developed in consultation with the provinces through the Federal/Provincial/Territorial Committee on Hazardous Wastes.

Time Frame:

The survey began in the latter part of 1981; termination is scheduled for 1988.

Financing and Operation:

Joint studies are funded on a 50-50 basis with participating provinces.

Payments:

Environmental Protection Service contributions to date amount to approximately \$740,000.

PRINCE EDWARD ISLAND CO-OPERATIVE SHELLFISH PROGRAM**Administered By:**

Environmental Protection Service (EPS), Atlantic Region.

Purpose:

The study has the following objectives:

1. to develop a long term plan in the surveillance of marine environmental quality in shellfish growing areas;
2. to identify the magnitude and sources of shellfish growing area contamination;
3. to incorporate growing area surveillance results into provincial, municipal and federal solutions to the waste disposal problems (present and future) affecting marine environmental quality in shellfish growing areas;
4. to protect the public health and encourage more effective protection and utilization of estuarine resources;
5. to satisfy surveillance and monitoring obligations relative to the Canada — United States Bilateral Agreement on Shellfish.

Authority:

This project is based upon the mandate contained within the 1948 Canada — United States Bilateral Agreement on Shellfish. The major objectives of the program are to ensure that the public health is protected from disease transmitted via shellfish (domestic and exported) and that the available stocks of shellfish can be effectively and safely utilized. The program is a joint effort to control pollution sources affecting estuarine areas by use of EPS and provincial pollution control mandates. The program was initiated through a work sharing arrangement between the Department of Community and Cultural Affairs of Prince Edward Island and the Environmental Protection Service, Atlantic Region.

Time Frame:

The cooperative program is a continuing activity which began in May of 1975.

Financing and Operation:

The Environmental Protection Service (EPS) provides report preparation, materials and supplies for laboratory work as well as the services of one student. The province provides facilities and on-site advice in addition to the services of one student. Total cost of the project is approximately \$10,000 annually, with EPS providing approximately 50% of the total.

**PULP AND PAPER MILL MODERNIZATION PROGRAM
(ENVIRONMENTAL PORTION) IN NOVA SCOTIA, NEW
BRUNSWICK AND NEWFOUNDLAND**

Administered By:

Environmental Protection Service (EPS) (Environmental portion)

Purpose:

The objects of the environmental portion of the program are to achieve energy conservation and to improve pollution control through the modernization of pulp and paper mills in Nova Scotia, New Brunswick and Newfoundland.

Authority:

In 1981, the federal Departments of Regional Economic Expansion (DREE) and of the Environment, on behalf of the Government of Canada, and the provinces of Nova Scotia, New Brunswick and Newfoundland signed, under the General Development Agreement provided for by the Department of Regional Economic Expansion Act, a Subsidiary Agreement on pulp and paper mill modernization. The modernization programs in each of the three provinces have three major objectives: mill modernization in general; energy conservation; and pollution control. It is the latter two in which EPS is directly involved.

As a result of the modernization, considerable improvements are being made in both air and water pollution control and in hazardous waste management at many of the mills.

Time Frame:

Initiated in 1981, with completion likely in 1985-86 for New Brunswick and Nova Scotia. The projected completion date for Newfoundland is currently 1987. However, an extension to 1989 is likely in order to accommodate the take over of the Corner Brook Mill.

Financing and Operation:

The appropriation under the Subsidiary Agreement amounted to \$21.25 million for Nova Scotia, \$41.25 million for New Brunswick (plus \$12.25 million under a March 1984 amendment), and \$41.33 million for Newfoundland. For both Nova Scotia and New Brunswick, the federal government has contributed 80% of the appropriation and each province, 20%; in the case of Newfoundland, the federal government has contributed 90% of the appropria-

tion and the province, 10%; for the first \$33.33 million. The division is 50-50 for the remaining \$8 million. An increase of \$5 million, to which the federal government will contribute 90%; and the province 10%, has been requested by the Newfoundland government. No specific portion of the appropriation has been set aside for pollution control and energy conservation, but priorities and targets have been set and are required to be met within the modernization program.

**PULP AND PAPER MILL MODERNIZATION PROGRAM
(ENVIRONMENTAL PORTION) IN ONTARIO**

Administered By:

Regional Director — Ontario (Environmental portion)

Purpose:

The objects of the environmental portion of the program are to achieve energy conservation and to improve pollution control through the modernization of pulp and paper mills in Ontario and through the rationalization of production.

Authority:

In 1979, the federal Department of Regional Economic Expansion (DREE) and the Board of Economic Development Ministers, on behalf of the Government of Canada, and the province of Ontario signed, under the General Development Agreement provided for by the Department of Regional Economic Expansion Act, a Subsidiary Agreement on pulp and paper mill facilities improvement. The improvement program has three major objectives: mill modernization in general, energy conservation and pollution control. It is the latter two in which the Environmental Protection Service (EPS) is directly involved.

As a result of the modernization, considerable improvements are being made in both air and water pollution control and in hazardous waste management at many of the mills.

Time Frame:

Subsidiary Agreement signed on May 15, 1979. Termination date of March 31, 1984 with a two-year period to process claims, that is, up to March 31, 1986.

Financing and Operation:

The appropriations under the Subsidiary Agreement amounted to \$60 million from the federal government and \$120 million from the province of Ontario. No specific portion of the appropriations has been set aside for pollution control and energy conservation, but priorities and targets have been set and are required to be met within the modernization program.

Tel.: (416) 966-5840

**PULP AND PAPER MILL MODERNIZATION PROGRAM
(ENVIRONMENTAL PORTION) IN QUEBEC****Administered By:**

Regional Director — Quebec (Environmental portion)

Purpose:

The purpose of the environmental portion of the program is to achieve energy conservation and to improve pollution control through the modernization of pulp and paper mills in Quebec and through the rationalization of production.

Authority:

In 1979, the federal Department of Regional Economic

Expansion (DREE) was given a mandate by the Council of Federal Economic Development Ministers to conclude, under the General Development Agreement provided for by the Department of Regional Economic Expansion Act, a Subsidiary Agreement with Quebec on pulp and paper mill modernization. The Bureau of Planning and Development of Quebec acted on behalf of the province.

The improvement program has three major objectives: mill modernization in general, energy conservation and pollution control. It is the latter two in which the Environmental Protection Service (EPS) is directly involved.

Under the five year plans submitted by the pulp and paper companies, improvements costing approximately \$150 million will be carried out in the area of control of effluents, emissions and solid waste.

Time Frame:

The Subsidiary Agreement was signed on May 15, 1979 and remains in effect until March 31, 1984.

Financing and Operation:

The original Subsidiary Agreement signed in 1979 provided funding in the amount of \$150 million of which 60% was contributed by the federal government and 40% by the province. In 1980, these funds were increased by \$90 million of which the federal and Quebec governments each paid half. Financial incentives granted under the program may amount to 25% of the cost of those projects which are eligible under the criteria previously set out by the Management Committee which administers the agreement. The Management Committee of which EPS is a member is composed of an equal number of federal and provincial representatives appointed by their respective Ministers.

Further, in order to maximize the economic spin-offs of the program as far as the Canadian equipment manufacturing industry is concerned, the Management Committee has set up a working group of which EPS is also a member.

**SAINT JOHN SULPHUR DEPOSITION STUDY:
DEPARTMENT OF ENVIRONMENT OF NEW BRUNSWICK
AND ENVIRONMENTAL PROTECTION SERVICE,
ATLANTIC REGION****Administered By:**

Environmental Protection Service (EPS)

Purpose:

To determine the relative impact of local versus long-range sources on acidic deposition levels in the Saint John, New Brunswick area.

Authority:

Clean Air Act

Time Frame:

July 1984 to July 1986

Financing and Operation:

The Environmental Protection service provided \$24,500 in operational funds and \$3,500 in capital funds for the study during 1984-85. The New Brunswick Department of Environment is operating the network on a day-to-day basis. The Environmental Protection Service, Atlantic Region, also provided technical assistance in designing and setting up the network.

UNDERSTANDING BETWEEN THE GOVERNMENT OF CANADA AND THE PROVINCE OF BRITISH COLUMBIA CONCERNING FEDERAL AND PROVINCIAL RESPONSIBILITIES IN RELATION TO SPILLS OF OIL AND OF OTHER HAZARDOUS MATERIALS**Administered By:**

Environmental Protection Service (EPS)

Purpose:

To clarify administrative arrangements between the federal government and the province of British Columbia in relation to environmental emergencies in the province. Spills of oil and of other hazardous materials may occur on land and in or on British Columbia's fresh waters and in or on the marine waters along the province's coastline and including the river estuaries leading to salt water fishing boundaries. The understanding between the federal and British Columbia governments sets out which government has the lead responsibility for response to spills, particularly in those grey areas of authority where jurisdictions overlap. The document also includes provision for co-operation between the two governments in the areas of contingency planning, spill prevention, reporting, research and development of technology, and maintenance of the National Emergency Equipment Locator System (NEELS) and the National Analyses of Trends in Emergencies Systems (NATES).

Authority:

Record of Cabinet Decision, November 29, 1973 and Government Organization Act, 1979.

Time Frame:

Continuing from June 26, 1981 and reviewed on a yearly basis.

Financing and Operation:

This understanding between the federal and British Columbia governments does not require additional funding from either level of government. The lead agency in a spill response assumes the immediate financial obligations for response activities which it authorizes. Cleanup costs are,

however, recognized as a responsibility of the polluter, and action may be taken by the lead agency to recover such costs from the polluter.

The understanding formalizes methods of operation and procedures which developed during the 1970's. Under the agreement, the federal government assumes responsibility for spills in and on marine waters, from federal facilities or from any source to such facilities and for spills from any source which threaten to cross Canada — United States boundary waters. British Columbia assumes the lead role for all other spills. Both governments agree to assist each other in their respective lead roles. This includes co-ordination of scientific and technological expertise in areas such as oceanography, meteorology, fisheries, wildlife, cleanup technology, communications and emergency planning.

**WOOD SMOKE AIR QUALITY STUDIES IN NOVA SCOTIA
AND NEW BRUNSWICK**

Administered By:

Environmental Protection Service (EPS)

Purpose:

To measure the potential impacts of wood stove emissions on air quality in selected communities in Nova Scotia and New Brunswick.

Authority:

Clean Air Act

Time Frame:

Nova Scotia — October 1983 to December 1984
New Brunswick — September 1984 to July 1985

Financing and Operation:

The Environmental Protection Service provides the equipment for studies, laboratory analyses, design of studies, and report preparation/printing. Provincial agencies manage the day-to-day operations and assist in report preparation for the completed studies.

For Further Information:

WRECK COVE FOLLOW-UP STUDY

Administered By:

Environmental Protection Service (EPS)

Purpose:

To provide information on the effectiveness of mitigating measures recommended by the Environmental Assessment and Review Process Panel for Wreck Cove, and to make recommendations that would improve the Environmental Impact Assessment process.

Authority:

Environmental Assessment and Review Process
Guidelines Order, 1984

Time Frame:

August 1984 to March 1985. Paper to be delivered in the fall of 1985.

Financing and Operation:

A scientific study is being carried out under Environmental Protection Service coordination. Cost sharing is 50% Environmental Protection Service, 25% Nova Scotia, and 25% proponent.

PARKS CANADA PROGRAM**AGREEMENTS WITH PROVINCES AND MUNICIPALITIES
FOR THE ESTABLISHMENT OF NATIONAL PARKS**
(Part of the Parks Canada Program)**Administered By:**

Parks Canada Program

Purpose:

To provide for the assembling of lands and their transfer to the federal government for the establishment of new National Parks.

Authority:

National Parks Act

In recent years, Parks Canada has been active in identifying new areas of potential National Parks interest, and working towards preserving these areas. In order to plan effectively for a complete system of National Parks, Canada has been divided into 39 terrestrial natural regions and 9 marine regions based upon physiographic, ecological and geographical considerations. The objective is to establish National Parks, as areas representative of each of these regions. Nineteen of the terrestrial and one of the marine regions have representation.

Time Frame:

This is a continuing program.

New parks recently established by Federal-Provincial Agreement include:

Gros Morne	Newfoundland
Kouchibouguac	New Brunswick
Forillon	Quebec
Pukaskwa	Ontario
Pacific Rim	British Columbia
Grasslands	Saskatchewan

Financing and Operation:

These agreements usually provide for the provinces to carry out land acquisitions and to submit claims to the federal government for reimbursement, normally on a cost-shared basis. Provincial Crown lands are normally transferred without cost to the federal government if there are no private interests in the lands which need to be extinguished. However in the latest agreement (Grasslands), the federal government will be acquiring the interests in lands directly.

Payments:

See table 4.

**AGREEMENTS WITH PROVINCES AND MUNICIPALITIES
FOR THE PROVISION OF THE FOREST OR MUNICIPAL
FIRE PROTECTION****Administered By:**

Parks Canada Program

Purpose:

To provide forest or municipal fire protection to National Parks and National Historic Parks and Sites where assistance is required from a provincial or municipal agency.

Authority:

National Parks Act
Historic Sites and Monuments Act

For certain locations it has been determined that it would be more efficient and economical to procure fire protection services through agreements with local municipalities (structural fire) or provinces (forest fire).

Four agreements are in force for municipal fire protection for Parks Canada buildings in Gros Morne, Cape Breton

Highlands, Prince Edward Island and Kootenay National Parks.

A forest fire agreement is in effect with British Columbia (Pacific Rim National Park). An agreement has also been signed with Ontario to cover Pukaskwa National Park (1100 square kilometres). These agreements provide for the payment of an annual per hectare sum to the province by Parks Canada for the provision of pre-suppression, detection and suppression services by the provincial forces.

A somewhat different arrangement exists for fire activities in the provinces of Alberta and Quebec. Parks Canada has a reciprocal fire fighting agreement with the province of Alberta in which each party is reimbursed "out-of-pocket" expenses for supplying assistance to the other. A similar agreement exists for the Kootenay, Mount Revelstoke, Glacier and Yoho national parks.

For the province of Quebec, there is no specific agreement with the provincial government. However, La Mauricie and Forillon National Parks are active members in the "SOCIÉTÉS DE CONSERVATION DE LA GASPÉSIE (for Forillon) ET DE QUÉBEC-MAURICIE" (for La Mauricie).

These Societies:

conduct training courses for park personnel in fire fighting and aerial detection of fires;

provide additional help to the park for major fires (obtaining water bombers); and

partially reimburse fire fighting costs which are incurred.

Financing and Operation:

In general the agreements provide for annual payments and contain a provision for periodic reviews.

Payments:

See table 5.

**AGREEMENTS WITH PROVINCES, MUNICIPALITIES OR
PRIVATE, NON-PROFIT ORGANIZATIONS FOR HISTORIC
SITES**

(Part of the Parks Canada Program)

Administered By:

Parks Canada Program

Purpose:

To enter into cost-sharing agreements with provinces, municipalities or private, non-profit organizations to assist in the acquisition, and restoration or reconstruction, of structures declared to be of national historic and/or architectural significance by the Minister on the recommendation of the Historic Sites and Monuments Board of Canada, his advisory body in such matters.

Authority:

Historic Sites and Monuments Act, 1952-53, C.39, 5.1, Section 3(b)

Treasury Board Minute 623840 as amended by Treasury Board Minute 717422. These minutes establish guidelines for percentage of contribution payments paid by Her Majesty in right of Canada for cost-sharing agreements entered into under the authority of the Historic Sites and Monuments Act.

Time Frame:

This is a continuing program. The agreement governing each project states the time frame for anticipated completion of the project, manner of payment for the federal government's contribution toward capital costs and the covenants and obligations entered into by both parties. Typical projects take from two to five years to complete.

Financing and Operation:

Agreements are entered into under the authority vested in the office of the Minister by the Historic Sites and Monuments Act. In general, the Department may contribute up to 50% of the cost of acquisition and restoration if title to

the property is to be held by the second party; up to 50% of the cost of restoration if the second party already owns the property and up to 75% of the restoration costs if the historic property should happen to be owned by the Crown in right of Canada. The second party to the agreement is responsible for the work to be done and lets any necessary contracts. If required, the Department of the Environment may provide expert advice on restoration engineering and architectural detail. Payments of financial contributions are governed by the type of agreement arranged. If no acquisition costs are involved, normally the initial contribution is a nominal one, and the remaining pre-determined amount paid on the basis of certified expenditures submitted to Parks Canada. Final payment is not made until the project is completed to the satisfaction of the Minister. Once the historic place is restored the second party, under the terms of the agreement, is obligated to maintain and operate it at their own expense over a stated period of time for the benefit of the general public.

Payments:

See table 6.

**AGREEMENTS WITH PROVINCES FOR THE
ESTABLISHMENT OF COOPERATIVE HERITAGE AREAS**
(Part of the Parks Canada Program)

Administered By:

Parks Canada Program

Purpose:

To protect significant natural and cultural resources within certain heritage areas and to encourage public use, understanding and recreational enjoyment of such areas by act-

ing in conjunction with other governments, organizations and individuals through agreements for recreation and conservation.

Authority:

Agreements for Recreation and Conservation with the provinces are authorized by Cabinet Decisions in respect of each new heritage area established. There are at present three signed agreements: the Canada-Ontario-Rideau-Trent-Severn (CORTS) Agreement, the Canada-Manitoba Agreement for Recreation and Conservation on the Red River Corridor, and the Canada-British-Columbia Agreement on the Alexander MacKenzie/Grease Trail. A four-year agreement, the Canada-Saskatchewan Subsidiary Agreement on the Qu'Appelle Valley (under a Department of Regional Industrial Expansion Agreement), expired in 1983-84.

Time Frame:

This is a continuing program which commenced in 1975.

Financing and Operation:

The federal government and the provinces will jointly develop a master development plan and fund projects and activities according to that plan.

Payments:

See table 7.

TABLE 7

**AGREEMENTS WITH PROVINCES/TERRITORIES FOR
THE ESTABLISHMENT AND MAINTENANCE OF THE
CANADIAN HERITAGE RIVERS SYSTEM**
(Part of the Parks Canada Program)

Administered By:
Parks Canada Program

Purpose:

To give national recognition to outstanding examples of the Canadian river heritage and to ensure future management which will protect their significant heritage values and provide opportunities for public appreciation and recreational enjoyment of that heritage.

Authority:

Treasury Board Minute T.B. 787856 dated May 19, 1983 confirming program approval for the establishment and maintenance of the Canadian Heritage Rivers System (CHRS) in co-operation with the Provinces and Territories.

Time Frame:

This is a continuing program which commenced in 1984 and will be re-evaluated in 1987 and reported on to Treasury Board via a submission on its progress.

Financing and Operation:

Funding responsibilities for the CHRS are shared in the following manner:

- Parks Canada assumes the cost of staffing and operating a Secretariat of the Canadian Heritage Rivers Board;
- Parks Canada also assumes the cost of publicizing the CHRS at both the national and international levels;
- At its discretion Parks Canada provides assistance to managing jurisdictions for the preparation of studies and plans required to provide nomination documents and management plans;
- The government responsible for managing a designated river assumes the cost of the development and operation contemplated in the management plan.

Payments:

See table 8. Parks Canada's annual operating costs in subsequent years are anticipated to remain at about the 1985-86 level of \$203,000.

**REPLACEMENT OF HIGHWAY BRIDGES OVER CANALS
UNDER PARKS CANADA JURISDICTION**
(Part of the Parks Canada Program)

Administered By:
Parks Canada Program

Purpose:

To share with provinces and municipalities the costs of replacing certain bridges over canals in Ontario and Quebec.

Authority:

The Department of Transport Act

Agreements with the provinces and municipalities concerned in respect of each project.

Time Frame:

Continuing as needed. Most projects require two years to complete.

Financing and Operation:

A number of projects are carried out each year in which the Department shares the cost of replacing certain canal bridges with the provinces and municipalities concerned. Two examples of these projects are the replacement of a bridge over the Trent-Severn Waterway at Frankford, Ontario, and the replacement of the Pretoria Bridge over the Rideau Canal in the Regional Municipality of Ottawa-

Carleton. Specific terms of agreement for each project vary with circumstances. The usual agreement requires a federal contribution equivalent to the cost of replacement bridge, excluding the approaches. The agreements for cost-sharing are subject to negotiations in each case. Projects involve construction contracts and are carried out under provincial government supervision. Federal pay-

ments are made in a lump sum following satisfactory completion of the work.

Payments:

Contributions to the provinces of Ontario and Quebec and to the municipalities in the two provinces for replacement of canal bridges are listed in table 9.

TABLE 9

Department of External Affairs

The Secretary of State for External Affairs is responsible to Parliament for the Department of External Affairs, the Canadian Commercial Corporation, the Export Development Corporation and the Canadian International Development Agency. These entities are involved in activities that are of interest to, and involve, provincial governments.

The role of the Department of External Affairs is defined in the 1983 Government Organization Act, as amended, by which the Department was created. Its responsibilities consist of establishing and conducting Canada's foreign policy, maintaining relations with other countries and international agencies and protecting and promoting Canadian interests abroad. This also includes provincial interests, as described in the 1968 white paper entitled *Federalism and International Relations and Federalism and International Conferences on Education*.

On January 5, 1982, the Department of External Affairs became responsible for Canada's trade policy and export promotion formerly held by the Department of Industry, Trade and Commerce. These new areas of responsibility include the conduct of bilateral trade negotiations, administration of export and import controls and a substantial involvement with the Department of Finance in tariff issues. The transfer brings to the Department the Export Development Corporation and the Canadian Commercial Corporation.

In general, the Department of External Affairs is a coordinating department and is not in charge of "program" administration. Because of this, very few of its many activities with the provinces are included in this inventory.

EDUCATIONAL ADVISER IN ABIDJAN**Administered By:**

Personnel Operations Division, Department of External Affairs and Federal-Provincial Coordination Division

Purposé:

To provide expertise to the Governments of Canada and Quebec in all matters related to education.

Authority:

Following a ministerial agreement made on the recommendation of the Government of Quebec, this diplomatic appointment is made by Order of the Governor General in Council (March 2, 1971), and the allocation of funds is authorized following a submission to Treasury Board.

Time Frame:

Two-year term of office (renewable).

Financing and Operation:

An employee of the Quebec Department of International Relations is seconded to the Department of External Affairs to deal with educational matters in Ivory Coast and in the countries of accreditation (Upper Volta, Niger and Mali) in the capacity of adviser to the Ambassador.

Payments:

Salary paid by the Department of International Relations of Quebec. Allowances and moving and housing expenses paid by the Department of External Affairs.

PROVINCIAL VISITS ABROAD AND FOREIGN VISITS TO THE PROVINCES**Administered By:**

Federal-Provincial Coordination Division, with provinces concerned.

Purpose:

To prepare, in cooperation with provincial authorities, official visits by provincial government officials to foreign countries under the auspices of the Department of External Affairs and the Canadian post in the country visited.

To organize, in cooperation with provincial authorities, official visits of foreign dignitaries or heads of diplomatic missions accredited to the provinces.

Authority:

Under the general responsibility of the Department of External Affairs regarding the conduct of Canada's external relations and with the cooperation of the provinces.

Time Frame:

Each visit is dealt with individually, and there is no time limit on these arrangements.

Financing and Operation:

The Department of External Affairs is responsible for liaison between the provinces and the country concerned, with the Embassy or Consulate in Canada acting as intermediary. The latter often provides assistance with basic problems such as accommodation, transportation and the organization of receptions and other official functions.

Payments:

The provinces send to the Department of External Affairs an advance to cover costs.

For Further Information:

General:

Director

Federal-Provincial Coordination Division
Department of External Affairs
Ottawa, Ontario

Tel.: (613) 992-7917

INFORMATION FLOW PROGRAM**Administered By:**

Federal-Provincial Coordination Division

Purpose:

To transmit to the provinces information gathered by the Department, both in Ottawa and in missions abroad. Most of this material is economic in nature and deals with energy, the environment, trade and natural resources.

Authority:

Under the general responsibility of the Department of External Affairs regarding the conduct of Canada's external relations.

Time Frame:

A set of documents is dispatched weekly to the ten provinces.

Financing and Operation:

The costs of these exchanges are borne by the Department of External Affairs. The information is collected by the Federal-Provincial Coordination Division from documents originating in Canadian diplomatic missions and in Ottawa.

Payments:

Not applicable

For Further Information:

General:

Director
Federal-Provincial Coordination Division
Department of External Affairs
Ottawa, Ontario

Tel.: (613) 992-7917

**GRANTS IN LIEU OF REAL ESTATE TAXES ON
DIPLOMATIC, CONSULAR AND INTERNATIONAL
ORGANIZATION****Administered By:**

The Legal Advisory and Financial Services divisions of the Department of External Affairs and the Municipal Grants Division of the Department of Public Works.

Purpose:

To compensate municipalities for the losses in revenue they would incur due to the fact that diplomatic (chancery or offices of diplomatic mission and official residence of head of mission, including the offices of an international organization and the official residence of the head of mission of that international organization) and consular (chancery or offices of a consular post or trade commission and the official residence of the head of mission of a consular post or trade commission) properties are exempt from real estate taxes under international law.

Authority:

Subject to orders of the Governor General in Council allowing the use of funds for the Canadian Interests Abroad Program (Vote 10).

Time Frame:

Has been operating since 1959 for diplomatic properties and since January 1977, retroactive to January 1975, for consular properties. Indefinite duration.

Financing and Operation:

The grant program operates on the same principle as grants to municipalities for properties belonging to the federal government. The diplomatic and consular properties must be used for diplomatic or consular functions in compliance with the Vienna Convention on Diplomatic Relations or the Vienna Convention on Consular Relations.

The Department of External Affairs receives applications for grants prepared and submitted by municipalities or provinces and determines if the properties to which they pertain fall within the purview of the program. The Department of Public Works then appraises the properties and makes the necessary calculations to determine the amount of the grant, whereupon the Department of External Affairs issues a cheque to the municipality or province.

Payments:

Payment is made directly to the municipality or province by the Department of External Affairs.

**AGENCY FOR CULTURAL AND TECHNICAL CO-
OPERATION****Administered By:**

Department of External Affairs, Francophone Affairs Division.

Purpose:

To enable Canada to participate as a member in the activities of the Agency for Cultural and Technical Co-operation.

Authority:

Cabinet decisions on Canadian participation in the Niamey I and Niamey II conferences held in 1969-1970 for the purpose of organizing the Agency.

Time Frame:

Contribution paid as long as Canada continues to participate as a member in the Agency's activities.

Financing and Operation:

Canadian participation takes two forms: participation by the federal government and participation by the Quebec and New Brunswick governments. Canada, represented by the federal government, is a full member of the Agency.

while Quebec and New Brunswick have a status of participating governments in the institutions, programs and activities of the Agency.

Payments:

Canada's share is 34.37 per cent of the Agency's budget, 31.13 per cent of which is paid by the federal government, 2.94 per cent by the Quebec government and 0.29 per cent by the New Brunswick government. The total contribution of the federal government for 1983-84 was 23,972,069 French francs (\$3,583,835).

**CONFERENCES OF EDUCATION MINISTERS AND OF
YOUTH AND SPORTS MINISTERS OF FRENCH-SPEAKING
COUNTRIES**

Administered By:

The Department of External Affairs, Francophone Affairs Division and the Canadian International Development Agency (CIDA).

Purpose:

To enable Canada to participate in the activities and programs of the international French-speaking community by financially supporting the Standing Technical Secretariat of these Ministers' conferences.

Authority:

Canada has been participating in Education Ministers' conferences and Youth and Sports Ministers' conferences for

French-speaking countries since 1969. However CIDA's initial financial contribution was made in 1974-75.

Time Frame:

Contributions to be paid for annually as long as Canada continues to participate in these conferences.

Financing and Operation:

The conferences are held yearly. The Canadian delegation comprises representatives from Quebec, New Brunswick, Ontario and Manitoba and advisers from the federal government. At the CONFEMEN the chief of the Canadian delegation is usually a provincial Minister.

The federal contribution makes it possible to carry out a variety of activities (technical assistance to the conference secretariat, scholarship program, various training programs), while the provinces primarily send experts, and also provide some financial support.

Payments:

Following the amalgamation of the two secretariats in 1976 and taking into account increased membership in the conferences, Canada assumes 26% of the Permanent Technical Secretariat's (STP) operating budget. The government of Quebec contributes 50% of the Canadian share. Canada's contribution for 1984 is approximately \$32,000.

In 1984-85, CIDA will set aside near \$700,000 for this program. The provinces will send ten or more experts on short missions and New Brunswick will be responsible for a seminar for some twenty participants.

**CONSEIL AFRICAIN ET MALGACHE POUR
L'ENSEIGNEMENT SUPÉRIEUR (CAMES)****Administered By:**

Department of External Affairs
Francophone Affairs Division

Purpose:

To enable Canada to participate in the activities of this body of the international francophonie.

Authority:

Decision of the Canadian Government to participate in the CAMES meeting in 1969 in Kinshasa.

Time Frame:

The Canadian share to CAMES is being paid in terms of the adhesion of Canada to that agency.

Financing and Operation:

The meetings of CAMES are held annually. Representatives of Quebec and of the federal administration participate in these meetings. Canadian experts and specialists participate in the activities sponsored by CAMES, particularly in the area of post-secondary diploma equivalence.

Payments:

The CAMES operating budget is equally shared by member States (African countries) and friendly observer States (France, Belgium, Luxembourg and Canada). Canada pays 35% of the contribution of the friendly States. Fifty per cent of the Canadian contribution is paid by Quebec. In 1984, Canada's share was approximately \$20,000.

**INTERNATIONAL CONFERENCES AND MEETINGS ON
EDUCATION****Administered By:**

Department of External Affairs, Academic Relations Division, in cooperation with the Council of Ministers of Education, Canada (CMEC).

Purpose:

To permit delegates, selected by provincial authorities, to participate in functional-level international meetings in the field of education. These meetings are usually held under the auspices of the Organization for Economic Cooperation and Development (OECD) and its Centre for Innovation and Research in Education; of UNESCO; of the Commonwealth, and of the Council of Europe.

Authority:

Agreement on grants between the Secretary of State for External Affairs and the CMEC, under Treasury Board Directive 774951 of February 17, 1981.

Time Frame:

Renewable annually

Financing and Operation:

The grant, presently in the amount of \$70,000, is awarded to the CMEC on the basis of a programme of conferences planned for the current year. The grant is used by the Council to cover the expenses of the participating delegates, who are named by the Secretary of State of External Affairs upon recommendations by the provinces.

Department of Finance

The Department of Finance is responsible for providing advice on the economic and financial affairs of Canada. The Department also administers a number of federal-provincial programs.

The Federal-Provincial Relations Division of the Federal-Provincial Relations and Social Policy Branch administers several programs and advises on the operation and development of the various federal-provincial fiscal arrangements. These arrangements include the joint occupancy of tax fields, conditional and unconditional fiscal transfers to provinces and municipalities, shared-cost programs, "opting out" provisions, intergovernmental taxation, and intergovernmental cooperation in fiscal and economic matters generally. The Division administers most of the Federal-

Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977, as well as other fiscal arrangements including the statutory subsidies and the transfer of public utility corporation taxes. The Financial Services Division of the Administration Branch administers the Canada Pension Plan Investment Fund.

The Minister of Finance also reports to Parliament on the activities of several government agencies including the Anti-Dumping Tribunal, the Bank of Canada, the Canada Deposit Insurance Corporation, the Department of Insurance and the Tariff Board. While the activities of these agencies are of interest to provinces and municipalities, none of them operates programs under which funds are made available to provincial and municipal governments.

STATUTORY SUBSIDIES

Administered By:

Federal-Provincial Relations Division

Purpose:

This program is constitutionally defined. The original reasons behind these payments were:

1. To provide a source of revenue to the provinces and to compensate for revenues lost on joining the union.
2. To support provincial governments and legislatures.

Authority:

The Constitution Acts, 1867 to 1982 and other constitutional documents together with the following statutes:

Maritime Provinces Additional Subsidies Act;

Provincial Subsidies Act;

Newfoundland Additional Financial Assistance Act.

Time Frame:

The first of these subsidies date from 1867. They are payable in perpetuity unless subjected to further constitutional amendments.

Financing and Operation:

These are unconditional payments by the government of Canada to the governments of the provinces. The federal government is wholly responsible for the operation of this program.

The payments fall into four classes:

1. allowances for provincial governments;
2. allowances per head of population;
3. interest on provincial debt allowances; and
4. special grants and allowances.

The amounts are determined by the Department of Finance according to statutory formula. The first two classes of payments listed above also provide for escalation with population increase, so payments are automatically increased according to the official census population figures.

Since these are statutory payments there is no need for the provinces to submit claims. Payments are made automatically every six months on July 1 and January 1 of each year except for the Maritime provinces Additional Subsidies which are paid on April 1 and October 1 of each year and the interest on debt allowances paid to Saskatchewan and Alberta on September 1 and March 1.

Payments:

FISCAL EQUALIZATION PROGRAM**Administered By:**

Federal-Provincial Relations Division

Purpose:

The purpose of equalization is to make it possible for all provinces to provide reasonable standards of public services at reasonable levels of taxation.

Authority:

Part I of the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977 and regulations thereunder.

Time Frame:

Equalization is a continuing program. The federal government and the provinces are committed to the principle of equalization by Section 36 of the Constitution Act, 1982. In practice, the program is based upon legislation enacted by the Parliament of Canada following consultation between the federal and provincial governments. It has been the practice, since the program began on April 1, 1957, to have it extend for a five year period, as one element of the quinquennial fiscal arrangements between Canada and the provinces. The present quinquennial period began on April 1, 1982 and will run to March 31, 1987.

Financing and Operation:

The purpose of the equalization program, as stated by Section 36 of the Constitution Act, 1982, is "to ensure that provincial governments have sufficient revenues to provide reasonably comparable levels of public services at reasonably comparable levels of taxation". Consistent with this purpose the payments are made free of any conditions.

It has not yet been feasible to quantify, in any satisfactory way, differences among provinces in the cost of providing public services or in the need for such services. However, there appears to be general agreement that, on an over-all basis, provincial costs and needs are likely to be relatively uniform per capita. It has been possible to make relatively good comparisons between provinces in respect of their capacity to derive revenues from taxation. As a consequence of these considerations, equalization payments in Canada have always been based upon a comparison of the per capita productivity or per capita yield of provincial tax bases or, more simply, a comparison of "provincial fiscal capacity".

The equalization system used in Canada has two basic elements — the measure of fiscal capacity and the standard. As noted, fiscal capacity is a measure of the capacity of each province to raise revenues by taxation. The standard of equalization is a specified level of fiscal capacity to which each province is entitled to be raised.

The measurement of fiscal capacity for each province is done by estimating the per capita yield in each province from each of the taxes that are levied by provinces, including their local governments. The taxes taken into account in the equalization system include personal income taxes, corporation income taxes, retail sales taxes, gasoline taxes, motor vehicle licences, alcoholic beverage mark-ups, tobacco taxes, succession duties, health insurance premiums, lotteries, payroll taxes, taxes on corporation paid-up capital, property taxes and a wide variety of levies designed to capture some portion of the economic rent from oil, natural gas, potash, other metallic and non-metallic minerals, forestry and water power sites.

The comparison of fiscal capacity is not based upon the actual yields of these taxes in the various provinces, but rather upon standardized yields. The standardized yield of

a tax in a given province is determined by estimating the amount of a commonly defined base for that tax in the province, and then applying to that base the average rate of tax that is levied in the provinces as a whole.

Examples of tax bases that are used in the equalization formula are taxable income (with some adjustments) in the case of the income taxes, retail sales (with some adjustments) in the case of the retail sales tax, and the value of oil production in the case of oil revenues. Since any one of the uniformly measured tax bases varies on a per capita basis from one province to another, the per capita yield after applying the average rate of tax also varies. Any province which has, for a given tax, a per capita yield that is below the standard per capita yield has an equalization entitlement equal to the amount of the per capita shortfall multiplied by its population.

The standard of equalization in the present formula is the average per capita fiscal capacity for the five provinces of Ontario, Quebec, Manitoba, Saskatchewan and British Columbia. This standard is considered to be "representative" of the provinces as a whole because it excludes Alberta, the richest province, and the four Atlantic Provinces, which are the poorest. The two exclusions account, in each case, for about 9 per cent of total provincial population.

The procedure of comparing each province's per capita fiscal capacity with the average per capita fiscal capacity for the five standard provinces is repeated for each of 33 different categories of provincial-local revenue. A province's total per capita equalization entitlement is derived by taking the sum of its per capita entitlements for these 33 sources. These entitlements will be positive where a province's fiscal capacity is below the five province standard, and negative where a province's fiscal capacity is above the five province standard. If the net total of these positive and negative amounts is zero or negative, the province's equalization entitlement will be zero. If the net total is positive, the province will have an equalization entitlement equal to the net per capita total multiplied by its population.

The present equalization formula has three special features:

First, there is a transitional provision which guarantees any province that would be eligible for equalization in 1982-83 successively higher minima entitlements in 1982-83, 1983-84 and 1984-85. The amount of the minimum payment for such a province in 1982-83 is equal to its 1981-82 entitlement plus the average annual absolute increase in its entitlement between 1977-78 and 1981-82 — the first and last years of the previous fiscal arrangements. The minimum payment for 1983-84 is equal to the minimum payment in 1982-83 plus two-thirds of the average annual increase from 1977-78 to 1981-82. The minimum payment for 1984-85 is equal to the minimum payment in 1983-84 plus one-third of

the average annual increase from 1977-78 to 1981-82. Manitoba, Quebec, Nova Scotia and Prince Edward Island have benefitted from the transitional provision in all three years to which it applies, while New Brunswick has benefitted in the first two years.

Second, there is a ceiling on total equalization payments for 1983-84 and subsequent years. The ceiling is applied on a cumulative, rather than a "year-over-year", basis with reference to the increase in equalization entitlements from 1982-83 to the relevant fiscal year. The percentage increase in total equalization entitlements from 1982-83 to the relevant fiscal year may not exceed the percentage increase in GNP from 1982 to the relevant calendar year. The ceiling has not been applicable up to the present.

Third, there are floors which protect individual provinces from any sharp year-over-year drop in equalization. There are three floors which vary according to the relative per capita fiscal capacity of the province. At the present time a 95 per cent floor (preventing more than a 5 per cent year-over-year drop) would apply to Newfoundland, Prince Edward Island and New Brunswick, a 90 per cent floor

would apply to Nova Scotia and an 85 per cent floor would apply to Manitoba and Quebec. The floor has not been applicable up to the present.

Payments:

Payments to eligible provinces commence with the first month of the fiscal year and are made in 24 equal instalments payable on the 1st and 3rd working days following the 15th day of each month. Payments during the fiscal year are made on an interim basis. Successive calculations of equalization are made during the course of the year — each incorporating the latest available data, and each resulting in a new level of instalment payments for the balance of the year. Successive adjustments are made following the end of the year, culminating in the final calculation of equalization some 24 months after the end of the fiscal year.

At the present time six provinces qualify for equalization — the four Atlantic Provinces, Quebec and Manitoba. The following table indicates the entitlements of each of these provinces, as most recently calculated, for 1982-83, 1983-84 and 1984-85 the first three years of the present system.

See table 2.

FISCAL STABILIZATION PROGRAM**Administered By:**

Federal-Provincial Relations Division

Purpose:

To protect each province from a sudden year to year loss in revenue as a result of a severe economic downturn in the national economy or in the province's own economy.

Authority:

Part II of the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary and Health Contributions Act, 1977 and regulations thereunder.

Time Frame:

This is a continuing program which began in 1967 and was renewed in 1972 and again in 1977 and 1982, in each case with certain modifications. The present program, which was devised following discussions with the provinces, began on March 31, 1982 and has no termination date. However, it will undoubtedly be subject to the quinquennial review which has become traditional for programs falling within the Federal-Provincial Fiscal Arrangements.

Financing and Operation:

Stabilization payments are intended to be unconditional payments to provinces whose total revenues, measured on the basis of constant rates of taxation and constant tax structure, decline from one year to the next. The revenues which are stabilized are the same as those which are subject to equalization (except that local government revenues are excluded) plus equalization itself (except that portion of equalization which relates to local government revenues). There is however a threshold which a province must meet before it can qualify for stabilization payments in respect of natural resources. This threshold provides that payment may be made only if, and to the extent that, a year to year decline in natural resources exceeds 50%. This provision prevents the possibility of making stabilization payments in respect of natural resources to resource-rich provinces whose revenues could fall, from peak levels which they reach from time to time, as a result of declining volumes of production or reductions in the prices of resources. It is felt that such declines are foreseeable and, therefore, ought not to be covered by the stabilization program. The only change made to the program in 1982 was the removal of the fixed termination date.

Payments:

The severe economic recession which began in 1982 resulted in the first applications for a stabilization payment since this program began, in its present comprehensive form, in 1967-68. These applications came from British Columbia and Quebec and both relate to the 1982-83 fiscal year. The British Columbia application was made in June 1983 and has resulted in an estimated entitlement of \$174 million, of which \$80 million has been paid in the 1983-84

fiscal year. The Quebec application was made in September 1984 and has not yet been dealt with.

TAX COLLECTION AGREEMENTS**Administered By:**

Federal-Provincial Relations Division and the Department of National Revenue.

Purpose:

To provide income tax collection and related services to the provinces by collecting provincial personal and corporate income taxes and generally administering provincial income tax acts. The objectives are to prevent unnecessary duplication in the application of income tax systems by the federal and provincial orders of government, to reduce taxpayer confusion and to contribute to the maintenance of a relatively uniform income taxation system across Canada. This service is provided by the federal government at no cost to the provinces.

Authority:

Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977, as amended in 1982 and 1984, Part III and Regulations thereunder.

Agreements with the two Territories and all provinces except Quebec for personal and corporate income taxes and except Ontario and Alberta for corporate income taxes.

Time Frame:

The tax collection agreements between Canada and the provinces have been in existence since 1962. In addition, a tax collection agreement was entered into with the

Northwest Territories for the 1978 and succeeding taxation years and with the Yukon for 1980 and succeeding taxation years.

The agreements provide for the arrangements described below to proceed until notice is given by either the federal government or the province. The notice required for termination is a full year before the commencement of the next taxation year in the case of the federal government, and three months before the commencement of the next taxation year in the case of the provinces.

There are no formal arrangements for renegotiation of these agreements. Negotiations are undertaken as necessary between federal and provincial Ministers of Finance.

Financing and Operation:

Agreements authorized under Part III of the Fiscal Arrangements Act allow the federal government to provide tax collection services to provinces and territories and give responsibility for administration of provincial legislation to the Minister of National Revenue. The agreements vary slightly from province to province. The federal government collects the personal and corporate income taxes of the territories and all provinces except Quebec, Ontario and Alberta. For Ontario and Alberta, the federal government collects only personal income taxes.

To maintain a relatively uniform income taxation system across Canada, and to simplify administration, provinces are required to adopt income tax legislation and regulations in a form not inconsistent with those of the federal government. The agreements provide flexibility for provinces to vary their income tax systems. For example, provinces have established a variety of tax credits and rebates against provincial income tax which are administered under the agreements. In addition, a number of other provincial tax reductions and surtaxes are also administered by the federal government. A fee, designed to cover administrative costs is charged for the administration of provincial tax credits and rebates.

Payments:

The agreements provide for the collection of provincial income taxes on the basis of tax assessed by the Department of National Revenue in accordance with provincial law. Transfers are then made to the provinces, in respect of these assessments, by the Department of Finance. Payments are made by the federal government only as an intermediary so there is no net transfer of federal funds to the provincial governments. The federal government generally makes payments to the provinces by instalments, throughout the period in respect of which the tax is assessed. These instalments are paid at specified intervals each month and are adjusted during the year as more accurate information on receipts becomes available. Subsequently, further adjusting payments are made when the actual data become available.

**PROVINCIAL PERSONAL INCOME TAX REVENUE
GUARANTEE PAYMENTS**

Administered By:

Federal-Provincial Relations Division

Purpose:

The Provincial Personal Income Tax Revenue Guarantee is intended to avoid serious disruption to provincial financial planning as a result of federal tax policy changes in the course of the tax year. Its purpose is to encourage maintenance of a common tax system across Canada by removing a provincial problem in the tax collection agreements. Provincial personal income tax rates under the tax collection agreements are applied to federal basic tax. As a result, any policy change that alters federal basic tax, after provincial rates are struck, alters provincial tax collections. This guarantee will pay for provincial revenue losses as a result of federal policy changes that exceed 1% of federal basic tax in the province. The purpose of this threshold is to avoid the necessity of making payments in respect of small tax changes.

Authority:

Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977, Part IV.

Time Frame:

This provision of the Act is effective up to March 31, 1987.

Financing and Operation:

The guarantee applies to all personal income tax changes announced after the beginning of the tax year and effective in that year. A province is eligible to a revenue guarantee payment if the net result of all these tax changes is to reduce

the province's personal income tax revenue by more than 1% of its basic federal tax. The payment would compensate the province for that part of the reduction over the 1% floor. A province would not be eligible to a guarantee payment if it introduced amendments to its Act that are intended to offset the financial effect on its revenue of the federal tax changes. The Province of Quebec has its own personal income tax system and is not directly affected by federal tax changes; however, to encourage a common system across Canada, if Quebec makes in the same year similar tax changes to its system, it becomes eligible to a guarantee payment.

Payments:

Since the introduction of the 1977 revenue guarantee program, there have been no tax changes which made necessary the payment of a revenue guarantee payment.

**TRANSFER PAYMENTS WITH RESPECT TO TAX ON 1971
UNDISTRIBUTED INCOME ON HAND**

Administered By:

Federal-Provincial Relations Division

Purpose:

To share with the provinces the proceeds of the special 15 per cent tax on distributions of corporation income surplus built up prior to the January 1, 1972 reform of the Income Tax Act and paid out after that date.

Authority:

Federal-Provincial Fiscal Arrangements and Post-Secondary Education and Health Contributions Act, 1977, Part V.

Income Tax Act, Part IX

Federal-Provincial Fiscal Arrangements Regulations, 1977

Time Frame:

The provisions contained in Part IX of the Income Tax Act for payment of the special 15 per cent tax on undistributed 1971 income on hand were repealed effective December 31, 1978. The taxation year 1978 will, therefore, be the last year in respect of which these transfer payments will be made.

Financing and Operation:

These are unconditional payments from the federal government to the provinces.

Early in March of each year Revenue Canada furnishes the Department of Finance with a statement of total income tax collections under Part IX of the Income Tax Act and the amount of such tax that is shareable in respect of each province for the preceding calendar year. Payment is then made to the provinces along with a statement of how it was calculated. Payments amount to 20 per cent of federal collections.

Payments:

See table 3.

ESTABLISHED PROGRAMS FINANCING**Administered By:**

Federal-Provincial Relations Division
Department of Finance

Health Services and Promotion Branch
Department of National Health and Welfare

Education Support Branch
Department of the Secretary of State

Purpose:

The purpose of these arrangements is to provide financial assistance to the provinces and territories in the program areas of Insured Health Services, Extended Health Care Services and Post-Secondary Education.

Authority:

The Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977, Part VI and Regulations thereunder.

The Canada Health Act.

Time Frame:

The Established Programs Financing arrangements have no expiry date, and the federal government can modify the arrangements without provincial consent. Complete termination, however, requires prior notice. Termination takes effect on March 31 of the third year after the year in which the notice is given.

Financing and Operation:

The Established Programs Financing arrangements specify the method of financing federal contributions to Insured Health Services, Extended Health Care Services and Post-Secondary Education. In essence, the pre-1977 cost-sharing formulae for these programs have been replaced by a formula under which federal contributions are determined

independently of program costs in the provinces. Federal contributions are in the form of cash and tax transfers.

Each province or territory's total Insured Health Service entitlement is equal to the national average per capita federal contribution for hospital insurance and medical care in a base year (1975-76), escalated by the rate of growth of the Canadian economy and multiplied by the population of that province or territory. Post-Secondary Education entitlements, determined separately, are escalated from 1975-76. PSE contributions in a similar fashion except that for 1983-84 and 1984-85, the rates of escalation are 6 and 5 per cent respectively.

The total EPF tax transfer consists of 13.5 personal and 1 corporate income tax points. It is equalized to a representative average standard, under the general equalization formula, and grows with the yield of basic federal tax and corporate taxable income. In addition, Quebec receives a special abatement of 8.5 personal income tax points under the contracting-out arrangements. The EPF tax transfer is allocated between Health and Post-Secondary Education according to the national ratios existing in the base year with roughly 67.9% going to Insured Health Services and 31.1% to Post-Secondary Education.

The cash payment to any province or territory is the difference between its total entitlement and its tax transfer. This ensures that all provinces and territories receive an equal amount per person to finance these programs.

Starting in 1984-85, provinces permitting extra-billing to physicians or user charges are penalized, under the Canada Health Act, by dollar-for-dollar deductions from federal cash payments for Insured Health Services.

The provinces and territories also receive a grant of \$20 per capita escalated from 1977-78 by the rate of growth of the Canadian economy. This grant is designed to cover certain Extended Health Care Services.

Additional information on the three programs covered by these arrangements is included in the material provided by the Departments of National Health and Welfare and the Secretary of State.

Payments:

Table 4 provides a summary of Established Programs Financing transfers for 1984-85.

CONTRACTING OUT ARRANGEMENTS

Administered By:

Federal-Provincial Relations Division

Purpose:

The original purpose of these arrangements was to permit any province that so desired to assume the administrative

and financial authority for certain joint programs. Quebec was the only province to take advantage of the contracting out arrangements when they were proposed to the provinces by the federal government in the mid-1960's.

Authority:

Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977, Part VII

Federal-Provincial Fiscal Revision Act, 1964

Income Tax Act

Time Frame:

The contracting-out arrangements have no specified termination date.

Financing and Operation:

Under the contracting-out arrangements the federal taxpayer in Quebec has his basic federal tax reduced by a certain number of percentage points. The amount of the federal revenue forgone in Quebec as a result is used to offset cash otherwise payable to the province by the federal government. The Quebec taxpayer now receives a special abatement of 16.5 personal income tax points. For administrative purposes, these are allocated as follows:

8.5 points for Established Programs Financing;

5 points for Special Welfare; and

3 points for Youth Allowances.

The 8.5 points for Established Programs Financing are used to offset cash otherwise payable for Insured Health Services and Post-Secondary Education.

The 5 points for Special Welfare are used to offset cash otherwise payable for the Canada Assistance Plan as well as for three other smaller programs (Blind Persons Allowances, Disabled Persons Allowances, and Unemployment Assistance).

Authority for the special abatements of 8.5 points for Established Programs Financing and 5 points for Special Welfare and for the making of adjustment payments or recoveries is in Part VII of the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977.

The value of the 3 points for the now defunct Youth Allowances program is recovered from the province by means of a reduction of amounts otherwise payable. The authority for the 3 point abatement is in the Income Tax Act and the authority for the recovery of its value is in the Federal-Provincial Fiscal Revision Act, 1964.

The contracting out arrangements with Quebec constitute an alternative way of financing certain programs in the province. Provincial entitlements are determined in the same way as in the other provinces and Quebec is neither better nor worse off as a result of the special abatement of 16.5 personal income tax points.

The following table provides a summary of the financial data relating to contracting-out for 1984-85.

TABLE 5

RECIPROCAL TAXATION PROGRAM

Administered By:

The Intergovernmental Taxation Centre

Federal-Provincial Relations and Social Policy Branch.

Purpose:

To harmonize federal-provincial relations in the area of intergovernmental taxation through federal-provincial agreements providing for reciprocal payment of consumption taxes and fees.

Authority:

Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977, Part VIII and Regulations thereunder.

Time Frame:

Agreements with Ontario, Quebec and the Atlantic Provinces became effective on October 1, 1977 and similar agreements with Manitoba and British Columbia came into force on April 1, 1983. All these agreements will be renewable at the end of March 1987.

Financing and Operation:

By quoting a sales tax licence issued by each of the participating provinces, federal departments acquire most goods and services without payment of provincial ad valorem sales taxes at time of purchase. The Department of Finance calculates the tax due on these purchases and makes direct payments to the participating provinces. For this purpose, all categories of expenditure on goods and services are allocated to provinces of use and the taxability is determined as provided under the various provincial Acts to which each Reciprocal Taxation Agreement refers.

On fuel and a few other categories of expenditure specified in the agreements, taxes are paid by departments through the suppliers at time of purchase. Departments also bear provincial sales taxes on meals and accommodation expenditures that are normally reimbursed to public servants on travel status.

Motor vehicle registration fees are calculated and paid to the participating provinces by the Department of Finance, after deducting certain nominal fees paid by departments at the time of registration.

Provincial revenues generated by this program are eligible for fiscal equalization payments but their payments are calculated and paid separately from the general equalization payments made under Part I of the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary and Health Contributions Act, 1977.

Participating provinces have undertaken for their part not to claim refunds of federal sales and excise taxes under subsection 44(2) of the Excise Tax Act. Consequently they bear federal sales and excise taxes on their purchases.

Payments:

Payments in respect of provincial taxes by the Department of Finance to participating provinces under the reciprocal taxation agreements are as follows:

TABLE 6

Estimated Expenditures under Reciprocal Taxation Program
(\$ millions)

	1984-85
Sales Tax	192.5
Motor Vehicle Registrations	4.1
Additional Equalization	13.2
Total	209.8

In addition to these payments, it is estimated that federal government departments will pay \$20.8 million in provincial fuel taxes in 1984-85. The costs borne by departments for taxes on public servant travel expenses are not included in the above figures.

PUBLIC UTILITIES INCOME TAX TRANSFER

Administered By:

Federal-Provincial Relations Division

Purpose:

To turn over to the provinces and territories 95% of the federal income tax paid by investor-owned public utilities on income which is attributable to the generation and/or distribution to the public of electrical energy, gas and steam.

Authority:

Public Utilities Income Tax Transfer Act and Regulations thereunder.

Time Frame:

This is a continuing program, subject to change only by federal legislation. There is no termination date specified in the Act.

Financing and Operation:

This is an unconditional transfer of federal income tax collections from certain investor-owned utilities to the provinces and territories in which they operate.

The payments are based on 95 per cent of income tax collections that are identified with the generation or distribution to the public of electrical energy, gas and steam.

On the basis of information provided by Revenue Canada, the Department of Finance makes the payments to the provinces. Since 1972-73, payments have been made on a current basis with adjustments being made when information as to the actual tax collections becomes available in a subsequent year.

Payments:

See table 7.

TABLE 7

Payments to Provinces under the Public Utilities Income Tax Transfer Act
(\$000)

Province	1982-83 Expenditures	1983-84 Expenditures	1984-85 Estimates*

CANADA PENSION PLAN INVESTMENT FUND

Administered By:

Financial Services Division, Administration Branch, Department of Finance.

Purpose:

To invest moneys surplus to the operating requirements of the Canada Pension Plan.

Authority:

Canada Pension Plan.

Time Frame:

The first loans were made in 1966. All loans are secured by securities having a 20-year term to maturity. The first securities mature in 1986. There is no termination date on the Canada Pension Plan.

Financing and Operation:

The Canada Pension Plan provides that moneys surplus to the operating requirements of the Plan be invested in securities of the provinces, their Crown agencies and Canada.

Every month the Department of Health and Welfare determines the amount of funds in excess of the amount needed to meet the operating requirements of the Canada Pension Plan. The excess money is available to loan to the provinces according to the proportion of contributions received during the preceding ten years from residents in each province. Loans are available within the first ten days of the following month in exchange for a provincial security, or a security issued by a provincial Crown agent and guaranteed by the province, having a term to maturity of twenty years.

Contributions received from the Yukon Territory and Northwest Territories are invested in obligations of the Government of Canada. Also invested in obligations of the Government of Canada are contributions received from armed forces personnel and others employed outside of Canada as well as any excess money not taken up by the provinces.

The applicable interest rate is the weighted average of market yields of Canada bonds having terms to maturity of

twenty years or more. The market yields are those at the close of trading on the first three business days of the month

prior to the month in which the loan is drawn down and are weighted by the amount of each issue outstanding.

Department of Fisheries and Oceans

ORIGIN AND RESPONSIBILITIES

The Department of Fisheries and Oceans was established on April 2, 1979, on the promulgation of the Department of Fisheries and Oceans Act. Prior to that, the organization had been the Fisheries and Marine Service of the Department of Fisheries and Environment.

The origin of the Department dates back to Confederation with the establishment in 1867 of the Department of Marine and Fisheries. Legislation to legally organize that Department was passed at the first session of Parliament on May 22, 1868.

Under Section 91(12) of the BNA Act of 1867, the federal government was vested with the responsibility to regulate fisheries in all parts of Canada as well as to administer the fisheries in all tidal waters belonging to Canada. As a consequence of Section 92(13) of the BNA Act, and of various court interpretations, federal-provincial administrative arrangements have emerged whereby some provinces have assumed delegated responsibility for the management of inland fisheries, subject to federally enacted legislation. In the Atlantic provinces however, except Quebec, federal authorities continue to manage the inland fisheries.

The current powers, duties and functions of the Minister as set out in the Department of Fisheries and Oceans Act (1979) extend to and include all matters over which Parliament has jurisdiction, not by law assigned to any other department, board or agency, relating to (a) sea coast and inland fisheries, (b) fishing and recreational harbours, (c) hydrography and marine sciences (d) the coordination of the policies and programs respecting the oceans and (e) such other matters over which Parliament has jurisdiction relating to oceans as are by law assigned to the Minister.

ORGANIZATION AND PROGRAMS

The Department is composed of six major activity areas: Atlantic Fisheries Services, Pacific and Freshwater Fisheries, Marketing and International Fisheries, Policy and Program Planning, Ocean Science and Surveys, and Finance and Administration, each carried out under the direction of an Assistant Deputy Minister. In addition, a Small Craft Harbours Branch, a Management Services Bureau and a Personnel Directorate are each headed by a Director General.

The Department is responsible for a broad range of programs related to the management of the fisheries resources and to the protection of the aquatic environment. In summary these include:

- the management of all of Canada's ocean fisheries and some inland fisheries;
- fisheries, oceanography and freshwater research which contribute to the understanding, management and optimum utilization of renewable aquatic resources;
- the administration of international treaties and agreements covering management of fisheries and other aquatic renewable resources and the quality of the marine environment;
- the development of policies and strategies in areas of fisheries marketing and economic development;
- economic research and surveys related to the management of commercial and recreational fisheries;
- hydrographic surveying and charting of navigable coastal and inland waters.

FISHERIES MANAGEMENT

Fisheries management programs are directed at ensuring maximum economic and social benefit to Canada from the use of fisheries and other aquatic living resources of coastal and inland waters and at maintaining and conserving these resources and the aquatic environment in a healthy, productive state.

Specific programs are carried out by the Department in all regions to ensure: the conservation, protection and development of fisheries resources; the upgrading of the quality of fish and fishery products and the assistance to fishermen and the industry in the development of new products and more effective harvesting and production. Programs are also carried out to develop information on the role and management of sport fishing in Canada.

Programs of fisheries research directly supporting national and international fisheries activities are conducted from research stations located in coastal and inland areas. The scope of fisheries research is extremely varied, covering studies in biology, ecology, population dynamics, distribution and migrations of economically valuable fish, marine

mammals and shellfish, the forecasting of fish stock abundance, the quality control of fish catches and fishery products, the development and application of aquaculture techniques in salt and freshwater, the study of relationships between species, and the calculation of sustainable yields of fish and marine mammal stocks harvested in the commercial and recreational fisheries. In addition, specialists carry out social and economic analysis to assist in policy formulation for all significant aspects of fisheries use.

Support is given in various ways to strengthen the fishing industry's capabilities to market and promote the sale of fish products and obtain the most favourable prices. Long-range and strategic planning is also carried out in order to provide the orderly economic development of the industry. The Department is further involved with the collection, analysis and distribution of all kinds of statistics relating to fish catches, production and trade.

Various financial assistance programs for commercial fishermen are also carried out, including the Fishing Vessel Assistance Program, the Fishing Vessel Insurance Plan and the administration of loans under the Fisheries Improvement Loans Act.

The Department is actively involved in negotiating agreements or treaties with foreign countries concerning fishing rights or trade arrangements.

OCEAN SCIENCE AND SURVEYS (OSS)

OSS is composed of two major operational elements: the Canadian Hydrographic Service (CHS) and Oceanographic Science.

The CHS is responsible for gathering and publishing bathymetric data and marine navigation information of Canada's navigable waters and adjacent international waters. This information is essential for the safe, orderly and efficient conduct of commercial, recreational and defence shipping. It also has the operational responsibility for integrated geophysical/hydrographic surveys of the continental margin and inland seas. Such surveys are essential to obtain a comprehensive description of the extent of the submerged continental land mass and for the control, management and development of mineral and petroleum resources in these areas.

Oceanography is defined as the science related to the marine system, its resources, ecology and processes. The oceanographic programs of OSS are focused mainly on long term studies of physical, chemical and biological marine resources. These programs, therefore, include a substantial proportion of the entire field of marine ecology and thus, complement those Fisheries management programs which are directed towards understanding the ecology of economic, or potentially economic marine species.

SMALL CRAFT HARBOURS PROGRAM**Administered By:**

Small Craft Harbours Directorate, Department of Fisheries and Oceans.

Purpose:

To provide, maintain and manage, consistent with fisheries policy, regional harbour systems to accommodate the commercial fishing fleets and to assist in the provision, maintenance and management of recreational harbours.

Authority:

Fishing and Recreational Harbours Act.

Time Frame:

This is a continuing program.

Financing and Operation:

With respect to recreational harbours, Small Craft Harbours administer the Marine Assistance Program and the Tourist Wharf Program in addition to maintaining recreational harbours under its jurisdiction.

Under the Marine Assistance Program, the Federal Government may enter into cost-sharing agreements with developers and municipalities wherein it will build breakwaters and/or perform initial dredging provided the other party establishes onshore facilities of equal dollar value.

Under the Tourist Wharf Program, the Federal Government may provide wharves and/or launching ramps as an initial and one time capital expenditure.

Under the Fishing and Recreational Harbours Act the Federal Government may also enter into these types of agreement with the Provinces.

The intent of these programs is to encourage the development of additional public facilities for recreational boaters and in particular those who might be classed as tourists.

There are no cash grants but rather the construction is performed by the Federal Government (Department of Public Works).

FISHING VESSEL ASSISTANCE PROGRAM**Administered By:**

Regional Directors General of Fisheries, Department of Fisheries and Oceans

Purpose:

To provide fishermen with financial assistance for the construction of new fishing vessels and for the conversion and modification of existing vessels with a view to increasing the productivity and efficiency of the Canadian fishing fleet.

Authority:

Fisheries Development Act

Fishing Vessel Assistance Regulations 1976, P.C. 1976-2087 dated August 25, 1976.

Time Frame:

This is a continuing program that began in 1942. It has undergone changes since its inception and it now applies to fishing vessels less than 22.86 metres long and more than 4.87 metres long.

Financing and Operation:

The current rate of federal subsidy for the construction of eligible new fishing vessels and for conversion and modification of eligible existing vessels is in an amount not exceeding 25% of the approved cost, to a maximum of \$125,000 for steel vessels and \$100,000 for all others.

Subsidy applications must be submitted for approval to the Department of Fisheries and Oceans and the applicants must provide assurance that they will be eligible to participate in the fisheries in which the vessel will be engaged.

The Department of Regional Industrial Expansion (DRIE) may grant subsidy to a fishing vessel in excess of 22.86 metres under the Shipbuilding Assistance Program. This is an amount currently not exceeding 9% of the approved cost. In addition DFO may pay a supplemental amount under the Fishing Vessel Assistance Regulations to increase the total federal contribution in respect of any such fishing vessel, to an amount not exceeding 25% of the approved cost.

The DRIE contribution is paid to the shipbuilder, the DFO contribution is paid to the vessel owner.

In order to receive assistance, fishermen should first make application through the nearest regional office of the Department of Fisheries and Oceans and thereafter, if assured of a fishing license, formal subsidy application may be made directly to the DFO regional office.

Payments:

Payments are made only on the basis of approved individual applications for assistance.

NATIONAL FISH INSPECTION PROGRAM**Administered By:**

Inspection Branch, Fisheries and Oceans

Purpose:

To ensure that fish available for domestic and export markets does not present a health hazard, is of acceptable quality and complies with Canadian and importing country grade, identity, composition and labelling specifications.

Authority:

Fish Inspection Act as amended and similar legislation introduced by each of the ten provinces.

Fish Inspection Regulations (C.R.C. 1978, C.802, as amended) and complementary regulations introduced to date by Newfoundland, Prince Edward Island, New Brunswick, Quebec, Ontario, Saskatchewan, Alberta and British Columbia.

Although formal agreements have not been signed with each of the provinces having Fish Inspection legislation and regulations, there is an arrangement in each instance with the exception of the Province of Quebec, for federal inspectors to enforce provincial requirements. Such arrangements are made through provincial action where federal officers are either appointed by Order in Council as inspectors under provincial Fish Inspection legislation, or by virtue of the provincial Act are declared ex officio officers for the purposes of that Act or the regulations thereunder.

Time Frame:

This is a continuing program and has been in operation since it was agreed to by all of the ten provinces in the early 1950's.

Financing and Operation:

The National Fish Inspection Program is financed and operated by the federal government.

NEWFOUNDLAND BAIT SERVICE**Administered By:**

Regional Director General of Fisheries, Department of Fisheries and Oceans, St. John's, Newfoundland

Purpose:

Under the 1949 Terms of Union of Newfoundland with Canada the federal government undertook continuing responsibility for supplying bait to Newfoundland fishermen.

Authority:

1949 Terms of Union of Newfoundland with Canada

Time Frame:

Continuing

Financing and Operation:

This activity is only federal-provincial in the sense that the Terms of Union represent a federal-provincial agreement. Under the Newfoundland Bait Service, the Department of Fisheries and Oceans operates a number of bait depots and small bait holding units throughout the Province to supply bait to fishermen.

Payments:

No payments are made to the Province of Newfoundland.

SALMONID ENHANCEMENT PROGRAM WITH BRITISH COLUMBIA

Administered By:

Enhancement Services Branch, Department of Fisheries and Oceans, Vancouver, British Columbia.

Purpose:

To preserve, rehabilitate, and enhance natural salmonid stocks in order to:

1. increase national and provincial income;
2. create employment opportunities;
3. improve economic opportunities for the native Indian peoples;
4. foster development of economically disadvantaged communities;
5. improve and increase recreational opportunities.

Authority:

Cabinet approval in Spring of 1977 and May, 1983.

Time Frame:

Phase I of a two phase program, started in August, 1977 and lasted seven years. Cabinet has recently approved a two year transitional Phase during 1984-85 and 1985-86.

Financing and Operation:

A Federal-Provincial agreement was signed March 1, 1979, between the Federal Government and British Columbia, to facilitate cooperation in the planning, financing and implementation of the program. The Agreement covers such matters as: program direction, funding responsibilities,

cost-recovery, resource-use interactions and development of sub-agreements. During Phase I, the parties agreed to the following target commitments: Canada, \$150 million; and British Columbia, \$7.5 million; starting in 1979-80.

A Subsidiary Agreement with respect to transfers of land was signed in June, 1981.

The Phase I agreement was amended in June, 1984 to cover activities during the two year transition phase with target commitments as follows: Canada, \$65 million; British Columbia, \$3.25 million.

To facilitate implementation, the agreement also provides for the establishment of a Salmon Enhancement Board, chaired by the federal Deputy Minister of Fisheries and Oceans and made up of twelve members, of whom seven are from outside government organizations. The Board offers advice to the Minister of Fisheries and Oceans on such matters as program priorities and options, budget allocations and evaluations of effectiveness.

Payments:

The Province of British Columbia conducts certain activities for the federal government under contract.

CANADA AND NEWFOUNDLAND AGREEMENT CONCERNING THE RESTRUCTURING OF THE NEWFOUNDLAND FISHERY

Administered By:

An operating company incorporated under the laws of Newfoundland.

Purpose:

- To find a just and lasting solution for the rebuilding of the deep sea fishery in Newfoundland and Labrador.
- To create a company built around the assets of Fishery products, the Lake Group, John Penny, North Atlantic Fisheries and possibly other companies.
- To create a company that is economically viable, efficient and modernized, so that it will be highly competitive, especially in international markets.
- To ensure maximum employment, stability and productivity through employee participation in the company.

- To pursue divestiture to the private sector of both governments' ownership in the company as soon as possible.
- To provide new opportunities for independent processors to have effective access to international markets.

Authority:

Cabinet decision of September 20, 1983.

Time Frame:

It is the objective of both governments to return the business, either in whole or in part, to private investors as soon as possible.

Financing and Operation:

The company will be financed by a cash contribution of \$75.3 million from the Government of Canada which will be used to purchase equity in the company, the conversion of \$31.5 million of debt to equity by the Government of Newfoundland and Labrador, and a similar conversion of \$44.1 million of debt to equity by the Bank of Nova Scotia. The possibility also exists for equity ownership by the company's employees.

The Board of Directors of the company consists of five members appointed by the Federal Government, three appointed by the Provincial Government, one by the Bank of Nova Scotia, one by the company's employees, and the Chairman and Chief Executive Officer, who will be jointly appointed by both governments.

To facilitate implementation, the agreement provides for the establishment of a multi-million dollar Burin Peninsula Development Fund to help diversify the economy in the Burin Peninsula and generate new employment opportunities there. Other important highlights of the understanding consist in ensuring that the marketing arm of the company makes its services available to independent processors to help them sell their products in international markets, and also in providing for a Newfoundland Marketing Planning and Co-ordination Council to help in that process. The two governments will also attempt to jointly negotiate a "social compact" with the Newfoundland Fishermen, Food and Allied Workers' Union, in order to give company employees the opportunity to contribute to the financial strength, stability and productivity of the firm through equity participation by cash contributions from payroll deductions, and employee representation on the Board of Directors.

Also, both governments will work together to set up two working groups; one on resource utilization and one on the future evolution of the structure of the industry, as well as establish a Northern Fisheries Development Corporation designed to develop the potential of the Labrador fishery.

**CANADA — PRINCE EDWARD ISLAND SUBSIDIARY
AGREEMENT ON FISHERIES DEVELOPMENT**

Administered By:

Atlantic Fisheries Development Branch, Department of Fisheries and Oceans.

Purpose:

To set out measures to be undertaken by Canada and Prince Edward Island in support of fisheries development in the Province. Under the umbrella of an Economic Regional Development Agreement (ERDA) the undertaking provides for:

- the coordination of existing federal-provincial policies and programs to promote fisheries and human resources development.
- the enhancement of the fishing industry in the Province by the implementation of a fisheries development plan.
- the coordination of fisheries development activities to achieve maximum benefit to the industry.
- the establishment of mechanisms to ensure an orderly implementation of programs and projects and proper coordination within the Agreement and with other federal-provincial programs and activities in the Province.

Authority:

Order in Council P.C. 1984 - 2020 (T.B. 794 282) of June 12, 1984.

Time Frame:

The Agreement took effect June 13, 1984 and is scheduled to terminate March 31, 1989.

Financing and Operation:

A Management Committee consisting of 4 members is responsible for the administration and management of this Agreement, including:

- the preparation of appropriate documentation to accommodate the budgetary cycle of each of the parties as well as the development of an annual work plan and annual estimates;
- the review of project descriptions;

- the preparation of reports on progress achieved under the Agreement;
- the consideration of a human resource plan for projects, including affirmative action and recruitment of labour through the Canada Employment and Immigration Commission;
- the development of public information programs that will provide for the permanent and continuing recognition of the respective contributions of Canada and the Province.

Expenditures to be made in connection with projects undertaken within the terms of the Agreement will not exceed \$7.5 million for Canada and \$2.5 million for Prince Edward Island. (See table 1).

**CANADA — NEW BRUNSWICK SUBSIDIARY
AGREEMENT ON FISHERIES DEVELOPMENT**

Administered By:

Atlantic Fisheries Development Branch, Department of
Fisheries and Oceans

Purpose:

Under the umbrella of an Economic Regional Development Agreement (ERDA) this subsidiary agreement provides for:

- the coordination of existing federal-provincial policies and programs which sustain measures to promote the development of the fisheries sector;
- support, including financial assistance, not available under other existing government programs;
- the enhancement of the fishing industry in New Brunswick by implementing a fisheries development plan;
- the coordination of fisheries development activities of the two levels of government to achieve maximum benefit for the industry;
- the establishment of mechanisms to ensure an orderly implementation of programs and projects and a proper coordination within the agreement and with other federal-provincial programs and activities in the Province.

Authority:

Order in Council P.C. 1984 - 6-2564 of July 12, 1984.

Time Frame:

The Agreement took effect August 27, 1984 and is scheduled to terminate March 31, 1989.

Financing and Operation:

Canada and New Brunswick have appointed a Management Committee of four members who will be responsible for the administration and management of this Agreement, including:

- the preparation of appropriate documentation to accommodate the budget cycle of each of the parties and the development of an annual work plan and annual estimates;
- the preparation, and submission of annual reports on progress achieved;
- the consideration of a human resource plan in respect of projects where significant human resource implications have been identified;
- the development and maintenance of suitable record and information systems, including the evaluation data base, the management of contract work loads and the necessary financial management.

Also, a federal-provincial public information sub-committee will advise and recommend to the Management Committee, public information activities to be implemented under the terms of the Agreement.

Expenditures to be made in connection with projects undertaken within the Agreement will not exceed \$25 million for Canada and \$20 million for New Brunswick of which \$10 million are loan funds. (See table 2).

Total	25,000,000	20,000,000*	45,000,000

* The provincial program includes \$10 million in loans; \$2 million for Resource Development and \$8 million for Harvesting.

**CANADA — NOVA SCOTIA FISHERIES SUBSIDIARY
AGREEMENT**

Administered By:

Atlantic Fisheries Development Branch, Department of
Fisheries and Oceans.

Purpose:

The principal purpose of this Agreement is to establish the framework for implementation of various programs in order to:

- enhance the quality of fish and seafood products;
- to improve the efficiency of the fishing and fish processing industry;
- to further develop products and markets and to enhance the fisheries resource base;
- to strengthen the fishing industry of the province and its contribution to the economy;
- to establish mechanisms to ensure an orderly implementation of programs and projects and a proper coordination within the Agreement and with other federal-provincial programs and activities in the Province.

Authority:

Order in Council P.C. 1984-3477 of October 26, 1984.
Treasury Board Recommendation 795800.

Time Frame:

The Agreement took effect October 25, 1984 and will terminate March 31, 1989.

Financing and Operation:

A Management Committee including two co-chairmen, one appointed by the Minister of Fisheries and Oceans and the other by the Provincial Minister of Fisheries, shall be responsible for the administration of this Agreement. The powers and duties of the Committee shall be, inter alia:

- to approve procedures in respect of its own management practices;
- to approve guidelines for funding under the Agreement;
- to prepare budgets and financial statements, to identify projects for funding and to submit progress reports, for the purpose of informing Ministers;
- to ensure the preparation and to approve a communication strategy and program to serve the information requirements of the public and to encourage public awareness of the activities of both governments under the Agreement.

Expenditures to be made in connection with projects undertaken within the terms of the Agreement will not exceed \$35 million for Canada and \$15 million for Nova Scotia. (See table 3).

Department of Indian Affairs and Northern Development

The Minister of Indian Affairs and Northern Development has three main areas of operational responsibility. One of these, in which he is assisted by the Indian and Inuit Affairs Program, involves a variety of agreements with provinces. He is supported in the second area of responsibility by the Northern Affairs Program which undertakes financial arrangements with the territorial governments. The third area, in which support is provided by the Office of Native Claims, concerns the settlement of native land claims through a process of negotiated agreements, some of which require the direct participation of the provinces.

The activities of the Office of Native Claims in the negotiation of native claims settlements is guided by separate policy statements on comprehensive claims "In All Fairness" and specific claims "Outstanding Business", issued by the Minister of Indian Affairs and Northern Development in December 1981 and May 1982 respectively. Where claims fall in provincial areas of jurisdiction and in those cases where provincial interests and responsibilities are affected, provinces must be involved in claims negotiations in order to arrive at fully equitable settlements. In the Territories, the territorial governments are provided with full membership on the federal negotiating teams as many of the provisions in claims settlements relate to areas of territorial jurisdiction.

In the case of native claims arising in the Provinces, there are negotiations of a tripartite nature in both comprehensive and specific claims areas, and the resultant settlement agreements set out the rights and benefits to be granted to the native groups concerned by the federal and provincial governments, commensurate with their respective roles and responsibilities. Where comprehensive claims settlements take place in the Territories, the roles and responsibilities of the territorial governments are also set out in the settlement agreements in question. Although land claims settlements are held to be outside the scope of this report, the agreements reached to date in the Provinces (tripartite) and in the Territories (bilateral) are listed hereunder for information purposes:

Comprehensive Claims Agreements:

James Bay and Northern Quebec Agreement, 1975 (Quebec)

Northeastern Quebec Agreement, 1978 (Quebec)

Inuvialuit Final Agreement, 1984 (N.W.T.)

Specific Claims Agreements:

Cut-Off Lands Settlement Agreements (B.C.) — Penticton and Osoyoos

Bands (1982); Clinton, Westbank and Squamish Bands (1983); Okanagan,

Chemainus and Becher Bay Bands (1984).

In the administration of the Indian and Inuit Affairs Program, the Department enters into numerous and varied cooperative arrangements with provinces and municipalities.

Much of the intergovernmental cooperation takes place informally and the greatest number of joint arrangements, apart from the informal ones, take the form of contracts for municipalities to extend municipal services to local Indian or Inuit populations. Many of the activities in which the Department is involved with other levels of government lead to the provision of community services for Indians, such as housing, roads, water, sewerage and electrification. Other activities are directed to improving Indian and Inuit social welfare services and assistance, education and economic development; including such activities as Indian business support. There are still other agreements for forest fire control and prevention, fishing regulation and flood protection for Indian communities.

Nineteen programs operate under formal agreements on other provisions governing provincial participation. They are:

1. Canada—Newfoundland—Native Peoples Agreements;
2. Manitoba Northern Flood Agreement;
3. Northern Quebec Transfer Agreement;
4. Forest Fire Agreements;
5. Indian Economic Development Fund;
6. Natural Resources Development Agreement with Ontario;
7. Policing Agreements;
8. Road Construction Agreement with Saskatchewan;
9. Saskatchewan Indian Agriculture Program Inc.;
10. Manitoba Indian Agricultural Program Inc.;
11. Agreements with School Boards or Departments of Education;
12. Agreement with Ontario Respecting Welfare Programs for Indians;
13. Agreement with Manitoba Respecting Child Welfare Services for Certain Indian Communities;

14. Agreement with Nova Scotia Respecting Child Welfare Services for Indian Communities;
 15. Canada — Manitoba — Indian Child Welfare Agreement Respecting Child Welfare and Family Services for Indian Bands in Southern Manitoba;
 16. Canada — Manitoba — Northern Indian Child Welfare Agreement Respecting Child Welfare and Family Services for 25 Indian Bands;
 17. Canada — New Brunswick — Indian Child Welfare Agreement Respecting Child Welfare and Family Services for 4 Indian Bands;
 18. Lesser Slave Lake Indian Regional Council — Canada — Alberta Child Welfare Agreement Respecting Child Welfare and Family Services for 9 Indian Bands;
 19. Agreement with Yukon Territory Covering the Administrative Costs for Services Provided to Indian Children in the Yukon.
- Implementation of the mandate of the Northern Affairs Program is based upon Canada's seven national objectives for the North, established in 1972. Those include provision for a higher standard of living and quality of life, equality of opportunity for northern residents, for maintenance of the northern environment with due consideration to economic and social development, and for progress toward self-government in the northern territories. The Northern Affairs Program, which deals with economic, social and cultural development in the territories, has no program which directly involves the provinces. However, in carrying out its Northern mandate, the Department has entered into a number of arrangements and agreements with both the Yukon Territorial Government and the Government of the Northwest Territories. They include the following:
1. Financial Agreement with the Northwest Territories;
 2. Financial Agreement with the Yukon Territory;
 3. Canada—Northwest Territories Economic Development Agreement;
 4. Mackenzie River Basin Study;
 5. Flood Damage Reduction and Flood Risk Mapping in the Northwest Territories;
 6. Yukon River Basin Study Agreement;
 7. Canada — Northwest Territories Wildlife Research and Coordination Agreement;
 8. Canada — Northwest Territories Reconstruction of Roads Agreement;
 9. Canada — Northwest Territories Home Heating Oil Subsidy Agreement;
 10. Canada — Yukon Territory Home Heating Oil Subsidy Agreement;
 11. Canada — Northwest Territories Federal Power Support Program for Non-Government Domestic Consumers Agreement;
 12. Canada — Yukon Territory Federal Power Support Program for Non-Government Domestic Consumers Agreement;
 13. Canada — Northwest Territories Power Rate Relief Program for Small Non-Government Commercial Enterprises Agreement;
 14. Canada — Yukon Territory Power Rate Relief Program for Small Non-Government Commercial Enterprises Agreement;
 15. Canada — Manitoba — Northwest Territories — Saskatchewan Agreement to Establish an Inter-jurisdictional Caribou Management Board;
 16. Canada — Northwest Territories Subsidiary Agreement on Natural Resource Development;
 17. Canada — Yukon Economic Development Agreement;
 18. Canada — Nanisivik Mines Ltd. Agreement.

Indian and Inuit Affairs**CANADA—NEWFOUNDLAND—NATIVE PEOPLES AGREEMENTS**

(Part of the Indian and Inuit Affairs Program)

Administered By:

Indian and Inuit Affairs Program

Purpose:

To provide for the delivery and cost-sharing of Designated Programs to Eligible Communities with substantial Native populations in the province of Newfoundland and Labrador.

Authority:

Orders in Council P.C. 1981-1844 and P.C. 1981-1845 authorize the Minister of Indian and Northern Affairs to enter into these Agreements on behalf of Canada.

Time Frame:

These Agreements were signed on July 4, 1981 and remain in force for five years from April 1, 1981.

Financing and Operation:

The province of Newfoundland extends Community and Economic Development, Education, Fisheries, Housing, Northern Development programs to the residents of seven native communities in Labrador and Community and Economic Development, Education and Housing programs to the residents of Conne River on the island of Newfoundland.

The federal government and the province respectively share 90% and 10% of costs of programs and services to Native People in the eligible communities, with the province assuming 100% of the costs of the same programs and services for non-native residents of the communities.

Payments:

The maximum Federal contribution over the term of the agreements relating to Designated Programs in Eligible Communities in Labrador is \$29,135,100 to the province's share of \$9,696,600.

For Conne River, the maximum federal contribution for the period of the Agreement will be \$3,864,900 to the provincial share of \$1,187,100.

MANITOBA NORTHERN FLOOD AGREEMENT
(Part of the Indian and Inuit Affairs Program)**Administered By:**

- Headquarters and Manitoba Regional Office, DIAND
- the other signatories: Federal government, province of Manitoba, Manitoba Hydro and the Northern Flood Committee.

Purpose:

The Agreement provides for certain remedial and mitigatory measures to be delivered to the five Indian Bands to mitigate the effects of the hydro electric power project.

Authority:

Order in Council P.C. 1977-2276

Time Frame:

The Agreement was signed in September 1977, and will continue to be in effect for the lifetime of the project (including any substantial redevelopment).

Financing and Operation:

The terms of the Agreement assign various responsibilities for implementation to the four signatories.

NORTHERN QUEBEC TRANSFER AGREEMENT
(Part of the Indian and Inuit Affairs Program)**Administered By:**

Indian and Inuit Affairs Program

Purpose:

To transfer to the province of Quebec responsibility for the provision of housing, electricity, water, sanitation and related municipal services to the Inuit of Northern Quebec.

To cede to Quebec the installations, houses, equipment and vehicles required for the provision of the above noted services.

The Agreement was necessary in order to fulfill provisions of the James Bay and Northern Quebec Agreement (1975).

Authority:

Order in Council P.C. 1981-4-324

Time Frame:

The Agreement was signed on February 13, 1981 and has no termination date.

Financing and Operation:

The province of Quebec assumes responsibility for the provision of housing, water, sanitation, and related municipal services to the Inuit of Northern Quebec living in 13 Inuit communities. All the services, with the exception of electricity, will be delivered through Quebec incorporated municipal corporations and/or the Kativik Regional Government.

Quebec assumes all financial responsibility for the provision of the designated services.

Payments:

Canada is committed under the Agreement to pay Quebec \$72 million at the rate of \$9 million a year for eight years. Thirty million dollars in capital assets were transferred to Quebec upon signing of the Agreement.

FOREST FIRE AGREEMENTS

(Part of the Indian and Inuit Affairs Program)

Administered By:

The Regional Directorates concerned

Purpose:

The agreements are for the provision of services connected with the prevention and control of forest fires on Indian Reserves.

Authority:

Federal-provincial agreements have been signed with the provinces of New Brunswick, Alberta, British Columbia, Ontario, Saskatchewan and Manitoba.

Time Frame:

This is a continuing program, but agreements can be terminated or renegotiated by either party upon written notice on or before March 31 of any fiscal year. Upon giving notice the agreement terminates on March 31 of the year in which notice is given.

Financing and Operation:

The provinces do all things necessary to prevent, detect and suppress grass, bush or forest fires occurring on protected Indian Reserve land and assume the full cost of prevention and control of such fires. These services are the same as provided by the provinces for adjacent public land.

The federal government reimburses the provinces on an actual cost or a negotiated cost per acre/hectare basis for the total acreage protected. This per acre cost varies from province to province. In British Columbia there is a set annual administrative charge, and in addition, the federal government is required to pay the average cost of fire suppression on Indian Reserves in the province.

Payments:

Expenditures by the federal government fluctuate from year to year and are now approximately \$300,000 annually.

INDIAN ECONOMIC DEVELOPMENT FUND

(Part of the Indian and Inuit Affairs Program)

Administered By:

The Development Financing and Management Practices Division of the Resource, Economic and Employment Development Branch.

Purpose:

The fund provides a source of capital to Indian people for economic development both on and off reserves; assists

Indian people engaged in business to have access to basic managerial, professional and technical services necessary for the successful operation of their businesses; and helps to achieve progressively greater participation by Indian businessmen in relevant sectors of the Canadian business community in general, in order to help optimize Indian peoples' opportunities for economic development.

Authority:

Indian Economic Development Direct Loan Order (P.C. 1977-3609) and the Economic Development Guarantee Order (P.C. 1977-3608)

Time Frame:

The Orders governing this program were passed on December 22, 1977. The program will continue indefinitely.

Financing and Operation:

The Fund is administered wholly by the federal government, but provincial government agencies sometimes provide joint financing for projects which are established with assistance through the Fund.

Applications for business financing are made through the Indian Affairs field organization. The share of financing provided by federal, provincial or other agencies is negotiated in respect of each project involved. Besides contributions, the federal government provides loan guarantees and loans from the Fund. Such loans usually have a maximum term of fifteen years.

Payments:

No payments are made from the Indian Economic Development Fund to the provinces or to municipalities.

**NATURAL RESOURCES DEVELOPMENT AGREEMENT
WITH ONTARIO**

(Part of the Indian and Inuit Affairs Program)

Administered By:

Regional Directorate, Ontario

Purpose:

To assist Indian people in Northern Ontario to plan and develop employment and income opportunities through the more effective utilization of natural resources. The Agreement pertains to all matters relating to the development, management and harvesting of renewable natural resources, including but not restricted to commercial fishing, forestry, wild fur harvesting, tourist outfitting, commercial recreation and related business and employment opportunities.

Authority:

Order in Council P.C. 1972-73-1592, and P.C. 1974-78-2040

Time Frame:

The Agreement came into force on April 1, 1962 for a period of ten years and was extended for two years to March 31, 1975, at which time it terminated. A new Agreement came into effect on April 1, 1975 and is to extend until March 31, 1980. A further two year extension of this Agreement is presently being negotiated.

Financing and Operation:

Total annual cost \$4,000,000, 50 per cent from Ontario, 50 per cent from Canada. Advisory Committee is composed of nine members, three representing Ontario, one of whom shall be Chairman, two by Canada, and four persons representing Indian organizations.

POLICING AGREEMENTS

(Part of the Indian and Inuit Affairs Program)

Administered By:

Housing and Band Support Directorate, Headquarters

Purpose:

To provide policing services on Indian Reserves which are comparable to those available to other Canadians.

Authority:

On June 21, 1973 the Department obtained Cabinet approval and on June 19, 1973 Treasury Board approval to negotiate cost-recovery arrangements for policing services with those provinces where the RCMP act as the provincial police force. On May 2, 1979 Treasury Board approved

gradual expansion of the program into the Yukon and the Northwest Territories. Approval was granted to expand the program in Ontario and Quebec under the aegis respectively of the OPP and Sûreté du Québec. Arrangements with all the provinces and Territorial Governments are in place with the exception of Quebec and New Brunswick. There is also a financial arrangement between the Dakota Ojibway Tribal Council Police Force, the Department and Attorney General of Manitoba.

Time Frame:

The first agreement was signed with Saskatchewan in the latter part of 1974. A policy review is now underway, in cooperation with the Ministry of the Solicitor General.

Financing and Operation:

Cost-recovery arrangements for 1984-85 with the provinces and two northern territories is 46% federal, 54% provincial, with the exception of Ontario, where it is 52% federal and 48% provincial. Negotiations with Quebec are being reactivated for sharing financial responsibility for this program in Quebec between federal-provincial governments (current financing is 100% federal).

Payments:

The departmental share of payment for all federal-provincial cost-shared programs in 1984-85 was \$8,002,000.00.

ROAD CONSTRUCTION AGREEMENT WITH SASKATCHEWAN
(Part of the Indian and Inuit Affairs Program)

Administered By:

Regional Directorate, Saskatchewan

Purpose:

The Agreement consists in cost-sharing of road construction and road maintenance on Indian Reserves.

Authority:

Agreement between Department of Indian Affairs and Northern Development and Department of Municipal Affairs of the government of Saskatchewan.

Time Frame:

Although this Agreement has been in use since June 20, 1974, it is presently being re-negotiated and has not yet been approved.

Financing and Operation:

These are major items for renegotiation. Due to the changes made to the Agreement, we recommend that no mention of cost-share or actual figures be identified.

Payments:

Under the authority of the Regional Director General, Saskatchewan.

SASKATCHEWAN INDIAN AGRICULTURE PROGRAM INC.
(Part of the Indian and Inuit Affairs Program)

Administered By:

Saskatchewan Indian Agriculture Program Inc., Department of Indian Affairs and Northern Development

Purpose:

To assist Indian people to develop their agricultural resources potential.

Authority:

T.B. Minute 756549—March 30, 1978
T.B. Minute 756546—March 30, 1978

Time Frame:

April 1981 to March 1985.

Financing and Operation:

The Corporation provides, in Saskatchewan, agrologist services, grants and loans for training of Indian farmers and the development of Indian agricultural resources. The grant and contribution funds for 1978-79 total \$2.6 million. Loan funds are committed from the Indian Business Loan Fund up to \$1.5 million in 1978-79 for this purpose.

AGREEMENTS WITH SCHOOL BOARDS OR DEPARTMENTS OF EDUCATION
(Part of the Indian and Inuit Affairs Program)

Administered By:

The regional directorates concerned

Purpose:

The Department (Education Branch) negotiates two types of agreements with school boards or Departments of Education.

1. Tuition Agreement: To provide instructional and other services to Indian students who attend provincially administered schools.
2. Capital Agreement: To contribute on a pro rata basis toward the capital cost in respect of educational facilities where Indian students attend provincial schools.

Authority:

The Indian Act (Section 114)
Order in Council P.C. 1963-5/382 March 9, 1963
Treasury Board Authority 601776 — March 9, 1963

Time Frame:

This is a continuing program. Periodically, tuition agreements are established on a basis which reflects the annual provincial or school district net operating cost on which the annual per pupil tuition fees are calculated.

Financing and Operation:

Subsequent to negotiation by the Indian band(s), the provincial school authorities and the Department, tuition and capital agreements are entered into in response to the

bands' wishes to have their students educated in provincial schools. Requests by bands to participate in provincial schools are usually communicated by bands in the form of band council resolutions and are often confirmed by the band(s) signing the agreement.

The provincial school boards retain overall jurisdiction over the administration and operation of the school in which the Indian students are enrolled including the employment and supervision of teaching personnel and matters relating to curriculum and methods of instruction. School boards promote Indian involvement in school matters and often develop culturally-oriented programs designed basically for the Indian student population.

With regard to capital construction involving federal funds, the school boards, after receiving departmental assurance of financial contribution, plan and implement the construction project.

The Department reimburses the provinces or school boards for instructional services and contributes toward education facilities. Reimbursement and contribution is provided on a pro-rata basis for Indian students resident on reserve or Crown land.

Payments:

Contributions by the Department for provincial school construction fluctuate from year to year and are now approximately \$6,000,000.

Tuition fee reimbursement also fluctuates annually according to the operational costs of the school boards or the provincial Departments of Education and according to the enrolment of Indian students who are resident on reserve or Crown land.

AGREEMENT WITH ONTARIO RESPECTING WELFARE PROGRAMS FOR INDIANS

Administered By:

Regional Director, Ontario

Purpose:

To make available to persons living on Indian Reserves four provincial welfare services and programs available to persons living in other communities.

Authority:

Agreement between Canada and Ontario

Time Frame:

The Agreement became effective as of December 1, 1965. It contains no fixed termination date. There are provisions for termination 12 months after either party has given notice of the desire to terminate to the other party. All three parties i.e. Canada, Ontario and Indian Nations of Ontario are currently reviewing the possibility of re-negotiating all or part of this agreement.

Financing and Operation:

With respect to financial assistance and services, Canada reimburses Ontario some 95 per cent of the costs incurred by Ontario in providing financial assistance and services for basic needs, day care, child welfare and homemakers services to persons to whom the Agreement applies. The actual amount is determined by the services provided and the number of individuals and families receiving assistance and services as per the Agreement.

Payments are made to Ontario by the Department of National Health and Welfare, which recovers from the Department.

The Agreement requires that Indian Bands be consulted and that they concur with the provision of welfare programs by Ontario before programs are so provided.

AGREEMENT WITH MANITOBA RESPECTING CHILD WELFARE SERVICES FOR CERTAIN INDIAN COMMUNITIES

Administered By:

Regional Director General, Manitoba

Purpose:

To make available to Indian families and children in Indian communities in the area served by Children's Aid Societies (about 1/3 of the Indian population of Manitoba), the services of those societies both to prevent neglect and to

protect children from neglect where this occurs by removing them from their own home and placing them preferably with Indian families.

Authority:

Treasury Board Authority 655395 dated May 26, 1966

Time Frame:

The Agreement came into effect April 1, 1965 and contains no fixed termination date although it may be terminated by either party on submission of 90 days' notice to the other party.

Financing and Operation:

Canada reimburses Manitoba for the cost of services to and maintenance of children in care and for the cost of services to families up to a maximum of \$350,000 per year, as negotiated and allowed under the Agreement.

AGREEMENT WITH NOVA SCOTIA RESPECTING CHILD WELFARE SERVICES FOR INDIAN COMMUNITIES

Administered By:

Regional Director General, Atlantic

Purpose:

To make available to Indian families and children the services of Children's Aid Societies both to prevent neglect and to protect children from neglect.

Authority:

Treasury Board Authority 624755 dated April 23, 1964

Time Frame:

The Agreement became effective April 1, 1964 and contains no fixed termination date although it may be terminated by either party on submission of three months' notice to the other party. A new agreement is currently being negotiated between Canada, Nova Scotia and the Indian Nations of Nova Scotia.

Financing and Operation:

Canada reimburses Nova Scotia the full cost of maintenance of children in care (as determined by the Nova Scotia statutory rate of maintenance) and also the full cost of services to children in care and to families.

**AGREEMENT WITH YUKON TERRITORY COVERING THE
ADMINISTRATIVE COSTS FOR SERVICES PROVIDED TO
INDIAN CHILDREN IN THE YUKON**

Administered By:

Regional Director, Yukon

Purpose:

To reimburse the Commissioner of the Yukon Territory for administrative costs incurred in providing child welfare services to or on behalf of Indian children in the Yukon.

Authority:

Treasury Board Authority 577872 dated June 22, 1961.

Time Frame:

The agreement became effective April 1, 1960 and has no termination date. This agreement could be renegotiated within the land claim process now underway in the Yukon Region.

Financing and Operation:

The Minister reimburses the Yukon for administrative costs incurred during each fiscal year by dividing the number of cases in which child welfare services were provided to Indian children for the fiscal year by the number of cases in which child welfare services were provided to Indian and non-Indian children for the fiscal year and multiplying the quotient by the approved administrative costs for that fiscal year.

Northern Affairs**FINANCIAL AGREEMENT WITH THE NORTHWEST TERRITORIES****Administered By:**

Northern Affairs Program

Purpose:

To make it possible for the territorial government to provide reasonable standards of public services to residents of the Northwest Territories.

Authority:

Appropriation Act

Time Frame:

This is a continuing program under which agreement is negotiated for each fiscal year

Financing and Operation:

Annual financial agreement between Canada and the Northwest Territories is arranged through an Intergovernmental Committee on Federal-Territorial Financial Relations (IGC) composed of representatives from DIAND, MSSD, TBS, Finance and the territorial government. Currently, the IGC employs a "fiscal framework approach" to determine the level of operating grant payable to the Territory. Under this approach, the Committee deals mainly with a list of isolated "factors of change" or "base adjustments" to the previous year's agreed-to operating expenditure level and then applies a percentage increase supplied by TBS to that fiscal framework. The level of operating grant is then established residually by application of estimated revenues, recoveries and transfer payments to the proposed fiscal framework. The level of the capital grant is established through the application of a percentage increase equivalent to the rate of change in the Implicit Price Indices for Non-residential Construction (Government) to the previous year's agreed-to Capital Grant.

Operating and Capital Grants, as agreed to at the IGC are incorporated in a financial agreement between Canada and the Territories, which is signed by the Minister of Finance for Canada and the Commissioner on behalf of the Northwest Territories.

The process for determination of federal grants to the territorial government is currently under review for application in 1984-85 and subsequent years.

Payments:

See table 1.

TABLE 1

Financial Agreement with the Northwest Territories

	1980-81 (\$000)	1981-82 (\$000)	1982-83 (\$000)	1983-84 (\$000)	1984-85 (\$000)

**CANADA — NORTHWEST TERRITORIES ECONOMIC
 DEVELOPMENT AGREEMENT**

Administered By:

Department of Indian Affairs and Northern Development,
 Department of Regional Industrial Expansion, Canadian
 Employment and Immigration Commission, Government
 of the Northwest Territories.

Purpose:

To facilitate joint federal-territorial cooperation in initiatives undertaken in respect of planning and implementation of economic and socio-economic development in the Northwest Territories.

Authority:

Indian Affairs and Northern Development Act

Time Frame:

This is a five-year agreement which began in 1982 and will terminate in 1987.

Financing and Operation:

The Economic Development Agreement is an enabling document to facilitate joint federal-territorial cooperation in economic development. The \$21 million agreement is to be cost-shared — 90% and 10% by the federal and territorial governments respectively. Subsidiary agreements indicate the specific measures which the federal and territorial governments undertake to achieve joint development objectives and as well, identify specific financial commitments.

Payments:

No payments are made through the Economic Development Agreements. See subsidiary agreements.

MACKENZIE RIVER BASIN STUDY

Administered By:

Mackenzie River Basin Committee

Purpose:

To gain a better understanding of the Mackenzie River Basin with emphasis on the water-related resources.

Authority:

Order in Council P.C. 1978-2-3154, April 20, 1978, P.C. 1981-3-3222, T.B. No. 779182 pursuant to the Canada Water Act and the Northern Inland Waters Act.

Order in Council No. 417-78, April 4, 1978 pursuant to the Department of the Environment Act (Alberta).

Order in Council No. O.C. 1021, April 27, 1978 pursuant to the Canada — British Columbia Joint Development Act.

Order in Council No. 552-78, April 11, 1978 pursuant to the Water Management Act 1972 (Saskatchewan)

Time Frame:

The study was undertaken during 1978-1981. The final report was released on February 26, 1982. During 1983-84 the Committee was involved in preparing draft agreements to outline an implementation plan and timetable with respect to the report recommendations.

Financing and Operation:

The budget for the study was \$1,600,000 but the actual expenditures amounted to \$1,345,000. The expenditures were shared in the following manner:

Department of Environment	\$ 652,500
Department of Transport	\$ 20,000
Department of Indian Affairs and Northern Development	\$ 349,700
Province of British Columbia	\$ 107,600
Province of Alberta	\$ 174,850
Province of Saskatchewan	\$ 40,350

YUKON RIVER BASIN STUDY AGREEMENT**Administered By:**

Yukon River Basin Committee

Purpose:

The objective of the Agreement is to undertake joint studies leading to the formulation of a planning framework under which potential development alternatives in the Basin may be evaluated. The Agreement Terms of Reference states that the studies to be undertaken and the planning framework to be formulated shall be sufficiently broad in scope that all significant water-related development alternatives in the Yukon River Basin will be evaluated in terms of their social, economic and environmental effects.

Authority:

Order in Council No. P.C. 1980-3-2106, 31st day of July 1980 and by Territorial Ordinance No. 7, 16th day of April, 1980, pursuant to the Yukon Act;
Order in Council No. 1802 August 21, 1980;
Order in Council No. P.C. 1980-3-2106, 31st day of July 1980.

Financing and Operation:

The cost of the study is not to exceed \$2,200,000 and will be shared 50% by Environment Canada, 40% by the Department of Indian Affairs and Northern Development and 5% by each of the Governments of the Yukon and British Columbia.

**CANADA—NORTHWEST TERRITORIES WILDLIFE
RESEARCH AND COORDINATION AGREEMENT****Administered By:**

Regional Director, Northern Affairs Program, Northwest Territories

Purpose:

To review and recommend a program for wildlife research in the Northwest Territories other than migratory bird research and research in National Parks.

Authority:

The general authority comes from the Department of Indian Affairs and Northern Development Act and the Canada Wildlife Act.

Time Frame:

The Agreement came into effect on July 26, 1979 and terminates on March 31, 1988.

Financing and Operation:

The Federal Government will contribute a sum not to exceed \$800,000 for each year of the Agreement; the Government of the Northwest Territories will contribute a sum not to exceed \$400,000 for each year of the Agreement.

**CANADA — NORTHWEST TERRITORIES
RECONSTRUCTION OF ROADS AGREEMENT****Administered By:**

Northern Affairs Program

Purpose:

To make available to the Government of the Northwest Territories funds for the reconstruction of intra-territorial roads in the Northwest Territories.

Authority:

Treasury Board 773666, October 16, 1980 and Treasury Board Minute 780178, January 21, 1982.

Time Frame:

The Agreement came into effect in 1980 and has been extended to March 31, 1984.

Financing and Operation:

A contribution of up to, but not exceeding \$3,609,000 in 1983-84 was available to the Government of the Northwest Territories by Canada, to be used by the Territorial Government for the reconstruction of roads in accordance with an approved project, subject to the terms and conditions set out in the Agreement.

Payments:

The Agreement provides for the expenditure of up to \$3,609,000 in 1983-84.

CANADA — NORTHWEST TERRITORIES HOME HEATING OIL SUBSIDY AGREEMENT**Administered By:**

Government of the Northwest Territories

Purpose:

To provide assistance to the northern residents occupying private dwellings and paying their own heating bills. The Program, called the Home Heating Oil Subsidy Program (HHOSP), equalizes the annual cost of the maximum of 1,500 gallons of heating fuel for qualified consumers residing in the outlying communities to the levels paid in Yellowknife.

Authority:

Agreement between Canada and the Northwest Territories

Time Frame:

Until March 31, 1985

Financing and Operation:

The Program is administered by the Territorial Government and financed by the federal government. The assistance is provided upon making an application and submitting the fuel purchase invoices to the Territorial Government.

Payments:

The Agreement provides for the total cost of the Program including a 6.5% administration cost to the territorial government. Allocation for 1984-85 is for \$50,000.

CANADA—YUKON TERRITORY HOME HEATING OIL SUBSIDY AGREEMENT**Administered By:**

Yukon Territorial Government

Purpose:

To provide assistance to the northern residents occupying private dwellings and paying their own heating bills. The Program, called the Home Heating Oil Subsidy Program (HHOSP), equalizes the annual cost of the maximum of 1,500 gallons of heating fuel for qualified consumers residing in the outlying communities to the levels paid in Whitehorse.

Authority:

Agreement between Canada and Yukon

Time Frame:

Until March 31, 1985

Financing and Operation:

The Program is administered by the Territorial Government and financed by the federal government. The assistance is provided upon making an application and submitting the fuel purchase invoices to the Territorial Government.

Payments:

The Agreement provides for the total cost of the Program including a 6.5% administration cost to the territorial government. Allocation for 1984-85 is for \$50,000.

CANADA — NORTHWEST TERRITORIES FEDERAL POWER SUPPORT PROGRAM FOR NON-GOVERNMENT DOMESTIC CONSUMERS AGREEMENT

Administered By:

Government of the Northwest Territories

Purpose:

To provide assistance to non-government residential consumers of electricity residing in communities other than in Yellowknife. The Program, called the Federal Power Support Program (FPSP), equalizes the monthly cost of 700 kwh. of electricity in outlying communities to the same level as paid in Yellowknife.

Authority:

Agreement between Canada and the Northwest Territories

Time Frame:

Until March 31, 1985

Financing and Operation:

The Program is administered by the Territorial Government, implemented through the electrical utilities operating North of 60°, and financed by the Northern Affairs Program. Allocation for 1984-85 is for \$2,250,000.

Payments:

The Agreement provides for the total cost of the program including a 6.5% administration cost to the territorial government.

**CANADA—MANITOBA—NORTHWEST TERRITORIES—
SASKATCHEWAN AGREEMENT TO ESTABLISH AN
INTERJURISDICTIONAL CARIBOU MANAGEMENT
BOARD**

Administered By:

Northern Affairs Program, Indian and Inuit Affairs Program, Environment, Governments of Saskatchewan, Manitoba and the Northwest Territories.

Purpose:

To co-ordinate the management of the Beverley and Kaministiquia Barren-Ground Caribou herds and to establish a process of shared responsibility between Governments and the Native users of the caribou herds.

Authority:

Order in Council P.C. 1982-83-2945

Time Frame:

Until June 3, 1992

Financing and Operation:

The objective of this Agreement is to ensure the management of the Barren-Ground Caribou herds which migrate from the Northwest Territories to Saskatchewan and Manitoba with the full involvement of Native people who have traditionally hunted this resource.

The Agreement provides funds for a Secretariat, the production of an Annual Report, an independent research review capability and the production of a newsletter.

Payments:

The Agreement calls for the expenditure of \$75,000 annually divided equally between DIAND, DOE, Saskatchewan, Manitoba and the Northwest Territories.

**CANADA — NORTHWEST TERRITORIES SUBSIDIARY
AGREEMENT ON NATURAL RESOURCE DEVELOPMENT**

Administered By:

Management Group comprised of DIAND, DOE, DFO and Government of the Northwest Territories

Purpose:

To improve upon the skills and abilities of Northern residents, support business initiatives, plan the more systematic development of and access to opportunities from non-renewable and renewable resource activities and provide opportunities for people in the identification, planning and implementation of projects which will achieve a balance between wage employment activities and those that support the traditional economy.

Authority:

Department of Indian Affairs and Northern Development Act.

Time Frame:

This is a five-year agreement which began in 1983 and will terminate in 1987.

Financing and Operation:

The Subsidiary Agreement on Natural Resource Development is an enabling document to facilitate joint federal-territorial co-operation in economic development. Specific measures in this agreement are taken for the planning and development of inter-settlement trade in country food and

quarried soapstone materials, for the support, planning and implementation of projects in the areas of wildlife, forestry, agriculture, fur, harvesting and fisheries.

Payments:

\$4.68M over four years, cost shared 90:10 DIAND and GNWT. Payments made pursuant to Management Group approval of projects.

CANADA — YUKON ECONOMIC DEVELOPMENT AGREEMENT

Administered By:

DIAND, DRIE, CEIC, Government of the Yukon

Purpose:

To facilitate federal-territorial co-operation in initiatives to promote the planning and implementation of economic, socio-economic and regional development in the Yukon.

Authority:

Department of Indian Affairs and Northern Development Act.

Time Frame:

Five-year agreement which began in 1984 and will terminate in 1989.

Financing and Operation:

The Economic Development Agreement is an enabling document to facilitate joint federal-territorial co-operation in economic development. Subsidiary agreements indicate the specific measures which the federal and territorial governments undertake to achieve joint development objectives and as well, identify specific financial commitments.

Payments:

No payments are made through Economic Development Agreements.

CANADA — NANISIVIK MINES LTD. AGREEMENT

Administered By:

The Monitoring Committee comprised of federal/territorial representatives and an Inuit from Arctic Bay. The names of the members of the Monitoring Committee are:

Dr. J. Lazarovich, Chairman, DIAND
Vacant, EIC
David Moll, DIAND
Jim Britton, GNWT
Garry Black, GNWT
David Kalluk, Inuit of Arctic Bay, Northwest Territories

Purpose:

Provide financial assistance for the construction of infrastructure facilities including an airport, dock, roads and townsite and in return acquire an 18 per cent equity interest in the mine. The project also provides significant benefits to Canada: The Inuit receive training and employment; maximum use is made of Canadian materials and services; it provides a major opportunity for Canadian shipping; it provides opportunities for the federal government to obtain experience in construction and mining in the high Arctic.

Authority:

T.B. No. 732460 dated December 20, 1974.

Time Frame:

At least 12 years from 1976 (the mine is now expected to remain operational until 1990).

Financing and Operation:

Nanisivik Mines Ltd.
Suite 401, 44 Victoria Street
Toronto, Ontario
M5C 1Y2

Payments:

Originally, the costs were estimated to be \$18.3 million, however, by the time the facilities were completed the total costs were \$24.1 million. In accordance with the provisions of the agreement, a portion of the above expenditures will be recovered.

Department of Justice

~~The Department~~ of Justice was first established in 1868 and ~~at present operates~~ under the legislative authority of the ~~Department of~~ Justice Act. The Minister of Justice is responsible for the management and direction of the Department and has superintendence of all matters connected with the administration of justice in Canada, not within the jurisdiction of the governments of the provinces.

In carrying out its responsibilities, however, the Department of Justice interacts on a regular basis with these governments. An important ingredient of this interaction is the development and implementation of three federal-provincial justice programmes described in the following pages.

ASSISTANCE TO PROVINCES FOR THE PROVISION OF COMPENSATION TO VICTIMS OF VIOLENT CRIMES	154
ASSISTANCE TO PROVINCES FOR THE PROVISION OF LEGAL AID IN MATTERS RELATING TO THE CRIMINAL LAW	155
NATIVE COURTWORKER PROGRAMME	157

ASSISTANCE TO PROVINCES FOR THE PROVISION OF COMPENSATION TO VICTIMS OF VIOLENT CRIMES

Administered By:

Projects Administration Section (Administration), Programs Policy and Law Information Development Section (Policy).

Purpose:

This assistance to the provinces encourages the development of a basic system of compensation across Canada for innocent victims of crime.

Authority:

Annual Appropriation Acts

Authority is provided under Order in Council 1973-637, dated March 22, 1973, and Order in Council 1973-1794, dated June 26, 1973.

Agreements have been signed with all provinces and territories except Prince Edward Island.

Time Frame:

This is a continuing programme. The first agreements came into effect on January 1, 1973 and are to be of indefinite duration. Agreements are terminable by either party upon one year's written notice. The financial terms of the agreements are to be reviewed every three years.

Financing and Operation:

The provinces carry out the operation of the compensation programmes. Under the federal-provincial agreements

listed above, the federal government has agreed to assist each province by providing an annual payment of an amount determined by the application of whichever of the following two formulae yields the most beneficial result to the province:

Formula(1) A contribution by Canada of an amount which is the larger of:

- (a) ten cents per capita of the population of the province, or
- (b) \$50,000, provided that in no case shall the contribution by Canada exceed 50% of the actual amount paid by the provincial agency for crime compensation.

Formula(2) A contribution by Canada of an amount which is the lesser of:

- (a) five cents per capita of the population of the province, or
- (b) 90% of the actual amount paid by the provincial agency for crime compensation.

At present, some forty crimes are covered by the agreements, and the schedule of crimes covered may be amended by the mutual agreement of the parties.

In order to receive the federal payment the provinces complete a detailed claim form and supply supporting documentation.

The funding formula with the territories requires a federal contribution of 75% of the amount of compensation paid with a set of maxima for individual awards.

TABLE 1

Actual and Estimated Payments to the Provinces and Territories under the Crime Compensation Agreements

Province or Territory	1980-81 (\$)	1981-82 (\$)	1982-83 (\$)	Estimates 1983-84 (\$)	Estimates 1984-85 (\$)
Newfoundland	14,675	15,613	8,800	40,000	58,700
Nova Scotia	—	42,372	85,200	86,100	86,800
New Brunswick	24,449	30,933	35,000	71,000	71,300
Quebec	630,340	643,840	648,200	650,200	652,300

**ASSISTANCE TO PROVINCES FOR THE PROVISION OF
LEGAL AID IN MATTERS RELATING TO THE CRIMINAL
LAW**

Administered By:

Programs and Projects Administration Section (Administration), Programs Policy and Law Information Development Section (Policy).

Purpose:

The aim of this assistance to the provinces is the provision across Canada of a minimum standard of legal aid services to the economically disadvantaged in criminal cases.

Authority:

Annual Appropriation Acts.

Authority is provided under Order in Council 1973-638, dated March 22, 1973, and Order in Council 1973-1793, dated June 26, 1973.

Agreements have been signed with all of the provinces as well as with the Northwest Territories and the Yukon.

Time Frame:

This is a continuing programme. The federal government initially decided in principle to provide financial support to the provinces for the provision of legal aid in early 1972. Following this, agreements providing for federal cost-sharing of criminal legal aid were signed with the governments of all 10 provinces in 1972 and 1973.

The original cost-sharing formula provided for a federal contribution of up to 90% of shareable criminal legal aid costs for legal fees and disbursements to a maximum of .50 per capita. The 90% provision was designed as an incentive to early implementation of the schemes by the provinces.

In 1975, the per capita maximum was raised to .75, bringing the federal contribution to 50% of national shareable expenditures. Agreements were renewed for a year (1976-77)

while the federal contribution continuing to be payable a year in arrears.

The agreements were renegotiated on a long-term basis (4 years) ending March 31, 1981 and were extended for 1 year to March 31, 1982.

Following a series of discussions with the provinces, commenced in the fall of 1981, 3-year agreements (ending March 31, 1985) were signed by all provinces.

A federal-provincial working group has been established to develop alternatives to the present formula, with which the provinces are dissatisfied. The group is to report by February, 1985.

A one-year agreement (1984-85) for the provision of legal aid services to young offenders is presently in the final stages of negotiation.

Financing and Operation:

The provinces are responsible for the operation of their legal aid programmes. Under the terms of the proposal of June 1978 the federal government's contribution during the first year of the long-term agreement, 1977-78, was fixed retroactively at the lesser of 82 cents (formerly 75 cents) per capita or 90 per cent of the province's shareable expenditures.

With respect to the years 1978-79, through 1980-81, the federal government provided an annual payment equal to the lesser of 85 cents per capita or 90 per cent of the province's shareable expenditures, with an escalation formula so that the federal contribution would keep pace with the costs of the provinces within reasonable limits. For the fiscal year 1981-82, an extension to the existing agreement was signed, providing for a federal contribution calculated as follows: the lesser of:

- (a) the percentage increase in current dollars, in the Gross National Product minus one per cent for the fiscal year in respect of which the federal contribution applies, or
- (b) the percentage increase in the national shareable criminal legal aid expenditures.

Under the terms of the 1984-85 agreement, the federal share is calculated based on a formula which consists of two components:

- a base component reflecting 50% of national shareable expenditures in 1982-83 and a growth component containing a ceiling on the growth in the federal contribution of G.N.P. — 1%.

Some provinces including Newfoundland, Prince Edward Island, Nova Scotia and New Brunswick may use a base component reflecting up to 90% of the national shareable expenditures in 1982-83.

Under the agreements legal aid to eligible persons is mandatory in relation to:

1. Offences contrary to an Act of Parliament punishable by way of indictment;
2. Proceedings under the Juvenile Delinquents Act and all summary conviction offences for a violation of i) an Act of Parliament, or ii) a Regulation made pursuant to an Act of Parliament where, in the opinion of the Provincial Agency, there is a likelihood that upon conviction there will be a sentence of imprisonment or the loss of means of earning a livelihood, or where, in the opinion of the Provincial Agency, special circumstances exist that warrant the provision of Legal Aid;
3. Proceedings pursuant to the Extradition Act and the Fugitive Offenders Act;
4. Appeals by the Crown in any of the matters referred to in 1, 2 and 3; and
5. Appeals by an accused in any of the matters referred to in paragraphs 1, 2 and 3 where, in the opinion of the Provincial Agency, the appeal has merit or where the court appealed to requests the appointment of counsel on behalf of the appellant.

In order to receive the annual federal payment the provinces complete a detailed claim form and supply supporting documentation.

The federal-territorial legal aid agreements, which cover civil and criminal legal aid, are also ongoing. They were due for re-negotiation as of April 1, 1982. Territorial officials, however, elected to await the outcome of the federal-provincial negotiations before entering into discussions for revisions to the federal-territorial agreements. Until this occurs, the federal contribution to legal aid in both territories remains fixed under the current agreements at the level of the 1981-82 contribution, i.e., Yukon — \$220,000, Northwest Territories — \$415,000.

TABLE 2

Actual and Estimated Payments by the Federal Government to the Provinces and Territories under the Legal Aid Agreements

Province or Territory	1981-82 (\$)	1982-83(1) (\$)	Estimates 1983-84(1) (\$)	Estimates 1984-85(1) (\$)
Newfoundland	628,561	—	780,413	798,117
Prince Edward Island	115,300	—	120,704	125,029
Nova Scotia	1,052,275	—	1,356,679	1,440,352
New Brunswick	788,846	—	1,011,184	1,011,184
Quebec	7,042,476	7,042,476(2)	7,042,476(2)	7,042,476
Ontario	10,517,326	—	14,560,429	16,175,639
Manitoba	1,290,563	—	1,728,060	1,851,677
Saskatchewan	1,185,393	—	1,483,285	1,483,285
Alberta	2,464,040	—	3,887,516	4,244,935
British Columbia	3,184,210	—	3,832,803	3,021,605
Yukon	220,000	220,000	220,000	220,000
Northwest Territories	415,000	415,000	415,000	415,000
Total	28,903,990	7,677,476	36,438,549	37,829,299

Note: The figures shown are for the expenditure year of the province/territory. Justice payments are made in the following year.

(1) Further to renegotiation, Justice payments are not being made in the current year.

(2) The province of Quebec have not signed the new federal-provincial agreement yet. As soon as they do, the 1982-83 payment will be deemed to be a part payment for 1983-84 and the 1983-84 payment, a part payment for 1984-85. The figures for Quebec shown in the three last columns will also increase.

NATIVE COURTWORKER PROGRAMME

Administered By:

Programs and Projects Administration Section (Administration), Programs Policy and Law Information Development (Policy).

Purpose:

This programme provides Native defendants in criminal cases with guidance and information concerning their case and also assists Native people to understand and appreciate the law in order to avoid conflicts with the law.

Authority:

Annual Appropriation Acts.

Terms and conditions approved by the Treasury Board.

Agreements are in effect with all provinces and territories except Nova Scotia, New Brunswick and Prince Edward Island.

Time Frame:

This is a continuing programme.

Financing and Operation:

This is a programme under which the Department of Justice makes agreements with provincial and territorial governments which in turn negotiate with a Native carrier agency to administer a courtworker programme for the

benefit of Native people. The amounts and conditions of these contributions are subject to negotiation with the Department of Justice.

The criteria for eligibility for funding under the programme are as follows:

1. the programme must serve status and non-status Indian people alike;
2. the programme must be administered by an independent service organization which has the support of the majority of Native people or alternatively the federal government is satisfied that the programme is operated by a non-Native agency that has the support of the Native people;
3. any contribution by the Department of Justice must be limited to providing courtworker services (i.e., it cannot be used to finance half-way houses, or alcohol or drug abuse programmes, etc.);
4. at least 50% of the cost of the courtworker programme must be borne by the province involved;
5. the province or territory involved must be willing to monitor the operation of the programme in order to assure that the service provided maintains certain minimum standards of quality; and
6. provision must be made for periodic audit.

TABLE 3

Actual and Estimated Payments to the Provinces and Territories under the Native Courtworker Agreements

Department of Labour

In 1900, the Conciliation and Labour Act created the Department of Labour to provide a mechanism for the voluntary resolution of labour-management disputes, and to gather and publish statistical and other information affecting labour. Since that time, departmental activities have expanded to include the enforcement of labour standards and occupational safety and health legislation, the establishment of programs for the enhancement of the quality of working life and labour education, and the administration of labour adjustment benefits and fair wages and hours of work.

The Women's Bureau works with federal, provincial and international agencies to research issues involving women in the labour force, and publishes a wide range of relevant information.

The Minister of Labour is responsible for statutory employment conditions and industrial relations in industries within federal jurisdiction. These are restricted to industries involved in interprovincial or international transportation and communications, as well as air transport, broadcasting and banking, many Crown corporations, and enterprises declared by Parliament to be for the general benefit of Canada. The Department of Labour administers legislation governing labour standards, employment safety, industrial relations and other related matters.

The Department of Labour serves the public through five Regional Offices:

Atlantic Region

Moncton headquarters, embraces the three Maritime provinces and Newfoundland;

St. Lawrence Region

Montreal headquarters, serves all of Quebec;

Great Lakes Region

Toronto headquarters, encompasses the greater part of Ontario;

Central Region

Winnipeg headquarters, includes Saskatchewan, Manitoba

and Northwestern Ontario;

Mountain Region

Vancouver headquarters, takes in British Columbia, Alberta, the Yukon and the Northwest Territories.

Increasingly, the Department seeks informal consultation with labour and business representatives, in order to secure consensus on a range of labour issues and keep open channels of communication between the parties involved in industrial relations. With departmental funding, an independent business-labour research centre, the Canadian Labour Market and Productivity Centre, was recently established to encourage co-operative approaches to improving the nation's economic performance.

The Department's relations with provincial governments involve a wide variety of joint committees and conferences which provide for a discussion of aspects of industrial relations and employment conditions. These groups and meetings include the Canadian Association of Administrators of Labour Legislation (CAALL), the International Labour Organization (ILO) and meetings of federal and provincial Ministers of Labour.

Another series of federal-provincial contacts relates to the collection and exchange of statistics on various aspects of labour and employment conditions. The agreements with Saskatchewan and Alberta are for survey information on salaries, wages, working conditions and fringe benefits. Other such arrangements operate on an informal basis.

The Department of Labour transfers funds to the provinces under a program dealing with injury compensation. Under this arrangement, the provincial Workers' Compensation Boards are reimbursed for the costs of handling claims made by employees in the Public Service of Canada.

Four other bodies, none of which operates programs leading to transfers of funds to the provincial or municipal governments, report to Parliament through the Minister of Labour. These are the Merchant Seamen Compensation Board, the Canada Labour Relations Board, the Canadian Centre for Occupational Health and Safety, and the Labour Adjustment Review Board.

EMPLOYMENT INJURY BENEFITS PROGRAM

Administered By:

Regional offices with the functional guidance and support of the Occupational Safety and Health Branch, Ottawa.

Purpose:

The program organizes and co-ordinates the provision of employment injury compensation to federal government employees pursuant to the Government Employees Compensation Act. It also reimburses the provincial Boards and Commissions for their disbursements and costs of handling claims for work injuries made by employees of the Public Service of Canada and most Crown agencies. Employees' claims are processed in this way since the Government of Canada does not have the facilities to adjudicate, process and pay such claims.

Authority:

Government Employees Compensation Act

Government Employees Compensation Regulations

The Act sets out who is covered and how the provincial compensation boards are to be recompensed.

Time Frame:

This is a continuing program.

Financing and Operation:

Claims in respect of injuries on the job are made by federal government employees to the regional offices of Labour Canada which forward them to the provincial Workers' Compensation Boards which adjudicate, process and pay these claims as required. The Boards, in turn, submit claims for disbursements and administration costs to Labour Canada on a monthly basis. After audit the Department makes payments directly to the compensation boards for all expenses incurred in respect of federal government employee claims.

Payments:

Reimbursements to Provincial Workers' Compensation Boards for Costs Incurred In Respect of Federal Government Employee Claims.

OCCUPATIONAL SAFETY AND HEALTH PROGRAM

(for industries subject to federal labour laws and the Public Service of Canada)

Administered By:

Regional offices with the functional guidance and support of the Occupational Safety and Health Branch, Ottawa.

Purpose:

To achieve a working environment that is conducive to the physical and social well-being of employees of enterprises subject to Part IV of the Canada Labour Code and of employees of the Public Service of Canada in order to minimize human suffering and to conserve manpower and material resources.

Under this employment safety program, the provinces, except for Ontario and Quebec, provide technical inspections on boilers, pressure vessels and elevating devices in the Public Service of Canada. In Ontario and Quebec, technical inspections are being provided by private firms under contract.

Conventional (non-radiation) safety in the uranium mining industry is regulated by the provisions of the Canada Labour Code. The mining inspection services are provided on behalf of Labour Canada by the Province of Saskatchewan and Ontario.

Authority:

Canada Labour Code, Part IV (Safety of Employees); Canada Occupational Safety and Health Regulations under the Canada Labour Code, Treasury Board Occupational Safety and Health Policies and Standards.

Time Frame:

This is a continuing program. Current arrangements with the provinces for technical inspections in the Public Service range from one to three years. Arrangements with Ontario for mining inspection services are on an annual basis.

Financing and Operation:

Payments for all inspection services are paid by Labour Canada in accordance with the contractual arrangements.

Payments:

See table 2.

**SURVEY OF SALARIES, WAGES, WORKING CONDITIONS
AND FRINGE BENEFITS — SASKATCHEWAN**

The Saskatchewan Department of Labour conducts an annual survey, covering all employers with ten or more employees in the province, to obtain information on occupational wage and salary rates and certain conditions of employment.

Administered By:

Surveys Division of Labour Data Branch.

Purpose:

To collect wage and working conditions information in Saskatchewan and avoid duplication of data collection.

Authority:

Agreement with the Saskatchewan Department of Labour.

Time Frame:

The Saskatchewan Survey of Salaries, Wages, Working Conditions and Fringe Benefits is conducted annually as of October 1st.

Financing and Operation:

Prior to 1974, Labour Canada conducted its annual Survey of Wages and Working Conditions in all ten provinces. With the advent of the Saskatchewan Survey, arrangements were made whereby Saskatchewan would collect, in addition to its own requirements, the data normally collected in the federal survey. Labour Canada ceased its survey operation in Saskatchewan and arranged with the Saskatchewan Department of Labour to obtain tape copies of the Saskatchewan data. Consultation between federal and provincial officers takes place on a regular basis.

Payments:

Labour Canada pays about \$5,000 per survey to the Province of Saskatchewan to share the costs of the Saskatchewan survey.

ALBERTA PAY AND BENEFITS SURVEY

The Alberta Bureau of Statistics conducts an annual survey of occupational wage and salary rates and certain conditions of employment. The survey covers all firms with 20 or more employees and a selection of firms with fewer than 20 employees. All industries except fishing, trapping, logging and farming are surveyed.

Administered By:

Surveys Division of Labour Data Branch.

Purpose:

To collect wage and working conditions information in Alberta and remove duplication of data collection.

Authority:

Agreement with the Alberta Bureau of Statistics.

Time Frame:

The Alberta survey is conducted annually and the data relate to the last normal pay period preceding October 1st.

Financing and Operation:

Prior to 1980, Labour Canada's national annual survey of Wages and Working Conditions included establishments in Alberta having 20 or more employees. Arrangements were made whereby the Alberta Bureau of Statistics would collect, in addition to its own requirements where necessary, the data normally collected in the federal survey. Labour Canada ceased its survey operation in Alberta and contracted with the Alberta Bureau of Statistics to obtain tape copies of the raw data from Alberta establishments. Consultation between federal and provincial officers takes place on a regular basis.

Payments:

The Department of Labour pays about \$15,000 per survey to the Alberta Bureau of Statistics to share the costs of the Alberta survey.

Department of National Defence

The Department of National Defence operates under the legislative authority of the National Defence Act. The Governor General is the Commander in Chief of the Canadian Forces, with the Cabinet, the executive body of the government, responsible for matters of defence policy. The Minister of National Defence is responsible for the overall administration, control and management of the Canadian Forces, for all matters relating to national defence, and for certain civil emergency powers, duties and functions. The Deputy Minister is the principal civilian assistant, and the Chief of the Defence Staff is the senior military adviser to the Minister.

The many activities that are necessary to carry out the department's responsibilities are administered under the Defence Services Program (DSP). Emergency Planning Canada is funded within the Defence Services Program but is tasked by and reports through the Office of the Assistant Secretary to the Cabinet (Emergency Planning) to the President of the Privy Council.

Under the Defence Services Program, the department has activities which involve timely assistance to civil authorities

from the Canadian Forces for internal security and others in which the Canadian Forces and/or personnel assigned provide the basic essential staff for an emergency and disaster capability; for co-ordinating search and rescue operations; and for assisting in many aspects of national development including youth programs, development in the North and support of community activities. Additionally, the Department of National Defence is responsible for administering military training programs of allied nations which are conducted in Canada and which may involve issues of provincial interest. The general aim of Research and Development in Department of National Defence is the effective application of science and technology to all departmental functions ranging from strategic policy decisions and military operations to the development and maintenance of effective personnel and material resources. Approximately two thirds of the activities are conducted in-house and one third by contracts to industry, universities and other governmental departments. The Emergency Planning Canada Program is reported on separately within the Crown Agencies section of this volume.

PROVISION OF SERVICES TO NON DEFENCE AGENCIES	165
FOREIGN MILITARY TRAINING IN CANADA	166
	167

AID OF THE CIVIL POWER**Administered By:**

Deputy Chief of the Defence Staff

Purpose:

The program provides for armed assistance to the provinces and municipalities in the maintenance of law and order.

Authority:

National Defence Act Part XI

National Defence Act Section 33(1)

Time Frame:

This is a continuing activity of the Department. In any given instance Canadian Forces activity in aid of the civil power commences on receipt of a requisition from a Provincial Attorney General and continues until the Attorney General officially terminates the requisition.

Financing and Operation:

In any case where a riot or disturbance occurs, or is considered as likely to occur, the Attorney General of the Province on his own, or having received notification from a judge of a superior, county or district court having jurisdiction, that the services of the Canadian Forces are required in aid of the civil power, may requisition in writing, Canadian Forces to be called out in aid of the civil power. When any part of the Canadian Forces is on service in aid of the civil power, they do not replace the civil power but are assisting in the maintenance of law and order.

Armed assistance in the maintenance of law and order may be requested because of the scarcity of other police resources in the immediate area of an incident or because the Canadian Forces have resources not available within existing police resources. When Canadian Forces' officers and men are called out for service in the aid of the civil power they have all the duties and powers of constables.

The scope of this activity includes the Canadian Forces undertaking the following possible tasks: confrontation/dispersal action, protection of personnel, security of vital points, control of movement, and cordons and searches.

The activity is financed through shared-cost arrangements. The Department's share includes Regular Force Pay and allowances. The province or federal government department usually pays the remainder; however, the federal government may make additional contributions. The federal government bills the province or federal department that requests the aid.

Payments:

Amounts vary from year to year depending upon the number of requisitions or requests for armed assistance received by the Department. Separate figures are not available for these expenditures.

CAPITAL ASSISTANCE IN CONSTRUCTION PROJECTS

Administered By:

Chief of Construction and Properties

Purpose:

The program provides for capital assistance contributions to provincial and municipal construction projects where benefits will accrue to the department.

Authority:

Treasury Board Minute 786343 dated February 11, 1983.

Formal agreement between the department and province or municipality is signed for each project.

Time Frame:

This is a continuing activity relating to a number of isolated projects.

Financing and Operation:

Included in this activity are construction projects involving road safety improvements, school and recreation facilities, regional water and sewage projects, upgrading environmental standard and such other municipal facilities improvements which will benefit the department.

The projects are funded on the basis of cost-sharing agreements. The department's portion is expressed as a percentage of the total cost of the project with a maximum contribution stated. Payment is whichever sum is the least. The funds to be expended are approved on an individual project basis in accordance with Treasury Board authorization.

Payments:

Payments are made directly to the province or municipality responsible for the construction project in accordance with the terms of the related agreement. (See table 1).

PURCHASE OR SALE OF UTILITIES AND MUNICIPAL SERVICES

Administered By:

Director General Properties and Utilities

Purpose:

To purchase from municipalities and provincial franchised utility suppliers the required utilities and services for the operation of departmental facilities, and in other cases to recover the cost of similar services provided by departmental installations.

Authority:

Government Contract Regulations

Time Frame:

This is a continuing activity

Financing and Operation:

Utilities and services (water, sewage, electricity, gas, garbage removal and other similar miscellaneous services), are purchased in accordance with a formal contract or agreement which is subject to normal review as to rates and terms, etc. In areas where no other source of supply is available the department supplies certain utilities and services on a cost recoverable basis to villages and other users.

Examples of this are the Village of Petawawa where water service is provided and the Village of Alsask where sewage service is provided.

Payment for purchases, and claims for utilities and services provided, are made directly between the municipality or public utility commission and the Canadian Forces Base or Station concerned.

Payments:

See table 2.

TABLE 2

Purchase of Utilities and Municipal Services for Departmental Facilities in each Province since Fiscal Year 1978-79

PROVISION OF SERVICES TO NON DEFENCE AGENCIES**Administered By:**

Deputy Chief of the Defence Staff

Purpose:

This program provides for the use of departmental services or facilities by individuals, municipal, provincial or federal

departments or agencies when such use would be in the public interest and not compete with existing commercial resources.

Authority:

National Defence Act Part II

Department of National Defence Publication 55

Time Frame:

This is a continuing activity of the Department. Requests for services can be made at any time but the degree to which they are met is dependent upon the availability of departmental resources.

Financing and Operation:

The scope of activities in this area include assistance in civil disasters, humanitarian assistance, assistance in disposal of non-defence explosives or radiation hazards, provision of routine services, land maintenance services, support to amateur sporting events, temporary use of works and buildings, transfer and loan of materiel.

Disaster assistance includes assistance by the Canadian Forces in countering situations such as floods, forest fires,

land slides, hurricanes, snow storms and pollution emergencies.

Humanitarian assistance includes searches for missing persons, provision of mercy flights or medical evacuation of seriously ill or injured persons, transportation of vital medical resources, provision of decompression facilities, isolation and treatment of persons suffering from certain highly contagious diseases which may have been contracted outside Canada, provision of emergency care when normal community service is interrupted by strike, fire, etc., and provision of care in isolated areas where there is no civilian health care facility or local resources are inadequate.

Explosive ordnance disposal includes the disposal of abandoned commercial explosive, military ordnance and improvised explosive devices.

Provision of services includes work done by the Canadian Forces or assistance given to persons or organizations.

The Department provides support to amateur sporting events through the loan of materiel, the provision of services or the use of facilities.

The activities are cost recoverable with the party requesting the use of the services or facility being required to meet whatever costs are judged to be appropriate in each case.

Recovery action may be effected at the base or station level or at National Defence Headquarters.

Payments:

Amounts vary depending upon the circumstances of the assistance.

FOREIGN MILITARY TRAINING IN CANADA

Administered By:

Deputy Chief of the Defence Staff

Purpose:

A number of foreign military training programs are conducted in Canada to facilitate improving the military effectiveness of Canada's allies. This is done by providing, where possible and when in the national interest, departmental facilities and space at various Canadian locations. The two major training programs in Canada at the present involve the United Kingdom with air force personnel training at Goose Bay, Labrador, and army personnel training at CFB Suffield, Alberta, and the Federal Republic of Germany with air force personnel also at Goose Bay, Labrador, and with army personnel at CFB Shilo, Manitoba.

Federal interface with the provinces concerning such training can involve such issues as the environment, land leases, taxation and driver licences.

Authority:

Cabinet Direction, May 13, 1971
Various International Agreements

Time Frame:

This is a continuing activity.

Financing and Operation:

As directed by the Cabinet in 1971, training programs of the type conducted by the Germans and British military forces are carried out on the basis that the full financial burden of all aspects of the training are borne by the foreign nation involved.

Department of National Health and Welfare

The Minister of National Health and Welfare is responsible for one of the major areas of federal government concern which gives rise to the need for close cooperation and coordination with the provinces. The Department of National Health and Welfare conducts activities within the federal jurisdiction relating to the promotion and preservation of health, social security and social welfare of the people of Canada. Part of this responsibility includes investigation and research into public health and welfare, supervision of health facilities on all forms of transportation, conservation of the health of federal government employees and information services relating to health conditions and practices. But a major part of the Department's activities involves cooperation with provincial authorities in efforts directed toward the preservation and improvement of public health and toward the provision of social security and welfare for all Canadians.

HEALTH

In the area of preservation and improvement of the health of Canadian residents, much of the Department's involvement with the provinces originates with the operation of the Health Services and Promotion Branch. Its main federal-provincial programs are the Insured Health Services Program and Research. The Insured Health Services Program is designed in cooperation with provincial health authorities, to make medically necessary insured health services of high quality accessible to all residents of Canada unimpeded by financial barriers. Contributions under the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977, for Insured Health Services and Extended Health Care Services are made. Other programs are the National Health Research and Development Program, and the Family Planning Grants.

Other activities of the Department which involve cooperation with the provinces originate in the Health Protection Branch. These activities are aimed at increasing health protection through surveillance of health hazards; dissemination of information about these hazards; and efforts to eliminate potential health problems. Many of these activities are directed to private institutions and individuals and may include provincial agencies only incidentally. Others

depend heavily on provincial inputs to operate. The activities most directly involving the provinces are described under Health Protection Cooperative Activities.

The mandate of the Fitness and Amateur Sport Branch, determined by the 1961 Fitness and Amateur Sport Act, is "to promote, encourage and develop fitness and amateur sport in Canada". This two-fold mandate is achieved through the activities of its two program directorates, Fitness Canada and Sport Canada. Fitness Canada initiates its own programs and instructional or promotional materials designed to increase public awareness of the benefits of fitness and to encourage mass participation in physical activity. Sport Canada provides financial assistance to Canada's national and international athletes and teams and encourages opportunities for training and competition and the development of high-calibre coaches and officials. Sport Canada also assists in the hosting of major international sporting events in Canada and supports international sport exchanges.

WELFARE

The provision of social security and welfare services for Canadians is, in its federal-provincial aspects, largely within the ambit of the Canada Assistance Plan Directorate of Social Service Programs Branch. The Canada Assistance Plan provides the framework for federal sharing in the costs of social assistance to persons in need and welfare services to persons in need or likely to be in need unless they receive these services. Assistance and services are provided by provincial and municipal departments of welfare. The Young Offenders Agreements established under authority of the Appropriation Act are in effect with certain provinces and territories to enable cost sharing of certain care and after-care services provided to young offenders. The Vocational Rehabilitation of Disabled Persons Act permits federal sharing in the costs of comprehensive provincial programs for the vocational rehabilitation of disabled persons.

Under the National Welfare Grants Program, project contributions are available to the provinces, as well as to voluntary agencies and organizations, research institutions and universities.

FAMILY PLANNING GRANTS PROGRAM

(Part of the Family Planning Program)

Administered By:

The Family Planning Division of the Health Services and Promotion Branch.

Purpose:

The program assists in the development of provincial, municipal and voluntary family planning services and other specific projects which ensure the accessibility of family planning services to all Canadians who want them. These services and specific projects make information available about the purpose and methods of family planning; promote professional and other training in family planning; support research in family planning and provide demonstrations of the delivery of family planning services.

Authority:

The program falls generally under the scope of the Department of National Health and Welfare Act.

Time Frame:

This is a continuing program.

Financing and Operation:

The Department of National Health and Welfare pays grants to provincial, municipal and voluntary family planning agencies and to universities for approved family planning projects of five types. The five types can be generalized as:

- (1) projects which provide family planning services;
- (2) projects which demonstrate the need for, and methods of delivering family planning services;
- (3) projects for the training of health and welfare and other staff in family planning;
- (4) projects for research into family planning, including demographic and behavioural studies, and
- (5) University Fellowships for family planning, teaching and research.

The Department has available a Guide to the Family Planning Grants on the basis of which agencies may prepare applications for Family Planning Grants. Applications are submitted to the Family Planning Division for review and evaluation. Grants are paid to approved projects in two payments; the second payment is contingent upon adequate program and financial reports. Applications for grants submitted by agencies within a province are submitted to the appropriate provincial department for comments. In addition to the evaluation described above, research projects are submitted to a Family Planning Research Advisory Committee for further appraisal.

To help ensure that provincial government objectives are met, there are arrangements for federal-provincial liaison and consultation, particularly on the conformity with provincial priorities of family planning projects, other than those national in scope, funded under this program.

Payments:

See table 1.

TABLE 1

Payments to Provincial/Territorial and Municipal Governments under the Family Planning Grants Program (1983-84)

Province	Grants to Provinces (\$)	Grants to Municipalities (\$)
Newfoundland	35,000	—
New Brunswick	30,000	—
Alberta	—	54,000
British Columbia	—	30,000
Yukon	25,000	—
Total	90,000	84,000

The total grants to the provinces/territories and municipalities in 1983-1984 was \$174,000. This total does not include \$225,000 transferred to Community Health for the national voluntary family planning agencies. In 1984-1985, the same amount is available, but figures cannot be given for its distribution as it depends on the submission of eligible projects from each province.

INSURED HEALTH SERVICES PROGRAM

Administered By:

The Health Resources Directorate of the Health Services and Promotion Branch.

Purpose:

To provide support to provincial health programs to ensure that all residents of Canada have reasonable access to insured health services, and to provide provinces with payments to assist in the development of extended health care services programs.

Authority:

The Canada Health Act, 1984: the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977, as amended.

Time Frame:

This is a continuing program.

Financing and Operation:

The federal government contributes to provincial health care programs on a blockfunding basis. The formulae for calculating the transfer payments are contained in the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, administered by the Department of Finance. Federal contributions take the form of a transfer of tax room and associated equalization to the provinces, in conjunction with cash contributions. Total federal contributions are based on the current escalated value (escalated for change in the Gross National Product) of the 1975-1976 federal contributions for Hospital Care, Medical Care, and Post-Secondary Education, and on a per capita contribution for EHCS.

Insured Health Services:

In order for provinces to qualify for a full cash contribution in respect of insured health services, provincial plans must satisfy the following program criteria:

- public administration: the program must be administered by a public authority accountable to the provincial government;
- comprehensiveness: the program must cover all necessary hospital and medical services, and surgical-dental rendered in hospitals;
- universality: 100% of insured persons must be entitled to insured health services;
- portability: the waiting period for new residents must not exceed three months;
- insured health services must be made available to Canadians temporarily out of their own province at no extra charge to patients;
- payment for services out-of-province to be paid for by the home province at host province rates;
- payment for services out-of-country to be at home province rates;
- accessibility: reasonable access to insured health services is not to be precluded or impeded, either directly or indirectly, by charges or other mechanisms;
- reasonable compensation must be made to physicians and dentists for providing insured health services;

- adequate payments must be made to hospitals in respect of insured health services.

Provinces must also meet the following in order to be eligible for the full cash portion of the federal contribution:

- Provision of information: reasonable information on the operation of the program is to be supplied by the provinces to the Minister of National Health and Welfare.
- Visibility: federal contributions to the programs are to be given appropriate recognition.
- Extra-billing and user charges: extra-billing and user charges must not be permitted except "in respect of user charges for accommodation or meals provided to an in-patient who, in the opinion of the attending physician, requires chronic care and is more or less permanently resident in hospital or other institutions".

Defaults:

Where a provincial plan fails to satisfy any one of the program criteria, or the province fails to comply with either of two of the conditions of payment (provision of information and visibility), the Act provides that the cash portion of the federal contribution or payment may be reduced. This reduction is discretionary and must be preceded by consultation with the province.

Where a province fails to comply with the condition of payment relating to extra-billing and user charges, the Act provides for a non-discretionary reduction of the cash portion of the federal contribution by the amount charged through extra-billing or user charges.

Refunds:

For the first three years after proclamation, funds withheld from provinces because of extra-billing or user charges will be held in the Public Accounts of Canada, and shall be paid to the province if the practices of extra-billing or user charges are eliminated during those three years.

Payments:

See table 2.

Extended Health Care Services:

In order for provinces to qualify for a full payment in respect of extended health care services, provinces must satisfy the following conditions of payment:

- Provision of information: reasonable information on the operation of the program is to be supplied by the provinces to the Minister of National Health and Welfare.
- Visibility: federal contributions to the programs are to be given appropriate recognition.

Default:

Where a province fails to comply with either of the two conditions of payment, the Act provides that the payment may be reduced. This reduction is discretionary and must

be preceded by consultation with the provinces.

Payments:

See table 3.

NATIONAL HEALTH RESEARCH AND DEVELOPMENT PROGRAM

Administered By:

Extramural Research Programs Directorate, Health Services and Promotion Branch.

Purpose:

The National Health Research and Development Program enables the Department of National Health and Welfare to acquire science-based information pertinent to the achievement of broad departmental objectives which embrace the promotion and preservation of the health of the people of Canada. These objectives include the meeting of similar provincial requirements having national interest or implications.

The Program is designed to encourage and support research and development projects, studies, and demonstrations in the field of public health, developed either spontaneously or in response to departmental statements of research requirements. Currently, particular importance is attached to proposals to investigate factors which may or do impact on the availability, accessibility and quality of health care; chemical, physical, biological and psychological health hazards in the home, workplace and natural environments; primary and secondary illness prevention, including the development and evaluation of health promotion strategies; the health of Native peoples; and the habilitation and rehabilitation of the disabled and handicapped.

In addition, the Program provides for the creation, development and maintenance of research manpower in selected disciplines associated with public health.

Authority:

The Department of National Health and Welfare Act, Annual Appropriation Acts, and the terms and conditions of the National Health Research and Development Program.

Time Frame:

Continuing

Financing and Operation:

Recipients may include: Canadian universities and hospitals; governments of provinces, territories, regions and

municipalities; voluntary health agencies and corporations; individuals and other bodies capable of conducting scientific activities in the field of public health, with the exception of departments, agencies and employees of the Government of Canada.

All applications for assistance are submitted by the applicant to the Extramural Research Programs Directorate by predetermined closing dates, whereupon separate assessments are undertaken by departmental officials to determine relevance to departmental objectives and by panels of experts, which may include departmental experts, to determine feasibility, methodology and quality of planning.

Although the National Health Research and Development Program is not a federal-provincial shared-cost program, provincial health authorities are asked, as part of the review and appraisal process, to evaluate proposals emanating from within their boundaries (except those submitted by national organizations, regardless of locale) from the point of view of relevance to provincial priorities. If provincial support for proposals is lacking, this information is taken into account when recommending approvals.

All recipients must undertake to submit a final report within three months of completion. Copies of these reports may be borrowed from the Department's reference collection (National Health and Welfare Library, Ottawa, K1A 0W9) through established inter-library loan mechanisms.

Payments:

See table 4.

HEALTH PROTECTION COOPERATIVE ACTIVITIES

Administered By:

Various divisions of the Health Protection Branch

Purpose:

These activities of the Department of National Health and Welfare with the close cooperation of the corresponding provincial agencies are all aimed at increasing health protection by expanding the impact of federal activities in the surveillance and correction of existing or potential health hazards and poor health practices, and in the dissemination of information about these hazards and practices.

Authority:

Generally, the Department of National Health and Welfare Act, the Food and Drugs Act and Regulations, the Narcotic Control Act and Regulations, the Radiation Emitting Devices Act and Regulations, the Emergency Planning Order, the Treasury Board Standards, the Hazardous Products Act and Regulations, the Environmental Contaminants Act and Regulations, the Atomic Energy Control Regulations and the Canadian Broadcasting and Television Act and Regulations. Informal agreements between the Health Protection Branch and the provincial health agencies concerned in each activity.

Time Frame:

These are all continuing programs.

Financing and Operation:

The Department of National Health and Welfare is concerned with protecting the health of Canadians. To further this objective the Department carries out a wide range of activities to identify, publicize and eliminate conditions which are dangerous to the population's health.

Some of these programs are carried out entirely by federal staff, others with private institutions such as universities and hospitals or practising doctors, and still others in cooperation with the provincial governments. Some of the projects with agencies outside the federal government, especially in the private sector, are carried out under contract. Others involve no exchange of funds but do involve agreements on the assignment of resources. The twelve health protection activities, in which provincial cooperation is of particular importance, are:

1. Environmental Quality and Hazards;
2. Food Safety Quality and Nutrition;
3. Federal-Provincial Memorandum of Understanding;
4. National Health Surveillance;
5. Methadone Control Program;
6. Drug Quality Assessment Program;
7. Authorization to Possess Narcotic and Restricted Drugs for the Purposes of Analysis for Physicians;

8. Purchasing, Prescribing and Dispensing of Narcotic and Controlled Drugs;
9. Disposition of Drugs and Assets Seized by Police Departments;
10. Prosecutions Under the Federal Drug Statutes;
11. Provision of Expertise and Training Aids to Assist Municipal and Provincial Law Enforcement Agencies;
12. Exchange of Information.

A paragraph outlining each of these activities follows.

Environmental Quality and Hazards:

The Federal-Provincial Advisory Committee on Environmental and Occupational Health was established in June 1978 to advise Ministers and Deputy Ministers of Health on all matters of environmental and occupational health including risk identification, standards, provision of services and control measures, and on related policy and programme options, with due regard for respective jurisdictions and responsibilities, and with particular consideration of appropriate health actions associated with:

- contamination of food, air, water, and land by physical, chemical, radioactive and other substances;
- urban, industrial and other waste disposal activities, effluents, and emissions;
- new chemical compounds and operational innovations;
- physical, chemical, radiation and other health hazards of work environments;
- personal health services provided at the work-place;
- other factors as concerns and priorities may dictate.

Specific activities are carried out by a federal-provincial sub-committee on Radiation Surveillance and various Working Groups, e.g. Health and safety of laboratory workers; development of guidelines to control risks for women in industry; guidelines for recreational water quality; guidelines for wastewater disinfection; guidelines for indoor air quality; guidelines for occupational and environmental noise and update of the "Drinking Water Guidelines, 1978"; development of criteria documents on bio-assay and *in vivo* monitoring; preparation of a compendium of methods for the analysis of drinking water; development of radiation Safety Codes (x-rays, microwave, use of radio-nuclides, ultrasounds, short-wave diathermy) have also been discussed; "Guidelines for Recreational Water Quality", "Health and Safety of Laboratory Workers in Canada — a review of the literature", "Guidelines for Toxic and Hazardous Chemicals Used in Educational Institutions", "General Guidelines for Bio-Assay Programs", "Municipal Wastewater Disinfection in Canada — Need and Application", "Bioassay Guidelines 2 — Guidelines

for Tritium Bioassay", "Guidelines for Canadian Drinking Water Quality" have been published.

Other activities are carried out by the Environmental Health Directorate upon request and/or in collaboration with provincial authorities, some of which include: analyses of blood of exposed workers for lead, and the analysis of airborne dust samples in support of provincial industrial hygiene programs. Collaboration projects concerning analysis and evaluation of Drinking Water Contaminants and Improved Treatment are being conducted through joint Federal-Provincial projects. In addition, drinking water samples have been examined for trihalomethanes, asbestos, gasoline and PCB content. Surveys and studies have been conducted to determine whether air pollution in Sydney, Nova Scotia adversely affects human respiratory health; to determine background radon levels in homes across the country, to conduct a safety assessment of electromagnetic radiation (microwaves and radiofrequency) emissions from the CN Tower in Toronto, to determine radioactive waste levels.

Food Safety, Quality and Nutrition:

The Food Directorate conducts several programs in collaboration with provincial authorities:

- (a) The Food-Borne Disease Reporting System in which federal and provincial authorities cooperate in investigating and exchanging information on food poisoning outbreaks in Canada.
- (b) The Botulism Reference Centre which assists provincial departments of health and Canadian physicians in cases where botulism is suspected, through examination of food samples and clinical specimens and maintenance of reference cultures and supplies of antitoxin, and by alerting responsible agencies rapidly when commercially produced food is involved and serving as an information and liaison centre.
- (c) The Paralytic Shellfish Poisoning Program through which analytical data on microorganisms and toxins in shellfish are provided to the provinces through the Department of Fisheries and Oceans.
- (d) The Food and Animal Feed Contamination Monitoring Program (also with the WHO/FAO), through which provinces report a wide variety of data on, for example, organochlorine pesticides and PCBs in dairy products and human milk.

Various other activities are carried out by the Food Directorate upon request and/or in collaboration with provincial authorities. These include examination of samples and/or exchange of data, for example on trace elements in soils, foods and feeds, PCB's in human fluids and tissues, pesticide residues in seafoods, etc.

Provincial authorities and agencies are invited to provide input into food regulatory proposals through the Information Letter communication mechanism, are kept aware of

relevant developments in the international Codex Alimentarius program, and are advised of developments regarding the health hazard of substances in the food supply. All provinces, except the province of Quebec, were visited with respect to the Labatt Lite beer Supreme Court decision. Discussions are continuing concerning the Federal Food Standards with provincial authorities.

Federal-Provincial Memorandum of Understanding:

Health Protection Branch has signed memoranda of agreement with the majority of provincial governments with a view to making efficient use of their respective resources so as to ensure a safe food supply and provide the Canadian food industry with cohesive regulation. Other agreements address concerted action plans for withdrawing products from the market, avoidance of duplication of efforts, or specific data gathering or data sharing operations.

National Health Surveillance:

The role of the Centre is directed towards the achievement of acceptable national strategies for communicable disease prevention and control, and for a national perspective on the health status of Canadians, and requires strong federal/provincial cooperative programs. Among the activities carried out by this centre are a variety of Laboratory diagnostic reference services for diseases such as tuberculosis, influenza, hepatitis, measles, diphtheria, and for infections caused by enteric, streptococcal and staphylococcal organisms, as well as arboviruses and parasites. A program to provide standard methods and reagents to diagnose immune deficiencies in infections has been introduced. These services in some cases provide diagnostic reagents for the provincial laboratories, where none are available from commercial sources or are of poor quality.

National Quality Assurance and Proficiency Testing programs have been developed by the laboratory services to ensure quality diagnosis in virology, bacteriology, and clinical chemistry. These programs are federal/provincial cooperative programs, some of which are coordinated through various professional societies in Canada. Epidemiological studies are conducted to assist the provinces in the control of communicable and non-communicable diseases and to work with the reference centres to assist in the formulation of strategies for the control of diseases on a national basis. Another of the Centre's roles is to provide microbiological and epidemiological input into the diagnosis, management and control of newly emerging diseases. In recent years, examples of emergent diseases are Legionnaires' Disease, Toxic Shock Syndrome, and AIDS. Medically qualified epidemiologists are attached to several provinces to help coordinate provincial and federal epidemiological programs. From data submitted by the provinces, the Poison Control and Adverse Reaction Program provides data to provincial and other health authorities on cases of human poisoning and on adverse effects resulting from the administration of drugs. Congenital anomaly surveillance integrates with existing provincial systems to provide a national perspective.

A program to control laboratory and hospital acquired infections is underway.

Programs addressing control policies regarding social use of tobacco and selected psychotropic drugs continue to be developed and pursued.

Methadone Control Program:

The objective of this activity is to establish guidelines for the use and control of methadone in the treatment of narcotic addiction. Under the authority of the Narcotic Control Act and Regulations, authorizations are issued for using methadone to physicians affiliated with federally recognized methadone treatment programs or, to individual practitioners for the use of methadone in the management of narcotic addiction or for other medical purposes. The activity is to some extent shared cost. It is administered by the Bureau of Dangerous Drugs of the Health Protection Branch.

Drug Quality Assessment Program:

The program is designed to provide objective information regarding the quality of drug products available in Canada in order to assist the ten provincial Departments of Health and other federal departments in the selection of drugs for their drug reimbursement or purchasing programs. The information is generated by evaluating the capabilities of pharmaceutical manufacturers to produce, control and distribute drugs; by conducting chemical or *in vitro* analyses. These activities are carried out under the authority of the Food and Drugs Act, but the permission to release the information is provided on the basis of voluntary agreement with the manufacturer. The QUAD Program is entirely financed by the federal government.

Authorization to possess Narcotic, Controlled and Restricted Drugs for purposes of analysis and scientific studies.

Authority exists in the Narcotic Control Act and the Food and Drugs Act and their regulations to authorize persons to use these drugs, under protocol, for scientific uses and to conduct analysis.

Narcotic and Controlled Drug Purchasing, Prescribing and Dispensing:

This program is intended to ensure that narcotic and controlled drugs that are imported and manufactured for medical purposes are not subject to abuse or diverted to illicit channels. Information concerning provincially licenced or accredited health related persons and places is used in the control and surveillance of distribution of these drugs. There is authority in Narcotic Control Regulations and Food and Drug Regulations Part G for the Department to share information with provincial licencing authorities of pharmacy, medicine, dentistry and veterinary medicine in matters relating to the purchasing, prescribing and dispensing of narcotic and controlled drugs when there is evidence

of misprescribing, abuse or other illegal activity. It is administered by the Bureau of Dangerous Drugs of the Health Protection Branch.

Disposition of Drugs and Assets Seized by Police Departments:

The Narcotic Control Act and Food and Drugs Act Parts III and IV require that drugs and things (including assets) seized by police forces be disposed of by the Minister. In addition, law enforcement agencies report drug offences committed under the federal legislation. The activity is administered by the Bureau of Dangerous Drugs of the Health Protection Branch and in doing so, the Bureau is in regular contact with federal, provincial and municipal police departments across Canada.

Prosecution of Narcotic, Controlled and Restricted Drug Offences:

Prosecutions under the Narcotic Control Act and Parts III and IV of the Food and Drugs Act may be initiated by the federal, provincial and municipal authority. Administrative costs pertaining to these prosecutions such as legal agents' fees and disbursements, court reporters' fees, witness fees etc., are provided through the Bureau of Dangerous Drugs. The cost of maintaining the court systems is a provincial responsibility.

Provision of Expertise and Training Aids to Assist Municipal and Provincial Law Enforcement Agencies:

Personnel, training aids and expertise are supplied by the Branch to municipal and provincial law enforcement agencies for internal training purposes.

Exchange of Information:

Although the exchange of information is implicit in the working of committees and other ongoing programs, information dissemination also occurs outside these internal channels. For example, educational consultants attached to Health Protection Branch offices across Canada liaise with the provincial associations of health professionals and educators. In the past, workshops, seminars, and briefing sessions have been conducted by these consultants on a variety of health protection-related topics including food safety, and food additives. Complementary resource materials to explain legislation and encourage self-protection are provided to the provinces on request.

Payments:

No funds are transferred either to or from the provinces under these activities. Cost sharing is achieved by each level of government carrying out part of the activity and absorbing the corresponding expenses. However, hospital based programs such as poison control centres and methadone treatment centres can be shared under the Hospital Insurance and Diagnostic Services Act. Medically required services rendered by medical practitioners related to such programs are shareable under the Medical Care Program.

CANADA GAMES

(Part of the Fitness and Amateur Sport Program)

Administered By:

The Canada Games Council is the principal authority of the Canada Games with equal representation from the Federal Government, Provincial Governments and the Sport Community of Canada.

Purpose:

To provide a major, national, multi-sport competition for the athletes representing the provinces and territories.

Authority:

The Fitness and Amateur Sport Act

Time Frame:

This first Canada Games were held in 1967. The summer and winter games alternate with one of them being held every two years. The following games have been held at

this time: the 1967 Winter Games in Quebec City, Quebec; the 1969 Summer Games in Halifax—Dartmouth, Nova Scotia; the 1971 Winter Games in Saskatoon, Saskatchewan; the 1973 Summer Games in New Westminster—Burnaby, British Columbia; the 1975 Winter Games in Lethbridge, Alberta; the 1977 Summer Games in St. John's, Newfoundland; the 1979 Winter Games in Brandon, Manitoba; the 1981 Summer Games in Thunder Bay, Ontario; and the 1983 Winter Games in the Saguenay—Lac St-Jean region of Quebec. The next games will be the 1985 Summer Games in Saint John, New Brunswick, and the 1987 Winter Games in Cape Breton, Nova Scotia.

Financing and Operation:

The staging of the Canada Games is the responsibility of a local Games Society established in the host municipality. The municipal government and provincial government concerned, the federal Fitness and Amateur Sport Branch, and the private sector are all represented in this Society. In general, the federal government assumes 100% of the basic operating costs of the Games. It also contributes one third of the capital cost, with the host province and municipality each assuming an equal responsibility for the balance.

All federal payments are made to the host Society which expends and accounts for its expenditures, and is subject to audit procedures. Financing, together with other areas of responsibility for the Games, is provided for in advance of each Games by means of a formal Agreement signed by the federal government, the other two levels of government concerned, and the participating local Games Society.

On-going policy co-ordination of the Canada Games is exercised through a Council known as the Canada Games Council. This body is composed of representatives of the federal Fitness and Amateur Sport Branch, sport and recreation officials of the provincial governments, and representatives of the sport community generally.

Welfare Activities

NATIONAL WELFARE GRANTS

Administered By:

The National Welfare Grants Directorate of the Social Service Programs Branch.

Purpose:

The program aims, through research, demonstration and human resource development project contributions, to help improve and develop welfare services in Canada so that these services will more effectively meet social welfare needs while lessening welfare problems and dependency.

Authority:

Department of National Health and Welfare Act.
National Welfare Grants Rules as approved by Cabinet.

Time Frame:

This is a continuing program.

Financing and Operation:

Contributions for research, demonstration, human resource development, and National Voluntary Agency projects are made available to provincial public welfare departments, voluntary agencies and organizations, schools of social work, research institutions, university departments, and, in the form of fellowships for doctoral studies. The majority of projects to which contributions are made are wholly federally financed.

Project contributions are monitored by the Directorate's staff although actual operations are the responsibility of the organization whose project is being funded. Claims for project costs are submitted directly to the National Welfare Grants Directorate for processing.

Payments:

The total of all National Welfare Grants contributions was \$3,516,439 in 1983-1984 and is forecast at \$3,497,000 in 1984-1985.

PROVINCIAL MANAGEMENT INFORMATION SYSTEMS DEVELOPMENT

Administered By:

The Information Systems Directorate of the Policy, Planning and Information Branch.

Purpose:

The program is intended to assist the provinces and territories in improving the management of social welfare services by providing contributory funding towards the costs of developing Provincial Welfare Management Information Systems.

Authority:

The program falls generally under the scope of the Department of National Health and Welfare Act. The program is administered under special Terms and Conditions approved by Treasury Board of Canada. Funding for specific projects is authorized under Letters of Understanding signed by the Deputy Minister of National Health and Welfare and the Deputy Minister of the recipient Provincial or Territorial Department of Social Services.

Time Frame:

This is a continuing program.

Financing and Operation:

The development of Provincial Welfare Management Information Systems requires the use of specialized resources which often are not available within the provincial department. Contributions are made available to the provinces to help cover the cost of acquiring these specialized resources, e.g., consultants, contract staff, etc. The progress of these projects is monitored by a team of systems coordinators within the Information Systems Directorate, who provide the provinces with advice and assistance in the planning, development and implementation of their Welfare Management Information Systems.

Payments:

See table 5.

CANADA ASSISTANCE PLAN (CAP)**Administered By:**

The Canada Assistance Plan Directorate of the Social Service Programs Branch.

Purpose:

The Canada Assistance Plan enables federal sharing of costs incurred by provinces and municipalities in providing:

- social assistance to persons in need;
- welfare services to persons in need and persons likely to become in need if the services were not provided;
- work activity projects which are designed to improve the employability of persons who have unusual difficulty in finding or retaining jobs or in undertaking job training.

Authority:

Canada Assistance Plan Act

Canada Assistance Plan Regulations

Federal-Provincial Agreements under Parts I and III of the Act

Federal-Provincial Agreements under Part I of the Act have been signed by all the provinces and the territories. As for Part III of the Act, agreements have been signed with all the provinces but not the territories.

Time Frame:

This is a continuing program.

Financing and Operation:

Under the Plan, the federal government reimburses each province and territory for 50% of the costs of:

- financial assistance provided to persons in need;
- providing welfare services to persons in need and persons likely to become in need if the services were not provided; and
- approved work activity projects.

1. Under the Plan, assistance includes aid to persons in need for:

- basic requirements, i.e., food, shelter, clothing, fuel, utilities, household supplies and personal requirements;
- items incidental to carrying on a trade or other employment (e.g., permits, tools or other equipment) and items necessary for the safety, well-being or rehabilitation of a person in need (e.g., essential repairs or alterations to property, items required by disabled persons);
- certain welfare services (e.g., day care) purchased by, or at the request of, a provincially approved agency;
- care in homes for special care, e.g., child care facilities and hostels for battered women and children. CAP shares in certain costs with respect to nursing homes and homes for the aged which are not covered under the Extended Health Care Services Program of the Canada Health Act;
- certain health care costs (e.g., drugs, dental care) if they are not covered under universal health care programs of the provinces or are not covered under the Extended Health Care Services Program of the Canada Health Act; and
- the cost of maintaining children in foster homes.

2. Welfare services means services having as their object the lessening, removal or prevention of the causes and effects of poverty, child neglect or dependence on public assistance and include:

- day care services for children;
- homemaker, home support, and similar services to support individuals and families in emergency situations or as an aid to independent living in the community for the elderly and the disabled;
- casework, counselling, assessment and referral services (includes services for children who are in need of protection because of abuse and/or neglect and preventive services to children in their own home);
- adoption services;
- rehabilitation services including services to the chronically unemployed (e.g., life skills training, referral and job placement services) and

services to meet the special needs of persons at risk of being socially isolated, with particular emphasis on the aged and the physically and mentally disabled;

- community development services designed to encourage and assist members of deprived communities to participate in improving the social and economic conditions of their community;
- consulting, research, and evaluation services with respect to welfare programs; and
- administrative services relating to the delivery of assistance and welfare services programs.

The welfare services definition does not include any service relating wholly or mainly to education, correction, recreation and health care services.

CAP shares in staff costs (such as salary, travel and training) of welfare services provided to eligible clientele by the province or by provincially approved non-profit agencies.

3. Work activity projects are also cost-shared under the Canada Assistance Plan. Agreements under Part III of the Plan are in place with all provinces but not with the territories. Work activity projects are designed to improve participants' motivation and capacity to work and to prepare them for entry or return to employment.

Capital costs as well as plant or equipment operating costs incurred by the provinces and municipalities are not shareable under the Plan with the exception of day care services and work activity projects where certain operating and equipment costs are shareable.

The procedure for submitting claims to the federal government is for the province or territory to send its approved advance claim, each month, to CAP headquarters in Ottawa via the federal field representative located in the provinces. The federal government pays the province or territory a monthly advance of one-twelfth of the estimated yearly cost of its programs. The estimated cost is adjusted (plus or minus) by the actual expenditures incurred in the previous month. At the end of the year, the account is balanced and the necessary credit or debit satisfied, by means of an annual claim for contribution.

In some provinces a number of programs are administered by municipalities. In such cases, the province may claim the municipal expenditures under CAP.

Payments:

See table 6.

YOUNG OFFENDERS AGREEMENTS*Administered By:*

Canada Assistance Plan Directorate, Social Service Programs Branch.

Purpose:

The Young Offenders Agreements are designed to enable the federal government to share in the costs to certain provinces and one territory of providing care and after-care services to young offenders where these costs do not qualify for sharing under the Canada Assistance Plan. Such costs would have been shareable under the Canada Assistance Plan if the "young offenders" had been in the care of the provincial child welfare authority both in fact and in law. Agreements are in effect with Ontario, Quebec, New Brunswick, British Columbia and the Yukon Territory.

Authority:

Appropriation Act

Time Frame:

Originally, Agreements were entered into with Ontario, New Brunswick and the Yukon Territory for a two year period effective April 1, 1974, subject to annual renewal thereafter by mutual consent. A similar agreement with Quebec was concluded in 1978 retroactive to April 1, 1974. The British Columbia Agreement is effective from January 1, 1979.

With the proclamation of the new Young Offenders Act on April 2, 1984, there is no cost-sharing under the Young Offenders Agreements of any new intake. However, sharing will continue in services provided to "young offenders" who were in care prior to the proclamation of the Young Offenders Act until such services are completed or until the young persons come under the jurisdiction of the new Act. It is anticipated that these agreements will be phased out by 1988.

Financing and Operation:

These special agreements enable the federal government to share fifty per cent of the costs incurred by a province of providing care and after-care services to young offenders following their committal to care under paragraphs "h" or "i" of Section 20(1) of the Juvenile Delinquent Act.

Shareable costs are those defined under the Canada Assistance Plan and claiming by the provinces is the same as for claiming under the Canada Assistance Plan.

Payments:

See table 7.

TABLE 7

Payments Made under the Young Offenders Agreement

VOCATIONAL REHABILITATION OF DISABLED PERSONS (VRDP)**Administered By:**

The Canada Assistance Plan Directorate, Social Service
Programs Branch.

Purpose:

The VRDP program provides for the federal government to contribute 50% of the costs incurred by each province and territory in providing a comprehensive program for the vocational rehabilitation of the physically and mentally disabled persons.

Authority:

Vocational Rehabilitation of Disabled Persons Act 1960-61, c.26, Sec.1.

Agreements with all provinces and territories except Quebec. Although Quebec does not participate in the VRDP program, a significant portion of the costs borne by the province in providing services to disabled persons is shared by the federal government under the Canada Assistance Plan.

Time Frame:

This is a continuing program. A new agreement, effective April 1, 1983 was entered into for a period of three years.

Financing and Operation:

The Vocational Rehabilitation of Disabled Persons is a shared-cost program under which the federal government shares fifty per cent of the costs incurred by a province in providing a comprehensive program for the Vocational Rehabilitation of Disabled Persons. Services to individuals under a comprehensive vocational rehabilitation program include:

- assessment;
- counselling;
- restorative services;
- provision of prostheses, wheelchairs, technical aids and other devices;
- vocational training and employment placement;
- provision of books, tools and other equipment required during the course of the vocational rehabilitation process; and
- provision of maintenance allowances as required by each individual.

Services are either provided directly by the province of through provincially supported voluntary agencies.

VRDP shares in the following costs:

- salaries, travel and training of staff whose duties are directly related to the vocational rehabilitation program, and other administrative expenses;
- specific goods and services for individual clients; and
- provincially supported research projects to improve the operation of vocational rehabilitation programs.

Under the VRDP Act, the Department provides direct grants to individuals and to non-governmental organizations for research in respect of vocational rehabilitation for disabled persons. In 1983-1984 the Department contributed \$40,000 for various research projects.

The provinces and territories submit interim claims for federal contributions regularly throughout the year, based on expenditures and accompanied by data sheets providing expenditure classification breakdowns. An annual claim is prepared in detail with a statement of actual expenditures, and certified by a provincial or territorial auditor before submission to National Health and Welfare headquarters.

Payments:

See table 8.

The research budget under the VRDP Act for 1984-1985 is \$75,000, and it is being used for various vocational rehabilitation research projects.

TABLE 8

Department of National Revenue (Customs and Excise)

The objective of Customs and Excise is "to ensure that all duties, taxes and other relevant charges and levies are assessed, collected and, where appropriate, refunded; to control, for the protection of Canadian industry and society the movement of people, goods and conveyances entering or leaving Canada as required to achieve compliance with the legislation; to protect Canadian industry from real or potential injury caused by the actual or contemplated importation of dumped or subsidized goods, as well as by other forms of unfair foreign competition".

The program consists of the following three activities:

EXCISE: To administer the Excise Act, the Excise Tax Act and other relevant legislation and thereby ensure that duties, taxes and other relevant charges and levies are assessed, collected and, where appropriate, refunded at least cost to the public and in a manner which ensures the highest degree of public confidence in the integrity, efficiency and fairness of the Excise process.

CUSTOMS: To administer the Customs Act, Customs Tariff, Special Import Measures Act and other legislation and regulations and thereby control, for the protection of Canadian industry and society, the movement of people, goods and conveyances entering or leaving Canada, and protect Canadian industry from real or potential injury caused by the actual or contemplated importation of dumped or subsidized goods as well as by other forms of unfair competition.

CORPORATE ADMINISTRATION: To provide management direction, planning coordination and central administrative services to the Department.

The Department of National Revenue Act charges Customs and Excise with "the control, regulation, man-

agement and supervision of duties of customs and excise including taxes imposed by the Excise Tax Act".

The Customs Act, the Customs Tariff, the Anti-dumping Act, the Excise Act and the Excise Tax Act are the major statutes administered by Customs and Excise. The Minister of Finance is responsible for formulating the policy expressed in this legislation, with the exception of the Customs Act, which is entirely the responsibility of the Minister of National Revenue. The objectives of the Excise Act and the Excise Tax Act are to raise revenue, to promote tax equity and to influence consumption patterns. The Customs Tariff is a revenue statute providing protection to domestic industry. The Customs Act provides for procedural and other matters relating to the collection of customs duties and the importation and exportation of goods. The Special Import Measures Act provides protection to domestic producers from the injurious dumping or subsidization of imported goods.

Legislation of other departments, notably, Agriculture, National Health and Welfare, Consumer and Corporate Affairs, External Affairs (Office of Special Trade Relations), Statistics Canada and the Canada Employment and Immigration Commission, also forms part of the Customs and Excise mandate. The extent of involvement by Customs and Excise in the legislation of other departments varies from a minimal provision of information on importations and exportations to actual administration and enforcement through the processing of international travellers, examination of goods and documents, the detainment of goods pending examination by the department concerned and/or the seizure of goods in the case of violations of the law.

COLLECTION BY CUSTOMS OF PROVINCIAL FEES ON IMPORTATIONS OF LIQUOR**Administered By:**

Customs and Excise

Purpose:

To facilitate the casual importation of small amounts of alcoholic beverages. Previously, the duty and taxes on importations of liquor in excess of the duty free limit could not be paid until the importer obtained a special permit and paid a fee to the provincial boards.

Authority:

Informal agreements through correspondence.

Time Frame:

Indefinite

Financing and Operation:

This agreement includes all provinces except Prince Edward Island and the Northwest Territories. All liquor importations in excess of the duty free limit up to two (2) Imperial gallons per traveller are subject to the following provincial fees:

Spirits	—15¢ per 28.4 ml
Sparkling Wines and Champagne	—15¢ per 28.4 ml
Other Wines	—10¢ per 28.4 ml
Beer	—1¢ per 28.4 ml

Note: Agreements are currently in imperial measurements; metric values are approximate only.

Amounts in excess of 2 Imperial gallons require a permit issued by the provincial authority.

Payments:

All monies collected on behalf of the provinces are deposited in bank accounts to the credit of the respective provincial liquor commissions.

Department of Public Works

The Department of Public Works was established in 1867, and operates under the legislative authority of the Public Works Act. The Department is responsible for the management and direction of federal public works and, except as specifically provided in other Acts, attends to the construction and maintenance of public buildings, wharves, piers, roads and bridges and the undertaking of dredging and other shore protection work. As well, it acts as construction agent and technical consultant to various other departments on request. The federal government's interest in the Trans-Canada Highway and the Northwest Highway System is managed by the Department. Public Works Canada also has the responsibility to manage and develop federal lands.

The many activities that are necessary to carry out the Department's responsibilities are administered under

seven broad programs: the Administration Program, the Professional and Technical Services Program, the Accommodation Program, the Marine Program, the Transportation and Other Engineering Program and the Land Management and Development Program and the Municipal Grants Program. The Marine Program and the Transportation and Other Engineering Program, administered by the Department's Design and Construction Branch, have activities that are of particular interest in a federal-provincial context.

The Minister of Public Works Canada also reports to Parliament for the National Capital Commission, the Fire Commissioner of Canada, and the Canada Mortgage and Housing Corporation.

SUBSIDY FOR DRY DOCKS (Part of the Marine Program)

Administered By:

Design and Construction Branch

Purpose:

The purpose of this part of the Marine Program is to make available financial assistance for the construction of dry docks, in support of the ship repair industry. At present, one subsidy is being administered, with the objective of providing a suitable standard of dry dock service at Montreal which would meet vessel requirements for lake and world shipping.

Authority:

Dry Docks Subsidies Act

The terms and conditions of the subsidy are approved by the Governor in Council.

Time Frame:

Not exceeding 35 years.

Financing and Operation:

In 1964, the Governor in Council authorized an agreement whereby the federal government would pay Canadian Vickers Limited of Montreal, Quebec, \$180,000 per year for thirty-five years, towards the cost of construction of the company's "The General George P. Vanier" Floating Dry Dock.

WATER LEVEL CONTROL (Part of the Marine Program)

Administered By:

Design and Construction Branch

Purpose:

To contribute to the joint regulation of the levels and flows of water for the development of the natural resource for navigation and, where possible, for assistance to the provinces and others towards development of hydroelectric generation, water supply, and for lessening the incidence and magnitude of natural flooding.

Authority:

Public Works Act

Ottawa River Act

Time Frame:

Continuing

Financing and Operation:

Public Works Canada administers dams on three river systems in consultation with the relevant provinces. These facilities include the Lockport Dam at Selkirk on the Red River in Manitoba; the French River Dams on Lake Nipiss-

ing; the Latchford, Quinze, Temiscamingue and Kipawa Dams on the Ottawa River system in Quebec and Ontario.

Payments:

For water level control under this program:

1980-81	\$ 959,000
1981-82	\$ 467,000
1982-83	\$ 903,000
1983-84	\$1,126,000
1984-85 (Est.)	\$ 753,000

TRANSPORTATION FACILITIES

(Part of Transportation and Other Engineering Program)

Administered By:

Design and Construction Branch

Purpose:

The purpose of this program is to provide and maintain at the most economical cost, roads, bridges and public utility services as required by federal government programs. As part of this responsibility Public Works Canada has sometimes shared, with other levels of government, the administrative and construction costs of road projects, and the construction and maintenance costs of international and interprovincial bridges.

The Department of Public Works also provides supervision and inspection of federal-provincial highway agreements sponsored by other federal departments.

Authority:

Public Works Act

Federal-provincial agreements are still operative in respect of the maintenance costs of the following interprovincial bridges:

The Macdonald-Cartier Bridge (joining Ottawa, Ontario and Hull, Quebec): Canada and the Provinces of Quebec and Ontario are signatories;

The Perley Bridge (joining Hawkesbury, Ontario and Grenville, Quebec): Canada and the Provinces of Quebec and Ontario are signatories.

Time Frame:

The agreements in relation to the maintenance costs of interprovincial bridges will continue in effect until the bridge in question goes out of use or an agreement is reached between Canada and the relevant provincial governments to end the annual federal payments.

Financing and Operation:

In the two agreements relating to the maintenance costs of interprovincial bridges, the federal government has agreed to provide the maintenance and then bill the relevant

province(s) for their share of the maintenance costs. The maintenance costs of the Macdonald-Cartier Bridge are shared three ways: $\frac{1}{3}$ by Canada, $\frac{1}{3}$ by Ontario, and $\frac{1}{3}$ by Quebec. The maintenance costs of the Perley Bridge are shared only by Canada and Ontario to take account of the fact that Quebec paid a larger share of the capital costs; Canada pays 75 per cent of the maintenance costs and Ontario pays 25 per cent.

In the future, however, the Department will endeavour to avoid this type of ongoing financial obligation by having the provinces assume responsibility for the maintenance of such works once construction is completed.

Payments:

Table 1 shows the total maintenance costs for the two interprovincial bridges from 1977-78 to 1983-84. These figures represent both federal and provincial expenditures. Two-thirds of these costs in the case of the Macdonald-Cartier Bridge and 25 per cent in the case of the Perley Bridge would be reimbursed to the federal government by the provinces.

TABLE 1

Total Maintenance Costs of Interprovincial Bridges

	Macdonald-Cartier (\$)	Perley (\$)
1977-78	4,680	221,844
1978-79	105,000	1,040,000
1979-80	115,621	383,264
1980-81	3,657	245,282
1981-82	416,731	242,946
1982-83	108,533	49,380
1983-84 (Est.)	35,921	33,750

The increase in 1977-78 and 1978-79 for the Perley Bridge is a continuation of major repairs to the structure.

The increase in 1981-82 for the Macdonald-Cartier Bridge is for painting steel.

On several of the interprovincial bridges and the Temiscamingue Dam, the provinces provide snow clearing and power for lighting at no cost to the federal government. Normally, there is no agreement covering these charges.

THE NORTHWEST HIGHWAY SYSTEM

(Part of Transportation and Other Engineering Program)

Administered By:

Design and Construction Branch

Authority:

Public Works Act

Description:

The Northwest Highway System includes the Alaska Highway (1946 kilometres between Dawson Creek, B.C. and Beaver Creek at the Alaska/Yukon Border) and the Haines Road (185 kilometres between the Alaska/British Columbia Border and Haines Junction on the Alaska Highway).

Financing and Operation:

On 920 kilometres of the Alaska Highway, which is in British Columbia, the federal government is responsible for all construction and maintenance, while British Columbia has accepted responsibility for 133 kilometres at the southern end of the highway.

On 893 kilometres in the Yukon, the federal government is responsible for construction and maintenance. However, maintenance is carried out by the territorial government with funds provided by the federal government.

Eighty kilometres of the Haines Road, which is in British Columbia and 105 kilometres in the Yukon, are included in the reconstruction being carried out under agreement with the United States (Shakwak), commencing in 1978.

Payments:

The Shakwak project was estimated to cost approximately \$200 million financed by the United States Government. Funding of \$38 million was exhausted in 1983-84. In 1983-84, surplus State of Alaska Trust Funds amounting to \$11 million were legislated for continuation of this project. This Funding will be spent over the next two years.

THE TRANS-CANADA HIGHWAY SYSTEM IN NATIONAL PARKS

(Part of the Transportation and Other Engineering Program)

Administered By:

Design and Construction Branch

Authority:

Public Works Act and the Trans-Canada Highway Act.

Purpose:

The Trans-Canada Highway Act of December 10, 1949 was an Act to encourage and to assist in the construction of a Trans-Canada Highway. It provided for the federal government to share costs with Provinces as well as providing the entire cost of construction of those portions of the highway passing through National Parks. The highway passes through Terra Nova National Park in Newfoundland; Banff National Park in Alberta as well as Glacier, Yoho and Revelstoke National Parks in British Columbia.

Financing and Operation:

The federal government approved in June 1981, thirteen (13) kilometres of four-laning of the Trans-Canada Highway through Banff National Park in Alberta. Total

highway length in the Park is 82 kilometres. The work commenced in 1981 at the East Gate and extended to the Banff Traffic Circle. This initial phase of improvement costed approximately \$15 million. In 1983, the federal government approved the Phase II four-laning of the Trans-Canada Highway in Banff. Phase II which commenced in the Spring of 1983 will continue the four-laning from kilometre 13 to kilometre 27 and is estimated to cost \$40.3 million.

MUNICIPAL GRANTS PROGRAM

Administered By:

Municipal Grants Division, Real Estate Services,
Public Works Canada

Purpose:

Payment of grants to taxing authorities in Canada in lieu of property taxes and frontage and area taxes on federal departmental property.

Authority:

The Municipal Grants Act, 1980 and Regulations pursuant thereto.

Time Frame:

There is no time limit on payments under the Municipal Grants Act. Grants have been made every year since 1950.

Financing and Operation:

These grants are made by the Minister of Public Works out of the Consolidated Revenue Fund on receipt of an application in a form approved by him.

Nearly all land and buildings of federal departments are

subject to grants — with certain exceptions including Indian Reserves and urban parklands. Structures other than buildings are not eligible for grants.

Grants are not made in respect of property administered by a federal department but leased to or occupied by a third party; however certain such property is prescribed by regulation and so becomes eligible.

Properties newly eligible for a 100% grant in 1980 include libraries, historic sites, historic parks, the Houses of Parliament, reclaimed lands, water conservation and irrigation projects and P.F.R.A. pasture lands, the latter commenced in 1972. In addition, national parks, museums, art galleries, concert halls and administrative and operational buildings on defence bases in rural areas became eligible for grants for the first time but such grants were phased in progressively at 25% per year between 1980 and 1983.

"Frontage or area taxes" is a term used for the first time in the 1980 Act, although grants-in-lieu of some such taxes had been paid for many years. The new Act does, however, remove restrictions against paying grants for non-capital maintenance services, for example, street-oiling provided by municipalities.

Payments:

See table 2.

TABLE 2

Grants-in-Lieu of Real Estate Taxes

Province	Expenditures	
	1982-83 (\$000)	1983-84 (\$000)
Newfoundland	3,819	3,930
Prince Edward Island	500	400
Nova Scotia	9,662	18,917
New Brunswick	5,225	8,000
Quebec	38,533	35,795
Ontario	89,380	95,371
Manitoba	12,272	12,756
Saskatchewan	5,940	6,067
Alberta	12,720	16,500
British Columbia	25,016	22,065
Yukon Territory	1,226	966
Northwest Territories	2,275	1,757

**SUBSIDIARY DEVELOPMENT AGREEMENT CANADA —
NEW BRUNSWICK MONCTON CORE REVITALIZATION
REDEVELOPMENT**

(Part of Property Development Program)

Administered By:
Real Estate Services Branch

Purpose:
The purpose is to initiate appropriate projects and to set into motion measures to accelerate the revitalization of the downtown core of Moncton.

Authority:
On November 24, 1983, the Department of Regional and Economic Expansion Subsidiary Agreement for Moncton Core Revitalization was transferred to the Department of Public Works.

Time Frame:
The subsidiary development agreement terminates on March 31, 1986.

Financing and Operation:
This project is chargeable to PWC Vote 55 — Land Management and Development Contribution Program. The Department's financial contribution will amount to \$8 million. This project also includes a \$2 million provincial contribution.

**SUBSIDIARY DEVELOPMENT AGREEMENT CANADA —
NEW BRUNSWICK SAINT JOHN MARKET SQUARE
DEVELOPMENT**

(Part of the Property Development Program)

Administered By:
Real Estate Services Branch

Purpose:
The purpose of this project is to assist the city of Saint John to create a more favourable urban environment and thereby encourage further redevelopment of the downtown core area.

Authority:
On September 3, 1982, DREE Subsidiary Agreement for Saint John Market Square (N.B.) was transferred to Public Works Canada.

Time Frame:
The subsidiary agreement for the redevelopment of Saint John Market Square will terminate during fiscal year 1985.

Financing and Operation:
This project is chargeable to PWC Vote 55 — Federal Land Management and Development Program. The Department's contribution will amount to approximately \$22 mil-

lion including DREE's contribution. This project also includes financial contributions by other departments.

**SUBSIDIARY DEVELOPMENT AGREEMENT CANADA —
NOVA SCOTIA SHUBENACADIE CANAL
REDEVELOPMENT**

(Part of Property Development Program)

Administered By:
Real Estate Services Branch

Purpose:
The purpose of this project is to assist the Province of Nova Scotia in the redevelopment of the Shubenacadie Canal in Dartmouth, Nova Scotia.

Authority:
On November 24, 1983, DREE Subsidiary Agreement for Shubenacadie Canal Redevelopment was transferred to Public Works Canada.

Time Frame:
The redevelopment of part of the Shubenacadie Canal will be completed before March 31, 1986.

Financing and Operation:
This project is chargeable to PWC Vote 55 — Land Management and Development Contribution Program. The Department's financial contribution will amount to \$3 million. This project also includes a \$1 million provincial contribution.

**SUBSIDIARY DEVELOPMENT AGREEMENT CANADA —
QUEBEC MONTREAL WATER TREATMENT**
(Part of the Property Development Program)

Administered By:

Real Estate Services Branch

Purpose:

To financially assist the greater Montreal Metropolitan area to construct water and sewage treatment infrastructures.

Authority:

Federal responsibility for this subsidiary agreement was transferred by Order in Council P.C. 1982-2729, on September 3, 1982 from the Department of Regional Economic Expansion to Public Works Canada.

Time Frame:

The final payment on this project was made during fiscal year 1983-84.

Financing and Operation:

This project is chargeable to PWC Vote 40 — Federal Land Management and Development Program. An agreement was signed on March 15, 1974 (PC 1974-5/561) by the Government of Canada and the Government of Quebec for works totalling \$200 million. The federal government's contribution to this project being 60% of the total cost, or \$120 million. An amount of \$1,100,400 which is the final balance was paid to the Government of Quebec under the Subsidiary Agreement during the fiscal year 1983-84.

**SUBSIDIARY DEVELOPMENT AGREEMENT CANADA —
ONTARIO SAULT STE-MARIE INFRASTRUCTURE**

Administered By:

Design and Construction

Purpose:

The purpose of this project is to renew and extend the infrastructure of the city's water and sewage — handling facilities to respond to the projected increases on industrial demand and to accommodate existing residential, commercial and industrial needs.

Authority:

The federal responsibility for this agreement was transferred from the Department of Regional Economic Expansion to Public Works Canada on September 3, 1982.

Time Frame:

This project is scheduled to be completed during fiscal year 1986-87.

Financing and Operation:

This project is chargeable to PWC Vote 630 — Land Management and Development — grants and contributions. The \$63 million cost is to be shared by federal, provincial and municipal governments. The federal contribution will amount to 1/3 of this sum, or \$21 million.

Department of Regional Industrial Expansion

The objective of the Department is to increase overall industrial, commercial and tourism activity in all parts of Canada and in the process reduce economic disparity across Canada.

The Department will achieve this by:

- working with business and labour, other governments and the academic community;
- shaping the framework set by government policies;
- providing financial, marketing and other technical information to businesses; and
- where necessary, extending direct financial assistance.

The Department will have to foster a climate which encourages firms to be more internationally competitive by:

- developing new products, processes, and services;
- establishing the capacity to produce these goods and services;
- expanding and modernizing this production;
- marketing these goods and services at home and abroad;
- restructuring the firms' activities to adjust to changing market conditions.

The Department will strive continuously to increase its own productivity by increasing its activity in relation to the available financial and human resources.

REGIONAL DEVELOPMENT

On June 30, 1984, the Prime Minister announced measures aimed at streamlining the Cabinet decision-making system. These measures included the strengthening of the regional development role of the Department of Regional Industrial Expansion (DRIE) and the winding down of the Ministry of State for Economic and Regional Development (MSERD). The Federal Economic Development Coordinators and the Regional and Project Coordination Branch of MSERD, with responsibility for coordination of federal regional economic development activities in the regions, including the economic and regional development agreements (ERDAs) signed with the provinces, were transferred from MSERD to DRIE.

Overall coordination of the federal economic and regional development effort is provided by the Cabinet Committee

on Economic and Regional Development. Lead responsibility for this coordination rests with its Chairman, the Minister of Regional Industrial Expansion. The Minister is assisted in this role by a group within DRIE headed by an Associate Deputy Minister, which includes the Federal Economic Development Coordinators located in each province. A principal objective of this Group is to ensure that central decision-making is sensitive to regional circumstances and that economic development in the regions takes account of national economic priorities to ensure a sensible integration of regional and sectoral policies. An important function of the Federal Economic Development Coordinators is to support and strengthen the links between central decision-making and federal economic development activities in the regions.

FEDERAL-PROVINCIAL ECONOMIC AND REGIONAL DEVELOPMENT AGREEMENTS

GDA's

In 1974, the Federal Government entered into General Development Agreements (GDAs) with the provinces. Under the GDAs, the Department of Regional Economic Expansion (DREE) entered into numerous Subsidiary Agreements with Provincial Governments which provided for the co-operative undertaking of projects or programs to enhance the development of each region.

The GDA subsidiary agreements were transferred from DREE to the appropriate sector departments on September 3, 1982 under the Public Service Rearrangement and Transfer Act.

The GDAs themselves had ten-year terms which expired on March 31, 1984. A number of GDA subsidiary agreements, however, remain in effect.

ERDAs

New umbrella agreements (ERDAs) have been negotiated with the provinces to succeed the GDAs and the Prince Edward Island Comprehensive Development Plan. The purpose of the new economic and regional development agreements is to provide a framework for cooperation and consultation on matters relating to economic development in each province, and to coordinate federal and provincial planning, policies and programs in this area.

Each ERDA has a ten-year term which:

- provides a framework within which measures for economic development may be taken in the province;

- identifies development opportunities for implementation under subsidiary agreements and provides for the general coordination of all such agreements;
- provides that measures for economic development will, wherever possible, be taken by the federal or provincial government through their respective programs and departments;
- ensures effective consultation and coordination between the federal and provincial governments in carrying out programs for economic development; and
- where appropriate, provides for joint undertakings with the provincial government, but will clearly specify the measures to be taken by each government.

Provisions for consultation and coordination are key items and each agreement contains provisions for:

- annual ministerial consultation on priorities, identification of opportunities and possible subsidiary agreements and memoranda of understanding;
- continuing consultation and coordination by designated officials; and
- initiatives to be undertaken by sectoral departments within the framework of agreed priorities.

Specific initiatives under each ERDA are implemented by means of subsidiary agreements or through memoranda of understanding (MOUs). These are developed, negotiated, signed and implemented by the responsible federal Ministers, jointly with the provinces concerned.

ERDAs have been signed with all ten provincial governments. A total of 48 subsidiary agreements and memoranda of understanding have also been concluded under the ERDAs.

GROUP AND INDIVIDUAL FAMILIARIZATION TOURS

Administered By:
Tourism Canada

Purpose:
To promote the variety (regionally and seasonally) of Canadian vacation destinations.

Authority:
Regional Industrial Expansion Act

Time Frame:
A continuing program

Financing and Operation:
These tours are geared to the Canadian and foreign travel agents, tour operators and tour wholesalers and generally conducted for groups but are often organized for individual agents. The tours are produced for each market area to conform with the varying requirements of each area. They are operated with the physical and financial cooperation of the provinces and the carriers serving those areas.

Formal or informal agreements are reached between the federal government and the other parties involved in respect of these activities.

The program is supported by continuing liaison with Canada's transportation companies, hotels, provinces, and municipalities to ensure optimum results.

Payments:
The federal government shares in the costs of the tours with the provinces and, in most cases, the tour wholesalers and airline carrier partners pro-rate on the basis of the estimated benefits.

CANADIAN TRAVEL FILM PROGRAM

Administered By:
Communications Branch on behalf of Tourism Canada

Purpose:
Stimulate and develop the production and distribution of travel films to meet the national, provincial and regional objectives.

Authority:
Regional Industrial Expansion Act

Time Frame:
A continuing program

Financing and Operation:
The federal government, through Tourism Canada and Communications Branch is responsible for the provision of the administrative machinery by which Canadian travel films are widely distributed. The provincial governments and, to some extent, commercial carriers (e.g. airlines) produce the films which are distributed through this system.

The Communications Branch distributes the films through the Canadian Travel Film Library and the network of outlets used by the National Film Board (NFB). Tourism Canada through Communications Branch directs and pays all the costs of administration, distribution and promotion under the program, including such of these costs as are incurred by the National Film Board. Travel films submitted by a province are evaluated at the meetings of the Film Evaluation Sub-Committee of the Canadian Travel Film Committee (CTFC) which is made up of representatives of Tourism Canada, Communications Branch and provincial tourism ministries.

When a film is approved for distribution the federal agencies and sponsoring province or territory decide how many prints of the film are required. Tourism Canada shares the cost of these film prints with the sponsor.

The program is under the guidance of the CTFC, a sub-committee of the Federal-Provincial Conference on Tourism. The CTFC meets once or twice annually and federal-provincial consultation is carried on at these meetings, as well as informally during the year.

Payments:
No payments are made to provinces or municipalities. The expenditures of Tourism Canada for this program were \$667,000 in 1983-84 and \$786,000 in 1984-85.

VISIT CANADA PROGRAM — MEDIA**Administered By:**

Tourism Canada

Purpose:

To publicize and promote Canada's travel attractions through mutual achievement of the objectives of the media and of Canada's tourism industry.

Authority:

Regional Industrial Expansion Act

Time Frame:

A continuing program

Financing and Operation:

Under this program influential newspaper or magazine travel editors and writers, radio and television broadcasters and personalities, publishers, photographers, filmmakers, lecturers, and others in the communications field are brought in to tour Canada to report on travel attractions.

Costs are shared in a similar manner to that of Group and Individual Familiarization Tours. The provinces often provide ground transportation, tour guides and cover other expenditures involved while hosting guests; these costs amount to approximately 40 per cent of the total.

Payments:

In a few cases, contracts may provide for the federal government to reimburse provinces or municipalities for expenses incurred on a shared-cost basis. The Tourism Canada budget is \$311,900 for 1984-85.

SPECIAL PROJECTS**Administered By:**

Tourism Canada

Purpose:

To provide the promotional/exhibit support required to communicate to the travel trade via special interest shows, selected consumer shows, conventions, seminars, conferences and a marketplace.

Authority:

Regional Industrial Expansion Act

Time Frame:

A continuing program

Financing and Operation:

The activity regularly involves cooperation on a cost-shared basis with provinces and related Canadian trade partners. As well as organizing Rendez-vous Canada, a travel marketplace, there is additional participation in travel trade and selected consumer related promotions; in placing window displays and providing point of purchase display material and posters, and, from time to time, building exhibits to present Canada as a desirable travel destination. The chief thrust of the program is toward the United States and off-shore markets but regularly there are activities directed toward domestic markets.

Payments:

The division of costs is determined in advance of each project and is dependent on benefits anticipated by each cooperating partner.

An estimated \$1,290,000 will be spent by the federal government on this activity in 1984-85.

TOURISM PRODUCT UPGRADING — AWARENESS AND ATTITUDE

Administered By:

Tourism Canada

Purpose:

To increase the awareness of all levels of government, the business community and the general public of the benefits of tourism to the Canadian economy; the importance of positive, hospitable attitudes towards visitors; to improve upon visitor reception at ports of entry by Canada Customs and Immigration and nationally, by the Canadian tourism industry; and to encourage greater interaction between Canadians and the travelling public.

Authority:

Regional Industrial Expansion Act

Time Frame:

A continuing program

Financing and Operation:

Of the many program activities, several are operated in partnership with the Tourism Industry Association of Canada (TIAC) and are also interphased with like programs of the provincial tourism departments. A comprehensive promotional program — advertising (print and radio), editorial publicity, film, publications, public relations, promotions, displays and posters — have been developed to reach the designated target markets.

Payments:

Tourism Canada has made use of "seed money" to develop concepts, prototypes and materials for use and/or purchase by provincial government and tourism industry partners. The federal government's share for 1984-85 is \$200,000.

MEETINGS AND INCENTIVE TRAVEL

Administered By:

Tourism Canada

Purpose:

To increase the awareness of Canada as a viable meeting and incentive travel destination, thereby increasing the number of corporate meetings, association conventions, international congresses and incentive travel programs to Canada; to position Canada in the U.S. and overseas markets by coordinating marketing activities of federal, provincial and municipal governments and private sector elements of the meetings and incentive travel industry.

Authority:

Regional Industrial Expansion Act

Time Frame:

A continuing program

Financing and Operation:

The activity regularly involves cooperation on a cost-shared basis with provinces, municipal convention bureaux, convention centres, conference organizers and the accommodation and transportation segments of the industry in organizing research projects, sales blitzes, marketplace seminars, site inspection tours, advertising and direct marketing campaigns.

Payments:

The division of costs is determined in advance of each project. For fiscal year 1984-85, the combined program budget for Overseas markets and the United States will be \$1,015,750.

CANADIAN TRAVEL SURVEY**Administered By:**

Tourism Canada
 Department of Transport
 Statistics Canada

Purpose:

1. To estimate the value, volume, patterns and characteristics of travel by Canadians intra and inter-provincially and internationally.
2. To collect information on the frequency, seasonality, characteristics and habits of Canadian travellers in terms of:
 - a) purpose of trip, type of accommodation used, mode of transportation, length of trip, duration of stay, size of party, origin and destination of trip, spending habits, trip activities;
 - b) socio-economic characteristics of the traveller
3. To collect information on the characteristics of the traveller.

Authority:

Regional Industrial Expansion Act

Time Frame:

A continuing program

Financing and Operation:

The federal government, through Tourism Canada is responsible for conducting a basic survey quarterly utilizing a supplementary questionnaire to Statistics Canada's Labour Force Survey. Provincial governments are given the option of increasing the sample size in their provinces in any and all quarters of the year. The survey will be carried out every other year starting in 1982.

Regular publications on the results are provided by Tourism Canada and Statistics Canada. Micro-data tapes are available to provinces and the public. Special data computer runs can be obtained at cost on request to Tourism Canada or Statistics Canada.

Payments:

No payments are made to provinces or municipalities. Tourism Canada budget for this program is \$500,000.

COMMITTEE ON MEGAPROJECT INDUSTRIAL AND REGIONAL BENEFITS (C-MIRB)**Administered By:**

The Office of Industrial and Regional Benefits.

Purpose:

The C-MIRB is an inter-departmental, inter-governmental consultative and coordinating body responsible for ensuring that megaprojects and projects in Canada make maximum use of Canadian planning and management skills, project development abilities and material and machinery supply capabilities.

Authority:

Cabinet Direction

Time Frame:

A continuing activity.

Financing and Operation:

The Committee, composed of officials from DRIE, COGLA, EMR, DIAND, CEIC, Finance, DOC, MOT and DF&O of the federal government and to which representatives from the provincial and territorial government are invited, reviews the industrial and regional benefits plans of project sponsors to ensure that Canadian suppliers have full and fair access to the business opportunities generated by megaprojects (i.e. generally projects valued at \$100 million or more). As a second, but no less important responsibility, the Committee encourages the creation of Canadian companies which can satisfy material, equipment or service requirements for domestic megaprojects and which, in the long term, have a reasonable chance of

developing into competitive business entities. The Committee meets formally in various centres across the country and deals with some 20 projects a year.

COOPERATIVE OVERSEAS MARKET DEVELOPMENT PROGRAM (COMDP)

Administered By:

Resource Processing Industries Branch

Purpose:

The COMDP was established to stimulate integrated growth and development of the wood products industry of British Columbia and to reduce its dependence on the highly cyclical North American market, through efforts to achieve greater recognition and acceptance of Canadian wood products in overseas markets, particularly within building codes and standards.

Authority:

The current five-year COMDP, approved by Treasury Board (TB774239) and Order in Council (1981-70) is a tripartite program funded equally by the federal Department of Regional Industrial Expansion, the British Columbia Department of Industry and Small Business Development and the Council of Forest Industries of British Columbia (COFI).

Time Frame:

The current program is for the period January 1, 1981 to December 31, 1985.

Financing and Operation:

The federal government, the Province of British Columbia and COFI have agreed to each contribute an equal amount of \$10.5 million to the five-year COMDP for a combined total of \$31.5 million for that period. The program is operated by COFI under the direction of the Steering Committee. Federal involvement in this tripartite program is administered by the Resource Processing Industries Branch of Regional Industrial Expansion which maintains close contact with the British Columbia government and

COFI in setting an annual work program and in monitoring and evaluating program performance.

PULP AND PAPER MODERNIZATION PROGRAM

Administered By:

Regional Industrial Expansion Regional Offices

Purpose:

The program was established to stimulate investments in the pulp and paper industry. Its objective is to improve the industry's competitive position by providing assistance for cost-reducing modernization.

Authority:

A Cabinet directive was issued January 1979, giving authorization to the Minister of Regional Economic Expansion to enter into agreements with the provinces to assist the pulp and paper industry. As a result five provinces (Quebec, Ontario, New Brunswick, Nova Scotia and Newfoundland) signed subsidiary agreements between 1979 and 1981.

Time Frame:

The program is essentially complete. The subsidiary agreements between the Government of Canada and the provinces of Quebec, Ontario, New Brunswick, Nova Scotia expired on March 31, 1984 and in Newfoundland it will expire June 1, 1986. All funds under the program are committed and new projects are not eligible for consideration.

Financing and Operation:

A management committee in each of the participating provinces administers the program. Provincial and federal departments having interest in the pulp and paper industry are represented on the committee. Financial contributions vary from province to province (see table 1).

For Further Information:

RIE offices located in Montreal, Toronto, Fredericton, Halifax and St. John's.

ERDA 1984 CANADA — NEWFOUNDLAND

Signed:
May 4, 1984

Effective date:
May 4, 1984

Terminates:
March 31, 1994

Purpose:

The objectives of this Agreement are:

- (a) to enhance the economic and regional development

of the province in order to eliminate existing disparities:

- (b) to improve opportunities for the people of the province to contribute to and benefit from the economic and regional development of the province; and
- (c) to contribute to the expansion of the national economy through the development of productive enterprise and employment in the province in a manner that will allow the realization of the economic potential of every region.

The following subsidiary agreements were in effect under the Canada — Newfoundland ERDA as of November 2, 1984 (see table 2A).

ERDA 1984 CANADA — PRINCE EDWARD ISLAND

Signed:

June 13, 1984

Effective date:

April 1, 1984

Terminates:

March 31, 1994

Purpose:

The objectives of this Agreement are:

- (a) to stabilize and diversify the economic base of the province and its communities in order to encourage balanced economic growth and to make the

province's economy less vulnerable to changes in world market conditions;

- (b) to stimulate economic growth in the province and thereby increase provincial self-reliance, create additional employment and income opportunities and enhance the province's contribution to the national economy;
- (c) to better utilize the human resources of the province in order to provide its economy with increased flexibility to meet changing economic conditions and to maximize employment opportunities.

The following subsidiary agreements were in effect under the Canada — Prince Edward Island ERDA as of November 2, 1984 (see table 3).

* Amended June 13, 1984 to place the existing agreement under the authority of the Canada — Prince Edward Island ERDA.

** First review by Ministers — two years after signing.

CANADA — PRINCE EDWARD ISLAND COMPREHENSIVE DEVELOPMENT PLAN**Administered By:**

Joint Federal-Provincial Advisory Board

Authority:

Phase II authority is Vote 11a, Appropriation Act No. 5, 1973.

Time Frame:

On March 7, 1969, Prince Edward Island signed a 15-year Comprehensive Development Plan with Canada under the Fund for Rural Economic Development (FRED) legislation. The Agreement expired on March 31, 1984.

Payments:

A total of \$9,000,000 was paid by DRIE in 1983-84.

For Further Information:

- (1) for the ERDA and Planning Agreement: the Office of the Federal Economic Development Coordinator (see list);
- (2) for RIE sectoral Subsidiary Agreements: the Office of the Regional Executive Director (see list);
- (3) for other sectoral Subsidiary Agreements: the responsible federal department.

ERDA 1984 CANADA — NOVA SCOTIA**Signed:**

June 11, 1984

Effective date:

June 11, 1984

Terminates:

March 31, 1994

Purpose:

The major objectives of this Agreement are:

- (a) to enhance the economic development of Nova Scotia throughout all areas of the province;
- (b) to maintain and expand stable, long-term employment opportunities and to increase real levels of earned income for Nova Scotians;
- (c) to maximize on an equitable basis for Nova Scotians the permanent net benefits from the indigenous natural resources of the province;
- (d) to promote provincial economic growth in a manner supportive of the social and cultural well-being of its people;
- (e) to improve joint consultation and coordination between the two governments on a wide range of matters pertaining to the health and growth of the Nova Scotia economy; and
- (f) to assist Nova Scotia to maximize its contribution to the long-term growth and development of the national economy.

The following subsidiary agreements were in effect under the Canada — Nova Scotia ERDA as of November 2, 1984 (see table 4A).

ERDA 1984 CANADA — NEW BRUNSWICK**Signed:**

April 13, 1984

Effective date:

April 13, 1984

Terminates:

March 31, 1994

Purpose:

The overall aim of economic and regional development is to reduce the gap in earned income per capita between New Brunswick and the Canada average. The major goals of economic and regional development are:

- (a) to ensure that the province as a whole achieves a

faster rate of growth of provincial output through increasing the number of viable long-term employment opportunities and increasing productivity or output per worker;

- (b) to lessen the vulnerability of the New Brunswick economy to international and national cyclical downturns; and
- (c) to ensure that each region of the province and in particular those regions in which economic disparities are especially pronounced makes its maximum potential contribution to provincial economic growth given its relative economic strengths.

The following subsidiary agreements were in effect under the Canada — New Brunswick ERDA as of November 2, 1984 (see table 5A).

ERDA 1984 CANADA — QUEBEC**Signed:**

December 14, 1984

Effective date:

December 14, 1984

Terminates:

March 31, 1994

Purpose:

The objectives of this Agreement are:

- (a) to intensify the economic and regional development of Quebec and to create an environment in which Quebec and its regions can achieve their economic potential through, in particular, the enhancement of their own comparative advantages, the development and strengthening of productive enterprises and by the growth of employment;
- (b) to consolidate and improve opportunities for employment and incomes so that the population of Quebec

can contribute to the economic and regional development of Quebec, and to benefit from it, given that human resource development is an integral element of economic and regional development;

- (c) to facilitate consultation on and coordination of the economic and regional development policies, programs and activities of both governments, in order to benefit as much as possible from development opportunities and to reduce constraints to such development.

GDA 1974 CANADA — QUEBEC

The following subsidiary agreements remain in effect under the Canada — Quebec GDA as of November 2, 1984 (see table 6).

Payments:

A total of \$44,312,000 was paid by DRIE under the Quebec General Development Agreement in 1983-84.

For Further Information:

Office of the Regional Executive Director (see list).

ERDA 1984 CANADA — ONTARIO**Signed:**

November 2, 1984

Effective date:

November 2, 1984

Terminates:

March 31, 1994

Purpose:

The objectives of this Agreement are:

- (a) to enhance the economic and regional development of the province;

(b) to improve opportunities for the people of the province to participate in and benefit from the economic and regional development of the province; and

- (c) to contribute to the expansion of the national economy through the development of productive enterprise in the province in a manner that will allow the realization of the economic potential of every region in the province by consulting and coordinating; where possible, the planning and implementation of economic and regional development policies, programs and activities of both governments.

The following subsidiary agreements were in effect under the Canada — Ontario ERDA as of November 2, 1984 (see table 7A).

ERDA 1984 CANADA — SASKATCHEWAN**Signed:**

January 30, 1984

Effective date:

January 30, 1984

Terminates:

March 31, 1994

Purpose:

The objectives of this Agreement are:

- (a) to further the economic and regional development of Saskatchewan;

(b) to strengthen and expand employment and income opportunities and to incorporate human resources development and planning in the Measures taken under this Agreement so that the people of Saskatchewan may contribute to and benefit from economic and regional development; and

- (c) to improve consultation and to coordinate, where possible, planning and implementation of economic and regional development Measures, by both governments in order to encourage economic development and diversification and the removal of barriers to development.

The following subsidiary agreements were in effect under the Canada — Saskatchewan ERDA as of November 2, 1984 (see table 9).

GDA 1974 CANADA — SASKATCHEWAN**Payments:**

A total of \$7,654,000 was paid by DRIE under the Saskatchewan General Development Agreement in 1983-84. These payments were made under subsidiary agreements which have expired.

ERDA 1984 CANADA — ALBERTA**Signed:**

June 8, 1984

Effective date:

June 8, 1984

Terminates:

March 31, 1994

Purpose:

The objectives of this Agreement are to promote joint planning and joint action between Canada and Alberta in pursuing the economic and regional development priorities of the province, and more particularly to promote joint planning and joint action in those areas where it would be advantageous:

- (a) to tailor federal programs and policies in line with the development opportunities and priorities of the province;
- (b) to create mutually supportive and reinforcing development activities;

(c) to reduce duplication and unnecessary regulation.
The following subsidiary agreements were in effect under

the Canada — Alberta ERDA as of November 2, 1984 (see table 10A).

ERDA 1984 CANADA — BRITISH COLUMBIA

Signed:

November 23, 1984

Effective date:

November 23, 1984

Terminates:

March 31, 1994

Purpose:

The economic development objectives for the province are:

- (a) to enhance productive enterprise and increase employment opportunities within the province;

- (b) to increase productivity and wealth creation in the province;

- (c) to ensure that all regions of the province are provided with the opportunity to achieve their full economic potential; and

- (d) to diversify and expand the economic base of the province.

GDA 1974 CANADA — BRITISH COLUMBIA

The following subsidiary agreement remains in effect under the Canada — British Columbia GDA as of November 2, 1984 (see table 11).

Payments:

A total of \$4,678,000 was paid by DRIE under the British

Columbia General Development Agreement in 1983-84.

For Further Information:

- (1) for the ERDA and Planning Agreement: the Office of the Federal Economic Development Coordinator (see list);
- (2) for RIE sectoral Subsidiary Agreements: the Office of Regional Executive Director (see list).

GDA 1977 CANADA — YUKON TERRITORY

Payments:

A total of \$661,000 was paid by DRIE under the Yukon General Development Agreement in 1983-84. These payments were made under subsidiary agreements which have expired.

CANADA — YUKON TOURISM AND SMALL BUSINESS DEVELOPMENT PROGRAM

Administered By:

Regional Industrial Expansion Office, Whitehorse, Yukon

Purpose:

The Tourism and Small Business Development Program which was officially unveiled May 13, 1983 is viewed as a "bridging measure" to fill the gap left by the expiry of an interim subsidiary agreement on tourism development which ran from February 14, 1980 to March 31, 1983 (value of \$6 million) and development of a new package of programming initiatives for Tourism and Small Business in Yukon to cover the period 1983-87. In the meantime, the Tourism and Small Business Development Program will provide incentives for the marketing and development of new tourism attractions and facilities as well as incentives for small business in general. Said Program will also promote package tour development and enable Yukon to develop a long-term planning strategy that addresses future opportunities and challenges.

Authority:

Treasury Board No. 788104, May 5, 1983

Time Frame:

Two (2) year Program (fiscal years 1983-84 and 1984-85)

The total value of the Program over the two year period is \$2.2 million. The Department of Regional Industrial Expansion will provide up to \$2.0 million. Yukon Government will provide up to \$200,000.

Financing and Operation:

As a general guideline, incentives are offered to approved projects up to 50% of eligible costs depending on merits of project and other sources of funding available. Minimum/maximum contributions are stipulated accordingly.

Payments:

The Crown's payment will normally be only one payment upon completion of the project and upon receipt of acceptable receipts or vouchers. However, payments may be made in two or more instalments, the first instalment will be up to 50% of eligible costs upon completion of 50% of the project with the final payment upon completion; both payments would require acceptable receipts or vouchers.

EDA 1982 CANADA — NORTHWEST TERRITORIES

The following subsidiary agreements were in effect under the Canada — Northwest Territories EDA as of November 2, 1984 (see table 12).

Payments:

A total of \$52,000 was paid by DRIE under the Northwest Territories Economic Development Agreement in 1983-84 (see table 12).

A total of \$271,000 was paid by DRIE under the Northwest Territories General Development Agreement in 1983-84. These payments were made under subsidiary agreements which have expired.

SPECIAL ARDA AGREEMENTS**Administered By:**

Special ARDA Committees for each participating Province/Territory. The Special ARDA Committees are composed of representatives of Canada and the Province/Territory, and representatives from among the residents of Indian and Inuit ancestry.

Purpose:

These agreements provide for special action to ensure that rural residents, particularly those of Indian or Inuit ancestry, are able to benefit from rural development programs. The objectives of the agreements with respect to these people are to facilitate their access to existing or foreseen

job opportunities, to improve marginal or submarginal incomes of those engaged in primary producing activities, and to create new employment opportunities.

Authority:

The Agricultural and Rural Development Act. ARDA is now referenced as Revised Statutes of Canada 1970, c. A-4.

Time Frame:

The original Special Rural Development Agreements (Special ARDA) were signed in 1971 and 1972 with the four western provinces. In 1975, subsequent agreements were signed with Manitoba, Saskatchewan and British Columbia to extend the program for two years. These agreements expired on March 31, 1977. In 1977, new Special ARDA Agreements were signed with Manitoba, Saskatchewan, British Columbia, Yukon and Northwest Territories and have subsequently been extended twice.

TABLE 13

	Signed	Terminates
Manitoba	March 9, 1977	March 31, 1987
Saskatchewan	May 30, 1977	March 31, 1987
British Columbia	May 18, 1977	March 31, 1987
Yukon	June 5, 1978	March 31, 1987
Northwest Territories	June 16, 1977	March 31, 1987

Financing and Operation:

The participating governments jointly respond to project proposals and, if approved, they are jointly funded (with certain exceptions noted below) and implemented in accordance with the terms of the agreements.

The federal government is responsible for funding up to 50% of the capital costs of commercial projects and for cost-sharing with the Provinces/Territories on a 50-50 basis the costs of all other projects, i.e. primary producing and social adjustment projects. In addition, in cases involving treaty or status Indian or Inuit people, the federal government is responsible for all approved costs.

Generally, project implementation and payment of financial assistance for commercial projects is the responsibility

of the federal government, and implementation and payments made for all other projects is the responsibility of the provincial/territorial governments.

Payments:

See table 14.

For Further Information:

Contact Director, Northern Programs, or the Regional Executive Director, Department of Regional Industrial Expansion (see list).

PHYSICAL DISTRIBUTION ADVISORY SERVICE AGREEMENT

Administered By:

The Advisory Service is directly responsible in an operational sense to a Steering Committee comprising one representative from each of the Atlantic Provinces appointed by the Provincial Ministers, one of whom acts as co-chairman of the Steering Committee, and two representatives appointed by the Federal Minister, one of whom acts as co-chairman of the Steering Committee and one of whom is selected from the province hosting PDAS Steering Committee meetings.

Purpose:

The Advisory Service has been set up to assist in the pursuit of Federal and Provincial Government objectives as they relate to increased productivity and efficiency for business, and a greater realization of the Provinces' full economic potential.

Authority:

Order in Council P.C. 1983-6-1345 dated May 5, 1983.

Time Frame:

The duration of this Agreement is for the five-year period 1983-1988. However, pending a joint assessment of its operations, the Agreement may be wound up at any earlier time by mutual agreement of the Ministers.

Financing and Operation:

- Expenditures made relative to federal programs are at the discretion and under the control of the representatives of the Federal Minister, such funding being made as follows:
 - for fiscal years 1983-84 and 1987-88, a sum not to exceed \$200,000 per year; and
 - for fiscal years 1984-85, 1985-86 and 1986-87, a sum not to exceed \$250,000 per year.
- The total amount of contributions, whether shareable or not by the Government of Canada over the duration of this Agreement, shall not exceed \$1.9 million.

Payments:

DRIE expenditures for operating expenses, 1983-84: \$150,000.

Department of the Secretary of State of Canada

The principal concerns of the Department of the Secretary of State are in the areas of citizenship, human rights, multiculturalism, youth, education support, official languages programs and state ceremonial. There are many programs within these areas which have as their primary objectives, the building of the Canadian nation and the encouragement of an open democratic and tolerant society in which all Canadians feel a sense of belonging and a responsibility to participate in the affairs of their communities. In addition to his administrative responsibility for the Department of the Secretary of State, the Secretary of State reports to Parliament for the Public Service Commission, the Social Sciences and Humanities Research Council, the Office of the Co-ordinator for the Status of Women and the Advisory Council on the Status of Women.

The activities of the Department of the Secretary of State cover a broad spectrum which touches the lives of all Canadians. Some examples of these activities are outlined below.

The Citizenship Registration and Promotion Branch provides facilities for the granting of Canadian citizenship, as well as for its proof, retention, resumption, renunciation and revocation, in accordance with the Citizenship Act. The Citizenship Courts provide services in twenty-nine permanent locations and many more circuit stops across Canada.

The Department is also responsible for helping Canadians become more involved and aware citizens. Through its citizens' participation programs, Canadians are encouraged to take an active part in sharing and improving community life, by providing support to voluntary organizations, providing support for groups working to improve the status of women, promoting and coordinating government wide activities on issues relating to disabled Canadians, and arranging for youth exchange visits within Canada.

The Human Rights Directorate promotes greater awareness and understanding of human rights and related responsibilities and works to increase respect for and compliance with Canada's domestic and international commitments. It assists the Department to meet its responsibilities as the central point of reference for the federal government's domestic interests in human rights. Its activities include cooperation with provinces and agencies in the organization of meetings on human rights and cooperation in the preparation of reports to the United Nations on the Human Rights situation in Canada. As well, the Direc-

torate provides technical and financial support to the human rights activities of non-governmental organizations.

The Department, which serves the Minister of State responsible for Multiculturalism, assists in the removal of barriers which inhibit the full and equal participation of cultural groups in the social, cultural and political life of Canada and encourages and supports the retention and sharing of culture by and among the various groups which make up Canadian society, thus promoting a sense of belonging. Through the Native Citizens' Program, the Department supports the preservation of Native Cultures, encourages the participation of Native people in Canadian society and the development of special projects to meet special needs as identified by Native people.

The Department also serves the Minister of State responsible for Youth who acts within Cabinet as the spokesperson for youth and will coordinate activities in the context of International Youth Year in 1985.

In the Education Support area, the government is concerned that there should be equal opportunities for all Canadians and to this end the Department administers the Post-Secondary Education Financing Program under which funds are transferred to the provinces. It also assists post-secondary students to meet their expenses through the Canada Student Loans Program and provides funds to the provinces to be used for the teaching of the official languages.

The Translation Bureau, through translation and interpretation services assists the Parliament of Canada, federal departments and agencies to communicate effectively in both official languages. The Promotion of Official Languages Directorate has the mandate to make Canadians aware of the country's linguistic duality and to help other governments and the private sector set up and provide appropriate services to minority official language communities.

The State Ceremonial Directorate is responsible for organizing and managing state ceremonies and special events of national significance. It is also responsible for the establishment of rules of precedence and protocol for affairs of state and the promotion of the use of national symbols such as the Canadian flag and the national anthem. The Directorate is also responsible for providing services to the Offices of Lieutenant Governors and for all matters concerning visits to Canada of Members of the Royal Family.

TECHNICAL AND FINANCIAL ASSISTANCE TO THE NON-FEDERAL PUBLIC SECTOR

Administered By:

Promotion of Official Languages Branch

Purpose:

To provide technical and financial assistance to provincial governments wishing to strengthen and enhance the equal status of the English and French languages and of the two linguistic communities, and to provide services to the public in the two official languages of Canada. The Governments of the Yukon and Northwest Territories are also eligible for support under this program.

Authority:

Authority to make the expertise and experience acquired by the federal government, in areas of official languages such as translation and language training, available to provincial administrations was given by a Cabinet decision in 1970 and renewed in 1980 and 1983.

Authority to provide financial assistance to non-federal public administrations was granted by a Cabinet decision in 1970, cancelled by the Treasury Board in 1979 and renewed by a Cabinet decision in 1981 and 1983.

Time Frame:

The program was established in response to specific recommendations directed to the federal government by the Royal Commission on Bilingualism and Biculturalism (Book III The Work World) and also in response to the official languages policy of the Government of Canada as stated in "A National Understanding" in 1977. The Cabinet decision of 1981 specifies that the program of technical and financial assistance shall terminate on March 31, 1983. However, in 1983 Cabinet agreed to renew the mandate for a five-year period ending in 1988.

Financing and Operation:

The program of technical assistance provides aid through the activities of the Resource-Person Assignment Service and the Consultation Service.

1. The Resource-Program Assignment Service is available to non-federal organizations wishing to set up permanent services in both of Canada's official languages — in the fields of post-secondary education, telecommunications, culture and cooperation; and/or to carry out largescale projects that require special skills to achieve the objectives of the Official Languages Promotion Branch.
2. The Consultation Service gives access to federal government information and professional and technical resources in the areas related to official languages, particularly:
 - a) language rights and legal aspects of official languages;

- b) use of the two official languages as languages of service, work and participation;
 - c) analysis of the linguistic status of an organization or institution;
 - d) linguistic and socioeconomic data on the community concerned;
 - e) development of official language community institutions;
 - f) teaching and learning of the two official languages;
 - g) translation, terminology and interpretation;
 - h) bilingual signs.
3. The Consultation Service is subject to the availability of resources and includes the provision of:
 - a) information and documentation;
 - b) specialists who act as advisors or consultants;
 - c) second-language training and testing on a cost-recovery basis;
 - d) translation services, at no cost, for an organization's name, sign, slogan, letterhead and calling card;
 - e) bibliographical research services: compilation of bibliographies of specialized glossaries, at no cost;
 - f) an assessment of the quality of texts, at no cost.

The program of financial contributions is for special projects on a cost-shared basis of 50% sponsored by provincial and territorial authorities. Projects must represent an innovation or addition to the regular standard of service provided to the official language minority group or to the level of capability to work in the second language. Federal funding is limited to an initial development period in which identifiable additional costs are incurred. No capital or immobilization investment or expenditures are accepted. In 1983-1984, the Department of the Secretary of State spent \$986,338 out of a budget of \$1,265,400 (\$248,501 for Manitoba, \$428,360 for New Brunswick, \$298,002 for Ontario and \$11,475 for Quebec).

OFFICIAL LANGUAGES IN EDUCATION AT ALL LEVELS**Administered By:**

Official Languages in Education
Education Support

Purpose:

To promote, encourage and assist the development and provision of education services in the language of the official language minority community of each province and territory as well as to provide opportunities for Canadians to learn their second official language.

Authority:

Acting on the recommendations of the Royal Commission on Bilingualism and Biculturalism's report on Education (1968) the Government of Canada, under federal-provincial and federal-territorial agreements, provided almost \$1.8 billion between 1970 and 1983 for programs supporting official languages in education. In 1983 a new Protocol of agreement was signed and three year bilateral agreements were concluded with each province and territory.

Time Frame:

The first agreements were entered into for a four-year period commencing January 1, 1970; they were renewed for a five-year period on April 1, 1974. Financial assistance for the 1979-80, 1980-81, 1981-82 and 1982-83 fiscal years was provided according to the terms of interim arrangements. Three year bilateral agreements were concluded in 1983-84 with each province and territory.

Financing and Operation:

The program provides assistance in the following manner:

- A. Support is provided under four broad program expenditure categories

Infrastructure Support:

Assistance for ongoing programs and services for education in the minority language and second language instruction is provided in the form of per-student payments and/or special arrangements with the province or territory concerned.

Program Expansion and Development:

This involves the expansion of existing programs and the design, development and implementation of new programs; for example, the setting up of new minority language education programs and immersion programs, the development or purchase of teaching materials and the establishment of language training centres.

Teacher Training and Development:

The Government of Canada provides financial assistance for the professional training and development of minority and second language teachers. In particular, it funds indi-

vidual bursaries awarded by the provincial and territorial departments of education and contributes to the operation of minority language teacher training institutions and to any other teacher training and development activity agreed to with the province or territory.

Student Support:

Financial assistance is provided for language learning activities outside formal classroom activities: exchanges, special projects, extra-curricular activities, and so on. Bursaries are awarded, through the provincial and territorial authorities, to students at the post-secondary level who wish to pursue their studies in their second language, or to students belonging to the official language minority who wish to study in their own language.

- B. As well, support is provided for two national programs which are administered by the Council of Ministers of Education Canada (CMEC) in conjunction with the provincial governments:

Summer Language Bursary:

This program enables students at the post-secondary level to take immersion courses in their other official language in accredited institutions. As well, it enables young Francophones from the territories and provinces other than Quebec, who are eligible from their second to last year of high school, to increase their knowledge of their own official language through French mother tongue immersion courses.

Official-Language Monitor Programs:

Through this program, students at the post-secondary level assist teachers of English as a second language, or French as a first or second language at all levels of the educational system while continuing their studies. The program also allows for a number of positions for full-time monitors in rural or semi-urban regions.

- C. In addition:

Through the Language Acquisition Development Program, financial assistance is provided to institutions, associations and organizations for the compilation and dissemination of information on, or the development of teaching techniques related to minority official language education and second official language instruction.

The Queen Elizabeth Silver Jubilee Endowment Fund makes it possible to award scholarships each year to students at the post-secondary level so that they may continue their studies in their second official language. These scholarships (six in 1983-84) are financed from the investment income of a \$300,000 fund created in 1978, and are administered by the Association of Universities and Colleges of Canada.

Payments:

See table 1.

CANADA STUDENT LOANS PLAN

Administered By:

Student Assistance Directorate

Education Support

Purpose:

The Canada Student Loans Act makes financial help available to students who require assistance to carry on full-time and part-time studies at the post-secondary level of education. An interest relief program was initiated in Sep-

tember 1983 to provide for a deferral of interest charges on outstanding Canada Student Loans for unemployed former student borrowers.

Authority:

Canada Student Loans Act

Canada Student Loans Regulations

Time Frame:

This is a continuing program with no set termination date.

Financing and Operation:

There is no direct transfer of funds to the provinces under this program except to any province taking advantage of the opting out provision. Under this provision a province which chooses to operate its own student aid program and not offer assistance under the Canada Student Loans Program may be paid an alternative payment. This payment is determined by expressing the age 18 to 24 population of a province which has opted out as a percentage of the same age group population in the participating provinces and multiplying the result by the total statutory cost of operating the program. Quebec has opted out in each year and

has received an alternative payment which since 1964 has amounted to \$224 million.

Under the Canada Student Loans Program, loans made to full-time students by chartered banks and other designated lenders on authority of a Certificate of Eligibility are fully guaranteed by the federal government. Interest on the loans is paid by the federal government directly to lenders so long as the student is enrolled in an eligible post-secondary full-time course and for six months after he ceases to be so enrolled. At that time the borrower becomes liable for interest charges and repayment of principal. A student may be authorized assistance to a maximum of \$105.00 per week of the study period. Repayment terms are arranged between the borrower and lender subject to a maximum term of 9½ years after the borrower becomes liable for interest charges.

Loans granted to part-time students are also guaranteed, but the interest on the loans is payable by the borrower. Individual loans must be repaid by the borrower within 24 months, commencing one month after the loan has been negotiated. No part-time student may have in excess of \$2,500 of outstanding loans principal at any given time. Under the interest relief program, borrowers must be unemployed and have a gross monthly family income below a stated amount to qualify. Interest is assumed by the federal government for a total of 18 months and is granted to the borrower in 3 month periods.

Interest rates payable by borrowers and by the federal government to lenders are determined annually on July 1st

in accordance with a formula in the Regulations. The formula fixes the rates on the basis of average yields in a six-month period on certain Government of Canada bonds.

Applications for full-time and part-time loan assistance are submitted to the appropriate provincial authority which is responsible under the legislation for determining the amount of any assistance to be granted. If the application is approved, the provincial authority will issue a Certificate of Eligibility to the student, authorizing the issue of a loan in an amount to be determined by the province. A Certificate of Eligibility may be negotiated at any Canadian chartered bank or other designated lender, but a borrower must maintain all his student loans at one branch of a lender by arranging transfers as necessary.

For interest relief, the borrower submits his application to the Student Assistance Directorate, through the lender.

The annual provision of funds allocated for the full-time and part-time loan programs is determined by multiplying the legislative provision of \$530 million for the base loan year 1983-84 by the change in post-secondary full-time enrollment between that year and the year concerned as well as applying a factor related to cost of living. In addition to the basic allocation the legislation provides for an additional 30 per cent of basic allocation as a supplementary amount for use in compensating for regional variations. The basic allocation is divided between provinces on the basis of the 18-24 year old population.

Payments:

See table 2.

POST-SECONDARY EDUCATION FINANCING PROGRAM**Administered By:**

Policy and Analysis Directorate
 Education Support
 Department of the Secretary of State of Canada

Federal-Provincial Relations Division
 Department of Finance

Purpose:

To contribute to the support of post-secondary education and to maintain national standards, where appropriate, in the operation of provincial programs in the field of education.

Authority:

Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977, as amended.

Time Frame:

No specified termination date. The legislation specifies that termination of the program requires three years' notice and that such notice cannot be given for at least two years after April 1, 1977.

Financing and Operation:

The Post-Secondary Education Financing Program is one of the three established programs financed under Part VI of the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977. Under this Act, the federal government makes contributions to provincial and territorial governments for the

financing of medicare, hospital insurance and post-secondary education. These contributions take the form of cash payments and tax transfer.

The cash payments made under the program by the Secretary of State are in amounts calculated and allocated by the Minister of Finance for this purpose. The tax transfer is effected by the Department of Finance.

The payments made by the Secretary of State during 1983-84 and 1984-85 under the Post-Secondary Education Financing Program are shown in tables 3 and 4. To indicate the total amount of the federal contribution for post-secondary education under the established programs financing arrangements, the tables also include data on the value of the tax transfer applicable to post-secondary education pursuant to the financing formula set out in Part VI of the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977.

A description of the formula governing federal contributions under the established programs financing arrangements can be found in the section on Established Programs Financing supplied by the Department of Finance.

Payments:

See tables 3 and 4.

**CITIZENSHIP AND LANGUAGE INSTRUCTION
AGREEMENTS**

Administered By:

Official Languages in Education

Education Support

Purpose:

To assist the provinces in the provision of citizenship and official language instruction to adult immigrants.

Authority:

Citizenship Act

Individual federal-provincial agreements have been signed with each of the provinces.

Time Frame:

Continuing program since 1953. The agreement may be terminated with the closing of any fiscal year, by either party giving prior notice of not less than three months.

Financing and Operation:

The Citizenship and Language Instruction Agreements were originally conceived in the early fifties in response to the many thousands of post-war immigrants who were becoming eligible for citizenship. The Canadian Citizenship Act, passed in 1947, required the knowledge of an official language and an understanding of the responsibilities and privileges of citizenship. In order to assist the newcomer in citizenship preparation in particular and integration into Canadian life in general, agreements were signed to assist the provinces in the provision of citizenship instruction. "Citizenship instruction", in this context, means "the teaching of the English or French language and of the elementary facts about Canadian institutions and ways of life, to newcomers, for the purpose of facilitating their adjustment and integration into the Canadian community and of qualifying them for Canadian citizenship".

Financial support for the classes usually takes the form of grants from the provincial departments of education to the local school boards. Under the federal-provincial agreements, the federal government reimburses participating provinces for one-half of whatever amount they have spent or contributed toward the teaching costs of citizenship and language instruction during the previous fiscal year. All provinces have signed these agreements. The agreements are currently under review.

Payments:

See table 5.

LANGUAGE TEXTBOOK AGREEMENTS**Administered By:**

Official Languages in Education

Education Support

Purpose:

To assist the provinces in the provision of language textbooks in citizenship and official language programs for adult immigrants.

Authority:

Citizenship Act

Individual federal-provincial agreements were signed with each of the provinces in 1963, with the exception of Quebec and British Columbia. Quebec signed the Language Textbook Agreement in 1970 and British Columbia joined in 1983.

Time Frame:

Continuing program since 1963. An agreement may be terminated on the 31st day of March of any year by either party giving written notice to the other not later than the 30th day of September of the preceding year.

Financing and Operation:

Prior to the signing of the agreements in 1963, the Citizenship Branch had undertaken to provide provincial education authorities with textbooks for use in Citizenship and Language Instruction courses for adult immigrants. In addition, the Branch initiated the "Citizenship Series" including booklets such as 'Our Land', "Our History" and "Our System of Government" and distributed them to students in these classes. By the early sixties, new interest and increased demand had brought expansion in the field of second language learning. Publishers responded with an impressive array of new textbooks and teachers were anxious to try new methods and programs. It became evident that the Citizenship Branch was no longer in a position to evaluate the merits of textbooks and stock only a select few, and the provincial agencies were far better equipped to assess such learning materials.

In 1962 the Branch approached the provinces with a proposal that the provincial education departments take responsibility for the selection, purchasing and distribution of language textbooks for adult citizenship instruction.

Furthermore, it was proposed that the provinces be reimbursed by the federal government for the cost of providing the textbooks to students and teachers free of charge. Under the terms of the agreements, each participating province annually claims an amount equal to the average of textbook expenditures for the five preceding years.

The agreements are presently under review.

Payments:

See table 6.

TABLE 6

Payments to Provinces under the Language Textbook Agreements

**CONTINUING FEDERAL-PROVINCIAL-TERRITORIAL
COMMITTEE OF OFFICIALS RESPONSIBLE FOR HUMAN
RIGHTS****Administered By:**Human Rights Directorate, Department of the Secretary
of State of Canada**Purpose:**

To exercise a continuing liaison function among provincial, territorial and federal departments and agencies concerned with human rights both within Canada and internationally, particularly in relation to Canada's commitments under the United Nations International Covenant on Civil and Political Rights, the United Nations International Covenant on Economic, Social and Cultural Rights and other human rights instruments which Canada has ratified, and to coordinate regular Federal-Provincial-Territorial Ministerial Conferences relating to these responsibilities. The Committee serves as a forum to assist participating governments to meet their responsibilities and pursue their goals in the area of human rights.

Through working groups, the Committee undertakes, from time to time, special projects such as:

- (i) a study of affirmative action and related special support programs in employment and training;
- (ii) the development of a Canadian interpretation of the International Covenant on Civil and Political Rights and other Conventions to which Canada is a State Party;
- (iii) identifying emerging human rights and proscribed new grounds of discrimination;
- (iv) assessing the teaching of human rights in Canada.

Authority:

Committee created by Ministers responsible for human rights at the Federal-Provincial Conference on Human Rights held in Ottawa, December 1975; endorsed by Ministers at the February 1981 Conference on Human Rights, and again at the September 1983 Ministerial Conference.

Time Frame:

Indefinite. The Committee meets twice a year, usually in May or June and October or November.

Financing and Operation:

Each delegation pays its own participation expenses. Costs incurred in the preparation of meetings have been borne by the federal government by reason of its coordinative role stemming from the responsibilities of the chair. The Committee's terms of reference allow for chairing of meetings to rotate but to date at each meeting, provincial delegates have invited the federal representative to assume the chair at the succeeding meeting. The federal representative has been the Senior Assistant Under Secretary although officials of other federal departments form part of the federal delegation to Committee meetings.

Payments:

Nil

ASSISTANCE TO PROVINCES FOR SPECIAL CELEBRATIONS

(Part of the Citizenship Program)

Administered By:

State Ceremonial Directorate

Purpose:

Assistance may be provided to provinces for special celebrations.

Authority:

Part of the general departmental mandate.

Royal Visits — 1983-1984

Several members of the Royal Family visited Canada during the last two years. The programmes for these visits were developed by the federal Royal Visit Coordinator in a series of meetings with provincial coordinators, Rideau Hall and Buckingham Palace officials. The proposed activities and the many tour details were submitted to the Royal Staff at Buckingham Palace for final approval. Visits were held as follows:

Royal Visits 1983

- Queen Elizabeth II and The Duke of Edinburgh — March 8 to 11
Official visit to British Columbia.
- The Prince and Princess of Wales — June 14 to July 1
Official visit to Nova Scotia, New Brunswick, the Nation's Capital, Newfoundland, Prince Edward Island and Alberta, to participate in events which marked inter alia, the 400th anniversary of Sir Humphrey Gilbert having taken possession of Newfoundland in the name of Queen Elizabeth I, the 200th anniversary of the landing of the Loyalists in the Maritime Provinces, and the World University Games in Edmonton. This was the first official visit of TRH to Canada.
- The Duke of Gloucester — June 3 to 5
Private visit to Ottawa, on the occasion of the 100th anniversary of the St. John Ambulance in Canada. HRH is Grand Prior of the Order of St. John.
- The Duke of Edinburgh — June 30 to July 6
Private visit to London, (Ontario), Toronto and Ottawa, on the occasion of the celebrations marking

the 100th anniversary of the Royal Canadian Regiment, of which HRH is the Colonel-in-Chief.

- The Prince Andrew — July 18 to August 7
Strictly private visit for a canoe expedition down the Nahanni River in Canadian Arctic.
- The Duke of Kent — October 7 to 9
Private visit to Toronto, to undertake engagements with the Lorne Scots, of which he is the Colonel-in-Chief.

Royal Visits 1984

- Prince Michael of Kent — February 22 to 25
Official visit to Nova Scotia, to participate in events marking the 75th anniversary of the first powered flight in the Commonwealth in Baddeck.
- The Duke of Edinburgh — July 14 to 15
Private visit to Gagetown (New Brunswick) to present new colours to the Royal Canadian Regiment, of which he is the Colonel-in-Chief (this visit was to be part of the original programme for the Royal Visit, postponed to September).
- The Duke of Edinburgh — July 27
Private visit to Thompson (Manitoba) for presentation of Duke of Edinburgh Awards (this visit was to be part of the original programme for the Royal Visit, postponed to September).
- Queen Elizabeth II and the Duke of Edinburgh — September 14 to October 7
Official visit to Canada to mark, inter alia, the 200th anniversary of New Brunswick and Ontario. Manitoba was also included in the programme.

Royal Visits 1985 (proposed)

- Queen Elizabeth The Queen Mother — dates to be determined.
Semi-private visit to Ontario and Alberta.
- The Duke of Edinburgh — dates to be determined.
Semi-private visit to Ontario and Alberta, in connection with the Duke of Edinburgh Award Scheme and the Royal Army Cadets, as well as Parks Canada Centenary.
- The Prince Andrew — dates to be determined.
Official visit to Nova Scotia and New Brunswick, on the occasion of the bicentennials of Cape Breton and of the cities of Sydney, Saint John and Fredericton.

In 1983, at the request of the Government of Newfoundland, the Government of Canada participated in the Province's 400th Anniversary celebrations by awarding a matching grant of \$394,000 towards 127 civic, heritage and arts projects marking the anniversary.

The Government of Ontario invited the Government of Canada to participate in the Province's Bicentennial in 1984

by expanding certain existing federal programs and contributing to a grants program for community celebrations. These programs costing \$2.02 million were entirely managed by federal departments and agencies and no funds were transferred to the Province.

At the request of the Government of New Brunswick, the Government of Canada matched the provincial contribution of \$2.5 million towards the Bicentennial celebrations in 1984. A Contribution Arrangement was signed with the New Brunswick Bicentennial Commission governing payments to the Commission totalling \$1.650 million over the 1983-84 and 1984-85 fiscal years. An amount of \$850,000 was reserved for direct grant payments made by the federal government on a matching basis to municipalities, unincorporated areas and Indian bands for local celebrations.

TECHNICAL CO-OPERATION WITH PROVINCIAL GOVERNMENTS

Administered By:

Official Languages and Translation, Translation Bureau

Purpose:

To provide provincial Governments having official translation services (New Brunswick, Quebec, Ontario, Manitoba and Alberta, with the benefits of the Bureau's expertise in this area.

Activities:

The federal government's Translation Bureau has held since February 1980, two conferences a year which take place in various regions of Canada, where senior officials of the federal, provincial and territorial governments discuss their experiences in translation and redefine co-operation requirements.

Highlights — 1981-1984

1. Access to the federal terminology bank was granted to New Brunswick, Alberta, Ontario and Manitoba governments.
2. Simultaneous interpretation services offered to provincial governments (Ontario and Manitoba) for conferences provided expenses cost-recovery.
3. Loan of an English-French translator to the Alberta government for a period of 18 months in 1982-1983.

4. Exchange of translators with the government of Alberta for a three-month period in 1982.
5. Briefing was given to New Brunswick government regarding their project of implementing a training program for translators (1983).
6. Technical assistance in defining and developing a translation program at Saint-Boniface College (Winnipeg) in order to produce a pool of professionals to meet Manitoba's needs. Loan of a coordinator for three years (1982-1984).
7. Loan of a legal translator to the government of Manitoba in order to coordinate the translation of their laws for a two-year period in 1981-1982.
8. Two months training of two interpreters from the government of Manitoba for a period of two months in 1982 and in 1983-1984. Pursuing of the program on request.
9. Workshops and talks for translators in Manitoba and New Brunswick translation offices and for students in translation at St. Boniface College (Manitoba).
10. Arrangements for on-going professional cooperation between the Secretary of State Regional Offices and Provincial Government translation offices (New Brunswick, Ontario, Manitoba, Alberta and British Columbia).

Financing and Operation:

Technical assistance to the provinces in the area of language transfer is offered within the Promotion of Official Languages Program and is not a separate budget item. Costs are fairly low because the assistance to provincial translation offices usually involves extending activities being carried out for the federal Translation Bureau. This service is co-ordinated by the Planning, Management and Technology Branch.

INTERNATIONAL YOUTH YEAR PROGRAM

Administered By:

International Youth Year (IYY) Secretariat

Purpose:

Coordinate Canada's Observance of International Youth Year.

Activities:

Every provincial and territorial government has identified an official as a point of contact on matters relating to IYY. In the fall of 1983, officials of the IYY Secretariat held bilateral meetings with every province and territory to discuss plans for the Year and ways in which both levels of government could coordinate their efforts.

Cooperation is on-going through regular consultations between the provinces and the department's regional offices and the IYY Secretariat. This cooperation entails sharing information about IYY activities and joint funding of IYY projects where appropriate.

A federal-provincial conference of IYY officials is planned.

Financing and Operation:

There is no transfer of financial resources to provincial or territorial governments for their IYY programs. Provincial and territorial governments have determined their own priorities, budgets, approach and delivery systems which are, in most instances, complementary to the federal IYY program.

Ministry of the Solicitor General

The Ministry of the Solicitor General was established by the Solicitor General Act in 1966. The Solicitor General is the federal Minister primarily responsible for the fields of correction and law enforcement. In addition to his administrative responsibility for the Ministry, he is responsible for the Ministry Secretariat, The Correctional Service of Canada, the National Parole Board, the Royal Canadian Mounted Police and the Canadian Security Intelligence Service.

The Ministry Secretariat develops and co-ordinates Ministry policies in cooperation with the operating arms of the Ministry. This includes consultation with the provinces and other levels of government to assure the broadest possible range of exploration and development. The Secretariat sees its role as providing leadership not only in the law enforcement and correction fields, but also within the total system of criminal justice. Many of the necessary consultative processes, demonstration projects, conferences and research projects are carried out as joint federal-provincial programs initiated by the Secretariat.

In terms of personnel and expenditure, the Royal Canadian Mounted Police (RCMP) is the largest of the four agencies under the Solicitor General. The objective of the RCMP is to enforce laws, prevent crime and maintain peace, order and security.

The RCMP provides policing services under contract to 8 provinces (Ontario and Quebec excepted), 2 territories and 191 municipalities for the enforcement of laws within their jurisdiction, the prevention and detection of crime and general policing services of a provincial, territorial or municipal nature. These contracts facilitate the delivery of federal policing services and the enforcement of federal statutes and executive orders over the vast geographic expanse of Canada. Investigative and protective services are provided to federal departments and agencies. In addition, the RCMP is tasked with the investigation of national security offences, crimes committed against internationally-protected persons or the apprehension of such crimes. A range of services are provided free of charge to Canadian police forces and law enforcement agencies involving the identification of criminals, laboratory services, a national computer link and criminal intelligence.

The Correctional Service of Canada is responsible for administering sentences of imprisonment imposed by the courts and to prepare offenders for their return as useful citizens to the community. Areas of federal-provincial co-operation include the sharing of facilities and services, the maintenance of certain federal inmates in provincial in-

stitutions and provincial inmates in federal institutions, and the provision of certain parole services by provincial authorities as well as joint investigation of issues of mutual concern.

In view of the expressed desire on the part of provincial and territorial correctional jurisdictions for greater consultation and ongoing dialogue with the federal government to reduce and/or resolve problems of overlap and duplication in the delivery of services and programs, the Commissioner of Corrections established a continuing multilateral forum which includes all his counterparts in those jurisdictions and which has met regularly, twice a year, since 1979. This forum has gradually developed into what could be termed a professional association in preference to formal federal-provincial exchanges.

To favour more regular dialogue, a series of meetings, contacts and exchanges of information were also set in motion to resolve operational problems, where possible; to further explore mechanisms for improved consultation; and to establish items for future discussion among federal, provincial and territorial heads of corrections.

A compendium of existing federal-provincial agreements of exchange of services and joint mechanisms of consultation allotting to corrections has also been published for the members' use.

At the first conference, on March 6, 1979, The Correctional Service of Canada declared its willingness to engage in a process of consultation with the provinces and to share a wide range of information about the content and form of its operations and planning processes. A series of meetings, contacts and exchanges of information were also set in motion to resolve operational problems, where possible; to further explore mechanisms for improved consultation; and to establish items for future discussion among federal, provincial and territorial heads of corrections.

At the second conference, held in June 1979, it was acknowledged that most of the operational problems of overlap and duplication which had been identified had unique features and differed in priority from province to province. It was therefore agreed that Regional Directors of The Correctional Service of Canada would undertake bilateral discussions with the provincial heads of corrections on mutually identified operational issues.

An example of the establishment of bilateral mechanisms for consultation is the Memorandum of Understanding signed on July 23, 1979 by the Deputy Minister of Correctional Services of Ontario and the Commissioner of Cor-

rections, which formally provides for joint planning of shared:

- (a) community-based residential services;
- (b) parole supervision, where feasible and appropriate, to ensure cost effective use of resources;
- (c) special projects and initiatives to maximize the effectiveness of the service delivery systems;
- (d) the development and use of volunteer programs utilized in the case management processes; and,
- (e) development of a formal ongoing liaison and establishment of specialized programs for the Native offender.

The National Parole Board is the legally responsible body for determining which federal inmates are sufficiently prepared for release to the community.

Amendment to the Parole Act was proclaimed on September 1, 1978 to enable provinces to exercise parole jurisdiction in respect of inmates sentenced to imprisonment under federal criminal law in a provincial institution. At present, three provincial parole boards have been established:

Ontario, Quebec and British Columbia.

The newly established Canadian Security Intelligence Service (CSIS) is responsible for the collection, analysis and retention of information and intelligence on activities that constitute a threat to the security of Canada and reports to and advises the Government of Canada in relation to such activities. The Service also provides "security assessments" to Departments of the Government to ensure an employee's loyalty when his or her work involves access to classified information. CSIS has a responsibility also to provide information and advice concerning security matters under the "Citizenship Act" or the "Immigration Act".

Cooperative arrangements in the form of umbrella agreements with each province are in the initial stages of consideration and development. These agreements would specify the general parameters of cooperation and investigative assistance which CSIS and provincial authorities would provide. Also specified in the agreements would be the procedures for requesting assistance or support and the federal and provincial agencies responsible for responding to these requests.

MINISTRY OF THE SOLICITOR GENERAL (Secretariat)

CONSULTATION CENTRE ACTIVITIES (Part of the Administration Program)

Administered By:

Consultation Centre, Programs Branch

Purpose:

To assist the Ministry in achieving its goals in crime prevention, the promotion of a more humane, rational Criminal Justice system, and the encouragement of public participation in that system and to contribute new initiatives, technical advice and practical assistance to the Ministry's process of policy development and implementation.

Authority:

Department of the Solicitor General Act and annual appropriations.

Time Frame:

Continuing

The duration of individual projects is agreed upon in an exchange of letters. The Centre's participation in the consultative process is provided wherever and for the length of time it is required to marshal the resources to deal with major issues.

Financing and Operation:

Because of its presence at the local level as the only regionalized division of the Secretariat, the Centre is in a unique position to develop and maintain effective working relationships with provincial and municipal governments and local community groups.

It carries out its responsibilities by supporting studies, conferences, seminars and workshops dealing with criminal justice issues; by initiating, assisting and supporting

experimental and innovative programs with particular attention to the development of new concepts in criminal justice; by consultation aimed at coordination between system components, identification of gaps in service or prevention of unnecessary overlaps; by promoting community involvement and meeting the needs of special groups. The programs are generally carried out in cooperation with one or more of the provincial governments.

Within this broad mandate the Consultation Centre has two roles to play in the ongoing process of policy development and implementation at both the federal and provincial levels. Where policy has yet to be developed the Consultation Centre, through financial and technical assistance to the provinces and communities, can test out new and innovative initiatives. The results of such initiatives can be continually shared with policy planners and researchers to form a basis on which new priorities may be set, and from which new policies may emerge.

The second role of the Consultation Centre is policy implementation. This role involves demonstration and monitoring of policy initiatives which are already well developed theoretically and conceptually. The main purpose of the implementation role is to develop broad provincial and community level acceptance of a concept. Once again, because policy is always evolving, the results of demonstration are fed back into the policy cycle as a basis for policy refinement.

Organizationally, Consultation services at the national level, are provided by the central office in Ottawa, which also has responsibility for general administration and for coordination of the network of six regional offices. By their local presence, the Regional Consultants are in a unique position to facilitate development of linkages and open dialogue between the public and the different parts of the criminal justice system.

Table 1 lists expenditures for jointly funded activities, by province during the last 4 years.

RESEARCH DIVISION ACTIVITIES

(Part of Administration Program)

Administered By:

Research Division, Programs Branch

Purpose:

To promote, support, develop, manage and conduct social science research related to crime and the criminal justice system in Canada and to communicate research findings to all interested parties, particularly to those who are responsible for legislation, policy and program development.

Authority:

Department of the Solicitor General Act and annual appropriations.

Time Frame:

Continuing. The duration of individual projects is negotiated to meet the circumstances for each study.

Financing and Operation:

The Research Division develops, manages and conducts social science research for the Ministry of the Solicitor General. The Division is primarily concerned with the design, evaluation and specific applicability of research to Ministry objectives in order to:

- a) provide research-based policy and program advice;
- b) provide information to improve the planning and development of policies, programs and legislation which respond to problems related to crime and criminal justice;
- c) evaluate criminal justice system policies and programs;
- d) increase the general knowledge base and information on which decisions in the criminal justice system can be made;
- e) provide information on crime and the criminal justice system to the public and criminal justice professionals;
- f) encourage the development of criminological research and manpower;

- g) anticipate problems and areas of concern within the criminal justice system and plan research accordingly.

Priorities for research are reviewed annually in consultation with all Ministry components to ensure maximum compatibility between new research and evolving Ministry objectives. The Research Division then either awards contracts for, or carries out research to respond to the identified information needs.

The Research Division's current activities are concentrated in the following general areas:

1. Crime Prevention
2. Efficiency/Effectiveness of Criminal Justice Programs
3. Fair and equitable decision-making in the delivery of criminal justice
4. Concern for victims of crime
5. Increasing community involvement in criminal justice
6. Juvenile Justice
7. Improving the data base for the criminal justice system
8. Native Justice
9. Women in conflict with the law
10. Management of penitentiary populations.

In 1983-84, the Division, on behalf of the Ministry, let contracts for 100 research projects to be undertaken by universities, private industry or individuals, and continued to support work on 30 other projects started in previous years.

In addition to its contract and in-house research programs, the Division manages a program designed to assist criminology research centres and develop research manpower. This program has three major aims: (1) the development of research manpower in each of the major regions of Canada to assist in meeting the country's criminal justice research needs; (2) the development of research with policy implications in the areas of crime, delinquency, and the administration of justice; and (3) the dissemination of research findings on the national, provincial and regional levels. Funding agreements are for three years.

Criminology Centres currently receiving funds are at Dalhousie, Montreal, Ottawa, Toronto, Regina, Alberta and Simon Fraser universities.

To obtain information concerning specific projects that the Division has funded or is now funding, please write to:

STATISTICS DIVISION ACTIVITIES (Part of the Administration Program)

Administered By:
Statistics Division, Programs Branch

Purpose:
To promote the development of better information and statistics in the Canadian criminal justice system and to provide statistical information, methodological advice and technical support for the Ministry in support of policy development and in response to specific information requests.

Authority:
Department of the Solicitor General Act and annual appropriations

Time Frame:
Continuing

Financing and Operation:
The Division collaborates with the criminal justice community, i.e. with other federal departments, and with provincial, municipal and other agencies to develop criminal justice statistics and information systems.

The agency which has primary responsibility for national justice statistics is the Canadian Centre for Justice Statistics. It is steered by a federal-provincial group called the Justice Information Council (J.I.C.). The J.I.C. which is made up of federal and provincial Deputy Ministers responsible for justice along with the Chief Statistician is the body which co-ordinates and directs the federal-provincial components of the effort to develop better management information and statistical systems in the Canadian criminal justice system. Reporting to the J.I.C. is the Liaison Officers Committee which has membership from each of the departments sitting on J.I.C., as well as representation from the Canadian Association of Chiefs of Police. It is the role of the L.O.C. to meet frequently with the Centre to discuss priorities and work plans, and to facilitate the supplying of data and exchange of information between the jurisdictions and the Centre.

The Statistics Division coordinates Ministry participation with the Centre and provides the membership to the L.O.C. It is the role of the Statistics Division to distribute,

interpret and analyse data emanating from the Centre, and to insure that the Centre is kept informed of pertinent statistical activities being carried out within the Ministry. The Statistics Division is engaged in several joint projects with the Centre.

The Ministry of the Solicitor General contributed resources of about \$150,000 to support the work of the Canadian Centre for Justice Statistics during the fiscal year 1983-84.

The Statistics Division is a participant on the Federal/Provincial Working Group on Victims, through one of its sub-committees on Funding Options. This group is looking at alternative means of funding victim service programs.

COMMUNICATIONS DIVISION ACTIVITIES
(Part of the Administration Program)

Administered By:

Communications Division, Programs Branch

Purpose:

To explain the Ministry's functions, objectives and activities to those within the criminal justice system and to the public, and to serve the information and communication needs of the Solicitor General in the exercise of his responsibilities.

Authority:

Department of the Solicitor General Act and annual appropriations.

Time Frame:

Continuing

Financing and Operation:

In relation to its communication function the Division:

- (a) carries out a public relations program to meet the requirements of the Ministry, and to respond to the needs of the news media and public for information about the activities of the Ministry;
- (b) produces Ministry publications, news releases, speeches, special reports and other specialized information material;

- (c) operates an inquiries centre distributing information material in response to written and telephone requests;
- (d) carries out an exhibits program across Canada at various venues;
- (e) publishes a monthly journal for the criminal justice system, "Liaison" which is sent free to 10,000 subscribers in Canada and abroad;
- (f) maintains an audio-visual program producing public service announcements, films and video-tapes on criminal justice topics.

For Further Information:

Information Officers

Tel.: (613) 995-4811

PLANNING AND LIAISON DIVISION ACTIVITIES
(Part of the Administration Program)

Administered By:

Planning and Liaison Division, Programs Branch

Purpose:

To ensure that relevant and timely research, statistical and other empirically derived information is disseminated as widely as possible to various sectors of the criminal justice system and interested public in Canada.

Authority:

Department of the Solicitor General Act and annual appropriations

Time Frame:

Continuing

Financing and Operation:

In relation to its dissemination function, the Division is responsible for four programs.

- a) The Publication Program encompasses reports of research, statistical and other empirical findings emanating from Programs Branch-wide initiatives. There is a continuing emphasis on ensuring that all such information is presented in a format, length and vocabulary appropriate to policy makers and practitioners at both the federal and provincial levels as well as the public at large.
- b) The Division's Program for Workshops, Seminars and Courses is also designed to facilitate the communication and application of research and other policy related information through the organization and/or provision of financial or other support for workshops, courses and other non-written modes of dissemination.

- c) The Ministry Library and Reference Centre is a resource collection of approximately 25,000 volumes, 300 periodical subscriptions, and a growing collection of microforms on crime, law enforcement connections, criminal justice, and related areas. Its services are available to staff of The Correctional Service of Canada, the National Parole Board, and the Secretariat. Included are government publications, legal materials, and abstracts, indexes and bibliographies in the field of criminology.
- d) Opened on August 22, 1984, the National Victims Resource Centre forms part of a \$4.8 million Victim Initiative funded by the Federal Government until March 1986. The Centre's mandate includes collecting information related to victims of crime and making it available to professionals and the public across Canada. Aided by a computerized information system, the Centre stores information on written materials, audiovisual material, descriptions of research and demonstration projects funded by the Ministry of the Solicitor General and the federal Department of Justice, and detailed descriptions on some 500 service programs now operating in Canada. In addition to its own database, the Centre also has access to over 300 commercially available databases. In cases where the Centre cannot answer a specific question, the staff will do their best to refer the client to another source for more detailed information.

The Ministry expects its clientele to include professionals working in the criminal justice system, victim assistance agencies, social service organizations and members of the general public.

The Centre may be contacted by writing to the National Victims Resource Centre, Ottawa, Ontario K1A 0P8 or by telephoning toll free:

from British Columbia: 112-800-267-0454
from elsewhere in Canada: 1-800-267-0454

YOUNG OFFENDERS DIVISION ACTIVITIES

Administered By:
Young Offenders Unit, Policy Branch

Purpose:

To provide for the effective implementation of the new Young Offenders Act, and to promote the improvement of juvenile justice policies and programs throughout Canada. The major activities flowing from the objectives include the initiation, development, monitoring, and evaluation of policy/legislation with respect to juvenile justice; the administration of federal-provincial financial agreements pursuant to the new legislation; and, the management of "implementation support" programs, i.e., research and evaluation, systems development (the development of automated information systems compatible with the records provisions of the new Act), program development (the development of effective/innovative services for dealing with young offenders), and communications (the preparation/dissemination of information to the juvenile justice community and the public at large).

Authority:

The Young Offenders Act.

Time Frame:

It is anticipated that federal financial transfers to the provinces/territories will commence in 1984-85 under the terms of a financial agreement to be in effect from April 2, 1984 to March 31, 1989.

Financing and Operation:

Adoption by Parliament of the Young Offenders Act on July 7, 1982, and its proclamation into force on April 2, 1984, signal the culmination of many years of extensive consultation and debate aimed at bringing about a fundamental reform to Canada's system of juvenile justice.

Federal funding for juveniles under the Canada Assistance Plan and the Special Young Offenders Agreements terminated with proclamation. In anticipation, federal and provincial/territorial representatives engaged in an intensive period of negotiations to conclude a new financial arrangement for federal funding of juvenile justice services. These negotiations culminated with the signing of an agreement-in-principle outlining the terms and conditions of future federal fiscal transfers. The translation of this agreement-in-principle into legally binding, detailed financial agreements and the establishment of the necessary structures/procedures for their administration are nearing completion.

Concomitantly, the Ministry of the Solicitor General initiated an implementation support program to facilitate the transition from the old Juvenile Delinquents Act to the new legislation, i.e., the development of information systems compatible with the records provisions of the Act, the development of demonstration, innovation, and technology transfer projects in juvenile justice, and the preparation/dissemination of information to the juvenile justice community and the public at large.

Finally, a research/evaluation framework is being developed to permit a comprehensive assessment of the impact of the new legislation.

For Further Information:

EXCHANGE OF SERVICES AGREEMENTS

Administered By:

Corrections Policy Division, Policy Branch

Purpose:

To review and revise as required the terms of agreements for the exchange of correctional services with the Provinces through consultation with provincial correctional authorities.

Authority:

Department of the Solicitor General Act and annual appropriations.

Time Frame:

Continuing

Financing and Operation:

Federal-provincial consultations are administered and funded from the Corrections Policy Division Program. This also involves the preparation of draft agreements, Treasury Board submissions and draft Orders in Council. The actual agreements are implemented and funded by the Correctional Service of Canada (CSC).

For Further Information:

Officer Responsible:

RCMP CONTRACT POLICY

Administered By:

Police and Law Enforcement Policy Directorate

Police and Security Branch

Purpose:

To provide policy advice in relation to the administration of provincial and municipal policing agreements for the provision of services by the RCMP.

Authority:

Department of the Solicitor General Act/RCMP Act

Time Frame:

Agreement with the provinces on the current RCMP police service contracts was reached in August 1981. Secretariat officials headed the federal negotiating team and prepared advice to the Government. Policy support since the signing of the policing agreements is ongoing.

Financing and Operation:

Support on negotiating strategy and preferred positions has consisted in the development of recommendations for the consideration of Cabinet and the submission of proposals respecting financial terms to Treasury Board. Advice on the interpretation of various clauses of the agreements is developed on an ongoing basis. Close liaison on these matters is maintained at all times with provincial officials.

NATIONAL LAW ENFORCEMENT POLICY

Administered By:

Police and Law Enforcement Policy Directorate

Police and Security Branch

Purpose:

To consult with the Department of Justice and the provinces on the development of police policy and the resolution of both operational and administrative problems affecting law enforcement in Canada.

Authority:

Department of the Solicitor General Act and annual appropriations

Time Frame:

The duration of individual task forces and committees varies.

Financing and Operation:

Participation with the Department of Justice and the

provinces in the resolution of problems affecting law enforcement is an integral component of the mandate of the Police and Law Enforcement Policy Directorate. Financial costs are minimal, except for the salaries of the officers involved. Task forces and other working arrangements are set in place as required by the Federal-Provincial Committee of Ministers Responsible for Criminal Justice or the Minister or senior officials in the Ministry.

The following issues figure prominently in federal-provincial consultations and in the work of various task forces and committees:

- the identification, seizure and forfeiture of the proceeds of criminal transactions;
- the development of bilateral mutual assistance treaties in criminal matters;
- the development of legislative and policy remedies regarding McDonald Commission recommendations affecting policing;
- the countering of drug trafficking;
- the examination of Police Powers as major component of the Criminal Law Review; and
- the development of policy respecting policing on Indian Reserves.

These efforts contribute, in varying degrees, to the development of national standards in policing, to the resolution of operational problems affecting policing, and to the development of legislation which provides an appropriate balance between the requirements of effective law enforcement and the rights and freedoms of Canadians.

MINISTRY OF THE SOLICITOR GENERAL
(Royal Canadian Mounted Police)

CANADIAN POLICE SERVICES
(Part of the Law Enforcement Program)

Canadian Police Services are comprised of the Forensic Laboratories, Identification Services, Canadian Police College and the Canadian Police Information Centre (C.P.I.C.). The objective of these services is to assist all

Canadian law enforcement agencies, penal institutions and the criminal courts of Canada, by providing forensic laboratory, identification and information services, and advanced and specialized police training.

As of April 1, 1981 the federal government provided all Canadian Police Services at no cost to the users. Prior to April 1, 1981, the portion of Canadian Police Services relating to the C.P.I.C. system was cost-shared between the provinces/territories/municipalities and the federal government.

The total cost of Canadian Police Services in the fiscal year 1983-84 was \$79,685,000.

Forensic Laboratories

The Forensic Laboratories provide technical and scientific assistance to all law enforcement and government agencies in Canada. This assistance is provided from strategically located regional laboratories at Vancouver, B.C.; Edmonton, Alta.; Regina, Sask.; Winnipeg, Man.; Ottawa, Ont.; Sackville, N.B.; Halifax, N.S.; and Montreal, Quebec. The staff of the laboratories conduct forensic examinations of physical evidence, and present "expert" evidence to the Canadian criminal courts in the fields of Alcohol, Chemistry, Document Examination, Firearms and Tool Mark examination, Hair and Fibre identification, Serology, Counterfeiting, Toxicology.

Senior staff of the Central Forensic Laboratory, Ottawa, are responsible for the training, establishment methods of analysis and standards of performance for laboratory personnel. A liaison is maintained with national and international "forensic institutions" in the conduct of research and development projects. There is also a certain involvement in the evaluation of police equipment for general usage in the law enforcement field, e.g. breath testing (for alcohol) instrumentation. In addition, the co-ordination of operation support activities within the R.C.M.P. is an ongoing responsibility.

Since 1979, the RCMP through the Science and Technology Program Support Section has managed the Program of Science and Technology in Support of Law Enforcement in consultation with the Operational Research Committee of the Canadian Association of Chiefs of Police and the National Research Council of Canada. As lead agency, the RCMP is responsible for the financing, contracting, accounting and monitoring of all projects initiated by this program which are undertaken to satisfy the research needs of the Canadian police community.

Identification Services

Identification Services maintain national registries of criminal fingerprints, criminal records, firearm registrations and other criminal identification information which are received from Canadian law enforcement agencies, penal

institutions, and federal agencies. The records and data maintained provide vital support in criminal investigations and assist in the administration of law as well as the prevention and detection of crime and are available to all duly authorized agencies throughout Canada on a 24 hour, seven days a week basis.

Canadian Police College (C.P.C.)

The C.P.C. provides specialized and advanced police training in such areas as: organization and administration, personnel management and investigational techniques to personnel of Canadian law enforcement agencies as well as to personnel from foreign police departments on a limited basis.

A C.P.C. Advisory Committee composed of representatives of the Ministry of the Solicitor General of Canada, the Provincial Attorneys General, Canadian Police Services, Canadian Association of Chiefs of Police and the Director of the C.P.C. reviews the progress of the college and advises and recommends future objectives, goals and priorities.

CANADIAN POLICE INFORMATION CENTRE (C.P.I.C.)

The C.P.I.C. system provides the Canadian Police community in all parts of Canada with a consolidated repository of operational data through the use of modern electronic devices for the storage and fast retrieval of information. The data bank is comprised of information related to vehicles and boats that are stolen, abandoned or associated with wanted persons; wanted or missing persons and those who fall within categories such as parole, mandatory supervision, charged or probation; stolen articles of property including firearms identifiable by a unique number. The system also includes criminal name index, criminal record synopsis and full criminal record data bases, all of which are supported by submission of fingerprints to Identification Services.

This system is a computerized information storage and retrieval facility for the use of participating law enforcement agencies on a year-round 24 hour per day schedule of operations. The system consists of a central automated data bank located in a specially constructed building within the R.C.M.P. Headquarters complex at Ottawa and linked through a communications network to terminals located throughout the country.

The system policy and procedural matters are developed by the C.P.I.C. Advisory Committee, the formation of which was authorized by Treasury Board in 1969. This body is composed of senior members of major police departments in Canada and law enforcement representatives from the 10 provinces and the 2 territories. The Committee is responsible for establishing the scope and data content, how the system is used and regulated and which agencies

are granted direct access to the system. Direct access to C.P.I.C. files is limited to R.C.M.P., Provincial Police Forces, City Police Forces, and Municipal Police Forces approved by the Committee.

ENFORCEMENT OF FEDERAL STATUTES AND EXECUTIVE ORDERS

(Part of the Law Enforcement Program)

The purpose of this part of the R.C.M.P. Law Enforcement Program is to: prevent, detect and investigate offences committed against Federal Statutes; provide investigative and protective services to other federal departments and agencies on a cost recovery basis; protect visiting foreign dignitaries, diplomats and senior Canadian government officials and federal government property.

The enforcement of Federal Statutes such as the Narcotic Control Act, Bankruptcy Act, Immigration Act, and the Revenue Statutes and related sections of the Criminal Code are carried out in all provinces, the Yukon and Northwest Territories.

The provision of protective policing services is the Force's commitment to the federal government's Protective Security Program. As well as providing physical and personal security as noted above, these services include security inspections of federal government equipment, computer facilities, buildings and information.

POLICE SERVICES UNDER CONTRACT

(Part of the Law Enforcement Program)

Administered By:

Royal Canadian Mounted Police

Purpose:

To provide law enforcement services to those provinces, territories and municipalities that have entered into policing agreements with the Solicitor General for the use of the RCMP. Included within Provincial Police Services is a Native Special Constable Program designed to provide for the employment of Native Special Constables in the Force. This has proved to be an effective method of improving the relationships between the Force and Native communities.

Authority:

Royal Canadian Mounted Police Act

The Approval of the Governor in Council and the Lieutenant Governor in Council are required before policing agreements can be entered into with provinces or municipalities.

Time Frame:

The first provincial agreement for the provision of R.C.M.P. police services was entered into with Saskatchewan in 1928. Nova Scotia, New Brunswick, Prince Edward Island, Manitoba and Alberta entered into

contracts in 1932, and Newfoundland and British Columbia entered into agreements in 1950.

The first municipal agreement was entered into with the Municipality of Flin Flon, Manitoba, in 1935.

The last provincial/territorial/municipal agreements were for a five year term which expired on March 31, 1981. On that date policing agreements for RCMP police services were in effect in eight provinces (exceptions — Ontario and Quebec) the two territories and 193 municipalities.

Commencing April 1, 1981, 10 year provincial/territorial/municipal policing agreements came into effect in eight provinces (exceptions — Ontario and Quebec), the two territories and 190 municipalities. One additional municipality was added commencing May 1, 1982.

Financing and Operation:

Under the new agreements, the federal government shared the costs of R.C.M.P. policing services with those provinces/territories/ municipalities that are under contract for such services. The agreements are in effect from April 1, 1981 to March 31, 1991.

In calculating the total costs which are to be shared between the federal government and each contracting province/territory/ municipality a direct costing method is used.

Provincial/Territorial

For the nine month period commencing April 1, 1981 and terminating December 31, 1981, costs were based on the actual expenditures incurred in the previous fiscal year.

As of January 1, 1982 and for the remainder of the contract life, costs will be based on expenditures incurred in the fiscal year that services are provided. Reimbursement by the provinces/territories to the federal governments for the fiscal year 1981-82 was at 56%. This will be increased by 1% per fiscal year until fiscal year 1985-86 when 60% is reached. Commencing April 1, 1986, reimbursement will be at 62% and will be increased by 2% per fiscal year until fiscal year 1990-91 when 70% is reached.

Municipalities Over 15,000 Population

Costs to these municipalities for the nine month period commencing April 1, 1981 and terminating December 31, 1981 were based on the actual expenditures incurred in the individual municipality during the previous fiscal year.

As of January 1, 1982 and for the remainder of the contract life, costs will be based on expenditures incurred in the individual municipalities in the fiscal year that services are provided. Reimbursement by these municipalities to the

federal government was at 81% for fiscal year 1981-82. This is to be increased by 1% per fiscal year until 90% is reached in the last year of the agreement in 1990-91.

Municipalities Under 15,000 Population

Costs to these municipalities for the nine month period commencing April 1, 1981 and terminating December 31, 1981 were based on the actual expenditures incurred in all contracting municipalities under 15,000 population within the province during the previous fiscal year.

As of January 1, 1982 and for the remainder of the contract life, costs will be based on expenditures incurred in all contracting municipalities under 15,000 population within the province in the fiscal year that services are provided. Reimbursement by these municipalities (with one exception) to the federal government was at 56% for fiscal year 1981-82. This will be increased by 1% per fiscal year until 60% is reached in fiscal year 1985-86. Commencing in fiscal year 1986-87, reimbursement will be at 62% and will be increased by 2% per fiscal year until 70% is reached in the last year of the agreement in 1990-91.

The exception to the percentage to be cost-shared is the municipality of Hinton, Alberta. The policing agreement for this municipality commenced May 1, 1982 with the costs incurred being aggregated with all other municipalities under 15,000 population in Alberta. However, reimbursement by Hinton to the federal government is to be at 70% per fiscal year for the life of the contract, which expires in 1990-91.

Payments:

Under the agreements, provinces/territories/municipalities will be billed on a quarterly basis in July, October, January and March of each year, by the federal government for the law enforcement services provided during the preceding three month period.

Payments made by the provinces/territories/municipalities under contract for RCMP policing services for the fiscal years 1982-83 and 1983-84 are depicted in table 2.

* Some provincial governments made payment prior to end of fiscal year 1982-83 which normally would have been received in the following fiscal year.

FIREARMS FINANCIAL AGREEMENT

Administered By:

Firearms Registration and Administration Services of the R.C.M.P.

Purpose:

To reimburse the provincial governments for costs actually incurred in administering the business permit and Firearms Acquisition Certificate sections of the firearms provisions contained in Part II.1 of the Criminal Code.

Authority:

Section 106.3 of the Criminal Code.

Financing and Operation:

As part of the administration of criminal law in each province, provincial authorities issue firearms acquisition certificates and firearms business permits. The federal government reimburses the provinces for the deficits they incur after the administrative costs are deducted from revenues from fees for these permits and certificates.

Payments:

See table 3.

MINISTRY OF THE SOLICITOR GENERAL (The Correctional Service of Canada)

EXCHANGE OF PSYCHIATRIC SERVICES (Part of the Correctional Services Programs)

Administered By:

Commissioner of Corrections

Purpose:

Agreement with Ministry of Social Services, Province of Saskatchewan to provide psychiatric care to provincial inmates and psychiatric assessments when requested by the

court while the offender is on remand and with the Ministry of Social Affairs, Province of Quebec to provide psychiatric care to federal inmates incarcerated in that province.

Authority:

Penitentiary Act

The Federal-Provincial Agreement with Saskatchewan became effective November 14, 1978.

The Federal-Provincial Agreement with Quebec was signed and became effective on April 4, 1977.

Time Frame:

This is intended to be a continuing activity.

Financing and Operation:

The Regional Psychiatric Centre in Saskatoon provides accommodation for the detention of thirty-two persons admitted under the terms of the agreement. The Province of Saskatchewan agrees to pay the "per capita" costs of maintaining a person accommodated under the agreement. The "per capita" costs formula is contained in the agreement and is based upon the principle of full-cost recovery but excludes capital costs of land, buildings, and equipment and depreciation. The Institut Philippe Pinel, Montreal, Quebec, provides psychiatric care to federal inmates referred by federal institution physicians. The Province of Quebec submits a global estimate of costs for the year, excluding capital costs and Canada agrees to pay one-twelfth of the amount on the first day of each month. Canada and Quebec agree to consider and reach an agreement of establishing a cost adjustment for under or over usage of the forecasted patient days. Table 4 depicts the costs over the past four years.

**EXCHANGE OF CORRECTIONAL SERVICES BETWEEN
FEDERAL AND PROVINCIAL GOVERNMENTS**
(Part of the Correctional Services Program)

Administered By:

Commissioner of Corrections

Purpose:

To provide for the placement of offenders sentenced to incarceration in institutions which best meet their program needs.

Authority:

Penitentiaries Act — transfers to federal institutions of persons sentenced to less than two years.

Prisons and Reformatories Act — transfers to a provincial institution of persons sentenced to more than two years.

The federal-provincial Exchange of Service Agreements (ESAs) were signed and became effective on the following dates:

Nova Scotia:	August 14, 1974
Prince Edward Island:	September 7, 1984
New Brunswick:	March 15, 1975
Manitoba:	December 31, 1973
Saskatchewan:	November 21, 1973
Alberta:	December 31, 1973; revised March 26, 1984
British Columbia:	February 28, 1974
Yukon Territory:	December 31, 1973
Quebec:	February 15, 1974
Northwest Territories:	The agreement was signed on July 10, 1973; but was made effective from Au- gust 29, 1972.
Newfoundland:	April 1, 1975; but there is also an- other agreement which was signed on September 14, 1949 and is for the maintenance of federal inmates sentenced by the courts to imprison- ment in Her Maj- esty's Penitentiary at St. John's, Newfoundland.

Except for Prince Edward Island and Alberta, all of the above Agreements are under revision. Discussions are underway with Ontario to establish a similar Agreement.

Time Frame:

This is a continuing activity of The Correctional Service of Canada.

Financing and Operation:

The Exchange of Service Agreements provide that the federal and provincial governments agree to pay the daily costs of maintaining a person transferred under the Agreement. The daily maintenance costs formula is contained in the Agreement. It is based upon the average per-capita share of institutional operating costs, but excludes capital costs of land and building depreciation.

Payments:

See table 5.

**AGREEMENTS FOR COMMUNITY ASSESSMENTS AND
PAROLE AND TEMPORARY ABSENCE SUPERVISION
SERVICES**

(Part of the Correctional Services Program)

Administered By:

Commissioner of Corrections

Purpose:

To compensate Provincial Agencies for certain services provided to the Correctional Service of Canada in relation to Parole and supervision.

Authority:

Parole Act and Regulations
National Parole Board Rules
Penitentiary Act

The Solicitor General has agreements with the Yukon and Northwest Territories and with the Provinces of Newfoundland, Quebec, Manitoba, Saskatchewan, Alberta and British Columbia.

Time Frame:

The agreements are renegotiated and renewed every year before the March 31st expiry date.

Financing and Operation:

In 1977, an amendment to the Penitentiary Act transferred the National Parole Service from the authority of the National Parole Board and united it with the Canadian Penitentiary Service to create a new federal agency, The Correctional Service of Canada.

The Correctional Service of Canada has thereby acquired the following responsibilities, with respect to both federal inmates and provincial inmates in those provinces where the National Parole Board has jurisdiction*:

- the preparation of cases for inmates to be considered for release on parole by the National Parole Board;
- the supervision of inmates following their release on parole by the National Parole Board;

In carrying out these responsibilities the Correctional Ser-

vice of Canada cooperates with provincial after-care agencies in two ways:

1. The provinces may be asked to conduct certain "community assessments" for the Service as part of the preparation of cases for consideration by the National Parole Board.
 2. The provinces may be asked to provide "parole supervision" on behalf of the Service for persons released on parole by the National Parole Board.
 3. Provinces may be asked to supervise inmates on Temporary Absence, in accordance with the Parole Act.
- * Exceptions are the provinces of Quebec, Ontario and British Columbia, which have established their own paroling authorities pursuant to enabling legislation passed as an amendment to the Parole Act in 1977.

"Community assessments" are part of the process of deciding whether an inmate should be released on parole. The assessments involve an inquiry to determine the readiness of the community to receive the inmate once he has been

released on parole. This includes such things as the family of the applicant for parole, the community in which he will live, employment opportunities, and the willingness of the family and community to assist the applicant with his plans for rehabilitation. The Correctional Service of Canada usually carries out these assessments but it will sometimes ask appropriate provincial governments to carry them out.

Once parole is granted to an applicant, "parole supervision services" must be provided. These services not only enforce the observance of stipulated conditions and maintain supervision but also provide guidance and counsel to the parolee and his family. The Correctional Service of Canada usually provides these services but will sometimes ask provincial governments to provide them.

After receiving a monthly claim from each of the provinces having an agreement for community assessment and parole supervision services, the federal government makes payments to each of them.

Payments:

See table 6.

TABLE 6

Payments to the Provinces for Community Assessments and Parole Supervision Services

**MAINTENANCE OF PAROLED INMATES APPREHENDED
UNDER WARRANT OF SUSPENSION**
(Part of the Correctional Services Program)

Administered By:

Commissioner of Corrections

Purpose:

To provide custody of paroled inmates apprehended under

warrant of suspension until the suspension of parole is cancelled or parole is revoked or forfeited.

Authority:

Parole Act — custody in a provincial institution of paroled inmates apprehended under warrant of suspension.

Appropriations Act — custody in a provincial institution of paroled inmates apprehended under warrant of suspension.

The Federal-Provincial Agreements were signed and became effective on the following dates:

Nova Scotia:	January 1, 1975
New Brunswick:	November 1, 1974
Newfoundland:	November 1, 1974
Prince Edward Island:	January 1, 1975
Quebec:	May 1, 1975
Ontario:	November 1, 1974

Alberta:

British Columbia:

Northwest Territories:

Yukon Territory:

January 1, 1975

November 1, 1974

November 1, 1974

November 1, 1974

Time Frame:

This is a continuing activity of the Correctional Service of Canada.

Financing and Operation:

The contracts for custody of paroled inmates held on suspension of parole provide that the federal government agrees to pay the provincial governments the "per capita" costs of maintaining a paroled inmate incarcerated under the agreement. The "per capita" costs formula is contained in the agreement and is based upon the principle of full cost recovery, but excludes capital costs of land, buildings and equipment and depreciation.

NATIONAL PAROLE BOARD

The National Parole Board, under the provisions of the Parole Act, has the authority to grant, deny or revoke full and day parole for all federal offenders and provincial offenders except in British Columbia, Ontario and Quebec, where provincial parole boards have jurisdiction over inmates serving a definite sentence in provincial pris-

ons. The Board is ultimately responsible for granting unescorted temporary absences, authority which it has delegated in part to wardens of institutions. The Board may also revoke mandatory supervision although, in such cases, the original release comes about by force of law and not through a decision of the Board. The Board also makes recommendations on applications for pardons under the Criminal Records Act.

The Board has 26 members, located at its headquarters division in Ottawa and in five divisional offices across Canada; the offices are located in Moncton, Montreal, Kingston, Saskatoon and Vancouver. Members are appointed by the Governor General in Council for periods of up to 10 years. All may be reappointed. In addition, community representatives, appointed by the Solicitor General, participate in any decisions made about releases of inmates serving a life sentence for murder, or sentences of an inde-

terminate period as habitual criminals, dangerous sexual offenders, or dangerous offenders.

Services to Provinces without Parole Boards

In addition to exercising exclusive authority over conditional release for federal inmates, the National Parole Board makes decisions on cases of inmates in provincial institutions in those provinces and territories which have not established their own provincial parole boards (provincial inmates are those serving a sentence of less than two years). At the present time provincial boards exist in Quebec, Ontario and British Columbia. The National Parole Board therefore has jurisdiction over the granting of conditional release to provincial inmates in the seven remaining provinces and in the two territories.

Where reasonable, the National Parole Board believes that offenders in provincial institutions should be provided with the same rights, safeguards and opportunities for conditional release that are afforded by the Board to inmates of federal institutions. Within its available resources the Board is striving to reduce any disparity which exists between the level of service provided to federal inmates and those incarcerated in the provincial and territorial institutions where the Board has jurisdiction to grant conditional release.

During 1984, the National Parole Board, in cooperation with provincial authorities, continued to implement

streamlined case preparation and decision-making procedures for some provincial inmates in order to expedite the decision-making process. The Board is continuing to monitor the effects of this service improvement to provincial inmates.

Canadian Association of Paroling Authorities

The Canadian Association of Paroling Authorities (CAPA) which includes representatives from the National Parole Board and the three provincial boards (Ontario, Quebec and British Columbia) continue to meet to exchange ideas and opinions on issues of mutual interest.

CAPA is continuing to evolve its statement of philosophy and principles. Also, it has involved itself with the question of standards for paroling authorities. At the same time, CAPA has agreed to interprovincial transfers and the delegation of authority with respect to suspension of parole.

Statistics Canada

The legal foundation for federal statistical activity in Canada goes back to the British North America Act of 1867, but it was not until the Statistics Act of 1918 that the Bureau was created as the national statistical agency and principal component in a national statistical system. The Statistics Act (most recently revised in 1971) assigns Statistics Canada extensive duties and enables it to operate in almost any field of statistical activity.

Statistics Canada is a department of the federal government, headed by the Chief Statistician of Canada, and reports to Parliament through the Minister of Supply and Services. Since its inception in 1918 as Canada's central statistical agency, Statistics Canada's mandate has been to:

"...collect, compile, analyze, abstract and publish statistical information relating to the commercial, industrial, financial, social, economic and general activities and condition of the people."

While the Bureau has responsibility for its choice of programs (the only exception is the statutory requirement to conduct censuses of population and agriculture at prescribed intervals), this is exercised after careful consideration of user needs in relation to the cost benefit of what can be collected.

The Bureau is committed (within its budget) to meeting

statistical needs of all levels of government and the private sector for research, policy formulation, decision-making and general information purposes. The recent approval and implementation of a Small Area Data Program should prove beneficial to all users by integrating a wide variety of statistical programs, administrative records and data bases.

Statistics Canada's national role is manifested by its regional presences. Household surveys, census operations and, increasingly, business surveys, are conducted from offices in nine locations outside Ottawa, from St. John's, Newfoundland, to Vancouver, British Columbia. These regional offices also handle reference and consultative services at the rate of about 300,000 inquiries per year. Regionalization of both data capture and user/marketing activities is being intensified.

In addition to its direct production and dissemination role, Statistics Canada is a focal point for co-ordinating activities of its partners, federal and provincial, in the broader national statistical system to help avoid duplication and ensure consistency and usefulness in combined efforts. To this end, the agency has many joint agreements with the provinces for the cooperative collection of data and for information sharing. Constructive working relations in an area of common interest like statistics make a valuable contribution to the well-being of the Canadian polity.

COOPERATIVE DATA GATHERING AND INFORMATION SHARING*Administered By:*

The Agriculture, Balance of Payments, Business Finance, Census, Construction, Education, Culture and Tourism, External Trade, Public Finance, Health, Justice Statistics, Labour, Manufacturing and Primary Industries, Merchandising and Services, Prices, Science and Technology Statistics, Special Surveys, Standards, and Transportation and Communications Divisions of Statistics Canada.

Purpose:

To produce statistics more effectively and in a more accurate and timely way through cooperation with provincial government data-gathering agencies; and also to avoid duplication of effort by both data collectors and respondents.

Authority:

Statistics Act

Several hundred informal work-sharing agreements with the provinces concerning different areas of activity.

Time Frame:

Most agreements are continuing and apply to monthly, quarterly, and annual surveys. Only a few are non-recurring projects.

Financing and Operation:

The standard work practice under the agreements is for the parties concerned (federal and provincial) to agree on what each will do in the statistics production process and to bear their respective costs. Such work-sharing may involve dividing the groups of respondents to be surveyed, dividing data collection and data compilation, or dividing the task of collecting two different types of information. Consultation

on all aspects of the data collection process is a continuing affair between officers of Statistics Canada and their provincial counterparts.

Payments:

Except in the special case of "Vital Statistics", no payments are made to provinces or municipalities under this program.

VITAL STATISTICS PROGRAM

Administered By:

Health Division

Purpose:

To maintain in cooperation with the provinces a system of vital statistics in Canada.

Authority:

Orders in Council — (PC 693-1919)
— (PC 4851-1945)
— (PC 625678-1964)
— (PC 725130-1974)

Time Frame:

This is a continuing program begun in 1919 and updated in 1945, 1964 and 1974.

Financing and Operation:

Statistics Canada collects vital statistics (information on births, deaths, marriages and stillbirths) in cooperation with provincial authorities. Statistics Canada prints uniform reporting forms and distributes them to the provinces. The provincial authorities collect the pertinent information on the forms, make microfilms of these completed forms, transfer the information to computer cards and tapes and then return both cards and microfilm to Statistics Canada for computer processing of the data. The provinces bill the federal government on the basis of the amount of information submitted. Statistics Canada pays all of the costs of printing forms; 10 cents for each microfilm frame supplied by a province, and one-half of keying costs of machine readable records supplied by a province. Consultation with the provinces takes place through the medium of the Vital Statistics Council for Canada, a joint federal-provincial body.

Payments:

See table 1.

TABLE 1

Payments to the Provinces for Vital Statistics Data Collection

Department of Supply and Services

The Department of Supply and Services was established April 1, 1969 by the Government Organization Act 1969 (now the Department of Supply and Services Act RSC 1970 c.S-18). The present department was formed through the amalgamation of the Department of Defence Production; the Department of Public Printing and Stationery (Queen's Printer); the Shipbuilding Branch of the Department of Transport; the Office of the Comptroller of the Treasury; the Central Data Processing Service Bureau of the Treasury Board; and the Bureau of Management Consulting Services from the Public Service Commission.

The department was previously divided into two administrations: Supply and Services. However, in January, 1985 the two administrations were consolidated into one administration with a Supply and a Services Program. As the three federal-provincial programs relate to the Supply Program, only this Program will be described.

SUPPLY PROGRAM

The Supply Program is responsible for obtaining supplies, equipment and services for departments and agencies of government. It is also responsible for other functions related to the management of materiel and services, such as printing and publishing, advertising, expositions, traffic management, industrial security, equipment maintenance and repair, warehousing, distribution and disposal.

The Supply Administration underwent organizational change during fiscal year 1983-84. These changes were put in place to achieve higher and more consistent levels of service, greater operational economy and stronger program management. The changes are reflected in the establishment of a new Regional Operations Sector and the

restructuring of the Corporate Finance, Planning, Systems and Support Services Sector. A brief description of these changes follows:

CORPORATE FINANCE, PLANNING, SYSTEMS AND SUPPORT SERVICES SECTOR

Under the direction of the Assistant Deputy Minister, Corporate Finance, Planning, Systems and Support Services, this Sector is responsible for all aspects of financial, personnel, corporate planning, systems planning and corporate relations. The Sector includes the Office of the Comptroller — Supply Administration, Management Information Systems Directorate, Corporate Planning and Support Branch, Corporate Relations Branch, Personnel Operations Branch, Contracts Settlement Board and Security Branch.

REGIONAL OPERATIONS SECTOR

Under the Direction of the Assistant Deputy Minister, Regional Operations, this sector is responsible for all supply activities conducted within regional offices in Canada and abroad. The sector is divided into two Directorates: Canadian Operations and International Operations. As well as its responsibility for the department's regional offices distributed throughout Canada, the Canadian Operations Directorate is charged with the disposal of surplus assets, stocked item supply, printing, warehousing and maintenance and repair. The International Operations Directorate is responsible for the European Regional offices and the Washington Regional office. It is also responsible for the Export Supply Branch.

BULK PURCHASING OF DRUGS AND VACCINES
FEDERAL-PROVINCIAL COOPERATIVE SUPPLY AND SOURCE DEVELOPMENT

BULK PURCHASING OF DRUGS AND VACCINES**Administered By:**

Coordinating Committee composed of representatives of provincial health departments, and the federal departments of National Health and Welfare, Supply and Services, Regional Industrial Expansion and Consumer and Corporate Affairs.

Purpose:

To purchase drugs and specific vaccines cooperatively on behalf of the provinces.

Authority:

Federal government: Supply and Services Act — Section 8, Order in Council P.C. No. 1969-661.

Provincial: Ministers of Health.

Time Frame:

On going

Financing and Operation:

Supply and Services contracts for certain drugs and specific vaccines on behalf of all provinces, except Quebec, for which a service fee is paid to Supply and Services. In 1983-84 the total purchase was estimated at \$10,000,000.

FEDERAL-PROVINCIAL COOPERATIVE SUPPLY AND SOURCE DEVELOPMENT**Administered By:**

Regional Supply Centres in cooperation with Head Office Directorates and the Canadian Business Opportunities Group.

Purpose:

To provide for the more efficient and economical operation of the provincial governments and the Government of Canada in supply and services, and to promote use of public sector procurement in support of federal economic development objectives. To this end, the Department of Supply and Services has sought to conclude Memoranda of Understanding with provincial governments on cooperative supply and source development. To date Memoranda of Understanding have been signed with the provinces of Saskatchewan, Ontario, Newfoundland, Nova Scotia, New Brunswick and Prince Edward Island.

Authority:

Government of Canada — Section 8, Supply and Services Act and Order in Council P.C. No. 1969-661.

Provincial Authorities — Varies by province.

Time Frame:

This is a continuing program. Major source development opportunities are identified in the DSS Annual Procurement Plan and Strategy for Cabinet consideration.

Financing and Operation:

Department of Supply and Services provides the supply service on request from the provincial government and charges for this service in accordance with the established rate structure. Cooperative supply source development projects are funded either through the \$10 million Source Development Fund or, as in the case of the recent \$200 million CL-215 Waterbomber project, by special financing arrangements.

CANADIAN GENERAL STANDARDS BOARD(CGSB)*Administered By:*

CGSB Standards and Qualifications/Certification Officers through the use of voluntary consensus committees comprised of the representatives of the federal and provincial governments, industry, consumers, research and testing organizations, and others having an interest.

Purpose:

CGSB provides standards, and qualifications/certification listing of products and services to these standards, for both

public and private sectors for procurement, consumer requirements, legislation, technical practices, test procedures and to support international standardization.

Authority:

Department of Supply and Services Act, Par. 5(2)(c)

National Research Council Act 13(c)(v)(vi)

Orders in Council (T.B. 633635) (P.C. 1965-248) (P.C. 1974-10/1539) (P.C. 1974-11/1699) (T.B. 780386)

Time Frame:

Ongoing

Financing and Operation:

CGSB provides the following services to the three levels of government, industry and consumers:

- a) Consensus Standards Development
- b) Purchasing Specifications Development
- c) Sale of Standards and Specifications
- d) Qualification and Certification Listing Programs for Products and Services
- e) Sale of Qualification and Certification Lists

CGSB does not receive appropriations from Parliament, and must recover all of its costs on a program-by-program basis.

CGSB contracts out almost all of its testing, audit and associated activity in connection with its qualification/certification listing programs, and as well, utilizes resources from other organizations including the three levels of government, industry and consumer associations to assist in the implementation of these programs. CGSB retains only the management and administrative capability in-house. The growth in standards development is similarly being contracted out wherever feasible and resources from the three levels of government and industry are being utilized to work as decentralized elements of CGSB.

Department of Transport

The Minister of Transport reports to Parliament for the Department of Transport, the Canadian Transport Commission, and a number of Crown corporations which have various degrees of autonomy, together with separate agencies for development of the national transportation systems.

The federal government plays two roles in the development of transportation services. One is the promotional role, which consists of facilitating the growth and development of the kind of transportation system appropriate to the time. The other, that of the Canadian Transport Commission, is a regulatory role, including economic regulation of rates and services.

While both these roles lead to involvement with provincial and municipal governments, it is the promotional role that has given rise to a number of programs or activities that result in transfers of funds and the provision of technical assistance to these other governments. These programs are primarily administered by the air, surface and marine administrations of the Department of Transport and by the Canadian Transport Commission. The Marine Administration within the Department of Transport includes the Canadian Coast Guard, the Canada Ports Corporation, the federal-municipal Harbour Commissions and public harbours and The St. Lawrence Seaway Authority and four Pilotage Authorities. Other transport-related agencies or Crown corporations are not directly involved with the administration of federal-provincial programs or activities.

DEPARTMENT OF TRANSPORT

The Department of Transport is composed of a central headquarters and planning staff along with three administrative groups which carry out the departmental responsibilities as well as coordinating the activities of the many important agencies. The three administrative groups are: The Canadian Marine Transportation Administration, the Canadian Air Transportation Administration, and the Canadian Surface Transportation Administration.

The Canadian Marine Transportation Administration is responsible for all marine components of the Department of Transport (except ferries), including the Canada Ports Corporation, The St. Lawrence Seaway Authority, Canadian Coast Guard and the Pilotage Authorities.

It also provides administration for public harbours and wharves and financial assistance in the form of grants and loans for major construction in harbours administered locally by federal-municipal Harbour Commissions.

CANADIAN COAST GUARD

The Canadian Coast Guard (CCG) which is a component of the Canadian Marine Transportation Administration, provides services for the safe and efficient movement of vessels in Canadian waters. Its activities include icebreaking, search and rescue, aids to navigation, the administration and application of legislation relating to the protection of navigable waters, ship safety, steamship inspection, vessel traffic services, waterways development, marine pollution surveillance and emergency clean-up, Arctic resupply, operation of marine coastal radio stations and the certification of Canadian ship masters, mates and engineers and main channel dredging and shore protection works.

AIR TRANSPORTATION ADMINISTRATION

The Canadian Air Transportation Administration (CATA) concerns itself with the development and operation of the national civil air transportation system. With the exception of the economic regulation of the air carriers by the Canadian Transport Commission, the Air Administration is involved in all facets of civil air transportation within Canada and between Canada and other countries. This involvement currently includes responsibility for the provision, operation and maintenance of 143 federal land airports, the licensing and provision of technical assistance to numerous non-federal airports, the provision of enroute and airport air navigation and air traffic control facilities and services, the technical regulation and enforcement of legislation pertaining to civil aircraft operations and flight personnel, the provision for the overall security and safety of the civil aviation system, and policy advice to the Minister on matters affecting the economic performance and regulation of the airline industry, domestically and internationally.

With respect to non-federal aviation facilities, CATA provides capital and operating assistance to those airports which qualify on the basis of such factors as traffic demand and air carrier service. As well, capital contributions are made for the provision of airport infrastructure to improve the safety of and accessibility to the national transportation system.

SURFACE TRANSPORTATION ADMINISTRATION

The Canadian Surface Transportation Administration is divided into six major activities: road safety and motor vehicle safety regulation, highway transportation, railway and grain transportation, railway passenger transportation, water transportation assistance and urban transportation. The Administration is responsible for the federal

input to the development and operation of railway freight and passenger systems, subsidized ferry and coastal shipping services, international bridges, highway systems, motor carrier regulations, and the Grain Transportation and Handling system. It is also responsible for federal capital assistance for urban transportation, and road and motor vehicle safety.

PLANNING AND COORDINATION GROUP

The Planning and Coordination Group (now includes the Strategic Planning Group) operates within the central headquarters of Transport Canada and is responsible for liaison with other governments, industry and for international relations. The Planning and Policy Directorate within the Group is responsible for undertaking and coordinating the corporate planning and programming process within Transport Canada and analyses the transportation environment, and develops and advises on long term multi-modal policies and objectives. The Department's official transportation forecasts are developed by this Directorate.

The Government Relations Directorate is the departmental focal point for consultation between Transport Canada and the transportation department of the provincial and territorial governments. The Directorate analyses and evaluates transportation issues and policies from the point of view of their application to specific regions. The headquarters Group acts as a secretariat for other components of the Department to facilitate consultation with the provinces and territories on modal policies and/or programs, and chairs federal/provincial/territorial committees to facilitate inter-governmental liaison. The question of transportation of the handicapped also forms part of its mandate.

The Transport Dangerous Goods Directorate administers and coordinates a comprehensive regulatory program, respecting the handling, offering for transport and transportation of dangerous goods by all modes of transport using federal and provincial legislative powers and resources as appropriate. The Directorate has six regional offices to conduct compliance and industry and provincial liaison activities and provides emergency response training programs jointly with Emergency Planning Canada. CAN-UTEC, a twenty-four hour a day emergency response and information centre is also operated by this Directorate.

The Planning and Coordination Group also plays an important role in the transportation-related science and technology activities of the federal government. The Research and Development Directorate is responsible for planning and recommending a coordinated set of research and development policies and programs. The Directorate monitors, coordinates and influences all transportation related research, development and demonstration projects conducted by federal departments. The Directorate, through the Transportation Development Centre, manages activities to apply science and technology to transportation.

These activities are aimed at providing components of Transport Canada with assistance in their operational, regulatory, policy planning and evaluation functions; and at conducting exploratory research and development addressing opportunities that are high risk, long range and national in scope.

CANADA PORTS CORPORATION

The Canada Ports Corporation, formerly the National Harbours Board, was established in 1983 by the Canada Ports Corporation Act. Reporting to Parliament through the Minister of Transport, Ports Canada is Schedule C2 Crown Corporation.

Ports Canada is responsible for the development of a port system according to the national ports policy and in support of government trade and transportation objectives. The 1983 ports legislation gives power to establish local port corporations at any of the 15 Ports Canada ports. In 1983 and 1984, local port corporations were created in Vancouver, Prince Rupert, Montreal, Quebec, Halifax and St. John's.

CANARCTIC

The Canarctic Shipping Company Limited was incorporated by letters patent pursuant to an agreement dated December 1975 between the Government of Canada (the major shareholder) and North Water Navigation Limited. The Company was established to operate the "MV Arctic", an experimental Arctic Class 2 bulk carrier designed and built in Canada.

NORTHERN TRANSPORTATION COMPANY LIMITED

The Northern Transportation Company Limited is a Crown corporation incorporated under federal legislation and continued under the Canada Business Corporations Act. The company's primary objective is to provide an economic, reliable and comprehensive transportation service on a profit-oriented commercial basis throughout Northern Canada and the Arctic. The Company forms the principal transportation link for the movement of bulk petroleum products and dry cargo to isolated communities and exploration and mining sites in Northern Canada.

HARBOURS AND PORTS

The Public Harbours and Ports are operated under the provisions of the Public Harbours and Port Facilities Act which provide the Department of Transport the complete management, control, use and development of public port facilities. There are three hundred and sixty (360) public ports engaged in the movement of goods and people in accordance with the national port policy and located across the country.

HARBOUR COMMISSIONS

The Harbour Commissions operate as semi-autonomous public corporations under the Harbour Commissions Act of 1964 and other federal statutes dating back to 1911. The Harbour Commissions with a high degree of autonomy are responsible for the management and operation of the ports for which they are established consistent with government transportation and trade objectives. There are nine (9) Harbour Commissions located in Ontario/Great Lakes System and in British Columbia.

THE ST. LAWRENCE SEAWAY AUTHORITY

The St. Lawrence Seaway Authority was incorporated as a Schedule D Crown corporation in 1954 to construct, operate and maintain, in conjunction with an appropriate authority in the United States, a deep waterway between the Port of Montreal and Lake Erie. Construction on the Seaway has led to several circumstances where municipal or provincial services, utilities or amenities were altered, and joint remedial arrangements were negotiated to compensate for these changes. By virtue of Bill C-24 of June 28,

1984, the Authority was designated a Crown corporation in Schedule C, part 1.

THE PILOTAGE AUTHORITIES

The Four Pilotage Authorities: Atlantic, Laurentian, Great Lakes and Pacific created under the Pilotage Act supply pilotage services in their respective region to enhance marine safety, and are not involved in programs or activities which provide financial assistance to provincial or municipal governments.

OTHER BODIES

Other bodies reporting to the Minister of Transport are Air Canada, the Canadian National Railways and VIA Rail Canada Inc., which are all autonomous Crown corporations, operating within the broad outlines of federal transportation policy. However, none of these bodies are directly involved in programs or activities which provide financial assistance to provincial or municipal governments.

COASTAL LABRADOR AIRSTRIP PROGRAM**Administered By:**

The Atlantic Regional Office of the Canadian Air Transportation Administration.

Purpose:

To provide airports in selected communities along the coast of Labrador so as to enable these communities to be served by aircraft on a regular basis.

Authority:

This program is under the aegis of the Newfoundland Transportation Plan, approved by Cabinet on July 23, 1981.

Time Frame:

To date, federally financed airstrips have been developed for Nain, Makkovik, Mary's Harbour, Davis Inlet, Postville, Rigolet and Port Hope Simpson. Cartwright, which was developed by the Province, is being upgraded utilizing federal funding. Construction of airstrips at Charlottetown, Black Tickle and Paradise River is currently in progress. Construction of the remaining airstrips at Fox Harbour and Hopedale is expected to start in 1985. The airstrip for Red Bay will not be constructed as funds are being transferred to the Province to assist in road construction in the Red Bay area.

Scope:

The coastal Labrador aviation facilities include an airstrip, maintenance equipment and shelter, passenger waiting room, provision of electrical power, appropriate airfield lighting, an access road, and a navigation aid (NDB).

Financing and Operation:

Under the terms of a Federal/Provincial Umbrella Agreement on the provision and operation of airstrips on coastal Labrador with an associated adjustment in marine passenger services, signed in July, 1982, Canada will contribute 100% of the actual direct construction costs of the aviation facilities, as well as owning and maintaining en-route navigation aids. Newfoundland will be responsible to own, manage, operate and maintain the aviation facilities, including the terminal navigation beacons, although Canada has agreed to a restoration program whereby certain facilities will be restored to their original operational capability on a regular basis.

Payments:

The federal contributions to date for the eight airstrips either operational or underway total \$18.5 million (current dollars). Total cost for the airstrips is estimated to be about \$44 million, in addition to an estimated \$500,000 annual cost for the restoration program.

**FINANCIAL ASSISTANCE TO THE CONSTRUCTION AND OPERATION OF MUNICIPAL AND OTHER AIRPORTS
(Part of the Air Transportation Program)****Administered By:**

The Airport Planning Branch of Airports and Construction Services.

Purpose:

To provide municipalities and other public bodies with financial assistance for the construction and operation of airports.

Authority:

This program falls within the scope of the Aeronautics Act.

Time Frame:

There are two continuing programs to provide financial assistance for airport infrastructure development and operation. The first, a formal program covered under the "Airports Financial Assistance Policy", came into effect on July 13, 1972. This program provides for operating subsidies to public bodies to meet the expenditure versus revenue short-fall at airports that are of significance to the national air transportation program. The Policy also permits the funding of 100% of the cost of approved capital projects at these airports. The second program, entitled the "Financial Assistance Program for Local/Local Commercial Airports", is more informal and ad hoc. It provides a means by which the Minister can provide for capital improvements at existing local and local commercial airports.

Financing and Operation:

The financial assistance is generally restricted to eligible public airports operated by municipalities or other public bodies.

Admissibility:

To be eligible for assistance under the "Airports Financial Assistance Policy", the public airport must qualify for the National Group which consists of those airports which have an Air Traffic Demand Index of 400 or more, e.g., Hamilton and Sudbury, Ontario, and Prince Albert, Saskatchewan. The policy, however, is under review and no

new financial assistance requests for operating subsidies have been approved since 1978 or will be approved until the new policy is available.

It also includes airports with an Air Traffic Demand Index below 400 in those cases where:

- 1) the airport was eligible for an operating subsidy as of December 31, 1971, under the policy in effect at that time so long as the airport receives a Class I or Class II Air Carrier Service;
- 2) the airport is designated as eligible for the assistance available to this group on the basis of factors related to aviation, sociological and/or economic benefits provided the airport receives a Class I or Class II Air Carrier Service.

To be eligible under the "Financial Assistance Program for Local/Local Commercial Airports", the request should be

directed toward improving a facility at an existing airport. In addition, the aerodrome must be licensable and should be receiving some form of air service licensed by the Canadian Transport Commission.

Assistance:

- 1) Operating — An annual subsidy up to an approved level, where airport revenue is not sufficient to meet the operating costs including depreciation, interest, and a reasonable amount for administrative expenses; and,
- 2) Capital — The facilities required for the operation of the airport may be provided by the Department of Transport.

Payments:

See table 1.

**CONSTRUCTION OF AIR TRANSPORTATION
INFRASTRUCTURE IN NORTHERN QUEBEC**

Administered By:

The Quebec Regional Office of CATA.

Purpose:

To construct airports, including air navigation aids and access roads, in 14 isolated communities in Northern Quebec.

Authority:

This program was approved by Cabinet in March, 1982. Program received preliminary Treasury Board approval in August 1983.

Joint Responsibility:

Under the terms of an Umbrella Agreement signed on September 27, 1983 with the Province of Quebec, Canada will be responsible to own, finance, construct, operate and maintain all navigation aids, as well as the airports in the Cree territory. With respect to the airports in the Inuit territory, Canada and the Province of Quebec will act jointly in the financing and project management of the construction of the aviation facilities, while Quebec will be responsible for their ownership, operation and maintenance.

Time Frame:

The program is scheduled to commence in 1983-84 in Cree territory and 1984-85 in Inuit territory and run over a period of 10 years; the two levels of government are striving to reduce this period to six or seven years, if possible.

Scope:

The Northern Quebec Aviation facilities will include a runway, visual and electronic navigation aids, including a NDB and runway approach and edge lighting, provision of electric power, meteorological and communication facilities and services, maintenance equipment and storage, a small passenger building and an access road.

Payments:

The total cost of this program is estimated to be approximately \$101 million as follows:

Cree airports (3)	\$16.5 million
Inuit airports (11)	\$84.5 million

Under the terms of the Umbrella Agreement, Canada will finance 100% of the costs related to the Cree airports and 60% of the costs of Inuit airports, with the exception of non-directional beacons (NDB), which will be paid for by Canada.

The Ontario and Central Regional Offices of CATA.

Purpose:

To provide navigational aids at remote airports in Northern Ontario.

Authority:

Negotiated agreement at Ministerial level within scope of Aeronautics Act.

Financing and Operation:

Under the agreement, the Federal Government is responsible for purchase and installation of navigational aids and the Provincial Government will be responsible for the airports facilities in Northern Ontario at specified and mutually agreed locations.

Legal agreements between the Provincial and Federal Governments have been prepared with respect to the lease of land required at each site for the navigation aids, and for the construction of access roads, site preparation, and connection to commercial hydro service by the Ontario Ministry of Transportation and Communications, with 100% reimbursement by Transport Canada. Transport Canada is proceeding simultaneously to acquire title to each site.

Payments:

Construction of the navigation aids and services in Northern Ontario is being planned by Ontario and Central Regions on a priority basis, and will be undertaken subject to the availability of funds, to arrangements being made with the Province on site preparation, and to the timely availability of the necessary equipment.

TRANSPORTATION RESEARCH PROJECTS

1. Intermediate Capacity Transit System—Lightweight Bogie Project

Administered By:

Transportation Development Centre (TDC)

Purpose:

The purpose of the Intermediate Capacity Transportation

System (ICTS) "Lightweight Bogie Project" is to design, construct and test two prototype motorized bogies suitably sized for application on an ICTS type urban rail transit vehicle.

Authority:

The Department of Transport Act

Time Frame:

The project commenced March 30, 1979 and was completed in June, 1984.

Financing and Operation:

The contractor of the work is Bombardier Inc. Montreal under a tri-partite agreement with the Transport Canada Transportation Development Centre, the Quebec Ministry of Transport and Bombardier Inc. Transport Canada's share of the funding is \$540,000; Quebec Transport funding is \$1,027,000 and Bombardier is contributing \$200,000.

Payments:

Payments by Transportation Development Centre were \$540,000 as of April 1983.

For Further Information:

Executive Director
Transportation Development Centre
Place de l'Aviation
1000 Sherbrooke Street West
Suite 2421
Montreal, Quebec
H3A 2R3
Tel.: (514) 283-7512

2. BCR Electrification Demonstration

Administered By:

Transportation Development Centre (TDC)

Purpose:

To mount a railway electrification demonstration on a 132 km. section of British Columbia Railway (BCR) and to develop and evaluate electrification technology as an alternative railway motive power, particularly regarding technical problems and probable costs and benefits in the Canadian context.

Authority:

The Department of Transport Act.

Time Frame:

The project commenced September 1, 1982 and is scheduled to be completed June 30, 1985.

Financing and Operation:

The performers of the work are BCR and CP Consulting Services Ltd. under contracts to TDC, according to an agreement between BCR, the BC Government and the federal departments of Transport and Energy, Mines and Resources and Regional Industrial Expansion. The sup-

port from TC will total \$2,000,000, the support from EMR amounts to \$2,500,000, from DRIE \$500,000 and from the BC government \$5,000,000.

Payments:

Payments by Transportation Development Centre were \$1,275,000 as of September, 1984.

For Further Information:

WATER TRANSPORTATION ASSISTANCE PROGRAM

Administered By:

Water Transportation Assistance Directorate

Purpose:

Participation in policy formulation with regard to federal assistance of water transportation services in Canada; development, implementation and monitoring of programs for the operation of certain coastal and ferry services and related terminal services, particularly those for which Canada has accepted responsibility under the terms of Union and Confederation; contracting for and provision of subsidies in support of various international, interprovincial and intraprovincial ferries and conventional shipping services which are considered important to the national transportation network.

Authority:

1. Terms of Confederation between Canada and Prince Edward Island.
2. Terms of Union between Canada and Newfoundland.
3. Order in Council authorizing Yarmouth/Bar Harbor ferry service.
4. Federal-Provincial Agreement covering service between mainland Canada and Magdalen Islands.
5. Order in Council covering Digby/Saint John ferry service.
6. Federal-Provincial Agreement governing financial support for coastal shipping services in British Columbia.
7. National Transportation Act and Cabinet Decision/Treasury Board Decision approving transfer of subsidy responsibility from the Canadian Transport Commission (CTC) to Department of Transport.

8. Federal-Provincial Agreement governing financial support of six local ferries in Newfoundland.
9. Federal-Provincial Agreement governing financial support for coastal shipping services in Quebec.

Financing and Operation:

1. Services operated by companies other than CN Marine.

On April 1, 1977, the Water Transportation Assistance Directorate assumed responsibility for subsidization of water transportation services previously subsidized by the CTC. The services in this category which are still subsidized are as follows:

Caribou, N.S./Wood Islands, P.E.I.

Souris, P.E.I./Cap-aux-Meules, Quebec

St. Barbe, Nfld./Blanc Sablon, Quebec

Grand Manan/Black's Harbour, N.B. (costs of subsidization of this service are shared with the provincial government)

Placentia Bay Service

Montreal/St. John's, Nfld.

2. Services operated by Crown corporations.

- i. CN MARINE

CN Marine is a non-comprised wholly-owned subsidiary of Canadian National Railway Company. An Order in Council in May, 1979 and a Tri-partite Agreement between the Crown, CN and CN Marine established the present working agreement. Annual fixed price contracts are executed by the Department of Transport and CN Marine for each of the following services:

Borden, Prince Edward Island/Cape Tormentine, New Brunswick

North Sydney, Nova Scotia/Port-aux-Basques, Newfoundland

North Sydney, Nova Scotia/Argentia, Newfoundland

Digby, Nova Scotia/Saint John, New Brunswick

Yarmouth, Nova Scotia/Bar Harbor, Maine

Newfoundland and Labrador coastal service.

The Water Transportation Assistance Directorate is responsible for administering these contracts and for monitoring the services provided.

CN Marine is now responsible for providing vessels for the performance of these services.

GRANTS IN SUPPORT OF FERRY SERVICES

Annual grants are paid to the provinces of British Colum-

bia, Newfoundland and Quebec in support of ferry and coastal shipping services.

**FEDERAL-PROVINCIAL PRIMARY HIGHWAY
STRENGTHENING/IMPROVEMENT PROGRAM IN THE
MARITIME PROVINCES AND NEWFOUNDLAND
(PHASES I AND II)**

Administered By:
Highway Branch

Purpose:

This program is designed to enable Canada and the four Atlantic Provinces to finance jointly the strengthening/improvement of certain links of the primary highway network in Nova Scotia, New Brunswick, Prince Edward Island and Newfoundland to permit the adoption of specified uniform truck load capacity limits and vehicle configurations that are compatible with those in effect in the other provinces of Canada.

Authority:

Bilateral federal-provincial agreements with each of the four Atlantic Provinces with Transport Canada as the federal signatory.

Time Frame:

The original submission made jointly by the four Atlantic Premiers to the federal Minister of Transport proposed a ten-year program. Phase I was implemented during 1977-78 and expired in Nova Scotia on March 31, 1980, and in the other three provinces on March 31, 1981. In each case, an additional year was provided for the completion of projects approved during the life of the agreements. Following the receipt of a joint submission from the three Maritime Provinces and an individual "Needs Study" from Newfoundland, a Phase II of the program was negotiated and implemented on April 1, 1982. The duration of the program in the Maritime Provinces will be four years and in Newfoundland three years with an additional year provided in both cases for the completion of projects approved during the life of the agreements.

Financing and Operation:

The Canadian Surface Transportation Administration

provides the funds to support this program. During Phase I, the federal share was \$100 million of the total cost of \$200 million. For Phase II, the total cost of the program in the Maritime Provinces is \$168 million to be shared on a 50% federal: 50% provincial basis. The federal share of \$84 million has been allocated to Nova Scotia — \$38.5 million; New Brunswick — \$37.0 million; and Prince Edward Island — \$8.5 million. In Newfoundland, the total cost of the second phase is \$48 million of which the federal share is 75% or \$36 million.

Individual project selection and approval as well as program evaluation is carried out by a joint Federal-Provincial Management Committee set up under each agreement. Construction is carried out under contracts negotiated by the provincial Departments of Transportation.

Payments:

Payments are made upon receipt of claims for reimbursement of expenditures.

FEDERAL-PROVINCIAL ROAD CONSTRUCTION PROGRAM IN NEW BRUNSWICK AND NEWFOUNDLAND UNDER THE SPECIAL RECOVERY CAPITAL PROJECTS PROGRAM

Administered By:

Highway Branch

Purpose:

This program is designed to spur economic recovery while putting in place key facilities and services to enhance economic and regional development opportunities for the private sector; to finance jointly the construction, upgrading and/or improvement of certain highways.

Authority:

Bilateral federal-provincial Agreements with the Provinces of New Brunswick and Newfoundland and Transport Canada as the federal signatory.

Time Frame:

This program is in operation during the fiscal years 1983-84, 1984-85, 1985-86. The Agreement with Newfoundland was

signed on July 15, 1983, and the one with New Brunswick on August 4, 1983.

Financing and Operation:

This program is cost-shared between Transport Canada and each of the two provinces involved. The cost-sharing ratio is 75:25 (federal-provincial) in Newfoundland except for one project (the Trans-Labrador Highway) where the ratio is 85:15 (federal-provincial). The cost-sharing ratio on New Brunswick highway projects is 80:20 (federal-provincial). Under this program a total of \$97.0 million will be spent of which the Transport Canada contribution amounts to \$77.0 million. In Newfoundland a total of \$44.5 million will be expended, of which \$35.0 million will be contributed by Transport Canada. \$52.5 million will be spent on New Brunswick highways, with the Transport Canada contribution amounting to \$42.0 million. In addition, Transport Canada has provided \$2.0 million to finance entirely a special road project from the Moncton/Dieppe boundary to the Moncton Airport.

Project selection will be undertaken by the federal-provincial Management Committee using a list of eligible projects as provided in the Agreement. The actual road construction work is undertaken by the provincial authorities.

Payments:

Payments by Transport Canada will be made for approved projects on the basis of progress claims submitted by the provinces setting out expenditures incurred and paid.

FEDERAL-PROVINCIAL HIGHWAY CONSTRUCTION, STRENGTHENING AND IMPROVEMENT PROGRAM IN PRINCE EDWARD ISLAND AND NEW BRUNSWICK UNDER THE ECONOMIC REGIONAL DEVELOPMENT AGREEMENT

Administered By:

Highway Branch

Purpose:

This program is designed to enable Canada and the Provinces of Prince Edward Island and New Brunswick to

finance jointly the construction, strengthening and improvement of certain highway links in the above-mentioned provinces.

Authority:

Bilateral federal-provincial Agreements with the Provinces of Prince Edward Island and New Brunswick and Transport Canada as the federal signatory.

Time Frame:

This program is in operation during the fiscal years 1984-85, 1985-86, 1986-87, 1987-88 and 1988-89. The Agreement with Prince Edward Island was signed on June 15, 1984 and the one with New Brunswick on August 14, 1984.

Financing and Operation:

This program is cost-shared between Transport Canada and each of the two provinces involved. The cost-sharing ratio is 50:50 (federal-provincial) in Prince Edward Island and approximately 70:30 (federal-provincial) in New Brunswick. Under this program a total of \$123.3 million will be spent of which Transport Canada contribution amounts to \$79.817 million. In Prince Edward Island a total of \$32.8 million will be expended, of which \$16.4 million will be contributed by Transport Canada. \$90.5 million will be spent in New Brunswick, with the Transport Canada contribution amounting to \$63.417 million.

Project selection will be undertaken by the federal-provincial Management Committee using a list of eligible projects as provided in the Agreement. The actual road construction work is undertaken by the provincial authorities.

Payments:

Payments by Transport Canada will be made for approved projects on the basis of progress claims submitted by the provinces setting out expenditures incurred and paid.

RAILWAY RELOCATION AND CROSSING ACT

Administered By:

The Railway Relocation and Crossing Branch under the Urban Transportation Assistance Program (UTAP) of

Transport Canada, in cooperation with the Rail Systems Development Branch at the Canadian Transport Commission (C.T.C.).

Purpose:

Part I of the Railway Relocation and Crossing Act (RRCA) enables the federal government to provide financial assistance toward studies and implementation of railway relocation or rail traffic re-routing proposals, undertaken for purposes such as improving urban form, rationalizing transportation networks or assisting urban transit.

Part II and III of the RRCA enables the federal government to provide special grants for the construction or reconstruction of grade separations. The procedure involves Canadian Transport Commission consideration of applications based on the protection, safety and convenience of the public, and CTC recommendations to the Minister of Transport for disbursement of funds where appropriate. Ministerial approval is required.

Moneys are also appropriated by Parliament to cover federal contributions toward crossing protection and improvement under Part III of the RRCA. The SC payments are administered by the Rail System Development Branch of the Railway Transport Committee of the CTC, and details of this program are reported separately. (See table 2).

Authority:

The Railway Relocation and Crossing Act
The Railway Act

Time Frame:

This is a continuing program, with funding provided from a variety of sources including UTAP which expires on March 31, 1985.

Financing and Operation:

The federal government, through Transport Canada may contribute up to one-half of the eligible costs of preparing Transportation Plans and Urban Development Plans requested by urban communities with provincial approval. When these plans are completed and have municipal-provincial support, Transport Canada is asked to certify that any auxiliary federal programs which may be included are available and that the overall proposals promote significant urban benefits, and the Governor in Council (through TC) is asked to indicate whether project implementation funds would be available. On receipt of a positive response, applicants may request that the CTC issue orders to the railways concerned to carry accepted plans into effect. CTC hearings are mandatory. The federal government, under the RRCA, may provide funds for up to one-half the net cost of railway relocation but the Act contains no specific rule as to the funding of the remaining portion of these costs.

Where Part II of the RRCA is concerned, the federal contribution toward special grade separations is as follows:

The amount that may be recommended for payment by the Commission to meet part of the costs of grade separation, shall not exceed:

- a) for construction where costs are more than \$1,250,000 but not more than \$5 million, \$1 million plus an amount no greater than 60% of the costs in excess of \$1,250,000 or when costs are more than \$5 million, (\$3,250,000) plus an amount no greater than 40% of the costs in excess of \$5 million.
- b) for reconstruction where costs are more than \$1,250,000 but not more than \$5 million, \$625,000 plus an amount not greater than 37½% of the costs in excess of \$1,250,000 or where costs are more than \$5 million, \$2,031,000 plus an amount not greater than 25% of the costs in excess of \$5 million.
- c) where a proposed new construction of a grade separation is required by virtue of a proposal to build a new road in order to re-route highway traffic and an application has been made to the Commission, the Minister of Transport may authorize payment of a grant which shall not exceed 50% of the costs as determined by the Commission.

Under Part III of the RRCA, the federal contribution towards grade separation projects is as follows where the total cost does not exceed \$1,250,000:

- for a new grade separation construction — 80% of the eligible cost up to a maximum of \$1 million;
- for the reconstruction of a grade separation — 50% of the eligible cost up to a maximum of \$625,000.

The Department of Transport has \$23.1 million in its budget for urban transportation and RRCA projects allocated for 1984-85.

Payments:

Commitments made to March 31, 1980 for the federal share of the cost to prepare Transportation Plans under Part I of the RRCA total \$1,066,000 for 16 cities — Kamloops, Regina, Lethbridge, Red Deer, Edmonton, Niagara Falls, Sudbury, North Bay, Brantford, Moncton, Truro, Amos, Victoriaville, Jonquière, Boucherville and Golden.

Since the Act was passed in 1974, to March 31, 1984, \$225.0 million has been committed by Transport Canada for grade separation work. A further \$28.5 million in projects are currently underway.

URBAN TRANSPORTATION ASSISTANCE PROGRAM

Administered By:

Surface Policy, Planning and Urban Programmes Directorate.

Purpose:

To improve the efficiency of the urban transportation system;
 To improve standards of urban environmental quality and land use efficiency;
 To conserve energy;
 To improve safety at railway crossings.

Authority:

Order in Council P.C. 1982-10/231 dated January 21, 1982
Master Agreements with each province

Time Frame:

The program began on April 1, 1978 and will expire on March 31, 1985.

Financing and Operation:

The Canadian Surface Transportation Administration of Transport Canada provides the federal share of the program costs. The contributions made by the federal government are a maximum of 80% in the case of an urban transportation project; a maximum of 50% in the case of a transportation plan or relocation grant under the Railway Relocation and Crossing Act (RRCA) and between 50% and 80% of the cost of a railway grade separation, depending on the section of the RRCA that applies. The total cost of the program to the federal government will be approximately \$228.6 million. This fund was allocated to the provinces on a per-capita basis (1976 census).

Projects to be funded under this program are initially selected by the province and submitted for approval in principle. The Minister of Transport consults with the federal regional Minister before granting such approval. Upon receipt of the approval in principle, the province submits a detailed application which is evaluated by Transport Canada officials. Upon completion of this evaluation the applicant and Transport Canada sign a project contribution arrangement which outlines the financial and other responsibilities of both parties with respect to a given project.

Payments:

1979-80	\$16.1 million
1980-81	\$42.2 million
1981-82	\$51.3 million
1982-83	\$52.6 million
1983-84	\$48.6 million

Amount budgeted for 1984-85 is \$6.5 million.

MONTREAL COMMUTER RAIL MODERNIZATION PROGRAM**Administered By:**

Railway Passenger Directorate

Purpose:

This program is aimed at enabling Canada and Quebec to finance jointly certain projects for the modernization of existing commuter train services in the Montreal area, i.e. the Rigaud, Deux-Montagnes and Saint-Hilaire lines.

Authority:

Cabinet decisions RD 502-80 of July 31, 1980 and RD 518-81 of December 22, 1981.

Federal-provincial agreement of April 29, 1981, amended on July 19, 1983.

Order in Council P.C. 1982-10-231 of January 21, 1982.

Time Frame:

The agreement of April 29, 1981 provided for completion of the modernization by March 31, 1984. The deadline was subsequently extended to March 31, 1986.

Financing and Operation:

Transport Canada's Canadian Surface Transportation Administration pays the federal share of the cost of the program, i.e. \$70.0 million, the total cost being \$117.5 million. These \$70.0 million derive from two sources: \$30 million from the Urban Transportation Assistance Program based on a federal-provincial ratio of 80/20, and \$40 million in the form of a special grant based on a federal-provincial ratio of 50/50.

The federal-provincial agreement of April 29, 1981 makes Quebec responsible for implementation of the projects. These projects were prepared by the province and submitted to Transport Canada for approval. Subsequently, a specific agreement giving details of the financial responsibilities of Transport Canada and of the province was signed.

Payments:

The \$30 million from the Urban Transportation Assistance Program have been committed and will be spent in accordance with this program's budget.

The \$40 million grant is distributed as follows:

1984-85:	\$12 million
1985-86:	\$28 million

DEPARTMENT OF TRANSPORT**(The St. Lawrence Seaway Authority)****AGREEMENT FOR THE MAINTENANCE OF THE
BEAUHARNOIS CANAL AND ASSOCIATED WORKS****Administered By:**

The St. Lawrence Seaway Authority

Purpose:

The purpose of this agreement is to maintain the Beauharnois Canal between Lake St. Francis and Lake St. Louis.

Authority:

Order in Council P.C. 504 dated March 1, 1932

This agreement was entered into between the Beauharnois Light, Heat and Power Company, its successors and assigns (now Quebec Hydro), and the Department of Railways and Canals (succeeded by The St. Lawrence Seaway Authority).

Time Frame:

This agreement was dated March 1, 1932, and the sharing formula became effective when the canal was proclaimed for navigation (1959). Maintenance of the Beauharnois Canal and its bridges is done on a continuing basis.

Financing and Operation:

Under the terms of the agreement, the cost and expense of maintaining in proper state of repair the said canal and bridges are borne in equal proportions by this Authority and by Quebec Hydro.

Payments:

Payments are made as and when required.

**AGREEMENTS TO COMPENSATE FOR LOCAL SERVICES
AND UTILITIES AFFECTED BY CONSTRUCTION OF THE
ST. LAWRENCE SEAWAY (THE ST. LAWRENCE SEAWAY
AUTHORITY)****Administered By:**

Various branches of The St. Lawrence Seaway Authority

Purpose:

The purpose of these agreements is to compensate provinces and municipalities for the effect on provincial and municipal services and utilities due to seaway construction.

Authority:

The St. Lawrence Seaway Authority Act

A large number of agreements have been entered into with provincial and municipal governments.

Time Frame:

The program of compensating for or making good services or utilities affected by The Seaway Authority construction is a periodic one. Most of the individual agreements involve lump sum payments or specific construction projects and do not involve The Seaway Authority in subsequent responsibilities such as maintenance or further construction.

Financing and Operation:

Each agreement varies with the individual circumstances to which it applies. Agreements provide for relocation, restoration or compensation in respect of local services and utilities, highways, sewer and hydro lines, water supply systems, parks and cemeteries which were affected by the construction of The Seaway Authority works. While The Seaway Authority pays the costs of all or part of these projects, in some cases the municipality or province is responsible for the work, and claims reimbursement for costs incurred. In other instances The Seaway Authority, itself, contracts directly for the work. Payments are made to the provinces or municipalities as set out in the individual agreements. These agreements may involve cost-sharing, lump sum payments or other valuable consideration, such as replacement of construction work.

Payments:

As noted above, payments are made as called for in the individual agreements and are negotiated in respect of each one.

WELLAND CANAL CROSSING AGREEMENTS**Administered By:**

The Western Region of The St. Lawrence Seaway Authority

Purpose:

The purpose of the agreement is to alleviate the congestion of highway traffic crossing the Welland Canal and to eliminate existing lift bridges which constitute hazards to and interfere with the movement of ship traffic through the Welland Canal.

Authority:

The St. Lawrence Seaway Authority Act

Master Agreement, dated May 11, 1970, between The St. Lawrence Seaway Authority and the Government of Ontario, for six highway tunnel crossings as follows:

East Main Street	near Welland, Ontario
Lakeshore Road	near the City of St. Catharines, Ontario
Welland Avenue	near the City of St. Catharines, Ontario
Queen Elizabeth Way	near the city of St. Catharines, Ontario
Allanburg	Ontario
Port Colborne	Ontario

A supplemental agreement was signed April 8, 1971 for the East Main Street Highway Tunnel in the City of Welland.

A supplemental agreement was signed on March 16, 1979, for the construction of a bridge at Port Colborne, Ontario. The construction of this bridge will defer, for at least 10 years, the construction of the tunnel mentioned above for Port Colborne.

Time Frame:

The Master Agreement dated May 11, 1970, supersedes an Agreement of June 1, 1965, under which one four lane highway tunnel at Thorold was constructed. There is no termination date specified for the projects under the 1970 agreement. The supplemental agreement in respect of the East Main Street Highway Tunnel was signed April 8, 1971, and work on that crossing was completed in 1972. The Port Colborne Bridge mentioned above became operational in May 1981.

Financing and Operation:

The Master Agreement provides for The St. Lawrence Seaway Authority to share with the Government of Ontario in the costs of constructing six crossings of the Welland Canal once a supplemental agreement has been signed in respect of each tunnel. To date only a supplemental agreement for the East Main Street Highway Tunnel has been executed. Work on this crossing was completed as an integral part of the larger program of realigning the Welland Canal between Port Robinson and Ramey's Bend (the Welland By-Pass).

The three future highway tunnel crossings to be located in the vicinity of the City of St. Catharines will be constructed as part of a larger program if and when the federal government decides to proceed with a project to realign and expand that part of the Welland Canal between Lake Ontario and Thorold. The remaining two highway tunnel crossings at Allanburg and Port Colborne, respectively, may be undertaken as individual and isolated projects at some future date.

The St. Lawrence Seaway Authority will contribute 50 per cent of the costs of five of the six tunnels. These five tunnels are all to carry four lanes of traffic except at Port Colborne where there will be six lanes. The Seaway Authority will contribute five-sixths of the construction costs of the remaining crossing for Queen Elizabeth Way. This crossing will carry twelve lanes of traffic.

The following types of costs are eligible for sharing under the master and supplemental agreements:

- Cost of designing the highway tunnel crossings;
- Cost of land required for the crossings;
- Cost of surveys;
- Cost of expropriation where necessary;
- Cost of overheads as mutually agreed upon;
- Cost of engineering services;
- Cost of construction of the crossings; and the
- Cost of operation and maintenance of the crossings.

The Seaway Authority's contribution in respect of operating and maintenance costs for each crossing will be made in a lump sum upon completion of that crossing. In addition to those costs listed above as eligible for sharing, certain costs specifically described in either the Master Agreement or in one of the supplementary agreements will be paid entirely by The Seaway Authority or by the Ontario Ministry of Transportation and Communications.

The estimated total share of The Seaway Authority in these six crossings is \$89.2 million in 1970.

In general, the Province of Ontario will administer the construction of these crossings with the concurrence of The Seaway Authority in the approval of design plans and the award of contracts. The province will pay contractors and will then invoice The Seaway Authority for its share of the total expenditures. Claims made by municipalities will be processed in a similar manner. The province assumes administrative responsibility for the operation and maintenance of each completed tunnel.

With respect to the Port Colborne Bridge mentioned above, however, The St. Lawrence Seaway Authority was responsible for the planning, design and construction of the bridge, with the province contributing 50% of the \$2.7 million cost. The province constructed the connecting roadworks for access to the bridge and such costs were carried totally by the province. The St. Lawrence Seaway Authority now owns the bridge and is solely responsible for its future operation and maintenance costs. The Authority's share of the construction cost of the bridge will be deducted from its share of the construction cost of the Port Colborne Tunnel provided for in the agreement dated May 22, 1970.

Payments:

Payments made to Ontario by The St. Lawrence Seaway Authority under the agreements of 1965 and 1970 amount to approximately \$8,580,000 and \$7,000,000, respectively.

TRANSPORTATION OF DANGEROUS GOODS PROGRAM

Administered By:

Transportation of Dangerous Goods Directorate, Planning and Coordination Group.

Purpose:

To develop and implement, with the provinces, a comprehensive regulatory program respecting the handling, offering for transport and transporting of dangerous goods by all modes of transport.

Authority:

This program falls within the scope of the Transportation of Dangerous Goods Act.

Time Frame:

The development of the program requires the passage of provincial statutes complementary to the Federal Act and the promulgation of regulations. It is expected that all provinces will have enacted their statutes in 1985 and the regulations will have been partially promulgated also.

In 1985, expanded federal and provincial inspection forces will be created to cover areas of transportation activity not presently inspected, and these will be coordinated with the existing inspection activities of the federal government in respect of rail, sea and air transport.

The full operation of the program is expected to commence in 1986-87.

Scope:

This program is intended to replace existing, narrowly focussed programs of the federal and provincial governments directed to particular modes of transport or to particular groups or types of dangerous goods. It is also intended to extend the responsibility for ensuring safety in the transport of dangerous goods to those who prepare the goods for transport and where relevant, also to those who receive the goods. The program has international linkages, particularly with the USA, but also to all other countries through UN agency based international transport conventions and recommendations.

Financing and Operation:

The Transportation of Dangerous Goods Act contemplates the establishment of administrative agreements between the federal and provincial governments in respect of these matters on the basis that each level of government will be responsible for its own costs. These agreements are being negotiated.

Department of Veterans Affairs

The role of the Department of Veterans Affairs is to manage special programs for veterans and other specified persons which will compensate for death or disabilities incurred in the service of Canada and which will enable them to be self-sufficient and participative members of the community.

When the Department was established in 1944, the principal focus of its program was the rehabilitation to civilian life of returning veterans of the Second World War. Today, with an older veteran population to serve, efforts are aimed at keeping pace with the needs of an aging clientele in a changing society.

At the same time, through commemoration activities, the Department is committed to ensure that the achievements and the sacrifice made by Canadians for their country in time of war are not forgotten.

The Department of Veterans Affairs is divided into five separate branches — Veterans Services; Finance, Personnel and Administration; Veterans Land Administration; National Capital Operations and Audit and Evaluation — with its head office in Charlottetown, Prince Edward Island. In addition, there are five regional offices and 32 district offices across Canada whose role is to provide the Department's clients with easier access to services and to facilitate the processing of claims and benefits.

The Department is responsible for a wide range of matters relating to the social well-being of Canadian veterans and

their dependants. This broad mandate includes responsibility for War Veterans and Civilian War Allowances, supplementary financial assistance on the basis of need, educational assistance and social counselling services. Also included are hospitalization and medicare assistance. The Department provides treatment services in departmental and contract hospitals for veterans suffering from service-related disabilities and for veterans who are in receipt of a War Veterans Allowance. Eligible veterans may also receive home care, adult residential care or nursing home care under the provisions of the Aging Veterans Program.

While the assistance of jurisdictions external to the Department is required in dispensing many of these services, the administration of the Hospital Transfer Program and the War Veterans Allowance Act requires the cooperative effort of the Department and provincial-municipal authorities. The Hospital Transfer Program involves the transfer of Departmental hospital facilities to other jurisdictions so that the veteran population will continue to receive a high level of patient care through assimilation into community hospitals.

In addition to the Department, the Veterans Affairs Portfolio includes four independent agencies: the Pension Review Board, the Canadian Pension Commission and the War Veterans Allowance Board which report to Parliament through the Minister of Veterans Affairs, and the Bureau of Pensions Advocates which reports to the Minister of Veterans Affairs.

HOSPITAL TRANSFER PROGRAM

HOSPITAL TRANSFER PROGRAM

(Part of the Veterans Services Branch)

Administered By:

Veterans Services Branch

Purpose:

The program is intended to achieve the integration of Department of Veterans Affairs' (DVA) Hospitals with those of the local community. This will ensure the availability of adequate treatment for eligible veterans, especially in view of the declining numbers of veterans requiring active care in DVA facilities.

Authority:

Agreements are signed between the Department of Veterans Affairs and the province to which the DVA hospital is being transferred. Agreements have been signed in respect of:

Ste. Foy Hospital, Quebec City, Quebec;
Queen Mary Hospital, Montreal, Quebec;
Sunnybrook Hospital, Toronto, Ontario;
Westminster Hospital, London, Ontario;
Lancaster Hospital, Saint John, New Brunswick;
Camp Hill Hospital, Halifax, Nova Scotia;
Shaughnessy Hospital, Vancouver, British Columbia;
Veterans Hospital, Victoria, British Columbia;
Colonel Belcher Hospital, Calgary, Alberta;
Edmonton Veterans Home, Edmonton, Alberta;
Deer Lodge Hospital, Winnipeg, Manitoba.

Time Frame:

The date of transfer is fixed in each agreement. Once implemented the agreement takes permanent effect.

The mode of federal payments following transfer is also set down in the agreements.

Financing and Operation:

The federal government agrees to transfer each DVA hospital to a community authority. Capital contributions are arranged at the same time to permit purchase of equipment and to facilitate renovation or expansion as required.

The Department of Veterans Affairs provides care and treatment to those veterans who are eligible by virtue of their service in time of war. In order to meet this obligation, the Department requires:

1. that there be adequate community health facilities to meet the needs of entitled veterans;
2. that an agreed number of beds at different treatment levels be available to veterans on a "priority use" basis; and
3. that there be arrangements for the employment of DVA hospital staff with pay and other employment benefits, the total of which should be comparable with what they enjoy in the Public Service of Canada.

For a sum of \$1.00, land and physical assets of each DVA hospital are turned over to the new jurisdiction. A cash contribution is made by the federal government equal to the estimated capital that would have been expended had the hospital remained under DVA authority for a continuing period of five years.

After the transfer the Department reimburses the hospital for the costs of treatment required by pensioned veterans.

CROWN CORPORATIONS AND AGENCIES

Atomic Energy of Canada Limited

ORIGIN AND STRUCTURE

The Company was established in 1952 under the Atomic Energy Control Act, RSC 1970, Chapter A-19 and the Canada Corporations Act, Part I (continued under the Canada Business Corporations Act) to develop the utilization of atomic energy for peaceful purposes. The majority shareholder of the Company is the Minister of Energy, Mines and Resources.

Its activities, under the guidance of the Corporate Head Office which provides corporate planning, policy, management, administration and information systems services, are carried out through the following operating units:

- CANDU Operations which designs and markets CANDU reactor systems, components and related technologies in Canada and abroad. This unit is also responsible for heavy water technology and supply and for the management of prototype reactors.
- Radiochemical Division which manufactures and markets medical and industrial radiation equipment and radioisotopes; and
- Research Division which carries out basic and applied research and development in the field of atomic energy.

NUCLEAR COOPERATIVE PROGRAMS

Page
271

NUCLEAR COOPERATIVE PROGRAMS

Administered By:

Prototype and Commercial Power Stations and Heavy Water Plants — CANDU Operations of Atomic Energy of Canada Limited — c/o Executive Vice-President

Purpose:

In cooperation with the provinces, to design and construct nuclear power plants and to construct, own and operate heavy water plants.

Authority:

Atomic Energy Control Act
Atomic Energy Control Regulations

Separate agreements have been signed with regard to three nuclear power plants and one heavy water plant.

Time Frame:

Each agreement has a specified time frame.

Financing and Operation:

The three agreements relating to nuclear power plants have provided for the design and construction of three commercial size nuclear power stations:

- Pickering
- Gentilly-II
- Point Lepreau

The arrangements for the financing and operation of the stations are different in each case.

Commercial Size Nuclear Power Stations:

The Pickering Generating Station (Units 1 and 2) has been constructed and is operated under an agreement between AECL, Ontario Hydro and the province of Ontario. In order to share in the risk of establishing such a station, the province of Ontario and the federal government agreed to proportionately finance capital costs above those for a similar sized fossil fuel-fired station.

Return on the capital invested by the three parties will be made over a period not exceeding thirty years by means of "payback" represented by the difference between the operating and maintenance costs of the two Pickering units and the total cost, including capital charges, that would have been involved if the power generated by the Pickering units had been produced by two coal-fired units. This "payback" is shared in the ratio of each party's contribution to the capital costs of the first two Pickering units. Ontario Hydro, the province of Ontario and AECL have accepted the cost of the station to be \$395 million of which the federal portion, including interests, is \$141 million or about 36%. The "payback", which represents in a broad sense the net operational advantage of having the power generated by nuclear as compared to coal-fired units, accrues to

the credit of each of the three parties. Monthly payments are made to the parties by Ontario Hydro relative to their investment in the Pickering generating station (Units 1 and 2).

The Gentilly-II Nuclear Power Station was declared "in service" on April 7, 1983. The station is operated by Hydro-Québec. Under an agreement between Hydro-Québec and AECL, engineering consulting services were provided by AECL for the nuclear portion of the station during the design and construction stages. The federal government provided long-term interest bearing loans to assist the construction of the station. The federal loan, which totals \$151 million, is repayable in equal instalments over a twenty-five year term commencing April 7, 1984. AECL is administering this loan and its repayment.

The Point Lepreau Nuclear Generating Station was declared "in service" on April 3, 1983. The station is operated by the New Brunswick Electric Power Commission. Under an agreement between the New Brunswick Electric Power Commission and AECL, engineering consulting services were provided by AECL for the nuclear portion of the station during the design and construction stages. To assist the construction of the station, the federal government provided long-term interest bearing loans. The interest on these federal loans for a period of three years from October 9, 1979 was forgiven. On the in service date these loans, with accrued interest where applicable, were replaced by one loan of \$350 million repayable in twenty-five equal annual instalments. AECL is administering this loan and its repayment. The federal government agreed to provide performance loans to N.B.E.P.C. for the first ten years of operation of the unit, if required as a result of low annual unit availability. The maximum yearly amount is \$48.75 million with a maximum total of \$130 million. Repayment of any loaned amounts will take place in years when availability exceeds 75%. Any performance loan balances at year 10 will be repaid during years 11 through 20.

Heavy Water Plants

The Glace Bay Heavy Water Plant was rehabilitated by AECL, under agreement with Deuterium of Canada Limited and the province of Nova Scotia at a cost of \$211.2 million. On February 9, 1978, AECL agreed to purchase the Glace Bay plant. The purchase agreement provides for payment of quarterly instalments of \$825,000 to Deuterium of Canada Limited over a twenty-year period for a total of \$66 million.

Canada Mortgage and Housing Corporation

Canada Mortgage and Housing Corporation (CMHC) is the federal government's housing agency. It is a Crown corporation, constituted on January 1, 1946 by an Act of Parliament, with a Board of Directors which reports to a Minister responsible to Parliament. CMHC is charged with the administration of the National Housing Act which is the instrument of federal legislation dealing with housing and residential development.

NATIONAL OFFICE ORGANIZATION

The President is the Chief Executive Officer of the Corporation and a member of the Board of Directors, as in the Senior Vice-President. The Corporation comprises, in summary form, six sectors at National Office, five of which are headed by Vice-Presidents (Policy Development and Research, Finance and Management Information Systems, Organization Development, Insurance and Programs), the other by the General Counsel and Corporate Secretary. The Vice-Presidents Insurance and Programs report to the Senior Vice-President.

FIELD ORGANIZATION

CMHC maintains an extensive field organization headed by the Vice-President, Field Operations. It is divided into five regions, each headed by a General Manager: Atlantic, Quebec, Ontario, Prairies and the Northwest Territories, and British Columbia and the Yukon. Currently there are eighty local offices situated in all provinces and territories.

Addresses and telephone numbers for the main offices are listed after the last of the individual CMHC program descriptions.

CMHC is one of the largest financial institutions in Canada but at the same time it has extensive departmental-type responsibilities in the administration of grants, contributions and subsidies, and in the provision of policy advice to government on housing and related matters. CMHC promotes Canada-wide housing standards and guidelines. It also delivers the Canadian Home Insulation Program for Canada Energy, Mines and Resources.

In its role as a financial institution, the Corporation's primary function now is that of a mortgage insurer. This helps to attract investments for financing of residential loans. CMHC facilitates the use of a mortgage as security by guaranteeing the lender against loss. CMHC continues, however, to make direct mortgage loans, as a residual lender, and real estate investments with funds borrowed from government. CMHC is also responsible for managing

close to \$11.0 billion portfolio of federally-owned mortgages and investments and real estate holdings of dwelling units owned by CMHC over and above the assets of the Mortgage Insurance Fund. The Corporation also administers the mortgage and/or real estate portfolio of certain government institutions such as the Canada Deposit Insurance Corporation, Housing Enterprises Ltd., Transport Canada and the Department of National Defence.

In its departmental role, CMHC is responsible for government grants, subsidies and contributions amounting to over \$1.5 billion a year, directed to the pursuit of social housing goals in both their urban and their rural setting; to the rehabilitation and conservation of the housing stock; to community improvement; to research, development and demonstration; and to the dissemination of information about its activities.

The NHA has been amended many times in response to social and economic changes within the country. Its general objectives have been twofold: to assist the private market in producing enough affordable housing to meet the needs of most Canadians and to provide housing assistance for people whose needs cannot be met through the private market.

A guiding principle of the federal housing approach is that, while the federal government may act to stimulate and supplement the market for house building, it should not assume direct responsibilities which are constitutionally allocated to other governments, or which could effectively be borne by private enterprise.

Under those CMHC programs offering assistance to provincial or municipal governments (or their agencies), responsibility for initiating activity lies with the province or, providing there is provincial approval, with the municipality. Applications for assistance are normally presented to the nearest CMHC local office, supported by the relevant documentation required by the NHA and the National Housing Loan Regulations. Facilities for consultation and advice on any proposal are available through these local offices at all stages of a project's planning and development.

Although most of the activities carried out by CMHC are of interest to the provinces and municipalities, some areas of activity are of particular interest to them. Under these areas of activity, direct assistance is made available to the provinces and municipalities (or their agencies). This assistance falls into four general categories: direct long-term loans at preferred interest rates; forgiveness of a portion of

a loan; cost-sharing arrangements under which the federal government will finance a portion of a joint project; and direct contributions made to other levels of government. The areas of federal/provincial/municipal activity are:

1. Federal-Provincial Land Assembly Program;
2. Loan-Assisted Land Assembly Program;
3. Cooperative Housing Programs;
4. Non-Profit Housing Program;
5. Public Housing Programs;
6. Residential Rehabilitation Assistance Program;
7. Rural and Native Housing Program.

FEDERAL-PROVINCIAL LAND ASSEMBLY PROGRAM**Administered By:**

Land Management Unit, Residential and Community Improvement Division

Purpose:

To provide cost-sharing financial assistance through CMHC to municipalities and provinces wishing to develop land presently owned by the partnership for residential and associated purposes.

The objectives of this program are:

- (1) to negotiate with the provinces, the development or disposal of all NHA Section 40 lands within a 5-year period;
- (2) to dispose of all federal-provincial landholdings at market prices;
- (3) to promote the residential development of these lands and a satisfactory community environment.

Authority:

National Housing Act, Section 40

Time Frame:

Until further policy determines otherwise, funding for Sec. 40 after 1978 will be restricted to the development of existing projects.

Financing and Operation:

Either the province, CMHC or, in some cases, the municipality may undertake the projects on behalf of the partnership. Financing of land assembly projects, undertaken through Section 40 of the National Housing Act and complementary provincial legislation, involves a cost-sharing agreement whereby 75 per cent of the capital cost is borne by the federal government and the remainder by the provincial partner. Proceeds of sales are shared on the same basis. Costs of municipal services not recovered by the municipality in the general tax rate are included in the sales prices, or recovered through local government charges over a period of years.

House purchasers are expected to select lots appropriate to the proposed house design. Plans and specifications require approval whether or not the house is financed through the NHA. To ensure orderly development of the project, construction of individual houses must be started within six months of lot purchase and completed within 18 months after commencement of construction.

For Further Information:

Further details on this program may be obtained from local offices of CMHC, or the Land Management Unit, Residential and Community Improvement Division, National Office.

LOAN-ASSISTED LAND ASSEMBLY PROGRAM**Administered By:**

Land Management Unit, Residential and Community Improvement Division

Purpose:

Provided loan assistance through CMHC to municipalities and provinces that wished to assemble and develop land for residential and associated purposes.

The objectives of this program were:

- (1) to promote an orderly and responsible land marketplace in order to ensure an adequate supply of serviced residential land;
- (2) to stabilize and, where possible, reduce serviced land prices; and
- (3) to promote a high standard of residential development and a satisfactory community environment.

An alternative program involving cost-sharing rather than loan assistance is also available. See "Federal-Provincial Land Assembly Program".

Authority:

National Housing Act, Section 42

Time Frame:

Until future policy determines otherwise, no funding will be provided under Section 42 after 1978, except for increases to existing commitments not yet under repayment.

Financing and Operation:

NHA loans covering up to 90 per cent of the cost of assembling, planning and servicing land housing, or for any purpose incidental thereto, were available through local offices of CMHC.

Conditions of repayment are:

- (1) the payment of interest shall be made not less frequently than annually and may be deferred for up to three years or until revenue is produced, whichever comes first;
- (2) the loan shall be repayable during its term, or as revenue is produced. The conditions for the latter option are to be determined by CMHC.

The prices and terms of sale or lease of serviced land produced under these loan arrangements are established by the sponsor. It may be offered on a leasehold or freehold basis. CMHC does not share in profits or losses.

Where a proposal involves displacement of low-income families, the borrower will be required to provide replacement accommodation at least equal to the number of buildings removed or demolished.

Payments:

Further details on this program may be obtained from local offices of CMHC, or from the Land Management Unit, Residential and Community Improvement Division, National Office.

COOPERATIVE HOUSING PROGRAMS**Administered By:**

Social Housing Division

Purpose:

To assist Co-operative Groups to develop and produce modest, affordable housing through the construction of new units and acquisition of existing accommodation, appropriate to the needs of low and moderate income families and individuals. Eligible applicants under the program are Co-operative Associations, Indian Band Councils and groups of Indians.

Authority:

The National Housing Act, Sections 37.1, 6, 56.1, 44(1)(b) and 34.1.

Time Frame:

This is a continuing CMHC program which began in 1978 and replaced the former Sec. 34.18 Cooperative program.

Financing and Operation:

Start-up Funds (Section 37.1) of up to \$75,000 are available to assist applicants in developing projects to the point of an acceptable application.

Applicants are expected to gain capital funds through the availability of 100% NHA insured loans under Section 6 or

through conventional sources. The maximum amortization term for new projects is 35 years. That for existing projects is 35 years or useful life of the buildings.

Federal assistance is available to applicants under Section 56.1 NHA through a maximum subsidy, equivalent to an interest rate write-down from the actual lending rate to 2% based on project costs. This assistance is applied in two forms, as follows:

1. Non-Income Tested Assistance

The assistance, available to all the units in a project, is intended to bridge the gap between the economic occupancy charge and the lower end of market rent established by CMHC. It subsidizes the principal and interest payment and remains constant for 3 years. Starting in year four this reduced principal and interest payment increases annually by 5%.

2. Income Tested Assistance

The difference between the maximum federal assistance and the amount determined in (1) above is then available to residents who cannot afford the normal occupancy charges. Such residents pay on the basis of a rent-to-income scale and are subject to an annual income test.

Co-operatives are generally required to provide for at least 15% of this type of occupancy and achieve an income-mix of residents in the project.

When a co-operative does not use all the federal assistance available, a maximum of \$500 for each unit in the project may be set aside in a separate account and used in later years to offset operating cost increases if the income mix of the tenants changes significantly.

If Co-operatives gain additional provincial assistance for income penetration purposes, projects will be eligible for Section 44(1)(b) assistance after provincial assistance contributions equate with maximum federal assistance.

Residential Rehabilitation Assistance under Section 34.1 NHA may be available to provide forgivable loans up to \$5,000 per unit or \$2,500 per hostel bed. These maximum forgivable loans may be increased to \$6,500 and \$3,000 respectively when both repairs to improve the accessibility of a unit for the disabled persons and other eligible rehabilitation repairs are done.

To limit the program to modest housing, Maximum Unit Prices are established by CMHC for each market area on the basis of bedroom count and form of housing. To provide flexibility in design, size criteria are not prescribed. All NHA standards must be met.

Canada Mortgage and Housing Corporation has the lead role in facilitating the development of Co-op projects, whether or not some form of provincial assistance may be provided.

NON-PROFIT HOUSING PROGRAM

Administered By:
Social Housing Division

Purpose:

To supply adequate low and moderate income rental accommodation for families and individuals who are unable to afford such housing on the open market. To obtain funding under this program a privately sponsored non-profit corporation must be constituted exclusively for charitable purposes. Public non-profit corporations, municipalities, provinces, public housing agencies, Indian Bands and groups of Indians are also eligible under the program.

Authority:

The National Housing Act, Sections 37.1, 6, 56.1, 44(1)(b) and 34.1.

Time Frame:

This is a continuing CMHC program which began in 1978 and replaced the former Section 15.1 non-profit program.

Financing and Operation:

Eligible applicants under the program are non-profit corporations, provinces, municipalities, public housing agencies, Indian band councils and groups of Indians.

- Start-up Funds (Section 37.1) up to \$75,000 per project are available to assist private applicants in developing projects to the point of an acceptable application.
- Applicants are expected to gain capital funds through the availability of 100% N.H.A. insured loans under

Section 6 or through conventional sources. The maximum amortization term for new projects is 35 years. For existing projects it is 35 years or useful life of the project.

- Federal assistance under Section 56.1 NHA is available to applicants through a maximum subsidy equivalent to an interest rate write-down from the actual lending rate to 2%, based on project cost.

1. Non-Income Tested Assistance

The assistance, available to all the units in a project, is intended to bridge the gap between the economic occupancy charge and the lower end of market rent established by CMHC. It subsidizes the principal and interest payment and remains constant for 3 years. Starting in year four this reduced principal and interest payment increases annually by 5%.

2. Income Tested Assistance

The difference between the maximum federal assistance and the amount determined in (1) above is then available to residents who cannot afford the normal occupancy charges. Such residents pay on the basis of a rent-to-income scale and are subject to an annual income test.

Co-operatives are generally required to provide for at least 15% of this type of occupancy and achieve an income-mix of residents in the project.

- When CMHC has the lead role and a non-profit project does not use all the federal assistance available, a maximum amount of \$500 for each unit in a project may be set aside in a separate account and used in later years to offset operating cost increases if the income mix of the tenants in the project changes significantly.
- Further provincial assistance is encouraged to gain income penetration. Where provincial assistance is equivalent to federal aid, 50/50 cost-sharing of further subsidies may be approved under Section 44(1)(b) NHA.
- Residential Rehabilitation Assistance under Section 34.1 NHA may be available to provide forgivable loans up to \$5,000 per unit or \$2,500 per hostel bed. These maximum forgivable loans may be increased to \$6,500 and \$3,000 respectively when both repairs to improve the accessibility of a unit for the disabled persons and after eligible rehabilitation repairs are done.

To limit the program to modest housing, Maximum Unit Prices are established by CMHC for each market area on the basis of bedroom count and form of housing. To provide flexibility in design, size criteria are not prescribed. All NHA standards must be met.

An option to purchase may be made available for units under the program.

Maximum rent for tenants is the lower end of market rent. All tenants will pay rent based on the federal rent-to-income scale up to market rent. There are no income limits for occupancy under the program.

Operating Agreements between the province and the federal government will define which party has the lead role in the delivery of private non-profit projects.

Provinces may assume the lead role for all publicly or privately sponsored projects. CMHC will take responsibility for the lead role for all projects for which the province has not assumed the lead role. The lead role party has full responsibility for review and approval of projects in order to avoid administrative duplication.

Payments:

PUBLIC HOUSING PROGRAMS

Administered By:

Social Housing Division

Purpose:

To provide appropriate, well managed, and economical housing for families and individuals unable to obtain such accommodation at prices they can afford.

Authority:

Units and associated assistance may be provided under Sections 40, 43 and 44 of the National Housing Act.

Public Housing Projects under a Federal-Provincial Partnership arrangement.

Financing and Operation:

Section 40 of the Act authorizes the federal government to share up to 75 per cent of the capital cost and operating loss of a public housing project undertaken jointly with the government of a province. The remainder of the cost is borne by the province, but the municipality may be requested by the province to assume a portion of the provincial share. Under Section 43 of the Act the federal government is authorized to lend up to 90 per cent of the

capital cost of a public housing project undertaken by the government of a province. The province assumes the remaining costs. A project may be obtained either through new construction or acquisition and conversion of existing buildings, to meet the needs of low-income families and individuals. Developments may consist of self-contained units for individual or family occupancy and also hostel or dormitory units for individuals.

Responsibilities for the development of Section 40 projects, including land acquisition, design, installation of services and construction, are shared as mutually agreed by the participating governments. Responsibility for the development of Section 43 projects rests with the province.

Day-to-day management of completed federal-provincial Section 40 rental projects is provided by a housing authority, a corporate body created under provincial legislation for the specific purpose of managing and operating each project. Members of the authority are selected by the partnership.

A housing authority is responsible for the hiring of necessary staff for the operation of the project. The housing authority operates under the terms of the federal-provincial agreement and submits audited financial statements of the project operations. Annual operating budgets

must also be submitted to the partnership for approval.

Rents for accommodation provided in public housing are related to family income and size in accordance with scales agreed to by CMHC and the province. The local housing authority allocates units to applicants.

Section 44

Whether or not a public housing project is undertaken with a loan under the National Housing Act, it may be eligible under Section 44 of the Act for federal contributions to assist in meeting operating losses incurred. 50 per cent of operating losses may be covered by grants under Section 44, for up to 50 years but not exceeding the useful life of the project. Section 44(1)(a) and (1)(b) Rent Supplement

Units are restricted to a maximum term of 35 years. In addition dwellings may be leased by provinces for public housing purposes and be eligible for grants to aid in meeting operating losses. Public housing and rental subsidies for the year 1983 payable in 1984 were \$388.0 million. The estimated federal contribution for 1984 payable in 1985 is \$412.0 million.

Payments:

See table 3 (Capital only).

For Further Information:

Further detail on cost-sharing assistance may be obtained from any CMHC office.

RESIDENTIAL REHABILITATION ASSISTANCE PROGRAM

Administered By:

Residential Improvement Division (RRAP in NIP and Urban Designated areas)
Social Housing Division (Non-Profit RRAP)
Rural and Native Housing Division (Rural RRAP and DIAND RRAP).

Purpose:

To assist in the repair and improvement of existing substandard housing and to promote its subsequent maintenance.

Authority:

The National Housing Act, Section 34.1

Time Frame:

The legislation does not limit this program to a specific period.

Financing and Operation:

The program provides that loans, of which the repayment of a portion may be forgiven, may be available to:

- (1) homeowners and landlords for the rehabilitation of dwellings. Before the 1979 Amendments to the NHA, loans were restricted to properties located in specific areas and to non-profit corporations.
- (2) non-profit corporations and non-profit co-operatives.
- (3) Indian Reserves.

In addition funds may be made available to non-profit corporations and non-profit co-operatives for the conversion of residential buildings into a greater number of family housing units or hostel beds.

The legislation requires that, as a prerequisite to the operation of the program, the municipality or the province in which the property is located must have adopted occupancy and building maintenance standards acceptable to CMHC.

Assistance under the program may be made available to all property owners in the NIP or designated areas. For landlords, the assistance is conditional upon the entry into a rental agreement.

The maximum amount of loan is \$10,000 per family housing unit or, for accommodation of the hostel or dormitory type, \$4,000 per bed. Where the borrower is doing repairs to improve the accessibility of a unit for a disabled person, as well as other RRAP eligible repairs, the maximum is \$13,000. For owner-occupied family housing units, and for those owned by non-profit corporations, repayment of up to \$5,000 of the loan may be forgiven, and for privately owned rented family housing units a maximum of \$3,500. In the case of hostel or dormitory accommodation, an eligible applicant may obtain a forgivable loan equal to:

- 50% of the eligible repair costs up to a maximum of \$1,750 for each of the first three bed-units; and
- 50% of the eligible repair costs up to a maximum of \$2,500 for each additional bed-unit.

For homeowners, the actual amount of forgiveness available is determined in relation to the applicant's adjusted income. Homeowners with adjusted incomes of \$13,000 per year or less are eligible for the maximum of \$5,000 forgiveness. The amount of forgiveness reduces by \$1.00 for every \$2.00 of income over \$13,000, so that no forgiveness is available for those with adjusted incomes over \$23,000.

For rental loans, and to existing non-profit corporations, the amount forgiven is 50 per cent of the eligible costs up to a maximum of \$3,500 per unit. For non-profit corporations acquiring a project the full \$5,000 is available depending on the cost of rehabilitation.

The amount of forgiveness available is "earned" by the borrower at a rate of \$1,000 per year for homeowner occupants and \$700 per year for rental units. For non-profit corporations, the forgiveness is earned at \$700 per year for existing projects and for those involving acquisition at \$700 plus 20% of the excess for loans above \$3,500 depending on the cost of rehabilitation. In the case of a non-profit corporation obtaining funds for the improvement of hostel or dormitory type accommodation, the forgiveness is earned at the rate of \$350 per bed for the first three-bed units and \$500 for all bed units per year. Homeowners earn the forgiveness by continuing to own and occupy the dwelling.

Landlords must continue to adhere to the conditions of the rental operating agreement. In the case of Section 34.1, rental loans for rooming houses, the forgivable loan will be earned at an annual rate of \$350 per bed-unit for the first three bed-units; and \$500 per bed-unit for all other bed-units.

Where the borrower is doing both repairs to improve the accessibility of a unit for a disabled person and other RRAP eligible repairs, the following applies:

- **Homeowners and Non-Profit Corporations** — The maximum forgivable loan is \$6,500. The forgiveness to homeowners is based on the adjusted family income. These homeowner forgivable loans are earned at the rate of \$1,300 per year by homeowner borrowers and by a borrower that is a council of a band as defined in the Indian Act. Forgivable loans to non-profit cooperatives are based on a percentage of the total repairs to the maximum of \$6,500.
- **Landlords (self-contained units)** — Landlord borrowers are eligible for forgivable loans of 50% of the rehabilitation costs to a maximum of \$5,000 for each self-contained rental unit in which they do not reside. These rental forgivable loans are earned at the rate of \$1,000 per year.
- **Landlords (hostel or dormitory bed-units)** — A forgivable loan is available equal to 50% of the cost of rehabilitation of a bed-unit to a maximum of \$2,250 for each of the first three bed-units and 50% of the cost to a maximum of \$3,000 for each additional bed-unit. These rental forgivable loans are earned by landlord borrowers at the yearly rate of \$450 for each of the first three hostel (dormitory) bed-units and \$600 for each additional hostel (dormitory) bed-unit.

(In rental projects outside designated areas where some of the units are having accessibility repairs, the other units are eligible for landlord forgivable loans).

Work eligible under RRAP:

The Residential Rehabilitation Assistance Program is intended to finance the repair of housing to a level which not only meets normal health and safety standards, but which also will substantially extend its useful life with normal care and maintenance. A further life of about 15 years is suggested as a general guide.

In order to accomplish this, CMHC has published standards for the Rehabilitation of Residential Buildings which not only contain mandatory standards (conforming closely to typical municipal minimum maintenance and occupancy by-laws), but also a series of recommended standards which indicate the maximum work that a property owner may, if circumstances permit, do with RRAP assistance.

These standards are intended for use in urban Canada, and also as the guide for rehabilitation undertaken as part of the Rural and Native Housing Program. It should be noted

however that, under the latter program extensions to dwellings may be financed with rehabilitation funds.

Where a dwelling is occupied by a person or persons who are disabled, modifications which improve the liveability of the dwelling is eligible to the extent that assistance is available after basic health and safety requirements have been

met. In addition these dwellings are eligible regardless of location.

Applicants are encouraged to use some of the funds to increase the thermal efficiency of their dwellings wherever practicable.

Payments:

See tables 4, 5 and 6.

RURAL AND NATIVE HOUSING PROGRAM

Administered By:

Rural and Native Housing Division

Purpose:

The acquisition, construction or rehabilitation of 50,000 housing units within a five-year period with the participation of the client group as planners and developers of housing projects.

Authority:

The National Housing Act, Section 34.1 and Section 40.

Time Frame:

It should be noted that the Section 40 Federal-Provincial Agreements are for an indefinite period subject to termination or re-negotiation by either party after a three-month notice period.

Financing and Operation:

Section 40 (Federal-Provincial Agreements)

Section 40 of the NHA authorizes the federal government to contribute up to 75 per cent of the capital cost of housing projects, including the acquisition and development of land, undertaken jointly with a province. Housing units may be obtained through new construction, or acquisition improvement and conversion of existing units. Native Associations and community groups are encouraged to par-

ticipate in the organization, planning and delivery of housing.

Ownership is made possible to people of low income by gearing monthly payments to income in accordance with a payment-to-income scale. Individual loans will be amortized up to a 25-year period. If, according to the payment-to-income scale, individual payments are insufficient to meet the full amortization charges, including the payment of taxes, the Federal-Provincial Partnership will make up the difference between what a family can afford and the full monthly principal, interest and tax charges on a 75/25 basis.

Any operating profits or losses arising from the operation of Section 40 Federal-Provincial projects are shared on the same basis as the capital cost.

Section 34.1 (Residential Rehabilitation Assistance Program)

Under this program, homeowners who live in sub-standard houses can obtain a loan of up to \$10,000 to upgrade their houses to minimum standards of health and safety, and to extend the life expectancy of their dwellings by at least 15 years. Of this sum, up to \$5,000 may be forgiven based on income and cost of rehabilitation. Indian Reserves, regardless of population, became eligible in 1978 to receive funds under the program.

Payments:

See tables 7 and 8.

The Canadian Dairy Commission

The Canadian Dairy Commission (C.D.C.) was established by an Act of Parliament in October 1966. The Commission is appointed by the Governor in Council and is accountable to Parliament through the Minister of Agriculture. It consists of a chairman, a vice-chairman and one other member. To assist the Commission with advice on production and marketing matters, there is a consultative committee of nine members, appointed by the Minister, who represent a variety of interests.

The objective of the Commission is to provide efficient producers of milk and cream with the opportunity of obtaining a fair return for their labour and investment, and consumers with an adequate supply of quality dairy products.

The Commission, under its authority to purchase and sell dairy products, supports the market price of butter and skim milk powder. The prices that producers receive for industrial milk and cream are related to these product support prices.

The Commission operates a major export marketing program for skim milk powder and whole milk products such as evaporated milk, cheese, whole milk powder and other specialty products.

The Commission chairs the Canadian Milk Supply Management Committee which is made up of representatives of provincial producer marketing boards, provincial government agencies and the Commission which represents the Government of Canada. The Committee administers national supply management of industrial milk and cream.

DAIRY SUPPORT PROGRAM**Administered By:**

Canadian Dairy Commission

Purpose:

The National Dairy Program has the objective of achieving a viable dairy industry in Canada. In administering this program, the Canadian Dairy Commission provides efficient producers of milk and cream with the opportunity of earning a fair return for their labour and investment on production that is within the requirements of the Canadian market and an approved export program, and provides consumers with an ample supply of high quality dairy products.

Authority:

Canadian Dairy Commission Act

Agricultural Stabilization Act

Federal-Provincial Agreements on "supply management of industrial milk and cream" with the provinces of Nova Scotia, New Brunswick, Prince Edward Island, Quebec, Ontario, Manitoba, Saskatchewan, Alberta and British Columbia.

Time Frame:

This program was at first provided for under the Agricultural Stabilization Act, and in 1967 was placed directly under the Canadian Dairy Commission. Dairy support is a continuing program.

Financing and Operation:

Dairy support is provided by the Dairy Commission in two ways:

1. through market price support of butter and skim milk powder; and
2. through direct subsidy payments to producers of manufacturing milk and cream.

The two aspects of the program are operated separately and receive funding in different ways.

Price stability for dairy producers and consumers is provided through product price support. This is accomplished by the Commission's offer-to-purchase program for butter and skim milk powder.

Funds for these purchases are obtained as loans from the Minister of Finance and repaid by the proceeds from the resale of the products.

Other funds accruing to the Dairy Commission each year are:

1. an allocation from the amounts voted to the Agricultural Stabilization Board towards the marketing costs of dairy products purchased and sold.
2. any profit on the sale of products purchased by the Commission; and
3. levies to finance export assistance collected by provincial milk marketing agencies from individual producers on the basis of their deliveries to dairy plants. Levies are applicable to manufacturing milk and cream shipments since 1970, and on surplus skim off from fluid milk since 1977.

Direct subsidies are paid on all qualifying deliveries within market sharing quota to producers of manufacturing milk and cream. These subsidies are financed through the main allocation from the Agricultural Stabilization Board. The total of market sharing quota issued to producers is designed to balance shipments under quota with the requirements of the market. Therefore, subsidy payments are made only on shipments which fall within market requirements and an approved export program. An in-quota levy is collected from the market returns of producers to cover costs when exporting dairy products. An export quota levy is collected in provinces participating in the special whole milk export program. There is a higher over-quota levy which covers the cost of exporting surplus dairy products processed from production in excess of quota requirements.

Payments:

Funds provided to the Canadian Dairy Commission through the Agricultural Stabilization Board were \$274.0 million in 1982-83 and are estimated at \$277.0 million for 1983-84.

The following table shows the subsidy payments made to producers in the different provinces in the fiscal years ending July 31, 1980, 1981, 1982, 1983 and 1984.

Canadian International Development Agency (CIDA)

In 1960 an Order in Council created the External Aid Office; the duties of its Director General were defined in the following terms: the operation and administration of all assistance programs funded from the credits voted for this purpose to the Department of External Affairs; the study of such programs and the recommendation of any appropriate changes; co-ordination of operations with the other government departments and agencies with international agencies and Canadian non-governmental organizations; co-ordination of all Canadian efforts directed toward obtaining aid for foreign countries affected by disasters; internal administration and other duties related to Canadian aid programs.

The External Aid Office acquired status of a government department through the proclamation of a series of Orders in Council which made it subject to the Financial Administration Act and the Public Service Staff Relations Act.

In 1968 the name of the External Aid Office was changed, by Order in Council, to Canadian International Development Agency and the title of "Director General" was changed to "President".

CIDA's central objective today might, in general terms, be described as follows:

To support the efforts of developing countries in fostering their economic growth and the evolution of their social systems in a way that will produce a wide distribution of the benefits of development among the populations of these countries, enhance the quality of life and improve the capacity of all sectors of their population to participate in national development efforts.

The following passages from *Federalism and International Relations* and the *Strategy for International Development Cooperation 1975-80* form the background against which current Federal/Provincial cooperation in international development assistance fields takes place:

"External aid forms an integral part of Canadian foreign policy and ultimate control must rest with the federal authority. At the same time, it is clear that an effective program depends for its realization upon full co-operation from the provinces. In recent years provincial authorities have contributed generously to the Canadian aid effort, especially in the recruitment of teaching and advisory personnel for service abroad and the provision of training facilities in Canada".

"In addition to participation in federal programs a number of provinces have indicated an interest in providing as-

sistance directly to developing countries, particularly in the field of education and other spheres of provincial jurisdiction. (*Federalism and International Relations*)".

"Though the official program of development cooperation may be financed and administered by the Government, it will be organized in such a way as to support, strengthen, and intensify the widest possible participation of all sectors of the Canadian community: individuals and voluntary non-profit organizations, the governments of the provinces, the several departments of the federal and provincial governments, universities, and the business sector".

"The Government will encourage the setting up of a special voluntary fund that will facilitate the participation of provinces, of non-governmental organizations, and of individuals in the global Canadian food aid effort".

"Local, provincial and national non-governmental organizations and groups, representing people in all regions and walks of life, are already playing an important part in international cooperation. This has prompted provincial governments to provide direct financial support for various types of international cooperation. Such initiatives are likely to stimulate even greater activity in, and fund-raising for, international cooperation by Canadians". (*Strategy 1975-80*).

The existing federal/provincial contact points involve a number of program areas in the Agency. Primarily these are:

- the Policy Branch, which has the responsibility for overall coordination of CIDA activities involving the provinces;
- the Voluntary Agricultural Development Aid Program (VADA) under the Special Programs Branch;
- the 4 Bilateral Programs Branches, which utilize provincial government organizations as executing agencies and which draw upon provincial human resources in support of projects abroad;
- the Special Programs Branch which has funding arrangements with certain provincial governments and provincial councils of international cooperation, in support of NGO ventures;
- the Business Cooperation Branch through its Industrial Cooperation Division maintains contact with provincial governments in the development and management of programs linking Canadian business and industry with Third World counterparts;

- Resources Branch, which has entered into agreements with individual provinces in order to obtain the services of qualified individuals, consultants and experts in the context of CIDA projects abroad and which arranges for the placement of students and trainees in support of several programs and projects.

Of the foregoing, only the Voluntary Agricultural Development Aid Program (VADA) provides a formal channel permitting provincial governments to receive federal financial and administrative support for provincial initiatives in providing agricultural development assistance and food aid to developing countries.

VOLUNTARY AGRICULTURAL DEVELOPMENT AID PROGRAM (VADA)**Administered By:**

Administrator, VADA, Special Programs Branch, with provinces concerned.

Purpose:

To facilitate and increase the value of international aid activities of the federal and provincial governments and Canadian non-governmental organizations in efforts to alleviate famine and in support of agricultural development in the developing world.

Authority:

Cabinet decision in 1975 to sponsor a Canadian voluntary food aid and agricultural development scheme directed to the alleviation of famine and agricultural development in the Third World through the establishment of a mechanism to provide for the participation of the federal government, the provinces and Canadian non-governmental organizations (NGOs).

Time Frame:

VADA is a continuing program which began operations in 1976.

Financing and Operation:

CIDA is responsible for the provision of federal funding in support of program objectives and for co-ordinating individual projects with the donor province, organization or NGO and the recipient developing country or countries through the VADA Federal-Provincial Program Committee. VADA is a shared-cost program with the provinces supplying foodstuffs, commodities or services in support of agricultural development in Third World countries, with the federal government granting funds through CIDA to meet associated delivery costs. Shipment must have a minimum value of \$25,000 and shipping charges must not be of a value greater than 70% of the worth of the material being shipped. CIDA also provides cash for co-funding development projects undertaken by provincial governments in Third World countries. The budget for the 1984-85 is \$2 million.

Payments:

Invoices for costs associated with the transfer of goods and services provided under VADA are forwarded to CIDA for payment. Payment may also take the form of reimbursement for costs incurred by the donor for delivery to recipients. In addition cash advances are sometimes provided for project activities.

SPECIAL DEVELOPMENT PROGRAM (SDP)**Administered By:**

The Canadian International Development Agency (CIDA)

Purpose:

To enable Canada to take part in the principal multilateral technical co-operation program of the Francophonie through the Cultural and Technical Cooperation Agency.

Authority:

Decision made by Canada at the general conference of the Cultural and Technical Co-operation Agency held in Mauritius in 1975.

Time Frame:

An annual grant will be made for as long as Canada continues to participate in SDP activities.

Financing and Operation:

Canadian participation involves two levels of government: the federal government and the provincial governments of Quebec and New Brunswick.

Payments:

The total grant from the Canadian government was of \$1,400,000 in 1984-85. During the same year, Quebec's grant was \$30,000 and New Brunswick was \$12,000.

**FONDS INTERNATIONAL DE COOPÉRATION
UNIVERSITAIRE (FICU)**

Administered By:

The Canadian International Development Agency
(CIDA)

Purpose:

To enable Canada to participate in the technical co-operation program of the Association of entirely or partially Francophone Universities, throughout the world.

Authority:

The initial federal grant was announced in 1967 by the Honourable Paul Martin. The decision followed from the government policy to provide assistance to the French-speaking world.

Time Frame:

Contributions are determined annually on the basis of the

program approved at the annual meeting of the FICU steering committee.

Financing and Operation:

FICU is linked to AUPELF (Association des universités partiellement ou entièrement de langue française) and is the source of funds for activities carried out by the Association's secretariat. The donor governments (in Canada), the federal government and Quebec sit on the steering committee which, during its annual meetings, decides upon the avenues to be pursued and distributes the available funds among operations so as to make the most worthwhile use of resources.

Payments:

Grants are made directly to FICU by donors. In 1984-85, CIDA provided a total of \$750,000 (including \$135,000 for the assignment of a Canadian co-operant).

Quebec's contribution in 1983-84 was \$27,000.

Canadian Transport Commission

The Canadian Transport Commission has judicial and regulatory functions with respect to:

- all aspects of railway operations in Canada undertaken by carriers under the jurisdiction of Parliament;
- the licensing and economic regulation of all commercial air services and certain commercial marine services offered in Canada;
- the licensing and economic regulation of commercial commodity pipeline services offered in Canada;
- the licensing and economic regulation of extra-provincial motor vehicle carrier undertakings (currently performed by provincial counterparts of the Commission under the terms of enabling legislation enacted in 1954).

These regulatory activities of the Commission include consideration of applications for grants under the Railway Relocation and Crossing Act and administration of the

funds allotted by Parliament for the purpose of Part III of the Railway Relocation and Crossing Act.

The Commission as well has the responsibility of determining and authorizing subsidies payable in connection with the operation by the railways of those few uneconomic rail passenger services which have not yet been absorbed by VIA Rail Canada, uneconomic branch lines and with the movements of commodities by rail and truck within and westbound from the Atlantic Provinces (select territory) to other parts of Canada and with the level of payment to the railways for movements of grain and flour to "Eastern" ports for export pursuant to Section 272 of the Railway Act. On September 1, 1978, the Atlantic Region subsidy program was extended to water and air carriers for movements solely within "the select territory". In addition, it administers certain limited subsidies paid under the Regional Air Carrier subsidy policy of 1966 where the continuance of certain air services is determined to be essential in the short term but uneconomic for the carrier to operate.

ATLANTIC REGION FREIGHT ASSISTANCE PROGRAM
RAILWAY RELOCATION AND CROSSING ACT (RRCA)

Page
293
293

ATLANTIC REGION FREIGHT ASSISTANCE PROGRAM**Administered By:**

The Traffic and Tariffs Branch, Canadian Transport Commission

Purpose:

The Maritime Freight Rates Act was passed by Parliament in 1927 to afford to Maritime merchants, traders and manufacturers the larger market of the whole Canadian people instead of the restricted market of the Maritimes themselves. It ordered certain reductions in railway rates westbound from the Region and authorized similar reductions in rail rates on movements originating and terminating within the Region. In return for such concessions, railways were subsidized to the extent of the revenue loss suffered as a result of the reduction of rates ordered by Parliament.

In 1969 the Atlantic Region Freight Assistance Act was passed to provide, among other things, assistance to motor vehicle undertakings competing with rail carriers on movements subsidized under the Maritime Freight Rates Act.

Authority:

Maritime Freight Rates Act

Atlantic Region Freight Assistance Act and Regulations issued pursuant to Sections 3 and 6 of the Atlantic Region Freight Assistance Act viz.

Atlantic Region Freight Assistance Regulations, Order in Council P.C. 1969-1483, July 22, 1969.

Atlantic Region Selective Assistance Regulations, Order in Council P.C. 1974-844, April 9, 1974.

Atlantic Regional Special Selective and Provisional Assistance Regulations, Order in Council P.C. 1978-1812, June 1, 1978.

Time Frame:

This is a continuing program.

Financing and Operation:

Payments are made from the consolidated revenue fund to carriers in accordance with amounts certified by the Canadian Transport Commission. Such payments relate to specified percentages of the amounts received by carriers for the eligible movements of goods westbound from the region and within the region in accordance with regulations under which subsidy is authorized.

Payments:

See table 1.

TABLE 1

Payments Certified under the Atlantic Region Freight Assistance Program

(Part of the Urban Transportation Assistance Program)

The allocation and distribution of funds for this program are determined by the Department of Transport (for more information see section relating to the Department of Transport).

Emergency Planning Canada

Emergency Planning Canada (EPC) came into being in 1974, and evolved out of the former Canada Emergency Measures Organization. The organization reports to the Minister of National Defence, as Minister responsible for emergency planning.

Emergency Planning Canada is tasked with the co-ordination of the emergency planning activities of federal departments, agencies and Crown corporations and between them and provincial governments. As well, EPC is responsible for the co-ordination of the federal response to emergency situations when these occur in areas of federal responsibility or when a province requests federal assistance.

EPC Regional Directors located in each provincial capital

maintain ongoing liaison with the federal departments and agencies located in the province and with the provincial government to ensure that federal emergency planning dovetails with that of the provinces and, through the provinces, with that of the municipalities. EPC also assists in a major emergency, monitoring and co-ordinating federal support, when such support is requested.

EPC promotes emergency preparedness in Canada by providing financial assistance to provinces/territories for approved emergency planning projects. It provides guidance on emergency planning; gives and sponsors training courses in emergency planning for representatives from the public and private sectors involved in the field; participates in international exercises; and sponsors research into various aspects of emergencies.

EMERGENCY PLANNING**Administered By:**

Emergency Planning Canada (EPC)

- Executive Director (EPC)
- Director General (Plans)
- Director General (Operations)
- Regional Directors (in each provincial capital)
- NATO attaché

Purpose:

To ensure that adequate advance preparations are in place to minimize human suffering and property damage in emergencies.

Authority:

National Defence Act, 1950, Section 4
Emergency Planning Order P.C. 1981-1305, May 21, 1981
Treasury Board Minutes
Federal-Provincial Agreements
Cabinet Decision 418-80RD(C), October 14, 1980

Time Frame:

This is a continuing program.

Workers' Compensation

Under these agreements signed in 1969 the federal government assumes 75% of the costs involving payments to civilians injured in the course of civil defence duties. Payments are determined by the Compensation Board of the province concerned.

Joint Emergency Planning Program (JEPP)

In October 1980 the federal government approved a new program for joint emergency planning. Under the Joint Emergency Planning Program (JEPP) the federal government, in consultation and co-operation with provincial/territorial governments, undertakes or contributes to

emergency planning projects that support federal objectives and enhance the national emergency response capability. The program is financed at an annual rate of approximately \$6 million. Eligibility of projects for federal funding is determined by criteria contained in guidelines for operation and administration of the program.

Disaster Financial Assistance

The Disaster Financial Assistance arrangements were established in 1970 to help the provincial governments when the costs of dealing with a disaster place an undue burden on the provincial economy. If the disaster is of sufficient magnitude then a formal request to the federal government for cost-sharing is made by the province at the political level. Since its inception this plan has contributed over \$90 million to the provinces following floods or other disasters.

National Capital Commission

The National Capital Act, proclaimed February 6, 1959 created the National Capital Commission as a Crown corporation to succeed the Federal District Commission (1927-1959) and the Ottawa Improvement Commission (1899-1927). The National Capital Commission reports to Parliament through the Minister of Public Works.

The twenty-member Commission is appointed by the Governor in Council to provide representation by residents from each of the ten provinces, the cities of Ottawa and Hull and local municipalities in Ontario and Quebec. The Chairman is the Chief Executive Officer and presides at all meetings. In his absence this responsibility is exercised by the Vice-Chairman.

The objects and purposes of the Commission are defined in Section 10(1) of the National Capital Act as follows:

"To prepare plans for and assist in the development, conservation and improvement of the National Capital Region in order that the nature and character of the seat of the Government of Canada may be in accordance with its national significance."

The National Capital Region, as set out in the Act, is located in both Ontario and Quebec and has about 4,680 square kilometres in area. The Commission is the largest federal landholder in the region, owning slightly more than 88% of all federal land.

In 1969, the Government further defined the objective of the National Capital Commission Program as follows:

"to help develop the National Capital Region so that it will be:

- (a) a fitting symbol of Canada's cultural and linguistic values;
- (b) an efficient and esthetically satisfying place in which to carry on the nation's business;
- (c) a model of urban planning and development that will

benefit other parts of the country and be a source of pride for Canadians."

In order to meet its objectives for the National Capital Region, the Commission is empowered to:

- (a) acquire, administer, dispose of land;
- (b) construct, maintain and operate roads, bridges, parks and other works;
- (c) undertake joint projects with municipalities;
- (d) construct and operate concessions;
- (e) make grants for various purposes;
- (f) maintain historic places;
- (g) conduct research for the planning of the National Capital Region.

In order to carry out its mandate, the Commission has authority to establish the planning requirements for federal lands, to approve land uses on federal land, and to approve and to review the appearance of all federal government buildings within the Region.

The Commission provides planning aid and financial assistance for provincial and municipal projects of benefit to the Region. This assistance is provided under a wide variety of intergovernmental agreements and includes support for roads, bridges, sewage systems, public transportation facilities and other projects within the National Capital Region.

In 1971 the Government assigned to the Commission prime responsibility on the subject of official languages in the National Capital Region outside of the federal public service. At the same time the Government expressed the general view that policy on the National Capital be coordinated by one body at the federal level and that the N.C.C. is the body most suited to undertake this task.

ONTARIO SEWER IMPROVEMENT AGREEMENT

In order to upgrade and extend the sewage disposal system of the Regional Municipality of Ottawa-Carleton, the National Capital Commission shares with RMOC and the Province of Ontario the cost of certain works on the basis of an agreement signed in 1972. This agreement has recently been amended to cover additional projects contained in a second-phase extension of the system. Some \$17.0 million has been expended on this project since 1972.

QUEBEC SEWAGE DISPOSAL SYSTEM AGREEMENT

In order to accommodate the population resulting from the rapid development of the Communauté régionale de l'Outaouais over the last several years and to abate pollution of the Ottawa River, development of a modern sewage collection and treatment system is necessary. The NCC, CRO and the Province of Quebec are signatories to an agreement to share the costs of construction of such a system; the Commission share is 1/3 of the costs, to a maximum of \$52.4 million, of which \$51.3 million has been spent. The 2/3 share to be borne by the Province of Quebec and CRO will be totally financed by loans from the Canada Mortgage and Housing Corporation, with 25% of those loans forgivable, for an additional federal contribution to this project of approximately \$22 million.

QUEBEC ROADWAY AGREEMENT

As part of the economic revitalization of the Quebec portion of the National Capital Region brought about by the relocation of federal public servants to downtown Hull, it has been necessary to substantially upgrade the basic road

network. The NCC participates with the Province of Quebec in sharing the costs on a 50/50 basis of a number of major road construction projects. The NCC share of the costs of construction of the works in the agreement is estimated at \$241.4 million, of which approximately \$111.5 million has already been spent.

ASSISTANCE TO INTERPROVINCIAL TRANSIT

The NCC has provided a subsidy for the operations of interprovincial transit service to the two regional transit authorities of the NCR. The Commission de transport de la Communauté régionale de l'Outaouais has received payments totalling \$7.5 million from 1973 to 1984; in the same period, the Ottawa-Carleton Regional Transit Commission received \$5.0 million. These subsidies have permitted the expansion of interprovincial transit by the two regional systems.

BILINGUALISM

The NCC's "External" Bilingualism Program is designed to encourage the provision of public and private services in both official languages within the National Capital Region. This is done through a grants system to public and private organizations undertaking projects to improve their bilingual capabilities; these projects are the results of initiatives taken by the groups involved themselves. Total contributions under this program have been, since 1971-72, \$2,492,252.

GRANTS-IN-LIEU OF TAXES

The National Capital Commission administers a program

of grants-in-lieu of taxes to municipalities in which NCC property is located. NCC lands comprise about 10 per cent of all lands in the NCR. This grants program, under the authority of the National Capital Act, is administered in a similar fashion to the payment of grants on other federal property under the Municipal Grants Act.

RIDEAU AREA DEVELOPMENT

The Rideau Area Agreement of May 15, 1979, between the City of Ottawa, the Regional Municipality of Ottawa-Carleton and the National Capital Commission specifies financial and other contributions by each party in support of the Rideau Centre Project which is planned to restore the commercial function of the Rideau Street Area and to counter the decline of Ottawa's Central Area share of the retail market.

The total cost of the overall development of the Rideau Area Project including Rideau Centre is estimated to be

\$203.4 million with costs shared as follows: Private Sector share, \$142 million; RMOC, \$12.2 million; City of Ottawa, \$5.0 million; Province of Ontario, \$14 million; Federal, \$30.6 million apart from the sale of federal lands. The National Capital Commission's share is \$11.4 million of which \$10.7 million has been expended.
